

General information

Article

Going to Germany?

Do I need a visa?

Generally speaking, all foreigners require a visa for stays in Germany. A visa is not required for visits of up to 90 days in an 180 day period for nationals of those countries for which the European Community has abolished the visa requirement.

Indian citizens require a visa.

A list of all countries whose citizens require a visa to enter Germany can be found [here](#).

For information on certain types of passports or constellations that happen frequently in India, please refer to the “Additional information” at the bottom of the page.

Which type of visa do I need?

The type of visa you need and the required procedures depends on how long you plan to stay. There are two types of visa issued by the German missions in India.

Are you planning a short visit to Germany, for a business trip, visit or holiday? That would be a Schengen visa for a stay of up to 90 days, also referred to as “short-term visa” or “C visa”.

Or would you like to stay longer than 90 days, e.g. to work in Germany, reunite with a spouse or attend university? In that case, you would apply for a German National visa, also referred to as “long-term visa” or “D visa”.

If you are unsure for which type of visa you should apply or which category of National visa applies to you, our [Visa Navigator](#) can assist you.

Info

To find out more about the cooperation between the German missions in India and their external service provider VFS Global, click [here](#).

Additional information

— Information on data processing and data protection

For Information on Data Processing and Data Protection, please click [here](#) .

— Travel to the UK via Germany

Please note that you might need a valid transit visa if you are traveling to the UK via Germany or another Schengen country. Without this visa you will be denied boarding. This applies also if you already have a valid visa for the UK. If you are a UK citizen, you do not need a transit visa.

Please check our [FAQs for detailed information on the topic of Transit-visa](#).

— Information for visa applicants residing in Afghanistan

Visa can now be issued by the [German Consulate General in Istanbul](#). Applicants who have already been informed by the Embassy about the positive decision on their visa will be contacted by IOMKabul regarding the procedure of visa stamping and passport delivery.

Residents of Afghanistan also may apply for a German visa at the German Embassy in New Delhi.

You can schedule an appointment for submission of your Schengen visa application via/at the [Embassy's service Provider](#).

- For detailed information about the required supporting documents, please refer to the website of the [German Embassy in Kabul](#) and the [general visa Information of the German Missions in India](#).
- Supporting documents in a language other than German or English have to be presented with a German or English Translation.
- If you do not speak English or Hindi, it is highly recommended that you bring a translator to your visa appointment.
- Please be aware that processing time for your visa request will be approximately ten to twelve days and may well take several weeks in some cases, especially if follow-up is needed. We urge you to present your application in a complete and well-prepared manner!

If you want to apply for a National (long-term) German Visa, e.g. for family reunion, you will have to register in a waiting list through the website of the [German Embassy in Kabul](#). You will subsequently be allotted an appointment in New Delhi.

You cannot schedule an appointment for a National Visa directly through the German Embassy in Delhi or the Embassy's service provider and you cannot submit an application without an appointment.

You will find all pertinent information regarding the application process on the website of the [German Embassy in Kabul](#).

— Information for visa applicants from Bhutan

The German Embassy in New Delhi serves applicants from and residing in Bhutan. For a list of required supporting documents, kindly refer to visa requirements for Indian applicants.

Schengen-Visa (short-term-visa) applicants may apply through the [Visa Application Centre in Thimpu](#).

Applicants for National Visas (family reunion) may currently apply through the Visa Application Centre in Thimpu. Please contact VFS directly to get an appointment.

Applicants for National Visas (e.g. student, employment for a stay of more than 90 days) must apply in person at the German Embassy in New Delhi.

— Tibetans travelling on Indian IC

Please be advised that visa applications for holders of **Indian IC (Identity Certificate)** require a processing time of at least 10 days. Furthermore, it is mandatory to hold a return visa (valid until at least two weeks after your intended return to India).

— Holders of UN Laissez-passer travel documents

Holders of UN Laissez-passer Travel Documents, regardless of their nationality, on **official duty** only, do not need a visa to travel to Germany for a short term visit of up to 90 days.

Please be prepared to provide proof of your official mission as well as your nationality (national passport) upon entering Germany.

You are also expected to provide proof of travel insurance upon entering Germany.

Holders of UN Laissez-passer travel documents intending to enter Germany for a **private visit**, must apply for a visa with their national passport.

You are kindly advised to follow the general rules and requirements provided by the German Embassy in New Delhi.

— Holders of Indian diplomatic passports

Holders of Indian Diplomatic Passports do not need a visa to enter Germany. Please be prepared to provide proof of travel insurance upon entering Germany.

As this exemption is based on a bilateral agreement, you are kindly requested to check possible visa requirements for transit through third countries and/or onward destinations.

20 Jahre Wirtschaftsrecht - ein Grund zum Feiern. Feiern Sie mit.

Im Symposium "Innovativ, interdisziplinär, international - 20 Jahre Wirtschaftsrecht an der SRH Hochschule Heidelberg" greifen wir aktuelle Entwicklungen und Trends auf und beleuchten anhand von Vorträgen, Impulsen, Experten-Interviews und im Rahmen einer Podiumsdiskussion Themenfelder an der Schnittstelle von Recht und Wirtschaft und neue Rechtsentwicklungen. Das Programm wird kontinuierlich aktualisiert.

Anschließend wird gefeiert.

Freuen Sie sich darauf, bei einem Sommerfest im SRH Science Garden Ihre Kommilitoninnen und Kommilitonen, Dozentinnen und Dozenten, Lehrbeauftragte und Praxispartner aus 20 Jahren Wirtschaftsrecht zu treffen, in Erinnerungen zu schwelgen und gemeinsam neue Ideen und Zukunftszenarien zu entwickeln. Kurzum sich wiederzusehen, neue Kontakte zu knüpfen und gemeinsam zu feiern.

Festakt Programm

Programm:

Ab 13:00 Uhr Ankommen und Registrierung

14:00 Festakt

14:00 bis 14:30 Begrüßung und Grußworte

14:45 bis 17:45 Uhr kleines Symposium (Vorträge und Workshops) zu aktuellen Fragen des Wirtschaftsrechts mit Rednern aus Wissenschaft und Praxis

17:45 Uhr Ausblick

Ab 18:00 Uhr **Sektempfang und Sommerfest** (Alumni-Treffen, Netzwerken und Get togehter)

Begrüßung

Rückblick: 20 Jahre Wirtschaftsrecht mit Professor Dr. jur. Carolin Sutter, Studiengangsleiterin Wirtschaftsrecht, LL.B., und Professor Dr. jur habil Christoph Schärtl, Studiengangsleiter Business Law & Compliance, LL.M.

Grußworte

WHV Wirtschaftsjuristische Hochschulvereinigung, Professor Dr. Reiner Wedde

GRÜNDUNGSRADAR 2020

ENGLISH SUMMARY

The fifth edition of the Gründungsradar examines and compares the quality of start-up support at German institutions of higher education (HEIs). Moreover, it underlines the important role HEIs play in harnessing innovation and portrays their efforts to foster a dynamic environment conducive to start-ups. For this year's edition, we updated the indicators surveyed; for that reason, temporal comparisons with previous surveys are only possible to a limited degree. Overall, just under 60 per cent of higher education institutions in Germany took part in the survey, which accounts for about four-fifths of all enrolled students. Participating HEIs included almost all HEIs that place significance on the issue of start-ups. The Gründungsradar thus provides a solid data-based foundation for start-up activity and support at German institutions of higher education.

• • • • •

- Frontrunners in the 2020 Gründungsradar: According to the new study indicators, the Technical University of Munich led amongst large HEIs in terms of supporting start-ups; Aalen University of Applied Sciences led amongst midsized HEIs; and the HHL Leipzig Graduate School of Management achieved the best results amongst the smaller HEIs. While the Technical University of Munich and the HHL Leipzig Graduate School of Management defended their top positions, Aalen University of Applied Sciences earned the top spot in its category for the first time.
- The number of start-ups and start-up projects at HEIs continues to rise: A total of 2,176 start-ups were reported by the participating HEIs. This translates into about 10.5 start-ups per 10,000 students at HEIs that support start-ups. At least 984 of the start-ups can be attributed to knowledge and/or technology transfer from the HEIs and 186 to intellectual property such as patents. In addition, 7,389 start-up projects were registered at the participating HEIs in 2019. To put the numbers in perspective, 1,776 start-ups were reported in 2017 and 1,145 in 2012. If we include only the HEIs responding to the current and previous surveys, then the calculation yields 1,658 start-ups in 2017 and 1,872 in 2019 respectively, which corresponds to 11.2 start-ups per 10,000 students at HEIs that support start-ups in 2017, and 12.5 in 2019.
- Start-ups at HEIs rely on third-party funding: Start-up support is still heavily dependent on projects funded by third-parties. Less than 30 per cent of the 128 million euros available for start-up funding in 2019 came from institutional endowments. HEIs often give voice to the consequences, noting the risk of high staff turnover, uncertainty, no sustainable follow-up of ideas and structures, and constant restarts.
- 200,000 participants reached through start-up events: In the 2019 academic year (winter semester 2018/2019 and summer semester 2019), more than 200,000 participants were reached in almost 7,500 events related to start-ups. The majority of universities cover a wide range of start-up content in their courses and offer a high degree of diversity in terms of teaching formats, methods and speakers involved.
- Harnessing networks to promote start-ups: 95 percent of the responding HEIs are members of an institutionalised network dedicated to promoting startups. Qualitative data regarding participation in networks showed that almost all universities benefited from the interaction, coordination and shared support provided by networks.

- Internationalisation of HEIs: The issue of internationalisation plays a role in startup promotion for two-thirds of the responding HEIs. Half of the HEIs have signed international cooperation agreements, while one-third of responding HEIs foster relations with international investors and offer international exchange programmes for founders.
- Evaluation of start-up promotion could be improved: Although the monitoring of start-up projects and start-ups is constantly improving, just under half of the responding HEIs regularly evaluate the work of start-up promotion itself. As a result, programme effectiveness can too often only be measured intuitively instead of by data.
- Women are underrepresented amongst founders: Of the HEIs that provided data on gender, only 10 per cent reported having a higher rate of female founders relative to the student population. The Gründungsradar thus confirms—as do numerous other studies—that women are clearly underrepresented in the start-up scene. 37 per cent of the responding HEIs are trying to counteract this with offers specifically tailored towards women.
- Appeals to policymakers: HEIs call for policies that provide continual financial support to promote start-ups. Many HEIs also call on policymakers to continue and improve funding programmes, calling for more specialisation and expansion, for example. In addition, there are calls to allocate additional personnel resources and their continuation, as well as to simplify application procedures and make relevant changes in legislation at the state and federal level.

The partnership between SRH University of Applied Sciences and the renowned educational service provider Navitas will enable students from all over the world to begin their academic journey at SRH University of Applied Sciences Heidelberg as early as the upcoming winter semester 2024/2025. This collaboration aims to reach a broader range of international students and provide them with high-quality educational opportunities in Germany.

"I am excited to officially start the new five-year partnership between Navitas and SRH Universities in Germany and to see the great facilities and campus of SRH University Heidelberg.

SRH universities focus on providing their students with an exceptional study experience and personal attention through hands-on learning in small groups. Values that align with Navitas and will also be at the heart of SRH International College.

We are looking forward to working closely with SRH to expand opportunities for international students joining us next year in October 2024," said Paul Lovegrove, CEO Europe & Global Chief Operating Officer at Navitas.

SRH University of Applied Sciences Heidelberg is known for its unique teaching model based on the CORE principle, where students work in small teams on hands-on projects over 5-week blocks, receiving continuous feedback and support.

Applications are now being accepted for the winter semester 2024/25 at SRH International College. Students can benefit from modern learning and sports facilities as well as contemporary accommodation on the campus in Heidelberg. SRH International College offers a unique opportunity to study in an international environment and benefit from the wide range of educational opportunities offered by SRH universities in Germany.

For more information and to register, please visit the SRH International College website at www.srh-international-college.de

YOUR BENEFITS

That's what makes us.

Excellent.

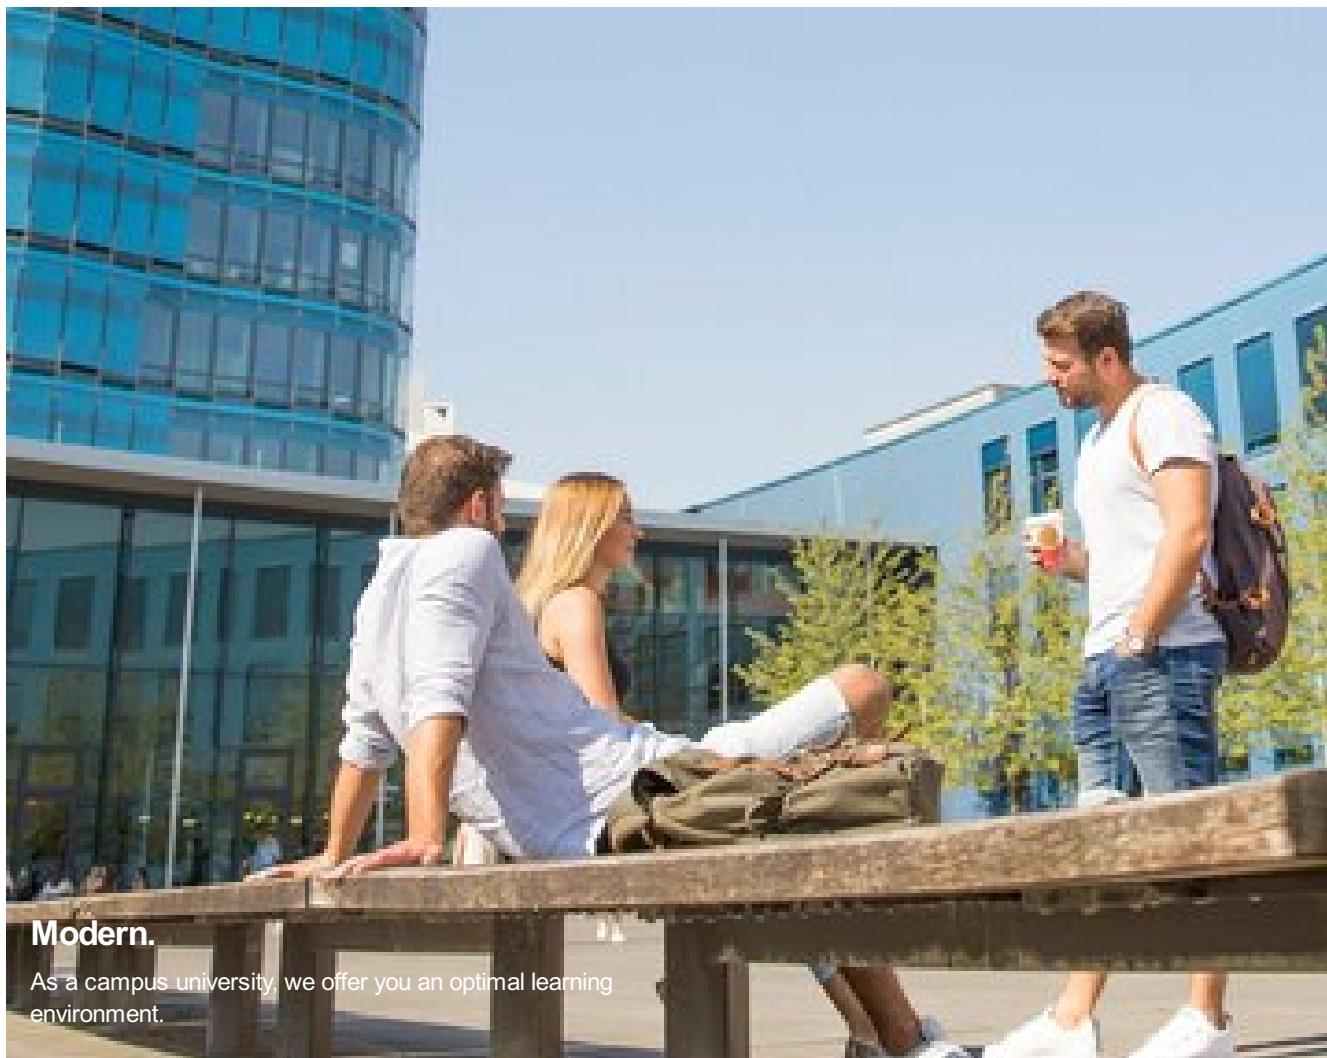

Study at an accredited university with over 50 years of experience

International.

Your studies open the way to an international career.

Modern.

As a campus university, we offer you an optimal learning environment.

Individual.

You determine your path, we accompany you as learning coaches.

Practical.

With us you will acquire skills that are in demand in practice.

Reliable.

Your future is important to us. We keep our performance promise.

FOR MORE THAN 50 YEARS

We guide people on their own individual path

Pointing people towards their future, supporting them in maximising their employment potential, and individually shaping their education – this is what we are passionate about. Founded in 1969, SRH University Heidelberg originally concentrated on rehabilitation in employment. 40 students from engineering, 60 from business administration and 30 from architecture came to us that first year to study. Today, there are over 3,400 students from 65 countries who are preparing for their careers with us. They have put their trust in our innovative study model, for which we received the Genius Loci Award for Excellence in Teaching from Stifterverband in 2018. Today, just as then, we are guiding them on their path to the future with passion.

They have helped shape the development of our university: our presidents

Prof. Dr. Carsten Diener (since May 2020)

Prof. Dr. Katja Rade (2017-2020)

Prof. Dr. Dr. h.c. Winterberg (2008-2017)

Prof. Dr. Wolfram Hahn (1980-2008)

Prof. Horst Methner (1972-1980)

Prof. Werner Herrmann (1968-1972)

Prof. Fritz Schulz-Linkholdt (Gründungsrektor)

Quality that sets your studies apart

We offer award-winning, internationally recognised degree programmes. As a system-accredited university with permanent state recognition, we bear the quality seal of the German Accreditation Council. Our degree programmes occupy top positions in national and international rankings.

STATE OF BADEN-WUERTTEMBERG

Permanent state recognition

SRH University Heidelberg is a state-recognised private university. It was first recognised in 1972 by a decision of the Baden-Württemberg Ministry of Science, Research and Arts. All degree programmes are accredited according to the provisions of the Federal State Higher Education Act (*Landeshochschulgesetz*). Our University is one of the few private institutions that enjoys permanent state recognition.

Institutional Accrediation State of Baden-Wuerttemberg

GERMAN SCIENCE COUNCIL

Institutional recognition

In 2003, SRH University Heidelberg became one of the first universities to successfully undergo the **institutional accreditation** procedure of the Wissenschaftsrat (the German Council of Science and Humanities). The Wissenschaftsrat is the most important advisory body in Germany for academic policymaking. Institutional accreditation demonstrates the University's scientific rigorousness in teaching and research. In July 2009, the Wissenschaftsrat renewed its decision in a reaccreditation process.

ACCREDITATION COUNCIL

A system-accredited university

We are **system-accredited** and bear the quality seal of the German Accreditation Council – which means that the excellent quality of our degree programmes and the recognition of your degree are guaranteed. The quality seal of the German Accreditation Council acknowledges the high standards of our University's teaching and learning. Moreover, we are entitled to use our tested quality assurance processes to accredit our degree programmes ourselves. As a result, you can be certain that you'll graduate from a cutting-edge, hands-on, methodologically tested degree programme. And you'll have the knowledge that we follow certified procedures in planning, teaching and evaluating your work.

The [German Accreditation Council](#) is a joint institution set up by Germany's 16 states to maintain the high quality of teaching and learning at German universities.

Accreditation Council

GENIUS LOCI AWARD

The Genius Loci Award for Excellence in Teaching

In 2018, Stifterverband and the Volkswagen Foundation honoured our teaching and learning model, the CORE Principle, with the **Genius Loci Award**, the only prize in Germany awarded for outstanding teaching to institutions. SRH University Heidelberg created the **CORE Principle** (Competence-Oriented Research and Education) in 2012 as a unique teaching and learning model based on cutting-edge scientific findings from pedagogy and brain research: students delve into a single topic for five weeks – harnessing their own responsibility and working in small groups, and coached by our lecturers. At the end of the five weeks, students are tested to see if they can put the skills they have learned into practice – for example, in the form of mock annual general meetings, presentations or exhibition concepts.

[Learn more about the CORE Principle](#)

RANKINGS

Top Positions in University Rankings

CHE Ranking

SRH University Heidelberg received top marks from its students in the latest CHE University Rankings. The CHE University Ranking involves collecting information and facts about study, teaching and research at more than 300 universities and universities of applied sciences under review, as well as surveying around 120,000 students to find out what they think about the conditions at their HEI.

CHE Ranking

U-Multirank

In the U-Multirank global comparison of universities, SRH University Heidelberg received very good evaluations for a number of indicators. In the criterion of international orientation, our university achieved an A, the top grade, for the percentage of international academic staff. The mobility of students abroad and the percentage of international master degree programmes also scored above average. Regionally, the private university is very well connected. The U-Multirank global comparison of universities covers the aspects of teaching and learning, research, international orientation, knowledge transfer and regional engagement, along with more than 30 individual indicators. A variety of data sources and statistics are used for the ranking.

U-Multirank

A family-friendly university

For many years, SRH University Heidelberg has been committed to creating a working and studying environment that helps staff and students maintain a healthy family life. In 2020, after our fourth successful “audit berufundfamilie” (audit workandfamily) and “audit familiengerechte hochschule” (audit family-friendly university), our institution earned a long-term “audit familiengerechte hochschule” certificate. In addition to opportunities to work from home and flexible models for working hours, we have set up a parent-child area when employees and students can work or study while their children play. After parental leave or caring for a loved one, SRH University Heidelberg also helps staff return to work smoothly.

Applied Data Science and Analytics Master of Science

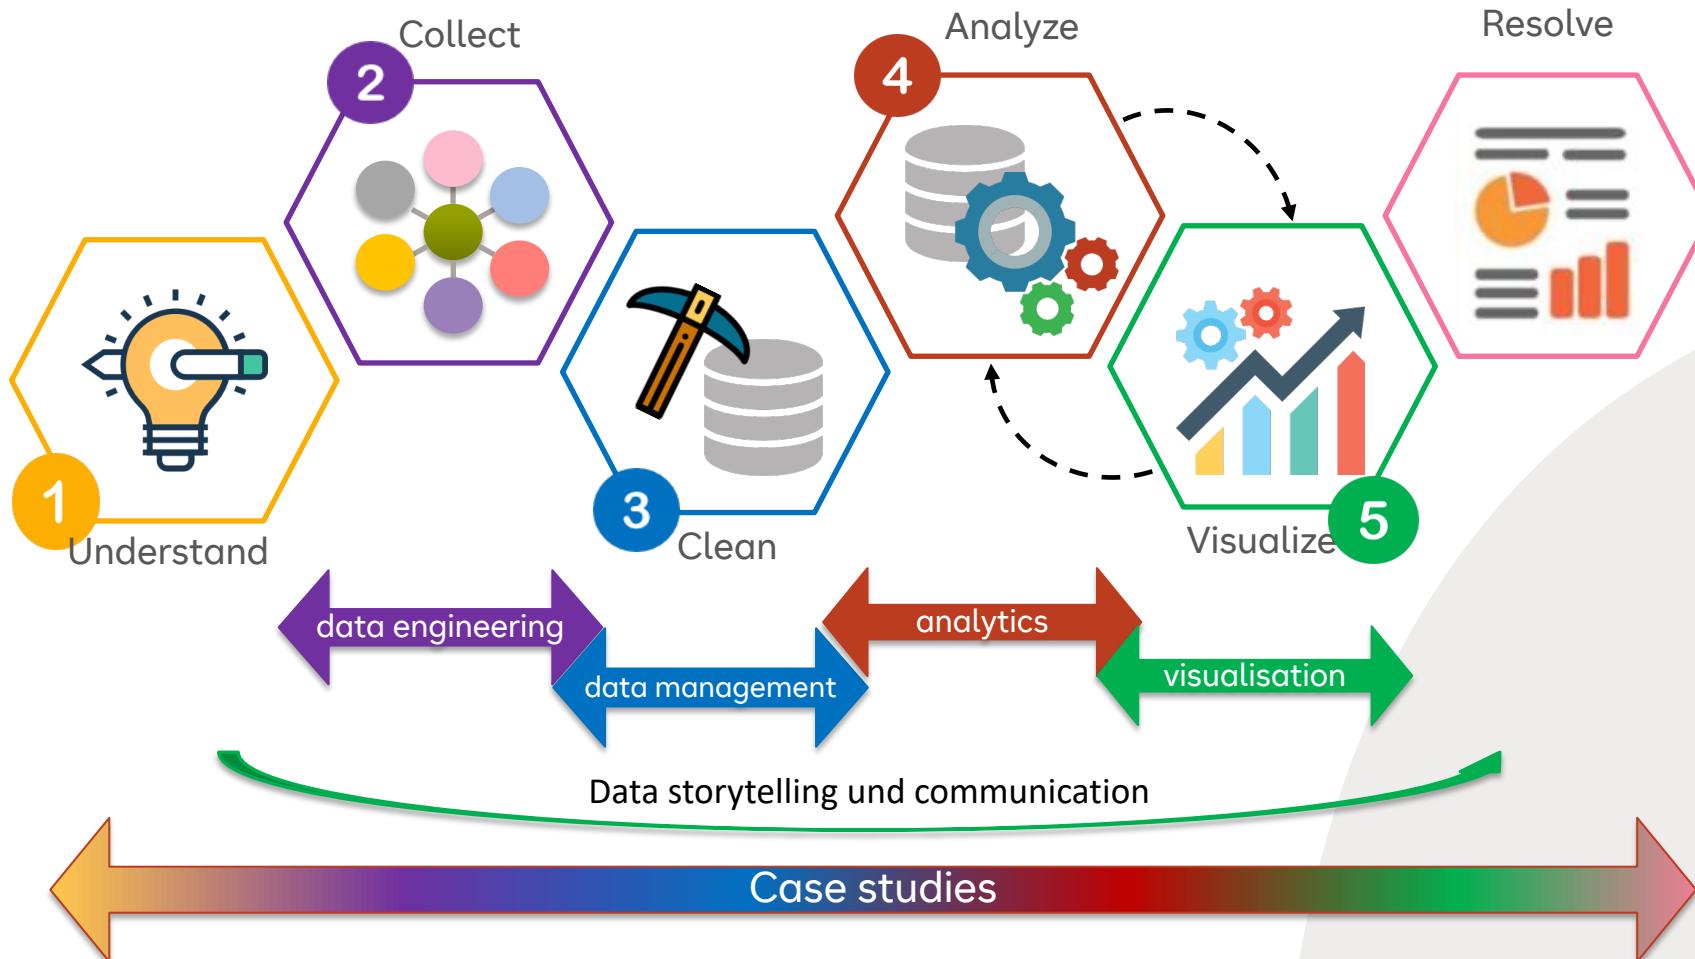

Big Data - Challenges

Learning Outcomes

- In-depth knowledge and understanding of **Applied Data Science**.
- Application of **analytical techniques and machine Learning/deep Learning** algorithms to solve complex data problems in business.
- Skills you need to leverage **data to reveal valuable insights** and help make customers valuable decisions.
- **Formulate technical problem solutions** and represent them in discourse.

Masters in Applied Data Science and Analytics

Course Curriculum

		Fundamental Data Science and Analytics				Intermediate Data Science and Analytics				
		Block 1	Block 2	Block 3	Block 4	Block 5	Block 6	Block 7	Block 8	
1. Semester	First Steps into Case Studies (5 CP)	Data Analytics 1: Statistics and Machine Learning (8 CP)	Data Engineering 1: Big Data Databases (5 CP)	Data Management 1: Data Acquisition and Data Cleaning (4 CP)		Data Analytics 2: Text Mining and Natural Language Processing (7 CP)	Data Engineering 2: Big Data Architectures (6 CP)	Data Visualization and Storytelling 1: Designing Interactive Dashboards (5 CP)	Privacy, Ethics & International Law (6 CP)	
	Data Visualization and Storytelling 1: Design Basics (2CP)	Big Data Programming : Python (6 CP)								
3. Semester	Advanced Data Science and Analytics					Expert Data Science and Analytics				
	Block 9	Block 10	Block 11	Block 12		Block 13	Block 14	Block 15	Block 16	
	Data Management 2: Data Curation and Data Management (4 CP)	Data Analytics 3: Deep Learning (8 CP)	Elective Module: Case Study 2 or Internship (14 CP)			Master thesis project (27 CP)				
	Data Visualization and Storytelling 2: Advanced Data Visualization (5 CP)									

Study according to the CORE principle

Competence Oriented Research and Education

Our activated teaching & learning method

- Group project, Flipped classroom, case studies, project pitches from local companies
- Practical teaching and exams
- 5-week blocks – no end of the semester exam stress!
- Focus only on 1-2 subjects in 5 week blocks
- Direct contact hours with professors

The word "core" is written in a large, bold, orange sans-serif font. The letter "o" has a white circle cutout in its center, and the letter "r" has a white vertical bar through its middle.

Thank you!!

Meaningful support

Help the young generation to achieve their goals and support high-performing students with a Deutschlandstipendium. Sponsorship is possible even with very small amounts.

YOUR DONATION

How to donate your desired amount

Please transfer your desired amount to the following account:

Beneficiary: SRH Hochschule Heidelberg GmbH

IBAN: DE06520604100205011434

BIC: GENODEF1EK1

Purpose: D-Scholarship Alumni-Fund

Your questions

How much of a financial commitment do I make?

When can the scholarship begin?

Who decides on who is awarded the scholarship?

Do I have a say in which scholarship holder is assigned to me as a sponsor?

Can I get in touch with "my" scholarship holder?

Is it possible to name the sponsor in connection with the name of the scholarship?

Can I claim the funding as tax deductible?

Plagued by self-doubt? Overwhelmed? Stressed? The four Master's students of the "Social Work: Psychosocial Counselling and Health Promotion" programme are no strangers to any of these issues. Corinna, Barbara, Annalena and Sophia have experienced these problems themselves and learned on their course how to deal with them. As a result, the four students are able to offer you extensive advice and lots of valuable tips within the "Open Ear" project, run by students. In an interview, they tell you all about this service and the reasons for offering this type of counselling.

Incidentally, if you want to find out more, you can do so on 25 May, when the four Open Ear counsellors will be present to talk to you in the foyer between 11:00 and 14:00.

Who can attend Open Ear counselling?

Barbara: Actually, any student from our university, whatever their subject or faculty! There are no minor problems that we would ignore – we have an open ear for everyone. First of all, there are issues of time pressure or motivation. But we also address matters such as family conflicts, insecurity, and physical impairments. After all, we have experienced many of these problems ourselves.

Corinna: Students get a reply within two days – we don't have a waiting list! What is more, the service is independent and free of charge. The advice we provide is more neutral than that given by your friends. Everything that is said remains between us!

How does Open Ear work?

Sophia: Students from SRH University Heidelberg can easily find us on Moodle and chat with us there. The video also gives instructions on how to find us. Our online counselling is initially a low-threshold option. After that, you can of course obtain telephone or personal counselling.

Barbara: Sometimes people feel embarrassed to talk about their problems. Online counselling via chat makes it easier to cross that initial hurdle. And if the worst comes to the worst, we can always confer with Professor Bösel, who runs and supervises the project.

The Open Ear project is traditionally taken on by students in their final year of the Master's programme in Social Work – on a voluntary basis and without it being relevant to exams. Why did you consider it important to support the

project?

Sophia: Three of us are already fully qualified social workers, and I have a Bachelor's degree in Health Promotion and Management. So of course we already have a lot of experience and are able to offer professional counselling. I think it is important to share this experience.

Annalena: Some of us also work during university, such as in family assistance or migration counselling. The project supports and expands these experiences. But what I find particularly exciting is the peer-to-peer approach. Being students ourselves, we have a good idea of what other students are going through. We can reach out to people who need us.

Corinna: We are aware of the typical weak spots, and can talk to our fellow students at eye level. Open Ear lets us practise our psychosocial counselling skills. My participation in the project also enables me to substantiate my scholarship for gifted students. I basically find it very important to get involved and to help others.

Wie du dein Studierendenvisum erhältst

Ein Visum zu bekommen ist einer der wichtigsten ersten Schritte für Studienbewerber:innen aus dem Ausland. Ob du ein Visum benötigst oder nicht, hängt davon ab, aus welchem Land du kommst. Beachte bitte, dass der Visumprozess lang sein kann, also denke daran, das Antragsverfahren so früh wie möglich einzuleiten.

Benötige ich ein Visum?

Wie lange kann es dauern, bis ich mein Visum erhalte?

Welche Art von Visum muss ich beantragen?

Welche Dokumente benötige ich?

Was ist ein Sperrkonto?

Erste Schritte in Heidelberg

Leben und Studieren in einem fremden Land und das Entdecken einer neuen Kultur mag zuerst eine Herausforderung darstellen. Aber keine Sorge, du wirst dich schnell in der neuen Kultur einfinden: Lerne Deutsch, probiere deutsches Brot, besuche einige traditionelle Feste und reise herum, um dein neues Zuhause kennenzulernen!

Das International Office wird in deiner ersten Woche eine **Orientierungsveranstaltung** organisieren. Du erhältst dort viele erste Einblicke und knüpfst Kontakte zu anderen Studierenden der SRH. Unsere Mitarbeitenden und Studierenden helfen dir dabei, die Formalitäten zu erledigen und dir die Ankunft so einfach wie möglich zu machen.

1. Schreibe dich beim Studierendenservice ein

2. Hol dir D-Ticket Jugend BW für die öffentlichen Verkehrsmittel

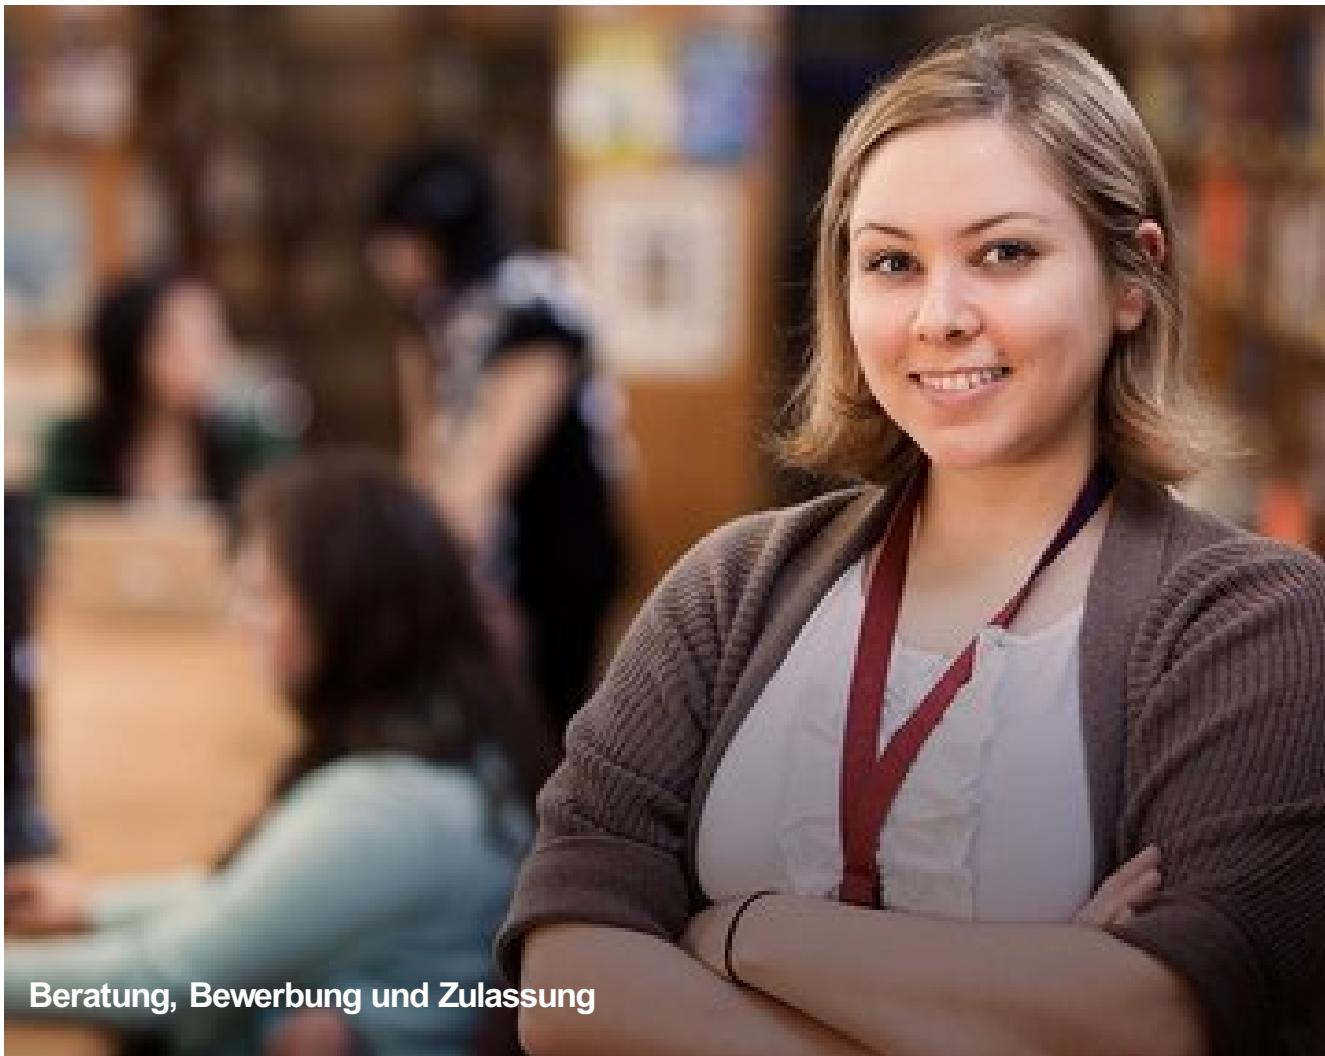

3. Geh zum Einwohnermeldeamt (Bürgerbüro)

4. Beantrage deine Aufenthaltserlaubnis

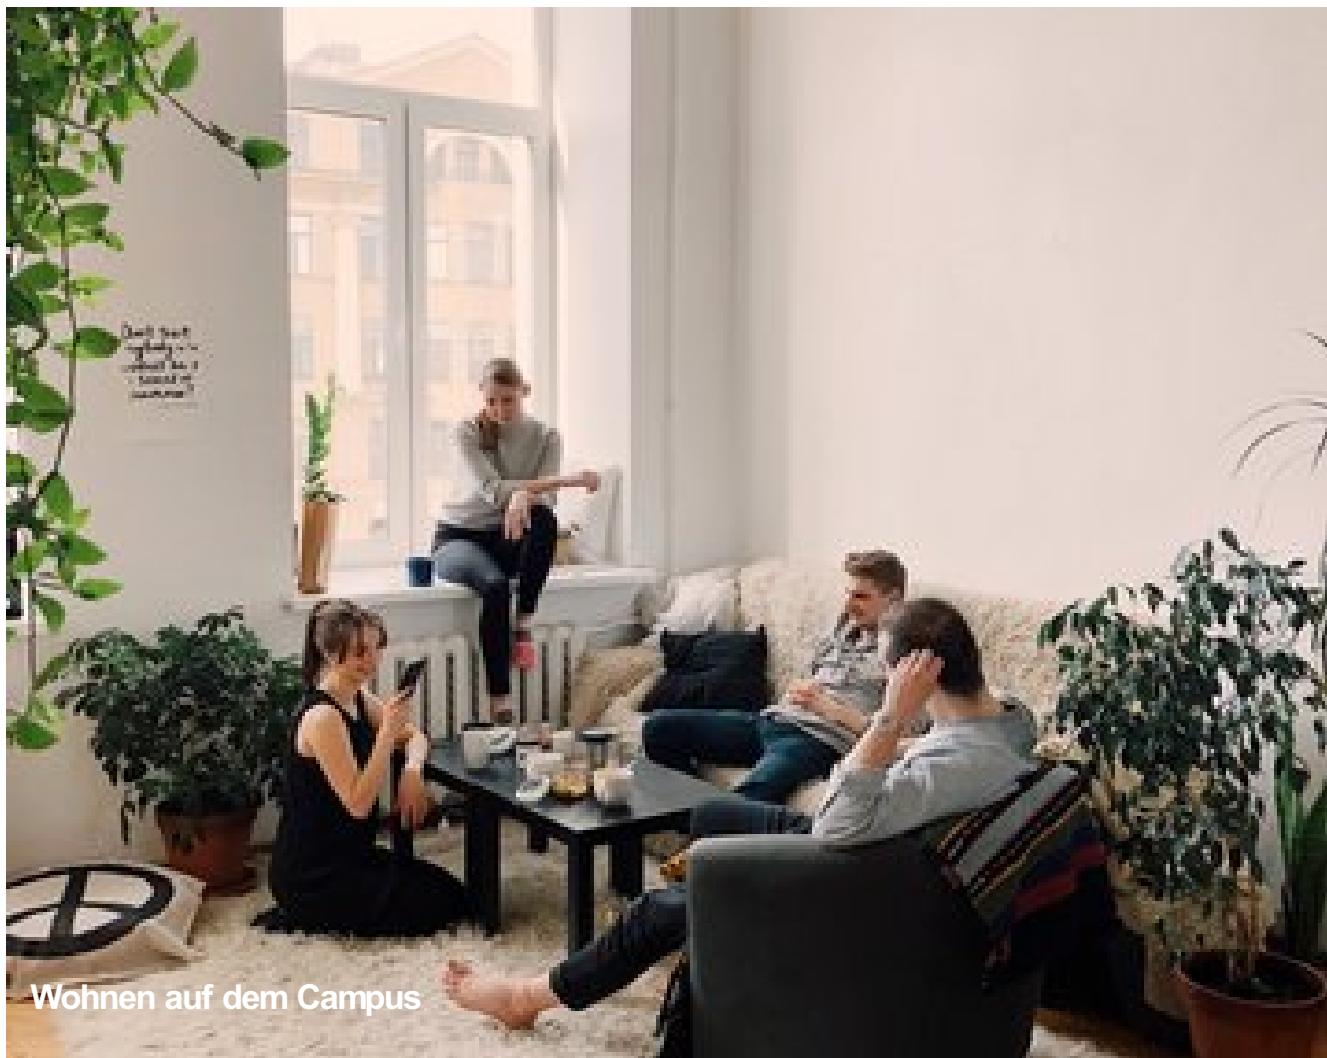

5. Eröffne ein Bankkonto

What is the project about?

In today's world, it is particularly important to conserve resources and make production processes as efficient as possible, especially in the plastics industry. Machine learning models are becoming increasingly important for evaluating real-time process information in order to be able to intervene if critical events occur. However, currently the reactions to such events are based on the know-how of each machine operator and there is no system in place to detect anomalies within the data and give

suitable suggestions on what the issue might be.

This can lead to a production line running and producing non-sellable goods. Not only is the raw material wasted, but also huge amounts of electricity and gas are lavished, and the scrap amounts need energy input again to be recycled, if possible. This leads to the business case of a machine learning model, which evaluates real time machine data to be able to give machine operators a statement as to whether the film they are currently producing is good material or whether quality parameters are outside the tolerances. The goal is to suggest adjustment parameters to bring the film back within the tolerances by investigating the main influencing variables of the process control on various quality characteristics.

University in your pocket

Our new student app keeps you completely in the picture: this is your central platform for all our channels, including Moodle, CampusNet and your emails. The app also provides you with all the latest news about Heidelberg and our university. So you'll always be up-to-date!

AND WHAT ELSE?

That's what the SRH Studies app offers you, too:

Newsfeed

Your courses: Here you will find all courses grouped by semester. There is also a menu with details and dates for each course.

Calendar: Here you can see all the courses and exams for which you are registered. The calendar is filled automatically - so you'll never miss an appointment again!

Chat rooms on specific topics and offers, on the student councils and the student assembly.

Jobs: Access to the JobTeaser with exclusive job and internship offers.

In the side menu you will find:

Your digital student ID card (not valid for admission and payment functions such as in the library, the cube or the multi-storey car park, please use your smartcard as before)

Access to **CampusNet** and **Moodle**

Link to the **mensa cube**

Your grades as soon as they are online on CampusNet

Mails: With the mail client, you can read, write and send your SRH mails directly in the app. In addition, we notify you about important e-mails from the university with push notifications.

Fit and healthy through your studies: **health offers**

You can also create a **To Do list** here

[DOWNLOAD](#)

Download your SRH Studies app now:

[Google Play Store](#)

[Apple Store](#)

Do you want to contribute to the app editorially and contribute news that you find relevant? Feel free to contact our press team:
presse.hshd@srh.de.

If you have any problems using the Studio App, please contact the support area in the top right-hand corner of the Studio App. The Studio team will deal with your concern as quickly as possible. If you are unable to contact the Studio team directly via the app for technical reasons, please send an email with your request to support@studo.com.

Please make sure that you have installed the latest version of Studio before making your request. Errors that occur have often already been fixed in the latest app version.

APPLICATION PROCESS

How to apply to our university

We're delighted that you've chosen to study at our university and look forward to meeting you soon in person.

At SRH University Heidelberg, you and your skills are the main focus. Which is why our programmes are not subject to restricted entry (NC). Instead, our applicants are selected on an individual basis. To make the application process easier for you, we described the main steps below. If you have any questions, feel free to contact our study advisors. Our Admission Office team is there to help you at all times.

7 steps away from your chosen degree programme

The first step is to set up a personal non-binding account on the SRH Applicant Portal. You then apply for your chosen degree programme and upload all the relevant documents (including your higher education entrance qualification, your CV and your cover letter). Once we receive your application, we'll send you a confirmation email.

We now check to see whether your application meets the formal requirements. If you meet the admission requirements, we'll invite you to an interview to get to know you personally.

You'll have a personal discussion with us. In some degree programmes, you may also be asked to complete a few exercises or take an admissions test. The interview usually takes place on campus, giving you the opportunity to familiarise yourself with our facilities. However, we can also conduct your interview online by video conference.

Did you pass the interview? Congratulations! You'll now receive an acceptance letter and your study contract from us. Please sign the contract and return it to us.

You then pay the registration fee and, if you come from a country outside the EU, the tuition fees for the first academic year. We'll then send you your letter of acceptance.

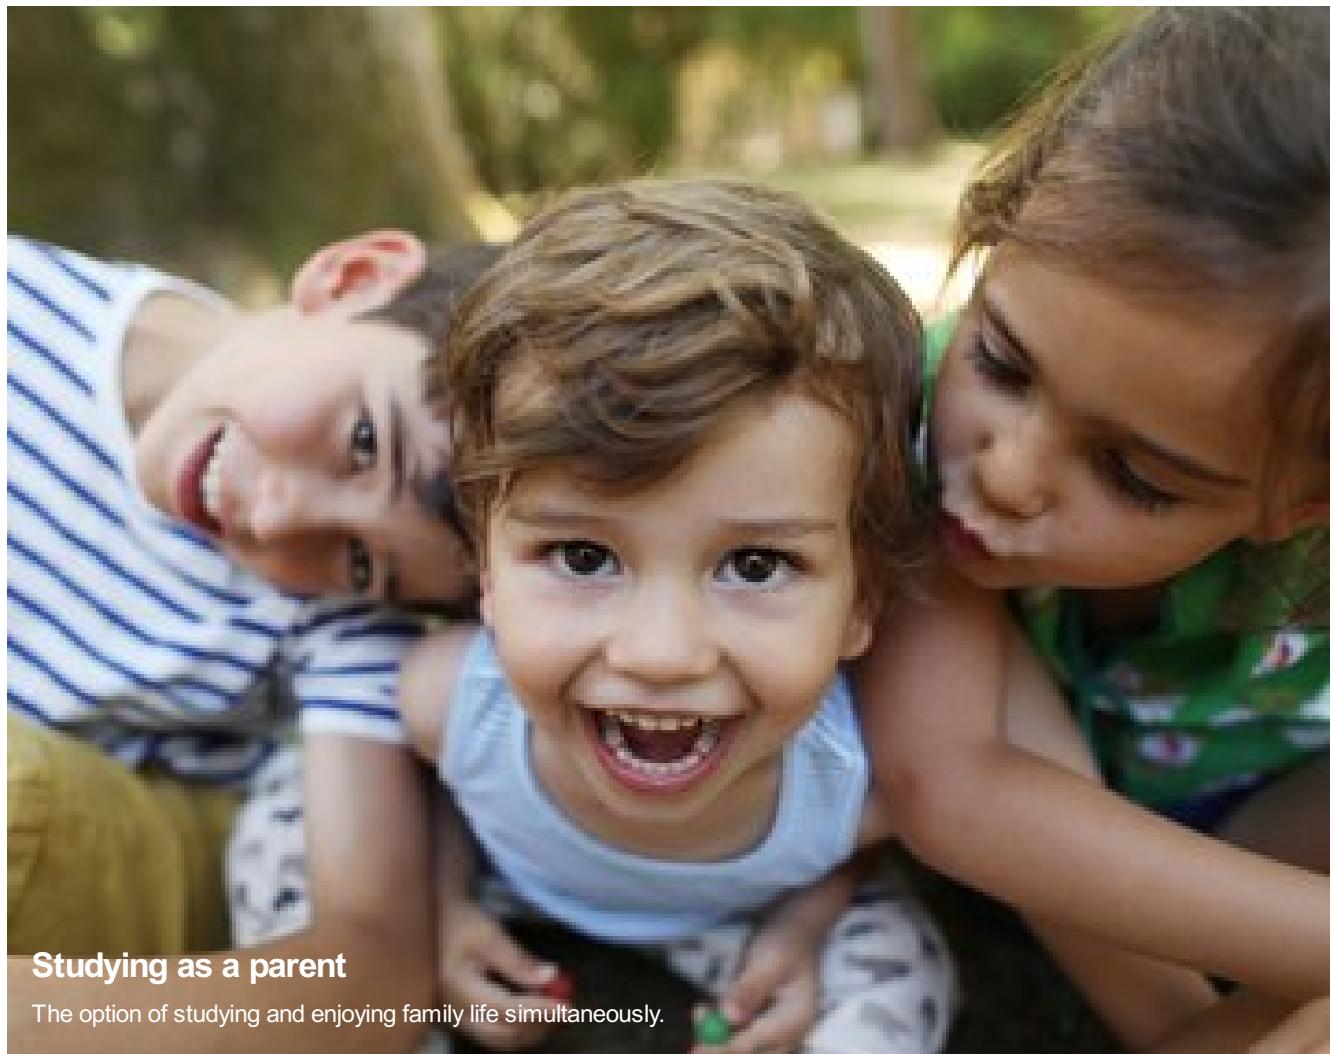

The next step involves enjoying our "Welcome Days" programme: during our orientation sessions at the beginning of your programme on 1 October or 1 April, you'll get to know your fellow students, your school, your degree programme, the campus and many important parts of the university – as well as taking part in lots of fun elements.

Now it's time to start studying. We wish you every success and are delighted to have you with us!

Get your application started!

YOUR COURSE CONTENT

What you will learn

To be able to apply computer science in business and research, you need to possess sound and up-to-date knowledge that goes beyond your undergraduate degree. In our Applied Computer Science Master's degree, we'll teach you this knowledge and the skills needed to pursue your professional career – at a high level and with a practical focus. This qualification will enable you to start your professional career as full-stack-developer or IT-consultant in industry or administration. Or you can study for a PHD in computer science.

Your course content in detail

YOUR CAREER PROSPECTS

Our innovative approach that pays off

Having a Master of Science degree in “Applied Computer Science” and a qualification on all layers of full-stack-development including your individual profile will give you best chance on an exciting and well-paid job in software and IT-industry. Graduates from previous years now work for large companies such as ABB, Airbus and Accenture, and for Adidas, Audi, Bosch, BMW, BASF, Deloitte, Deutsche Börse, DKFZ, Triumph, PWC, SAP and Verivox, as well as for successful SMEs. Our programme will also qualify you for a position in the public sector, for work in research, and for a doctorate.

Insights into the study programme

ADMISSION REQUIREMENTS

Our requirements

An internationally recognised Bachelor's degree (180 ECTS) in Computer Science or in the subjects "Virtual Realities", "Applied Computer Science", "Information Management", IT, Software Development or a comparable degree.

A good knowledge of object-oriented programming languages (Java/C++/Python, etc.) and databases (MySQL, PostgreSQL, Oracle, etc.)

English language proficiency: IELTS 6.5 / TOEFL 80 (SRH TOEFL code: 7712), Duolingo Certificate 110, PTE Academic 58, or a comparable performance

You do not qualify? No problem, SRH has its International College for students who do not qualify for direct entry into our programmes or need to bring up their English language level. You can choose from our Foundation programmes at the College. This is a direct pathway into our university. Find more about here . <https://www.srh-international-college.de/>

FEES AND FUNDING

Your tuition fees

750 EUR per month full-time + one-time registration fee of 750 EUR (Prices apply only to students from the European Economic Area).

Applicants from Non-EEA countries without permanent residence permit need to pay a tuition fee of 6,450 EUR per semester + one-time registration fee of 1,000 EUR and must pay the tuition fees for one semester in advance. From the second semester onwards the payments for the remaining semesters of study are due six weeks before the end of the period of study already paid for. The payments have to be done semesterwise.

For more information and payment modalities, please refer to the current fee schedules (valid from 01.04.2023):

[Fees schedule EEA students](#)

[Fees schedule non-EEA students](#)

APPLY NOW

Application process and deadlines

If you're interested in our Master's programme, simply send us your application [online](#).

If you encounter technical difficulties with the online application or have any questions about your application, Simin Chen will be happy to help you.

If you meet all the requirements, we'll send you the acceptance letter and the study contract.

You then sign the study contract and return it to us (applies only to applicants from Germany and the EU).

You pay the registration fee (applicable to all students) and, in some cases, one semester's advance payment (applies only to students from non-EU/EEA countries).

We then issue your final letter of acceptance.

You take part in our Welcome Days – and then embark on your degree programme!

APS Certificate

Please note that special conditions apply to applicants from some countries:

India

From 1st of November 2022, applicants from India will be required to have their documents verified by the Academic Evaluation Centre New Delhi (APS-India) before applying for a visa. After successful verification you will receive a certificate which allows you to initiate the visa process. Please note that the verification process at APS-India is expected to take approximately 4 weeks. We recommend that you apply for the APS certificate at the same time as you apply to SRH University Heidelberg. For more information, go to the APS-India website: www.aps-india.de

The People's Republic of China

The procedure of the Academic Evaluation Centre of the Cultural Section at the German Embassy in Beijing (Akademische Prüfstelle – APS) must have been successfully completed before you apply. The centre checks documents for authenticity and conducts interviews. The original APS certificate must be enclosed with the application documents. For more information, go to the APS website at: www.aps.org.cn.

Please note that you don't need to complete the APS procedure if you apply for our 3+1 programmes.

Vietnam

The Academic Evaluation Centre of the German Embassy in Hanoi has been checking the university entrance qualifications of Vietnamese applicants since 2007. The procedure includes checking the submitted written documents as well as an interview with the applicant. An original copy of proof of successful completion of this process, the APS certificate, must be enclosed with the application documents.

Study Applied Data Science and Analytics in Hamburg now!

YOUR COURSE CONTENT

What you will learn

In the Master's programme Data Analytics, you will gain in-depth knowledge and an understanding of the complete data science process. You will learn how to apply mathematical, statistical, analytical, and machine learning/deep learning techniques to gain insights from large and often unstructured datasets.

The data visualization and storytelling part of this programme will enable leveraging the data to reveal valuable insights to the stakeholders for decision making. You will also learn with us in a practice-oriented manner: you will work together with real customers in project-related modules. In addition, you will complete a three-month mandatory internship at a company of your choice, and additionally you can write your master thesis in cooperation with a company. This gives you almost a year of professional experience during your studies.

Our innovative approach that pays off

Having a Master of Science degree in “Applied Data Science and Analytics” and qualification in all layers of data science will give you the best chance across all sectors, including the manufacturing industry, banks, insurance companies, the IT sector, consulting, public or industrial research institutes, the public health sector as well as colleges and universities. Graduates from previous years now work for ABB, Heidelberg Cement, Airbus, Accenture, Adidas, Audi, Bosch, BMW, BASF, Deloitte, Deutsche Börse, DKFZ, PWC, SAP, and Verivox, as well as for successful SMEs. Our programme will also qualify you for a position in the public sector, work in research, and Ph.D. programmes.

For practical and security reasons, we recommend that you use a current web browser such as [Firefox](#), [Chrome](#), [Safari](#), [Opera](#), or [Edge](#). Internet Explorer does not always display the complete content of our website and does not offer all the necessary functions.

[Hide hint](#)

YOUR COURSE CONTENT

What you will learn

Students should develop a sound understanding of the fundamentals of machine learning, including supervised learning, unsupervised learning, reinforcement learning, and deep learning. The ability to develop and implement AI models and utilize artificial intelligence techniques is essential. This includes proficiency in programming languages like Python and expertise in data processing. Students should also possess the ability to comprehend and apply various AI algorithms and models, such as neural networks, decision trees, support vector machines, and clustering algorithms.

Furthermore, students should explore the application of AI in diverse fields such as image processing, natural language processing (NLP), robotics, autonomous driving, healthcare, and finance. This will provide them with a comprehensive understanding of the potential and opportunities that artificial intelligence and computer technology can bring to these industries.

YOUR CAREER PROSPECTS

Our innovative approach that pays off

The demand for specialists in the field of AI has risen sharply worldwide. Companies and organisations are increasingly looking for experts who can develop, implement and apply AI technologies. AI experts are finding employment opportunities in a variety of industries, including healthcare, finance, automotive, e-commerce, education and many others. AI is used in various applications such as robotics, computer vision, natural language processing (NLP) and machine learning. Due to the high demand for AI experts, competition for qualified professionals is strong.

CURRICULUM ARTIFICIAL INTELLIGENCE (M.ENG.)

Your curriculum

ADMISSION REQUIREMENTS

Our requirements

You can be admitted to study at the SRH University Heidelberg if:

you have a 7-semester bachelor's degree in electrical engineering, computer engineering, communications engineering, or similar.

and if you have also successfully completed our selection process, that also includes sufficient knowledge of English.

You do not qualify? No problem, SRH has its International College for students who do not qualify for direct entry into our programmes or need to bring up their English language level. You can choose from our Foundation programmes at the College. This is a direct pathway into our university. Find more about here . <https://www.srh-international-college.de/>

FEES AND FUNDING

Your tuition fees

Our tuition fees for the Information Technology course with a focus on Artificial Intelligence (M.Eng.) are €770 per month; you also pay a one-time enrollment fee of €750.

If you come from a non-EEA country without a settlement permit, the enrollment fee is €1,000 – we ask you to pay the tuition fees for one semester in advance. From the second semester, payments for the remaining semesters are due six weeks before the end of the study period that has already been paid for. Payments are to be made every semester.

You can find more information and payment modalities in the current fee schedule (valid from April 1st, 2023).

[Fees schedule EEA students](#)

[Fees schedule non-EEA students](#)

APPLY NOW

Application process and deadlines

We look forward to welcoming you to the SRH University Heidelberg soon! We do not have application deadlines. Your application process looks like this:

If you are interested in the Information Technology master's program with a focus on blockchain technology, you can send us your application easily and conveniently [online](#).

If you have any technical difficulties with the online application or if you have any questions about your application, your contact person Simin Chen will be happy to help.

If you meet the admission requirements, we will invite you to a selection interview

If the selection interview is successful, you will receive the acceptance and the study contract from us. You sign the study contract and send it back to us

You pay the registration fee

If you come from a non-EU country, you pay your tuition fee one semester in advance in addition to the registration fee. From the second semester onwards, payments for the remaining semesters are due six weeks before the end of the study period that has already been paid for. Payments are to be made every semester.

We will issue your admission notice

You take part in our Ready-to-Start days - and off you go with your studies!

APS Certificate

Please note that special conditions apply to applicants from some countries:

India

From 1st of November 2022, applicants from India will be required to have their documents verified by the Academic Evaluation Centre New Delhi (APS-India) before applying for a visa. After successful verification you will receive a certificate which allows you to initiate the visa process. Please note that the verification process at APS-India is expected to take approximately 4 weeks. We recommend that you apply for the APS certificate at the same time as you apply to SRH University Heidelberg. For more information, go to the APS-India website: www.aps-india.de

The People's Republic of China

The procedure of the Academic Evaluation Centre of the Cultural Section at the German Embassy in Beijing (Akademische Prüfstelle – APS) must have been successfully completed before you apply. The centre checks documents for authenticity and conducts interviews. The original APS certificate must be enclosed with the application documents. For more information, go to the APS website at: www.aps.org.cn .

Please note that you don't need to complete the APS procedure if you apply for our 3+1 programmes.

Vietnam

The Academic Evaluation Centre of the German Embassy in Hanoi has been checking the university entrance qualifications of Vietnamese applicants since 2007. The procedure includes checking the submitted written documents as well as an interview with the applicant. An original copy of proof of successful completion of this process, the APS certificate, must be enclosed with the application documents.

What is the Baden-Wuerttemberg Scholarship?

The scholarship is for students from Baden-Wuerttemberg who spend a semester abroad as well as for students from abroad who want to spend a semester at a university of Baden-Wuerttemberg.

RECIPROCITY AND EXCHANGE

The Baden-Wuerttemberg Stiftung

Nowadays, international experience, language skills and understanding of other cultures are more important for school, studies and career than ever before. The Baden-Württemberg-Stipendium enables qualified young people to take part in a placement abroad and so to broaden their personal horizons. Because for every scholarship holder from Baden-Württemberg, a scholarship holder from abroad comes to the south-west of Germany. The principles of reciprocity and exchange guide this scholarship at its core.

About the Baden-Wuerttemberg Stiftung

YOUR APPLICATION

Getting your documents ready

For the application you have to upload the following documents in the [Portal of the Baden-Württemberg-foundation](#). You have to upload the following documents:

Application form (available in in the BWS portal)

Enrolment certificate

Motivation letter für the selection of your partner university in English or German (max. 2 pages)

CV/Resume

Actual Transcript of Records

Language certificates, if obligatory for your study abroad

Transcript of your first degree (if applicable)

Other certificates (e.g. certificate for voluntary work, social engagement etc.)

There is no legal claim to this scholarship.

ÜBER MICH

Über mich

März 2016 - Aktuell

Wissenschaftliche Mitarbeiterin an der SRH Hochschule Heidelberg

Oktober 2019 - April 2020

Wissenschaftliche Mitarbeiterin am KIT Karlsruhe, Fakultät für Architektur, Fachgebiet Stadt + Wohnen, Institut Entwerfen von Stadt und Landschaft

September 2019 - Aktuell

Doktorandin an der School of Architecture of the University of Minho, Guimarães, Portugal

Januar 2015 - Aktuell

Ko-Gründerin des Architektur/Kunst Kollektives Space Transcribers

März 2014 - Dezember 2014

Praktikantin an Urban Catalyst Studio, Berlin

September 2012 - Dezember 2013

Masterstudium in Architektur, Landschaft und Stadtgestaltung

September 2011 - Juni 2012

Architektur Studium (Erasmus) an der Architecture Faculty of Yildiz Technical University, Istanbul, Türkei

September 2009 - Juni 2011

Bachelorstudium in Architektur an der School of Architecture of the University of Minho, Guimarães, Portugal

März 2007 - Dezember 2008

Architektur Studium an der Pontificia Universidad Católica del Perú (PUCP), Lima, Peru

BEWERBUNGSPROZESS

So bewirbst du dich bei uns

Wir freuen uns, dass du bei uns studieren möchtest und darauf, dich bald persönlich kennzulernen. Bei uns stehst du mit all deinen Kompetenzen im Mittelpunkt. Deshalb haben wir keinen NC, sondern setzen auf eine individuelle Auswahl unserer Bewerberinnen und Bewerber. Um dir die Bewerbung zu erleichtern, haben wir die wichtigsten Schritte für dich zusammengestellt. Bei Fragen kannst du dich gerne auch an unsere Studienberaterinnen wenden. Unser Team aus dem Admission Office steht dir gerne jederzeit zur Verfügung

In 7 Schritten zu deinem Wunschstudium

Erstelle dir auf dem SRH-Bewerberportal zunächst ganz unverbindlich dein persönliches Konto. Bewirb dich dort für deinen Wunschstudiengang und lade alle relevanten Dokumente (zumindest aber deine Hochschulzulassungsbescheinigung, deinen Lebenslauf und dein Motivationsschreiben) hoch. Sobald deine Bewerbung bei uns eingegangen ist, erhältst du eine E-Mail-Bestätigung.

Wir prüfen deine Bewerbung jetzt formal. Wenn du die Zulassungsbedingungen erfüllst, laden wir dich zu einem Bewerbungsgespräch ein, um dich persönlich kennenzulernen.

Du führst ein persönliches Gespräch mit uns. In einigen Studiengängen machst du auch Übungen oder eine Zugangsprüfung. Das Gespräch findet in der Regel auf dem Campus statt, sodass du diesen auch kennenlernen kannst. Wir können das Gespräch aber auch virtuell per Videokonferenz führen.

Aein Auswahlgespräch war erfolgreich? Gratulation! Du erhältst von uns eine Zusage und deinen Studienvertrag. Bitte sende uns diesen unterschrieben zurück.

Du zahlst die Anmeldegebühr und, falls du aus einem Nicht-EU-Land kommst, die Studiengebühren für das erste Studienjahr. Daraufhin erhältst du von uns den Zulassungsbescheid.

Giel Spaß bei "Startklar": Bei unserer Orientierungseinheit zu Beginn des Studiums am 1. Oktober oder 1. April lernst du deine Kommilitonen, deine Fakultät, deinen Studiengang, den Campus und viele wichtige Bereiche der Hochschule kennen - der Spaß kommt natürlich auch nicht zu kurz.

Du startest durch mit deinem Studium. Wir wünschen dir viel Erfolg und freuen uns, dich bei uns zu haben!

Starte durch mit deiner Bewerbung

HRK

"AN! Anerkennung und Anrechnung im Studium"

Im Studium bei Null anfangen? Muss nicht sein. Du hast in Ausbildung und Job schon viel gelernt? Du hast schon ein angefangenes Studium oder sogar einen fertigen Bachelor oder hast ein Auslandssemester absolviert? Vieles, was du schon geleistet hast, kannst du für dein Studium nutzen. Mit Anrechnung und Anerkennung.

[Mehr Informationen](#)

STUDIUM & LEBENSLAGEN

Deine Bedürfnisse im Mittelpunkt

Studieren ohne Abitur

Wie du bei uns ohne Abi ins Studium starten kannst.

Studieren mit Behinderung

Wir unterstützen dich!

Studium und Leistungssport vereinbaren

Kombiniere deine Sportart mit unserem Studium!

Dein Studium nach der Dienstzeit

Starte jetzt deine zweite Karriere mit einem Studium an
unserer Hochschule.

Studieren mit Familie

Studium und Familienleben als Möglichkeit.

HÄUFIG GESTELLTE FRAGEN

Fragen und Antworten zum Bewerbungs- und Zulassungsprozess

Ich habe keine Bestätigungsemail nach Erstellung erhalten, was kann ich tun?

Kann ich mich für mehrere Studiengänge an der Hochschule bewerben?

Welche Sprachvoraussetzungen muss ich erfüllen?

Wie kann ich mich auf das Bewerbungsgespräch vorbereiten?

Ich komme nicht mehr in meinen Account, was kann ich tun?

Ich möchte nochmal ein Dokument in meiner Bewerbung austauschen, habe aber diese schon abgeschickt.

Qualität, die dein Studium auszeichnet

Wir bieten dir ein ausgezeichnetes und international anerkanntes Studium. Unsere Hochschule ist unbefristet staatlich anerkannt und darf als systemakkreditierte Hochschule das Siegel des Akkreditierungsrates führen. In nationalen und internationalen Rankings belegen unsere Studiengänge Spaltenplätze.

LAND BADEN-WÜRTTEMBERG

Unbefristete staatliche Anerkennung

Die SRH Hochschule Heidelberg ist eine staatlich anerkannte Hochschule in privater Trägerschaft. Sie wurde bereits seit 1972 durch Bescheid des Ministeriums für Wissenschaft, Forschung und Kunst Baden-Württemberg staatlich anerkannt. Alle Studiengänge sind nach den gesetzlichen Vorgaben des Landeshochschulgesetzes akkreditiert.

[Zum Service-Portal Baden-Württemberg](#)

WISSENSCHAFTSRAT

Institutionelle Anerkennung

Im Jahr 2003 hat die SRH Hochschule Heidelberg als eine der ersten Hochschulen das Verfahren der **institutionellen Akkreditierung** durch den Wissenschaftsrat erfolgreich durchlaufen. [Der Wissenschaftsrat](#) ist das wichtigste wissenschaftspolitische Beratungsgremium in Deutschland. Mit der institutionellen Akkreditierung wird die wissenschaftliche Leistungsfähigkeit der Hochschule in Lehre und Forschung bescheinigt. Die Entscheidung wurde im Juli 2009 mit der erneuten Reakkreditierung durch den Wissenschaftsrat bestätigt.

Gutachten des Wissenschaftsrats

PDF (176 KB)

AKKREDITIERUNGSRAT

Systemakkreditierte Hochschule

Wir sind **systemakkreditiert** und tragen das Qualitätssiegel des Akkreditierungsrates – für dich bedeutet das: Die Top-Qualität der Studiengänge und die Anerkennung aller Abschlüsse sind garantiert. Das Qualitätssiegel des Akkreditierungsrates bescheinigt unserer Hochschule höchste Standards bei Studium und Lehre. Zudem sind wir berechtigt, unsere Studienprogramme eigenständig und mit den geprüften QM-Prozessen zu akkreditieren. Du kannst dir also sicher sein, jederzeit ein aktuelles, praxisnahe und methodisch geprüftes Studienangebot zu absolvieren. Und du hast die Gewissheit, dass wir nach zertifizierten Prozessen planen, unterrichten und bewerten.

Die [Stiftung Akkreditierungsrat](#) ist eine gemeinsame Einrichtung der Länder für die Qualitätssicherung in Studium und Lehre an deutschen Hochschulen.

Zum Qualify Network e.V.

Unsere Akkreditierungsurkunde

PDF (898 KB)

STIFTERVERBAND

Genius Loci-Preis für Lehrexzellenz

Der [Stifterverband für die Deutsche Wissenschaft](#) und die [VolkswagenStiftung](#) würdigten 2018 unser Lehr- und Lernmodell CORE mit dem **Genius Loci-Preis**, dem einzigen institutionellen Preis für exzellente Lehre in Deutschland. Mit dem **CORE-Prinzip** (Competence Oriented Research and Education) schuf die SRH Hochschule Heidelberg 2012 ein einzigartiges Lehr- und Lernmodell basierend auf wissenschaftlichen Erkenntnissen aus der Lern- und Hirnforschung: Die Studierenden erarbeiten sich fünf Wochen lang ein Thema – eigenverantwortlich und in kleinen Gruppen, gecoacht von Dozierenden; Am Ende dieses Zeitraums wird überprüft, ob sie ihre erlernten Kompetenzen anwenden können: beispielsweise in Form von fiktiven Unternehmensversammlungen, Präsentationen oder Ausstellungskonzepten.

Erfahre mehr über das CORE-Prinzip

RANKINGS

Spitzenplätze bei Hochschulrankings

CHE-Ranking

Jahr für Jahr belegen unsere Studiengänge Spitzenplätze im CHE-Ranking. Für das anerkannte Ranking untersucht das Centrum für Hochschulentwicklung jedes Jahr Studiengänge von mehr als 300 Universitäten und Hochschulen in unterschiedlichen Fachbereichen. Neben Fakten zu Studium, Lehre, Ausstattung und Forschung umfasst das Ranking Urteile von rund 120.000 Studierenden über die Studienbedingungen an ihrer Hochschule.

[Hier geht's zum CHE-Ranking](#)

Internationaler Hochschulvergleich U-Multirank

Auch beim internationalen Hochschulvergleich U-Multirank hat die SRH Hochschule Heidelberg sehr gute Bewertungen erzielt. Im Bereich internationale Ausrichtung erreichte die Hochschule beim Anteil der internationalen Lehrkräfte die Bestnote A. Auch die Mobilität der Studierenden ins Ausland sowie der Anteil an internationalen Master-Programmen wurde als überdurchschnittlich gut bewertet. U-Multirank, eine Initiative der EU-Kommission, wertet jedes Jahr die Qualitätskriterien von fast 1.800 Hochschulen in 92 Ländern aus. Mehr als 100.000 Studierende beteiligten sich am Ranking.

U-Multirank

AUDIT

Familienfreundliche Hochschule

Die SRH Hochschule Heidelberg engagiert sich bereits seit vielen Jahren in der Personalpolitik, aber auch im Studierendenservice für familiengerechte Arbeits- und Studienbedingungen. Nach dem vierten *audit berufundfamilie / audit familiengerechte hochschule* kann hat unsere Einrichtung 2020 das *Zertifikat audit familiengerechte Hochschule* mit dauerhaftem Charakter erhalten. Neben Homeoffice-Möglichkeiten und flexiblen Arbeitszeitmodellen ermöglicht ein Eltern-Kind-Zimmer es den Mitarbeitenden und Studierenden, an der Hochschule zu arbeiten oder zu lernen, während ihre Kinder spielen. Nach der Elternzeit oder in einem Pflegefall unterstützt die Hochschule bei der Wiedereingliederung in den Berufsalltag.

The EU Blue Card is a residence permit for University graduates and third-party nationals with specific professional experience, which facilitates and promotes the permanent immigration of highly-qualified workers to Germany from non-EU countries.

Conditions

Further information on the detailed requirements for an EU Blue Card application can be found at www.make-it-germany.com.

Competent authorities

Validity of the EU Blue Card

The EU Blue Card is a temporary residence permit that is issued for a period of four years as a matter of principle. If the duration of the employment contract is shorter than four years, the EU Blue Card is issued for the duration of the employment contract, plus three months. However, an employment contract or binding offer of employment for a period of at least six months is required in all cases. If the conditions are met, it can be extended. The competent foreign office can suspend a change in job of an EU Blue Card holder for 30 days and reject it within this period in the first twelve months of employment.

If you live outside the EU, you will generally require a visa for the purpose of gainful employment which will be issued by the competent German diplomatic mission. You can enter Germany on this visa. Prior to expiry of the visa, you must subsequently apply to the local immigration authority for the EU Blue Card.

The following exceptions apply:

- Nationals of Australia, Canada, Israel, Japan, the Republic of Korea, New Zealand, the United Kingdom of Great Britain and Northern Ireland and the United States of America may enter Germany without requiring a visa, and must subsequently apply for the EU Blue Card at the immigration authority that is responsible for the place where they live within three months. They may take up employment once the EU Blue Card has been issued.
- Individuals who have held an EU Blue Card in another EU Member State for at least 12 months may enter Germany without requiring a visa. They have to apply for an EU Blue Card in Germany at the immigration authority that is responsible for the place where they live within one month of entering the country.
- Individuals who are already living in Germany and hold another residence title may file an application for the EU Blue Card with the immigration authority competent for their place of residence.

Benefits of the residence title

Good to know!

An EU Blue Card can be applied for in all EU Member States apart from Denmark and Ireland. Slight differences apply with regard to the conditions, such as the amount of the gross annual salary.

- There is a legal entitlement to an EU Blue Card if the conditions are met.
- The EU Blue Card simplifies the requirements for mobility within the European Union.
- Relaxation of the conditions for family reunification: Your family members enjoy less stringent conditions pertaining to family reunification. Spouses are entitled to issuance of a residence title without requiring a knowledge of German, for example, and are granted immediate and unlimited permission to take up employment.
- Faster acquisition of a settlement permit: Holders of an EU Blue Card will receive a settlement permit after 33 months in Germany if they have been in highly-qualified employment and paid contributions into a pension fund during this period, and are able to make themselves understood in German on a basic level. The qualification period is shortened to 21 months for persons with an adequate knowledge of German (level B1).

You must meet the following additional pre-conditions:

- basic knowledge of the legal and social order and of living conditions in Germany,
- sufficient living space for you and your family members living with you in the same household,
- secured subsistence,
- proof of holding all permits required for permanent employment,
- the granting of a settlement permit must not be precluded by reasons of public safety and order.

The legal basis

- Section 18 of the Residence Act Policy on immigration by skilled workers
- Section 18c of the Residence Act Settlement permit for skilled workers
- Section 18g AufenthG (German Residence Act) EU Blue Card
- Section 19f of the Residence Act Grounds for rejection
- Directive (EU) 2021/1883

YOUR COURSE CONTENT

What you will learn

Blockchain technology is the basis of cryptocurrencies like Bitcoin and enables a secure and transparent record of data and transactions, leading to a variety of uses beyond the financial world. Your technical expertise in the field of blockchain technology focuses on the areas of cryptography, decentralized systems, programming of smart contracts and knowledge of various blockchain protocols and technologies such as Ethereum, Bitcoin, Hyperledger, etc. During your studies you will also learn technical, methodological, social and Personal competences that ultimately flow into action competence.

Your course content in detail

YOUR CAREER PROSPECTS

Our innovative approach that pays off

The fact that the profession of Blockchain Technology Engineer offers excellent career opportunities is due, among other things, to the growing importance of information technology and the corresponding increase in demand for young professionals.

Companies and organizations are increasingly looking for professionals in this field to optimize their processes - In recent years, the number of graduates has always been smaller than the annual demand for engineers of blockchain technology.

Your career options include: Blockchain Expert in logistics, energy, healthcare or the financial industry.

ADMISSION REQUIREMENTS

Our requirements

You can be admitted to study at the SRH University Heidelberg if:

you have a 7-semester bachelor's degree in electrical engineering, computer engineering, communications engineering, or

similar.

and if you have also successfully completed our selection process, that also includes sufficient knowledge of English.

You do not qualify? No problem, SRH has its International College for students who do not qualify for direct entry into our programmes or need to bring up their English language level. You can choose from our Foundation programmes at the College. This is a direct pathway into our university. Find more about here . <https://www.srh-international-college.de/>

FEES AND FUNDING

Your tuition fees

Our tuition fees for the Information Technology course with a focus on Blockchain Technology (M.Eng.) are €770 per month; you also pay a one-time enrollment fee of €750.

If you come from a non-EEA country without a settlement permit, the enrollment fee is €1,000 – we ask you to pay the tuition fees for one semester in advance. From the second semester, payments for the remaining semesters are due six weeks before the end of the study period that has already been paid for. Payments are to be made every semester.

You can find more information and payment modalities in the current fee schedule (valid from April 1st, 2023).

[Fees schedule EEA students](#)

[Fees schedule non-EEA students](#)

APPLY NOW

Application process and deadlines

We look forward to welcoming you to the SRH University Heidelberg soon! We do not have application deadlines. Your application process looks like this:

If you are interested in the Information Technology master's program with a focus on blockchain technology, you can send us your application easily and conveniently online.

If you have any technical difficulties with the online application or if you have any questions about your application, your contact person Simin Chen will be happy to help.

If you meet the admission requirements, we will invite you to a selection interview

If the selection interview is successful, you will receive the acceptance and the study contract from us. You sign the study contract and send it back to us

You pay the registration fee

If you come from a non-EU country, you pay your tuition fee one semester in advance in addition to the registration fee. From the second semester onwards, payments for the remaining semesters are due six weeks before the end of the study period that has already been paid for. Payments are to be made every semester.

We will issue your admission notice

You take part in our Ready-to-Start days - and off you go with your studies!

APS Certificate

Please note that special conditions apply to applicants from some countries:

India

From 1st of November 2022, applicants from India will be required to have their documents verified by the Academic Evaluation Centre New Delhi (APS-India) before applying for a visa. After successful verification you will receive a certificate which allows you to initiate the visa process. Please note that the verification process at APS-India is expected to take approximately 4 weeks. We recommend that you apply for the APS certificate at the same time as you apply to SRH University Heidelberg. For more information, go to the APS-India website: www.aps-india.de

The People's Republic of China

The procedure of the Academic Evaluation Centre of the Cultural Section at the German Embassy in Beijing (Akademische Prüfstelle – APS) must have been successfully completed before you apply. The centre checks documents for authenticity and conducts interviews. The original APS certificate must be enclosed with the application documents. For more information, go to the APS website at: www.aps.org.cn .

Please note that you don't need to complete the APS procedure if you apply for our 3+1 programmes.

Vietnam

The Academic Evaluation Centre of the German Embassy in Hanoi has been checking the university entrance qualifications of Vietnamese applicants since 2007. The procedure includes checking the submitted written documents as well as an interview with the applicant. An original copy of proof of successful completion of this process, the APS certificate, must be enclosed with the application documents.

Tell us, what are you doing right now and what does your professional life look like?

I am the CEO and Managing Director at Glanzify UG, Heidelberg, the startup I founded during my Master's programme in International Business Engineering at SRH Heidelberg. My professional life is a dynamic mix of responsibilities, including

research, product development, business strategy, and overall company management. This role constantly presents both professional and personal challenges.

I'm deeply engaged in advancing our groundbreaking technology for the dental industry, which streamlines clear aligner manufacturing, potentially revolutionizing the sector by reducing manufacturing time, costs, and raw materials by nearly 90%. Our fully automated machines not only boost efficiency but also simplify tasks for dental technicians. Glanzify's machines are suitable for dental laboratories and businesses looking to establish their clear aligner manufacturing facilities.

The journey from the company's inception to its current state, with upcoming phases, has presented a diverse array of challenges. These challenges have been invaluable in facilitating my continuous learning and growth.

What makes your industry so exciting for you?

The additive manufacturing industry, specifically focusing on dental technology, is profoundly exciting to me. It's a sector that continuously presents new challenges and opportunities. The dental industry, in particular, is ripe for innovation, and that's what makes it so intriguing. The primary motivation behind my passion for this field is the ability to solve real-world problems and make a positive impact.

Our technology at Glanzify has the potential to significantly reduce the manufacturing time, cost, and raw material required for clear aligners. The prospect of transforming an industry by addressing a critical issue, such as cost-intensive treatment, and enabling access for a broader range of people is what keeps me driven and engaged. It's also a constantly evolving field, with the challenge of achieving certifications for the EU and US markets, which adds another layer of excitement to my work.

How do you imagine your future professional career? What career paths, opportunities for advancement or professional fields would you like to pursue in the next few years?

As I reflect on my future professional career, I envision a continued commitment to entrepreneurship. The journey with Glanzify has been immensely fulfilling, and I aim to further expand the company's reach and offerings. In the coming years, I foresee myself investing a significant portion of my time understanding the industry problem and finding the solutions for it.

Additionally, I plan to see Glanzify grow globally with a well-established team. While I'm deeply committed to my current venture, I'm confident that my ongoing focus on entrepreneurship and innovation will open doors to exciting opportunities, and I'll be ready to embrace them when the time is right.

The transition from studying to working is always exciting. How do you remember this period? Were there any special challenges?

The phase during my graduation was a bit of an unconventional journey, especially as there were no fellow students who had successfully started a company. Most of my peers were actively seeking traditional job opportunities, but the path I was choosing was distinct. This entrepreneurial pursuit brought forth a unique set of challenges, but it was an exciting and transformative period in my life.

Being an entrepreneur in a foreign country presented numerous challenges. I had no established business networks, grappled with a language barrier, and encountered financial hurdles. Furthermore, the initial team members who initially joined me on this journey had to depart for their own reasons, leaving me to navigate these challenges independently. Yet, what I learned during this phase was the incredible power of self-belief. It's the unwavering belief in oneself that empowers us to tackle even the most formidable challenges.

During my second year of studies, I began working on my business idea, constantly considering how the management and business strategies I was learning in my course could be implemented in my own venture. I wholeheartedly embraced entrepreneurship as, even before I completed my final thesis, I was able to secure government grants to launch my startup, setting the stage for the extraordinary journey I'm embarked on today.

How did you experience the collaboration with the professors?

The guidance and mentorship I received from my professors particularly Prof. Dr. Rüdiger Fischer and Prof. Bernhard Küppers and Mr Felix Kirschstein at SRH Heidelberg were instrumental in shaping my journey. They not only imparted knowledge but also instilled the belief that with dedication and hard work, any goal is attainable.

What made your studies at SRH University Heidelberg special?

The best thing about studying is the way it transforms you. It's not just about gaining knowledge, it's about pushing your boundaries, embracing new challenges. It's a journey of self-discovery and personal growth, each lesson a stepping stone to a brighter future. Studying sparks your evolution, making you better and more inspired, ready to tackle whatever comes your way.

What have you learnt from your studies that is helpful in the working world?

My studies provided a solid foundation, not only in terms of knowledge but also in critical skills like time management, teamwork, and problem-solving. This preparation has been invaluable in navigating the complexities of the professional world.

Prof. Dr. Mohammad R. Ghomi came to our university in April 2022, funded by the DAAD grant (Project ID: 57604672) from the Federal Ministry of Education and Research (BMBF). In addition to teaching Water Technology, he also teaches International Business and Engineering and various Master and Bachelor classes at the School of Engineering and Architecture. He has also been contributing his knowledge in the field of statistics and application of SPSS throughout the school. He has revealed what brought him to Heidelberg and how he likes it here in a short interview.

Welcome to SRH University Heidelberg, Dr. Ghomi! Why did you choose to come to Heidelberg?

Mainly, I wanted to improve my academic activities.

Have you been to Heidelberg before?

No, it's my first time. I haven't had any free time to explore the city yet, but I'm looking forward to doing so!

What do you particularly like about the city?

I like the nice and friendly people here.

What do you like about our university?

I have friendly and modest colleagues, and I see great potential to move forward in innovative applied sciences.

What is the focus of your work here?

I am involved in the design and construction of technical devices to improve water quality. How can we save water and reuse it as much as possible? This is important in light of the scarcity of water resources around the world.

What are the biggest differences from your home university?

Compared to my home university, SRH University Heidelberg is better prepared to support both lecturers and students in terms of practical orientation and application of study content.

What will you take with you from here?

A lot of experiences and a fair bit of enrichment in my knowledge.

YOUR COURSE CONTENT

What you will learn

Imagine you want to develop a product and sell it profitably. You will learn what you need to do this with us! You will learn to explain how scientific forces can attack a product (technical mechanics), why it may then fail (materials engineering), what manufacturing techniques are available to restore the product (production engineering), and what all this has to do with electrical engineering - this is how we lay the engineering foundations. Then we move on to economics:

Your course content in detail

Our innovative approach that pays off

You are both a specialist and a generalist and are in demand in projects and companies worldwide. As an interface between technology and business, you speak both languages and mediate between different ways of thinking. You combine technical-scientific and economic-social-scientific content with ease.

You can overcome barriers between technology and management. You plan, organise and design work and business processes of all kinds. This will enable you to gain a professional foothold wherever technical and commercial challenges meet.

ADMISSION REQUIREMENTS

Our requirements

You can be admitted to study at SRH University Heidelberg if

you have a general higher education entrance certificate (Abitur), a subject-specific higher education entrance qualification (fachgebundenes Abitur) or an entrance qualification for studies at universities of applied sciences (Fachhochschulreife),
or you can demonstrate at least two years of vocational training and a minimum of three years' professional experience, and have passed an aptitude test,
and you have additionally passed our selection process.

English language proficiency:

IELTS 6.5

TOEFL 80

Duolingo Certificate 110

PTE Academics 58

or a comparable test

You do not qualify? No problem, SRH has its International College for students who do not qualify for direct entry into our programmes or need to bring up their English language level. You can choose from our Foundation programmes at the College. This is a direct pathway into our university. Find more about here . <https://www.srh-international-college.de/>

FEES AND FUNDING

Your tuition fees

Our tuition fees for the Business Engineering (B.Eng.) degree programme are €690 per month; you will also pay a one-off enrolment fee of €750 (Prices apply only to students from the European Economic Area).

Applicants from Non-EEA countries without permanent residence permit need to pay a tuition fee of 5,500 EUR per semester + one-time registration fee of 1,000 EUR and must pay the tuition fees for one semester in advance. From the second semester

onwards the payments for the remaining semesters of study are due six weeks before the end of the period of study already paid for. The payments have to be done semesterwise.

For more information and payment modalities, please refer to the current fee schedules (valid from 01.04.2023):

[Fees schedule EEA students](#)

[Fees schedule non-EEA students](#)

APPLY NOW

Application process and deadlines

If you are interested in studying industrial engineering, you can send us your application online via the applicant portal. We will then carry out an applicant test, which includes tasks from the following areas:

Language comprehension English

Mathematical understanding

LogicAttention and concentration

General knowledge

After the successful applicant test, an interview follows in which we want to get to know you personally and use the following criteria to assess whether you are suitable for the industrial engineering degree programme:

Motivation to study

Realistic expectations

Self-management

APS Certificate

Please note that special conditions apply to applicants from some countries:

India

From 1st of November 2022, applicants from India will be required to have their documents verified by the Academic Evaluation

Centre New Delhi (APS-India) before applying for a visa. After successful verification you will receive a certificate which allows you to initiate the visa process. Please note that the verification process at APS-India is expected to take approximately 4 weeks. We recommend that you apply for the APS certificate at the same time as you apply to SRH University Heidelberg. For more information, go to the APS-India website: www.aps-india.de

The People's Republic of China

The procedure of the Academic Evaluation Centre of the Cultural Section at the German Embassy in Beijing (Akademische Prüfstelle – APS) must have been successfully completed before you apply. The centre checks documents for authenticity and conducts interviews. The original APS certificate must be enclosed with the application documents. For more information, go to the APS website at: www.aps.org.cn .

Please note that you don't need to complete the APS procedure if you apply for our 3+1 programmes.

Vietnam

The Academic Evaluation Centre of the German Embassy in Hanoi has been checking the university entrance qualifications of Vietnamese applicants since 2007. The procedure includes checking the submitted written documents as well as an interview with the applicant. An original copy of proof of successful completion of this process, the APS certificate, must be enclosed with the application documents.

Next Application Training: Applying successfully for a job in Germany a Workshop by Welcome Center Rhein-Neckar

Are you an international student and planning to look for employment in Germany after graduation? You're probably wondering how to prepare your application documents and what criteria a recruiter looks for when deciding whether to invite someone for an interview. Then once you land the interview - what questions can be asked, how do you answer them, and how do you best convey your skills in the short time available? All these questions, as well as other topics concerning your application, will be explained in detail in the ISW workshop.

Content Update:

During the second part a presentation by Aline Plachky (Expert Talent Acquisition, Deutsche Bahn) will be included. Get informed about recruitment by DB and working options for international students / experts

Dates (German time):

First part: Wednesday, November 30th, 2022 from 04:00 to 07:00 pm in English

Second part: Wednesday, December 07th, 2022 from 04:00 to 07:00 pm in slow German

Workshop Language:

A first part of the workshop will be conducted in English. A second part in slow German (German language skills are desirable - B1). If you are preparing for a job application or interview and would like to brush up on your German language skills, this workshop is for you. Sign up, we are looking forward to it!

Event place:

The workshop is taking place in a face-to-face mode; if conditions do not permit, it will be held digitally via MS Teams.

Fees:

The workshop is finance by the "Welcome Center Rhein-Neckar" with the support from the Ministry of Economy, Labour and Tourism Baden-Württemberg. The workshop is free of charge for the participants

Certificate:

After successful participation in the workshop you can receive a certificate from the General Studies Programme of SRH University Heidelberg and possibly gain Credit Points. The decision of recognition of this CPs can only be made by the faculty.

Register via CampusNet as of October 17th, 2022.

Kalendereintrag

Immer mehr Menschen sind der Meinung, dass die Chancen für die Entwicklung von Führungsqualitäten bei jungen Erwachsenen ungleich verteilt sind - sehr zum Nachteil von Frauen. Dieser Workshop befasst sich mit einigen der neuesten wissenschaftlich untermauerten Erkenntnisse, um Verständnis zu schaffen, (Selbst-)Bewusstsein zu erzeugen und das

Selbstvertrauen zu stärken. Denn alles beginnt mit deiner Einstellung!

Programm:

10:00 – 12:30 Uhr | Intro + Warm-up | Leadership Identity | Warum sind wir hier? Was erwarten wir? Gegenseitiges Kennenlernen (und Vertrauen).

12:30 – 13:00 Uhr Kaffeepause mit Snacks

13:00 – 14:30 Uhr | Leadership Identity II & Theory Definition, Bedeutung und Interpretation von Führung. Notwendigkeiten und Hindernisse, um eine gute Führungskraft zu werden - aus weiblicher Sicht. Bedeutung des Umgangs mit Initiative, Risiko, Wettbewerb und Wettkampf.

14:30 – 16:00 Uhr | Krav Maga Externer MMA-Experte Selbstbewusstsein schaffen und Selbstvertrauen stärken.

16:00 – 18:30 Uhr | Women + Leadership Externe Managerin teilt eigene Erfahrungen. Q+A mit externer Managerin

18:30 – 19:00 Uhr | Outro + Pizza Zusammenfassung des Tages und Zukunftsausblick

Prof. Dr. Carsten Held

Fakultät für Wirtschaft | Prodekan | Professor | Studiengangsleiter International Management and Leadership (M.A.) & Global Business and Leadership (M.A.)

Alina and Luk wished their two successors success and fun. The president of our university, Professor Dr Carsten Diener, also warmly welcomed the SV's two new representatives.

The SV has been in existence for a good two years, and in that time a lot has happened at our university. The group, which brings together all Student Representative Committees (*Fachschaften*) as well as the student representatives of the Senate and the Faculty Board (*Fakultätsrat*), organizes events and helps articulate and campaign for general student interests.

Nico is in his fourth semester of Media and Communication Management; Yori is in her 6th semester of Psychology. "I enjoy being involved for others outside of classes, and making sure things happen," said Yori, describing her motivation for joining the SV. Nico explained, "I've already met a lot of people and made friends in the SV. You might have to find the committee that suits you, but it's always worth getting involved!"

The two of them have a lot of plans for the Student Assembly, and they agreed that, "The SV's development is incredibly strong right now!" This year, there has been a big change already: the budget for each Student Representative Committee is no longer allocated by the corresponding faculty, as it used to be, but the SV takes care of the distribution of an overall budget. "In the past, the budgets were somewhat inconsistent," remarked Yori. "It's a big responsibility that now rests on our shoulders, but this brings more structure to the issue." Improving communication both internally and externally is another priority for this year, as well as increasing the SV's visibility and hosting more events. The first event is just around the corner: the SV has begun promoting participation in the National Center for Tumor Diseases's NCT Run, which will take place on campus on 8 July. "We also want to network more closely with the other SRH universities. They have similar concerns to us, and so we can speak with a stronger voice," Nico noted. These dedicated student leaders are also always happy to welcome new students. "We meet publicly every week. You're always welcome to join us as a guest, or to voice your concerns to us!"

You can contact all student committee representatives via Moodle

SRH University Heidelberg received top marks from its students majoring in Business Administration and Business Law in the latest CHE University Ranking. The university scored in the top group for the criteria of support, study organisation, and exams. Praise was accorded in both majors for very good contact with the industry. In addition, the Business Administration students were very satisfied with the support provided during studies and for stays abroad, courses offered, support during the practical phase, and job market preparation. Students majoring in Business Law particularly praised the overall study situation and contact with the industry. The Business Psychology major was included in the CHE University Ranking for the first time this year. Support during the study entry phase and contact with the industry were evaluated as very good in this major at SRH University Heidelberg.

"We are delighted by the outstanding achievement of our university in the current CHE University Ranking," says Prof. Dr. Carsten Diener, President of SRH University Heidelberg. "We want to equip our students for success by giving them the skills they need for their future careers. The fact that we score so well in the criteria of support and practical phase support, reaffirms this approach." SRH University Heidelberg teaches according to the CORE Principle (Competence-Oriented Research and Education), which puts the focus on the students and gives them skills for their professions in a targeted way. "In our study model, students concentrate on a subject for five weeks, then take an exam. These exams are practice-oriented and measure precisely the skills the students will need for their future careers," explains Prof. Dr. Carolin Sutter, Head of the SRH Academy of Higher Education. "The good evaluation by the students for these criteria shows that they appreciate this approach."

The students give positive mention, especially to the way exams are spaced out over time, the transparency of the system, and the match between the courses offered and the exam requirements.

In this year's university ranking, for which CHE assessed more than 300 universities, SRH University Heidelberg is represented in the subject areas of Business Law, Business Administration, and Business Psychology. Degree programmes in International Business, Engineering, and Business Informatics also received positive evaluations. In addition to the course of studies, teaching, facilities, and research, the ranking includes judgements from approximately 120,000 students on the study environment at their university.

The results in overview:

Business Law

Ranked in the top group in the criteria of study situation, study organisation, contact with the industry, exams, and rooms; the ratings in this major make SRH University Heidelberg one of the best universities in a Germany-wide comparison. "Extremely motivated instructors and very good connection to practice," writes one student in the detailed evaluation in the ranking.

Business Administration:

Ranked in the top group in the criteria of courses offered, study organisation, support services, support in studies, exams, stays abroad, job market preparation, rooms, and support during practical phase. Support during the study entry phase and the international orientation are also above average. "One of the aspects I appreciate most about SRH is the teaching method, which is very engaging and interactive," says one student.

Business Psychology:

Very good evaluations in the criteria of support during studies and contact with work environment.

The CHE University Ranking

The CHE University Ranking is a very detailed assessment of hundreds of thousands of students at German and Austrian higher education institutions, regarding all aspects of their university - there are numerous features considered, including teaching, the programmes, equipment, research, support and more. Each year different fields of study are assessed and then reassessed every 3 years in a cycle. This year contained business-related topics, whereas other subjects offered at the university will be assessed in the coming years.

VISA

How to get your student visa

Obtaining a visa is one of the most important first steps for prospective students from abroad. Whether you need a visa or not depends on which country you come from. Please note that the visa process can be long, so make sure you start the application process as soon as possible.

Do I need a visa?

How long does it take to get my visa?

What type of visa do I have to apply for?

What documents do I need?

What is a blocked bank account?

ON CAMPUS

Getting started in Heidelberg

Living and studying in a foreign country and discovering an unknown culture may be a challenge at first. But you will overcome the culture shock: learn some German, try German bread, go to some traditional festivities, and travel to get to know your new home!

The International Office will organise a **Mandatory Orientation Session** during your first week, providing you with some social and cultural advice and connecting you with other SRH students. And we will be there to assist you with formalities or any problems you may encounter.

1. Enrolling at Student Services

2. Get your Semester Ticket to use public transport

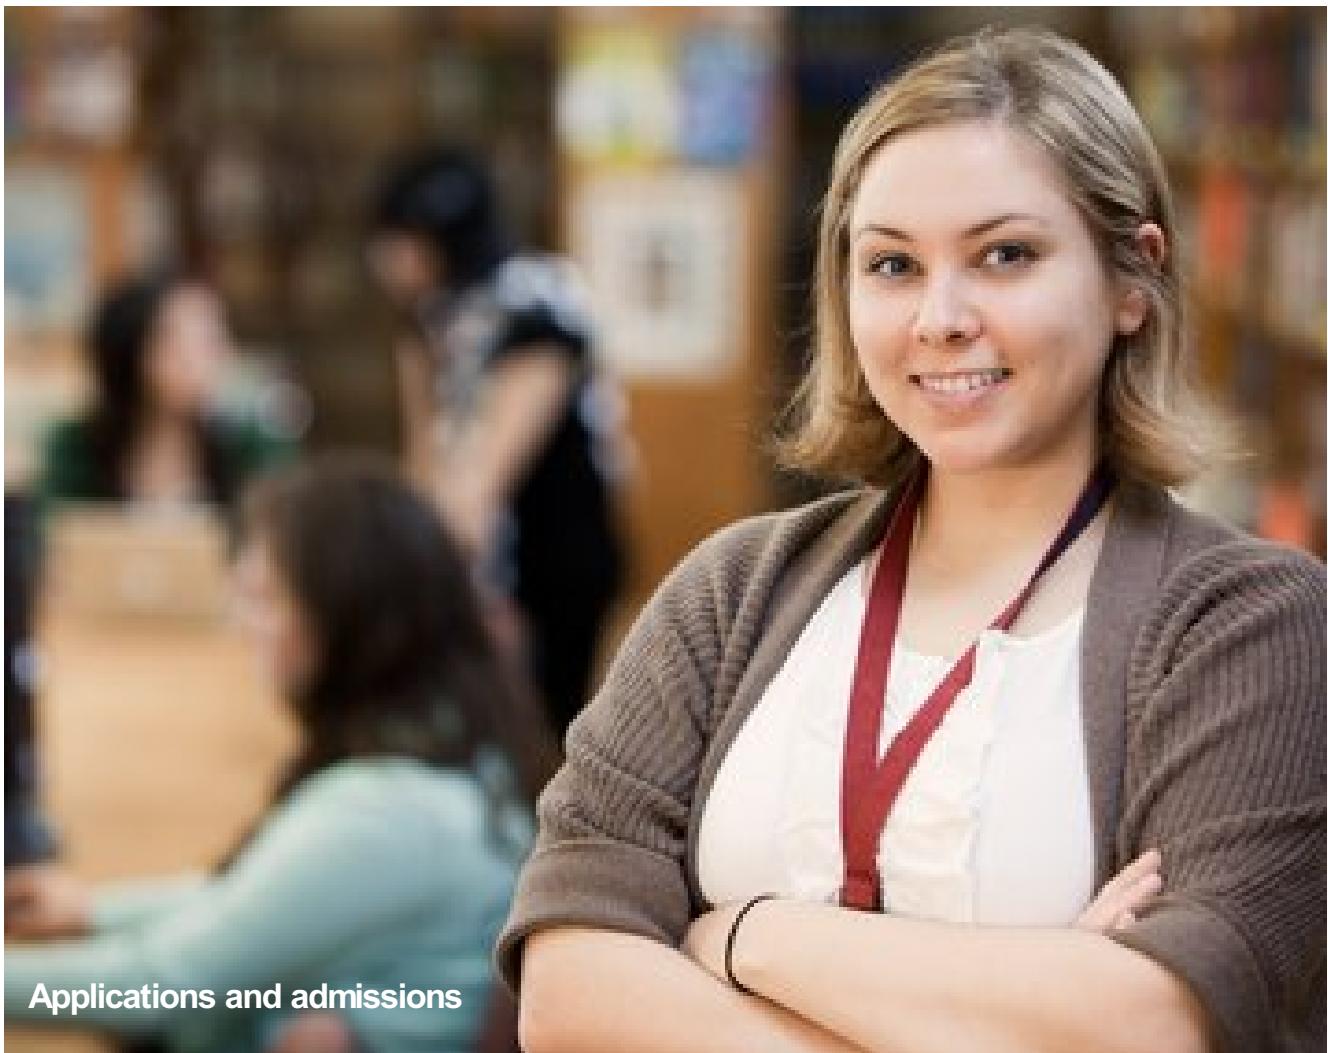

3. Go to the Residents' Registration Office (Bürgerbüro)

4. Get your residence permit (Ausländerbehörde)

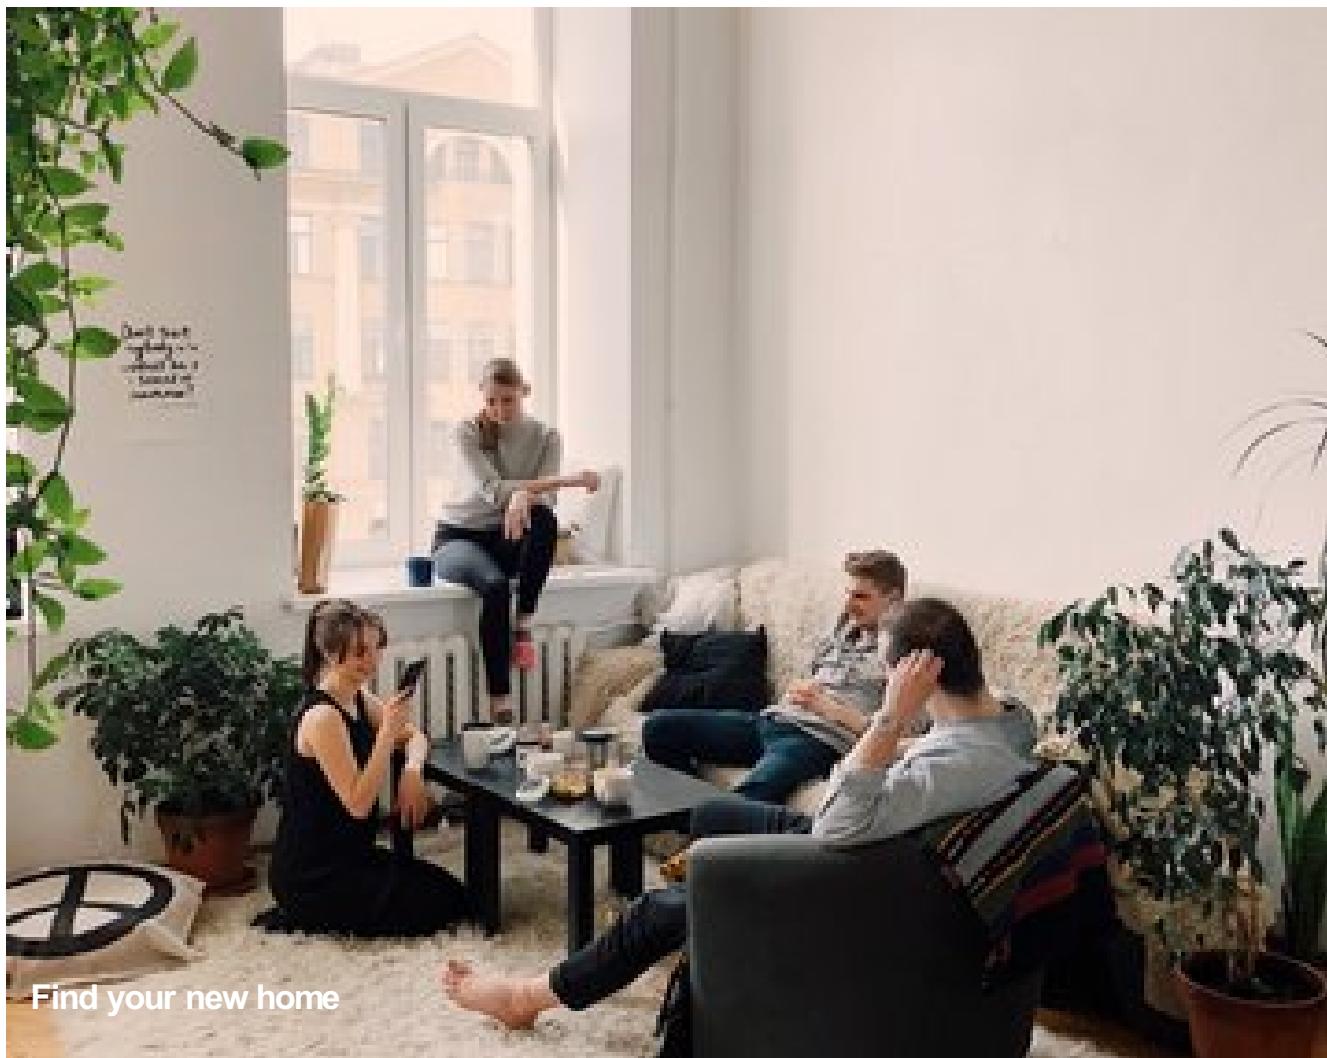

5. Open a Bank Account

CAREER SERVICE NETZWERK DEUTSCHLAND E. V.

Der Verband der Career-Service-Einrichtungen an deutschen Hochschulen und Wissenschaftseinrichtungen

2003 haben bestehende Career Services das Career Service Netzwerk Deutschland e. V. (csnd) gegründet. Heute hat der csnd fast 200 Mitglieder. Hierzu zählen Hochschulen sowie Mitarbeitende von Career-Service-Einrichtungen. Als Mitglieder des Verbands engagieren sie sich alle dafür, berufsvorbereitende Angebote an Hochschulen und Wissenschaftseinrichtungen weiter auszubauen und Studierende und Graduierte mit potentiellen Arbeitgebenden zu vernetzen.

Um dies zu erreichen, arbeitet der csnd eng mit der Hochschulrektorenkonferenz (HRK) zusammen, welche mit einem ständigen Vertreter im Vorstand aktiv an der Arbeit des Verbands mitwirkt.

18. JAHRESTAGUNG DES CSND

Vom 13. bis 15. März 2024 fand an der Hochschule für Wirtschaft und Recht Berlin die 18. Jahrestagung des csnd statt. Unter dem Motto „**Ökologisch. Ökonomisch. Sozial. – Career Service-Arbeit im Dreiklang der Nachhaltigkeit.**“ diskutierten wir, welchen Beitrag Career Services zur nachhaltigen Entwicklung leisten können. In zahlreichen Workshops und Vorträgen widmeten wir uns der Frage, wie Nachhaltigkeit Eingang in die Career-Service-Arbeit finden kann.

[Fotos und Informationen zur Jahrestagung in Berlin](#)

UNSERE ARBEITSFELDER

**Als Verband der Career-Service-Einrichtungen deutscher Hochschulen und
Wissenschaftseinrichtungen engagieren wir uns:**

- für die Etablierung des **Aufgabengebiets der Career Services** an Hochschulen und Wissenschaftseinrichtungen,
- für die Erarbeitung und Sicherstellung von **Standards** zur Professionalisierung der Career-Service-Arbeit,
- für eine aufgabenspezifische **Qualifizierung** seiner Mitglieder,
- als Schnittstelle für alle, die am Prozess der Gestaltung des Übergangs vom Studium in den Beruf beteiligt und Kontakt für nationale **Partner**

Engagement ist uns wichtig. Wir laden Sie herzlich ein **Mitglied im csnd e.V. zu werden und sich mit uns gemeinsam für die Karrieren von Studierenden und Graduierten einzusetzen!**

Die Hochschulrektorenkonferenz hat auf ihrer Mitgliederversammlung am 16. November 2021 die Entschließung zur „**Beratung im Student Life Cycle durch die Hochschulen**“ verabschiedet. Darin wird auch die Beratung der Studierenden durch die Career Services als integraler Bestandteil der Hochschulaufgaben herausgestellt.

For many, it is a privilege to be able to study at a private university in Germany. Scholarships awarded for outstanding achievements or social commitment can help pave the way to success.

The German Academic Exchange Service (DAAD) is the world's largest funding organisation dedicated to promoting the international exchange of researchers and students. Every year, the DAAD also awards scholarships to students from all over the world to enable them to continue their postgraduate studies in Germany. Three international students at SRH University Heidelberg have been fortunate enough, and sufficiently accomplished, to receive one of these coveted DAAD scholarships. The prerequisite for such a scholarship is the ability to demonstrate political, social, cultural or civic commitment.

Maria Panagi, Gohar Matevosyan and Samantha DeCarlo – these are the names of the three scholarship holders at SRH. All three are studying one of the creative therapies, either Dance Movement Therapy or Music Therapy.

"It is a pleasure to be able to study in the heart of Europe, in a beautiful city like Heidelberg with renowned professors," remarked Maria from Cyprus. A friend of hers told her all about the DAAD scholarship, and encouraged her to apply.

In Samantha's case, it was less a spontaneous decision than a long-held dream of studying in Germany that inspired her to apply. Her mother was also awarded a DAAD scholarship when she was a student, and she used this knowledge to teach Samantha German from an early age. "Even though my German wasn't perfect, constantly speaking and listening to the German language gave me the dream of being able to live and learn in Germany," said the young US American.

Zu unseren Stipendien

» Sometimes I can't believe that what I am studying is what I am. I believe in the power of music therapy, and I am so grateful for the opportunity to study and practise this therapy. «

— Samantha DeCarlo, student of Music Therapy

As early as 32 years ago, the DAAD also supported the American Professor Dr. Douglas Keith, whose scholarship enabled him to focus on music therapy in Germany. He now teaches this very subject at SRH University Heidelberg, where he heads the Creative Therapies degree programmes. "None of this would have been possible without the DAAD," commented Keith. He is still in possession of his scholarship letter, and is grateful for the support that scholarship holders receive every year.

» People with DAAD backing benefit from it for life. «

— Prof. Dr. Douglas Keith, Study Programme Director Music Therapy (M.A.)

Music therapy also has a special meaning for Gohar, one of the current scholarship holders: she experienced first-hand the war over Nagorno-Karabakh in Armenia, her home country. Gohar volunteered daily to help assist both civilians and soldiers. These experiences prompted her to use music therapy for wounded soldiers in the future, to alleviate their suffering. She did not leave Armenia alone though: the DAAD also helped Gohar's husband to obtain a visa, enabling them to enter the country together. In Germany, the couple are now learning German together and finding out about life in Heidelberg: "We miss the sunny Armenian weather, but hope to experience lots of spring flowers and sunshine here in Heidelberg."

All three scholarship holders have their favourite places in Heidelberg: the Old Town, the Old Bridge and, of course, the Philosophenweg (Philosophers' Walk).

We wish them every success in their studies and lots of fun in our beautiful city!

Research is to become a global experience: SRH University Heidelberg has developed the "International Research Experience @SRH" project in a bid to further promote the internationalisation of the university while at the same time encouraging students to embark on a career in science. The partner universities involved in the project are the University of Minho, the Moscow State University of Civil Engineering and Clarkson University. The partner companies ProMinent GmbH and metris Architekten + Stadtplaner support the project in terms of content.

The project, which will initially be implemented in the model degree programmes of Architecture and Water Technology, is based on three elements: in the Research Event Series, Master's students are invited to attend virtual events and workshops and to take part in a research-based project week. The second element involves establishing a Graduate Centre, which will pave the way for cooperative PhD programmes with partner universities abroad. Finally, the cooperation database will help to intensify the cooperation between the international partners from science and industry, and expand the network.

"The programme is about highlighting international career opportunities and opening up new career paths in academia," stated Professor Dr. Carsten Diener, President of SRH University Heidelberg. Diener heads the international research project for which the DAAD will provide funding from 2022 to 2025. "Research becomes an international experience."

They are keen to develop their personality and hope for better opportunities on the job market: a stay abroad is a great way for students to get ahead. When choosing a university, students mainly base their decisions on a university's good reputation, the attractiveness of a location, and ranking results. These were the findings of a survey conducted by the German Academic Exchange Service (DAAD). A total of 580 students from SRH University Heidelberg, most of them German nationals (65 per cent), took part in the study entitled "Benchmark Internationale Hochschule" (Benchmark International University). They rated the support provided by their university's International Office (IO) as positive, giving it an average score of 4.36 out of 5.

The vast majority of SRH students have no doubt that they will be able to complete their degree within the standard period of study, in spite of the pandemic situation. In fact, 80 per cent of them said as much. In many aspects, SRH University Heidelberg was rated more highly by its students than the reference group, comprising 14 higher education institutions, most of which were state-run. "We are delighted about this positive result," stated Bettina Pauley, Head of the International Office (IO) at SRH University Heidelberg. The IO provides assistance to students wanting to go abroad, helping them to choose the right partner university or internship. The IO team also helps incoming students – those wishing to study at SRH University Heidelberg – in their efforts to find accommodation or sort out visa issues. Besides offering language courses, the IO also organises lots of cross-cultural events to help international students get to know their fellow students.

Study abroad in spite of the pandemic?

It goes without saying that the coronavirus pandemic played a key role in the DAAD study. Asked whether they could imagine using the relevant services online instead of actually studying abroad, the overwhelming majority of students replied in the negative: they would not be able to learn the language as effectively, they would be unable to build a network and, ultimately, they would not gain any intercultural experience. This is exactly why the work of the IO is such an important form of support. Consequently, the international students at SRH University Heidelberg were very satisfied: "The International Office was very supportive during the pandemic situation," was one comment. Another student added: "The International Office has excellent resources, the team is always receptive and goes out of its way to ensure that students have the best possible experience abroad, even during challenging times."

Lots of international activities in spite of the pandemic

At the start of the year, the IO regularly organises a campus rally for all international students; whether on campus or digitally, they all got to know their university and fellow students better. In an effort to promote intercultural exchange, the IO has launched a buddy programme. Local students accompany their international counterparts, helping them find their way around their new university. More than 40 buddy pairs have already been matched. In addition, student ambassadors, acting as central contact persons for the relevant degree programmes, ensure that all international students are made to feel welcome. Joint online courses and an Easter egg hunt, with social distancing and masks, were also held during the year of the pandemic. And if international students had to quarantine for a while upon arrival on campus, the IO made sure they were supplied with provisions and offered online options for getting to know other students.

"A period abroad is a unique experience for all students. It is up to us to ensure that this remains the case in times of the pandemic, too," remarked Bettina Pauley. "Even though we plan to return to more face-to-face classes at the university from winter semester 2021/2022, we are keeping an eye on the specificities of individual countries, enabling us to respond very quickly to the situation at hand. We are in close liaison with our partner universities, and hope that our students will soon be able to go abroad again without any difficulty, observing all health precautions."

YOUR COURSE CONTENT

What you will learn

Dance Movement Therapy and other arts therapies are increasingly popular in healthcare, and the research base for these fields is growing. The degree programme in Dance Movement Therapy takes a total of two years, including an intensive placement phase. The range of classes includes dance therapy techniques, psychological/medical expertise and scientific methods. The degree programme will enable you to use movement analysis and dance therapy techniques for targeted diagnostic purposes. In the campus outpatient clinic and during placements, you will practice the knowledge and skills gained under the guidance of mentors. You will have the opportunity to participate in a wide range of research projects.

YOUR CAREER PROSPECTS

Our innovative approach that pays off

The scientific foundations and the methodological and professional skills gained on the Master's programme in Dance Movement Therapy will enable you to work in a clinical, therapeutic or special needs context (e.g. in psychiatry, neurology, paediatrics or palliative care). You will also be able to pursue a career in research and work towards a doctorate.

Your prospects in detail

ADMISSION REQUIREMENTS

Our requirements

You can be admitted to study at the SRH University Heidelberg if you have:

a Bachelor's degree in the social sciences, humanities or arts

Individual admission is possible for applicants with different backgrounds or other fields of study

Personal and artistic suitability (tested in our personal selection process*)

Documented proof of good English skills: IELTS 6.5 TOEFL iBT 80 (TOEFL code of SRH: 7712) Duolingo Certificate 110 PTE Academic 58 or other proof of English proficiency

You do not qualify? No problem, SRH has its International College for students who do not qualify for direct entry into our programmes or need to bring up their English language level. You can choose from our Foundation programmes at the College. This is a direct pathway into our university. Find more about here . <https://www.srh-international-college.de/>

Admission requirements in detail

FEES AND FUNDING

Your tuition fees

690 EUR per month full-time + one-time registration fee of 750 EUR (Prices apply only to students from the European Economic Area).

Applicants from Non-EEA countries without permanent residence permit need to pay a tuition fee of 5,100 EUR per semester +

one-time registration fee of 1,000 EUR and must pay the tuition fees for one semester in advance. From the second semester onwards the payments for the remaining semesters of study are due six weeks before the end of the period of study already paid for. The payments have to be done semesterwise.

For more information and payment modalities, please refer to the current fee schedules (valid from 01.04.2023):

[Fees schedule EEA students](#)

[Fees schedule non-EEA students](#)

APPLY NOW

Application process and deadlines

We look forward to welcoming you to SRH University Heidelberg very soon.

There are no closing dates for application at our University. This is the application process:

If you're interested in our Master's programme, simply send us your application [online](#).

If you encounter technical difficulties with the online application or have any questions about your application, your contact person Sarah Grabe will be happy to help you.

If you meet the admission requirements, we'll invite you to a selection interview

If you pass the selection interview, we'll send you the acceptance letter and the study contract

You then sign the study contract and return it to us

You pay the registration fee

If you come from a non-EU country, you will pay your tuition fee one semester in advance in addition to the registration fee. From the second semester onwards the payments for the remaining semesters of study are due six weeks before the end of the period of study already paid for.

We then issue your letter of acceptance

You take part in our Welcome Days – and then embark on your degree programme!

APS Certificate

Please note that special conditions apply to applicants from some countries:

India

From 1st of November 2022, applicants from India will be required to have their documents verified by the Academic Evaluation Centre New Delhi (APS-India) before applying for a visa. After successful verification you will receive a certificate which allows you to initiate the visa process. Please note that the verification process at APS-India is expected to take approximately 4 weeks. We recommend that you apply for the APS certificate at the same time as you apply to SRH University Heidelberg. For more information, go to the APS-India website: www.aps-india.de

The People's Republic of China

The procedure of the Academic Evaluation Centre of the Cultural Section at the German Embassy in Beijing (Akademische Prüfstelle – APS) must have been successfully completed before you apply. The centre checks documents for authenticity and conducts interviews. The original APS certificate must be enclosed with the application documents. For more information, go to the APS website at: www.aps.org.cn.

Please note that you don't need to complete the APS procedure if you apply for our 3+1 programmes.

Vietnam

The Academic Evaluation Centre of the German Embassy in Hanoi has been checking the university entrance qualifications of Vietnamese applicants since 2007. The procedure includes checking the submitted written documents as well as an interview with the applicant. An original copy of proof of successful completion of this process, the APS certificate, must be enclosed with the application documents.

Greetings Data Enthusiasts, Innovators, and Learners!

Welcome to the nexus of data-driven brilliance — the "Data and Coffee" Meetup! In a world pulsating with information, algorithms, and insights, we invite you to an immersive experience where data science becomes more than just a field — it's a community, a conversation, and a journey of discovery.

Whether you're a seasoned data pro or just starting your data journey, our meetups are the perfect space to explore, learn, and connect. Don't miss out on the opportunity to discover the latest trends, share experiences, and be part of a vibrant community pushing the boundaries of what's possible with data. Unveiling the Tapestry of Data Science: Embark on a knowledge odyssey with us! This isn't just a meetup; it's a convergence of minds passionate about unraveling the mysteries of data.

What Awaits You:

Lightning Talks: Ignite your curiosity with rapid-fire insights from our community members

Networking Galaxy: Forge connections with fellow data voyagers

Share experiences, ideas, and maybe even embark on collaborative ventures

Panel Constellation: Navigate the cosmos of emerging trends in data science through a dynamic panel discussion

Why This Meetup Matters:

Fuel Your Knowledge: Gain insights from the brightest minds shaping the future of data science.

Connect & Collaborate: Network with professionals, enthusiasts, and learners in the data space.

Empower Your Journey: Whether you're a data wizard or a novice, find inspiration and empowerment in every data point.

Who's on Board?

Data Scientists Analyst Explorers Coding Pioneers Knowledge Seekers ... and YOU!

Prof. Dr.-Ing. Swati Chandna

School of Information, Media and Design | Professor of Data Science | Study Programme Director Applied Data Science and Analytics (M.Sc)

What is personal data?

Personal data is any information that relates to an identified or identifiable natural person. What is essential here therefore is whether a personal reference can be made using the collected data. This includes information such as your name, address, telephone number or email address. Information which is not directly connected to your actual identity, such as favourite websites or number of users of a site, is not regarded as personal data.

How do we collect and process your personal data?

If the online service includes the option to enter personal or commercial data (email addresses, names, addresses, etc.), this data may be disclosed by the user on a purely voluntary basis. Emails are transmitted via a contact form. When you send such a message, your personal data is collected only to the extent necessary to reply. The email is sent in an unencrypted manner. If you have provided us with any personal data, we shall only use this data for the technical administration of the web pages and to respond to your wishes and requests, which as a rule means to process any contract concluded with you or to reply to any queries you may have. The legal basis for processing is Article 6(1)(a) and Article 6(1)(b) GDPR. It is only if you have given us your consent beforehand, or if you – subject to it being provided for under statutory regulations – have not raised an objection, that we will also use this data for product-related surveys, marketing and statistical purposes. In this case the legal basis for processing is Article 6(1)(a) GDPR and Article 6(1)(f) GDPR. Your personal data is not disclosed, sold or transmitted in any other way to third parties unless it is necessary in order to fulfil a contract or you have given your express consent. Any consent granted can be revoked at any time with future effect.

How do we use your personal data and how do we disclose it?

If the online service includes the option to enter personal or commercial data (email addresses, names, addresses, etc.), this data may be disclosed by the user on a purely voluntary basis. Emails are transmitted via a contact form. When you send such a message, your personal data is collected only to the extent necessary to reply. The email is sent in an unencrypted manner.

If you have provided us with any personal data, we shall only use this data for the technical administration of the web pages and to respond to your wishes and requests, which as a rule means to process any contract concluded with you or to reply to any queries you may have.

It is only if you have given us your consent beforehand, or if you – subject to it being provided for under statutory regulations – have not raised an objection, that we will also use this data for product-related surveys, marketing and statistical purposes.

Your personal data is not disclosed, sold or transmitted in any other way to third parties unless it is necessary in order to fulfil a contract or you have given your express consent. Any consent granted can be revoked at any time with future effect.

For how long will my data be stored?

Generally speaking, we store all information that you send to us until the respective purpose, i.e. the contractual purpose, has been fulfilled. This means, for example, until any queries have been resolved, or in the case of newsletters, until you choose to unsubscribe from them. If an extended storage period is permissible by law, the data will be stored within this framework.

If you no longer wish that we utilise your data, we will of course comply with this request immediately (please also refer to the address stated under "Contact").

When will my data be deleted?

The deletion of the stored personal data is carried out if you revoke your consent to such storage, if knowledge of such data is no longer necessary for the fulfilment of the purpose pursued with the storage, or if the storage of such data is inadmissible on other legal grounds. Data for invoicing and accounting purposes will not be affected by a deletion request.

Use of cookies

We make use of so-called cookies during your visit to our website. Cookies are small data files which are stored on your computer. Cookies help us check on the frequency of use and the number of users who visit our web pages, and to make our services to you as convenient and efficient as possible.

On the one hand, we use so-called "session cookies", which are exclusively stored temporarily for the duration of your use of one of our web pages. On the other hand, we also use "permanent cookies" in order to record data on visitors who repeatedly access one of our web pages. The purpose of using cookies is to be able to offer you optimal user guidance as well as to "recognise" you and thus be able to present to you as diversified a website as possible along with new content during repeated use. The content of a permanent cookie is limited to an identification number. Name, IP address, etc. are not stored. No individual profile is created on your usage behaviour.

Our website offer can also be used without cookies. You can change your browser settings to disable cookies, restrict them to certain websites or set your browser to alert you whenever a cookie is sent. Please note, however, that applying such settings may affect the way in which the website is displayed or limit user guidance.

Cookies that are needed to carry out electronic communication processes or to provide certain functions that you wish to use (such as the shopping cart function) are stored on the basis of Article 6(1)(f) of the GDPR. The website operator has a legitimate interest in storing cookies on your computer to allow it to provide you with a technically flawless, streamlined service. If other cookies (such as cookies for analysing your browsing behaviour) are stored on your computer, they will be treated separately in this Privacy Policy.

What we do to ensure security of data processing

Our organisation takes all of the necessary technical and organisational security measures to ensure your personal data is

protected from loss or misuse. Accordingly, your data shall be stored in a secure operational environment that is not open to the public. In certain cases, your personal data is encrypted by Secure Socket Layer technology (SSL) during transmission. This means that an approved encryption procedure is used for communication between your computer and our organisation's servers if your browser supports SSL.

Or: SSL and TLS encryption

For security reasons and to protect the transfer of confidential content, such as the orders or enquiries that you send to us as the website operators, this site uses SSL and TLS encryption. You can identify an encrypted connection from the padlock symbol in your browser bar and the fact that "http://" in the address bar changes to "https://".

If SSL or TLS encryption is enabled, the data you send to us cannot be read by third parties.

Should you wish to contact our organisation via email, we would like to point out that the confidentiality of the transmitted information cannot be guaranteed. The content of emails may be viewed by third parties. We would therefore recommend that you arrange for confidential information to be sent to us exclusively by post.

Your data protection rights

In accordance with the various statutory provisions in place, you shall be entitled to obtain information at any time, and free of charge, regarding your stored personal data, its origin and potential recipients and the purpose of the data processing (Article 15 GDPR) and, where applicable, the right to rectification of inaccurate data (Article 16 GDPR), the right to erasure of such data (Article 17 GDPR), the right to restriction of processing according to Article 18 GDPR, the right to object (Article 21 GDPR) and the right to receive the personal data that you have provided according to Article 20 GDPR. The limitations according to Sections 34 and 35 BDSG apply to the right to information and the right to erasure.

In addition, you shall also have the right to lodge a complaint with a responsible supervisory authority in the event of infringements under data protection law (Article 77 GDPR in conjunction with Section 19 BDSG). The responsible supervisory authority in data protection matters is the state data protection officer of the federal state in which our organisation has its registered office. A list of data protection officers and their contact details can be found in the link below.

List of data protection officers

How you can withdraw your consent to data processing

A lot of data processing operations can only take place with your express consent. You can withdraw your consent at any time. All you have to do is send us a simple email. The legality of any data processing carried out before you withdraw your consent will not be affected by the withdrawal of your consent.

Kontakt bei Fragen, Beschwerden, Geltendmachung Ihrer Rechte

Contact details in the event of queries or complaints and assertion of your rights

Should you have any queries or complaints or wish to assert your data protection rights, please feel free to contact us.

Via post: SRH Hochschule Heidelberg GmbH, Ludwig-Guttmann-Straße 6, 69123 Heidelberg.

Changes to the privacy policy

Changes may be made to these privacy notices that must also be published in a timely manner on this website.

Newsletter

Newsletter

If you have given us your explicit consent, we will use your email address and personal details you have provided on a voluntary basis in order to send you our newsletter on a regular basis. All you need to do is enter an email address in order to receive the newsletter. Additional personal details you have provided on a voluntary basis are merely used to personalise the newsletter. At the end of each newsletter, you will find a link where you can unsubscribe from the newsletter at any time. You can also unsubscribe from the newsletter at any time via email: XX

Google Analytics

We use Google Analytics, a web analysis service provided by Google Inc. ("Google"). The provider is Google Inc., 1600 Amphitheatre Parkway, Mountain View, CA 94043, USA.

Google uses cookies. The information generated by the cookie regarding use of this website by the user is usually transferred to a Google server in the USA and stored there.

Google will use this information on our behalf to evaluate use of our website by users, to produce reports on website activity for website operators and providing other services relating to website activity and internet usage. As part of this process, pseudonymised usage profiles of users may be generated out of the data processed.

We only use Google Analytics with IP anonymisation enabled. This means that the IP address of users will first be abbreviated by Google within the member states of the European Union or in other states party to the European Economic Area. Only in exceptional cases will the full IP address be transferred to a Google server in the US and shortened there. On behalf of the operator of this website, Google will use this information to evaluate your use of the website in order to compile reports about website activities and to provide additional services relating to website and internet use. The IP address transmitted by the

user's browser will not be merged with other data by Google.

Online appointment booking via eTermin

This website uses the eTermin service for online appointment bookings. The provider is eTermin GmbH, Im Wiesengrund 8, 8304 Wallisellen, Switzerland (hereinafter referred to as "eTermin"). For the purpose of booking an appointment, you enter the requested data and the desired date in the mask provided for this purpose. The data entered will be used for the planning, realisation and, if necessary, follow-up of the appointment. Furthermore, eTermin records log files (number and time of page views, browser, browser version and operating system as well as an anonymised IP address). The appointment data is stored for us on the servers of eTermin, whose privacy policy you can view here: www.termin.net/online-terminbuchung-datenschutz. The data you enter will remain with us until you ask us to delete it, revoke your consent to storage or the purpose for data storage no longer applies. Mandatory statutory provisions - in particular retention periods - remain unaffected. The legal basis for data processing is Art. 6 para. 1 lit. b GDPR, as the appointment enquiry is aimed at the conclusion of a contract. In addition, Art. 6 para. 1 lit. f GDPR applies. The website operator has a legitimate interest in making appointments with interested parties as uncomplicated as possible. If a corresponding consent has been requested, the processing is carried out on the basis of Art. 6 para. 1 lit. a GDPR and § 25 para. 1 TTDSG, insofar as the consent includes the storage of cookies or access to information in the user's terminal device (e.g. device fingerprinting) within the meaning of the TTDSG. Consent can be revoked at any time. We have concluded an order processing contract (AVV) with eTermin GmbH. This is a contract prescribed by data protection law, which ensures that the latter only processes the personal data of our website visitors in accordance with our instructions and in compliance with the GDPR.

Browser Plugin

You can prevent cookies from being stored by means of a special setting in your browser software; we must inform you, however, that if you do so, you will not be able to use all of the functions on this website fully. You can also prevent collection of the data (including your IP address) generated by the cookies and related to your use of the website by Google as well as the processing of this data by Google by downloading and installing the browser plug-in available at the following link: tools.google.com/dlpage/gaoptout.

Further information on the use of data for advertising purposes by Google, as well as settings options and procedures available for opting out can be found on Google's website:

- [How Google uses information from sites or apps that use our services](#)
- [Advertising](#)
- [Control the information Google uses to show you ads](#)
- [Take control of your Google ads experience](#)

Data processing

We have concluded an agreement with Google on contract data processing and implement in full the strict provisions of the German data protection authorities for the use of Google Analytics.

Google Adwords and Google Conversion Tracking

We use the online advertising programme “Google AdWords” and conversion tracking in the context of Google AdWords. A cookie is placed on your computer by Google Adwords for this purpose if you have reached our website via a Google Ad. These cookies lose their effectiveness after 30 days and cannot be used for personal identification. If the user visits certain pages on our website and the cookie has not yet expired, both Google and we are able to recognise that you have clicked on the advert and have been forwarded to this page.

Every Google AdWords customer receives a different cookie. Cookies therefore cannot be traced via the websites of AdWords customers. The information that is gathered with the help of conversion cookies serves to produce conversion statistics for AdWords customers who have opted for conversion tracking. As a result, the customers are informed about the total number of users who have clicked on their advert and have been forwarded to a site with a conversion tracking tag. However, they do not receive any information with which the users could be personally identified. Users who do not wish to participate in tracking can simply disable the Google conversion tracking cookie via their internet browser under the user settings. This user will then not be included in the conversion tracking statistics.

The basis for storing “conversion cookies” is Article 6(1)(f) GDPR. The website operator has a legitimate interest in analysing user behaviour in order to optimise both its web content and the advertising shown with it.

[Google's Privacy Policy](#)

Google Analytics Remarketing

Our websites make use of the functionality of Google Analytics Remarketing in conjunction with the multi-device functionality of Google AdWords and Google DoubleClick. The provider is Google Inc., 1600 Amphitheatre Parkway, Mountain View, CA 94043, USA.

This functionality makes it possible with Google Analytics Remarketing to link ad target groups to the multi-device functionality of Google AdWords and Google DoubleClick. This enables interest-related and personalised ads, which have been adjusted for you based on your previous usage and browsing habits on a device (e.g. mobile phone), to be displayed on another one of your devices (e.g. tablet or PC).

If you have given your consent accordingly, Google will then link your web and app browsing history to your Google account for this purpose. As a result, the same personalised ads will be displayed to you on each device on which you are logged in to your Google account.

To support this feature, Google Analytics collects Google-authenticated IDs of users that are temporarily linked to our Google Analytics data to define and create audiences for multi-device ad promotion. You can permanently opt out of multi-device remarketing/targeting by disabling personalised ads in your Google Account; to do this, simply follow this link: www.google.com/settings/ads/onweb/.

The aggregation of the data collected in your Google Account data is based solely on your consent, which you may give or withdraw from Google (Article 6(1)(a) GDPR). For data collection operations not merged into your Google Account (for example, because you do not have a Google Account or have objected to the merge), the collection of data is based on Article 6(1)(f) GDPR. The website operator has a legitimate interest in analysing anonymous user behaviour for promotional purposes.

Further information along with the various privacy regulations can be found in Google's privacy policy link below.

[Google's Privacy Policy](#)

Google Maps

This site uses the Google Maps service via an API. The provider is Google Inc, 1600 Amphitheatre Parkway, Mountain View, CA 94043, USA. To use the functions of Google Maps, it is necessary to store your IP address. This information is usually transferred to a Google server in the USA and stored there. The provider of this site has no influence on this data transmission. Google Maps is used in the interest of an appealing presentation of our online offers and to make it easy to find the places we indicate on the website. This constitutes a legitimate interest within the meaning of Art. 6 Para. 1 lit. f DSGVO. More information on the handling of user data can be found in Google's privacy policy.

[Google's Privacy Policy](#)

Google Search

We are happy for you to search for content on our website by using our search function. We make use of Google's service for this purpose.

Generally speaking, no data will be sent to the search engine provider (Google) if the official web pages of our organisation in which "Google Custom Search" is integrated are visited. Data is only transmitted to Google once the user has activated the Search box, started a full text search and accessed the search results page. The user's data is also transmitted to Google at the same time when using the search function within the search results page.

Google uses cookies, such as the PREF, NID or SID cookie in order to tailor ads in Google products, such as Google Search,

to your individual details. Google uses cookies, for example, to collect data about your most recent search requests, your previous interaction with ads from an advertiser or the search results and your visits to the website of an advertiser. By doing so, you will receive personalised ads on Google. By using the full text search and the accompanying visit to the search results page, you consent to the use of the Google search engine and, thus, the transmission of data to the Google service. These include, for example, search terms entered by you and the IP address of the computer you are using. Please note that other data protection standards apply to Google than the standards applicable to our organisation's online service. We wish to draw your explicit attention to the fact that the processing, including in particular the storage, deletion and use, of personal data that may potentially be transmitted is the responsibility of the search engine provider, and that our organisation, as the operator of its own website, does not have any influence on the nature and scope of the transmitted data or on its subsequent processing. If you are logged in to Google at the same time, the Google service is able to directly assign the information to your user profile. You should ensure you that you are logged out in order to avoid profile information about you being collected.

More information on how user data is dealt with by Google Privacy Policy.

[Google's Privacy Policy](#)

Application and use of YouTube

YouTube components are integrated into this website. YouTube is an internet video portal that gives video publishers the opportunity to upload video clips free of charge, and also gives other users the opportunity to view, rate and comment on these video clips free of charge. YouTube authorises the publication of all kinds of videos, which is why entire film and television programmes along with music videos, trailers or videos made by users themselves can be viewed via the internet portal.

The operating company of YouTube is YouTube, LLC, 901 Cherry Ave., San Bruno, CA 94066, USA. YouTube, LLC is a subsidiary of Google Inc., 1600 Amphitheatre Pkwy, Mountain View, CA 94043-1351, USA.

Each time you visit a page on our website into which a YouTube component has been integrated (YouTube Video), your internet browser is automatically instructed by the respective YouTube component to download the corresponding YouTube component from YouTube. Further information on YouTube can be retrieved at www.youtube.com/intl/en/yt/about/. As part of this technical process, YouTube and Google are both informed of the specific sub-pages on our website that you have visited.

If you are logged in to YouTube at the same time, YouTube is informed when you visit a sub-page containing a YouTube video of which specific sub-page of our website the data subject has visited. This information is collated by YouTube and Google and assigned to the respective YouTube account of the data subject.

YouTube and Google will always be informed via the YouTube component about the fact that the data subject has visited our website if you are also logged in to YouTube at the same time as visiting our website. This happens regardless of whether you click on a YouTube video or not. If you do not want such information to be transferred to YouTube and Google, you can prevent this from happening by logging out of your YouTube account before visiting our website.

The privacy regulations published by YouTube give an insight into the collection, processing and use of personal data by YouTube and Google.

Google's Privacy Policy

Registration

The data subject has the option to register on the website of the controller responsible for processing by entering personal data. In terms of which personal data is transmitted to the controller responsible for processing, this is evident from the respective input screen used for the registration. The personal data entered by the data subject will be collected and stored exclusively for internal use by the controller responsible for processing and for internal purposes. The controller responsible for processing may instigate disclosure to one or more processors, such as a package service provider, who will also only use the personal data for internal use attributable to the controller responsible for processing.

By registering on the website of the controller responsible for processing, the IP address assigned by your internet service provider (ISP), the date and the time of the registration are stored. This data is stored against the backdrop that this is the only way to prevent misuse of our services, and that this data makes it possible, where required, to identify any criminal acts and copyright infringements committed. The storage of this data is necessary in this regard to protect the controller responsible for processing. No disclosure of this data is made to third parties, unless there is a legal obligation to pass this on or the disclosure of this data serves the purposes of criminal or law enforcement.

Registration of the data subject by entering personal data on a voluntary basis helps the controller responsible for processing to offer to the data subject certain content or services that may only be offered to registered users owing to the nature of the issues involved. In addition, registration of the data subject (in the Privacy Policy Generator) enables monitoring of the use of text published by us and subject to copyright protection, along with a review of the linking and specification of the author's name, and is also used for internal documentation purposes. Furthermore, we also use the data collected via the Privacy Policy Generator for customer acquisition purposes, including in particular for contact by telephone and the dispatch of advertising material via post and email. The option remains open to registered individuals to arrange for the personal data specified for registration purposes to be deleted in its entirety from the database of the controller responsible for processing.

The controller responsible for processing must provide information, upon request to do so and at any time, to each data subject as to what personal data is stored about the data subject. In addition, the controller responsible for processing must rectify or delete personal data upon request or receipt of information to do so by the data subject, unless such action runs contrary to statutory retention obligations. The data protection officer along with all of the employees of the controller responsible for processing named in this Privacy Policy are on hand for the data subject as the interlocutor in this context.

Facebook

Our website contains links to Facebook, an external social network. This website is operated solely by Facebook Inc., 1601 S.

California Ave, Palo Alto, CA 94304, USA (Facebook). The links within the framework of our website are identifiable by way of the Facebook logo or the “Like” add-on (no Facebook plug-ins are used).

When visiting our website, the functionalities and the transmission of data to Facebook are not enabled automatically. It is only by clicking on the links that the Facebook plug-ins are enabled and your browser establishes a direct connection to Facebook's servers. If you follow the links and are also logged in to your Facebook user account at the same time, the information confirming you have visited our website will be forwarded to Facebook. Facebook is able to assign your visit to the website to your account. This information is transmitted to Facebook and stored there. In order to prevent this from happening, you need to log out of your Facebook account before clicking on the link.

For information on the purpose and extent of data collection and the further processing and use of your data by Facebook as well your rights in this regard and settings options for the protection of your personal privacy, please refer to the Facebook Privacy Policy.

[Facebook's Privacy Policy](#)

Nutzung von Facebook Remarketing

We make use of the “Custom Audiences” remarketing function of Facebook Inc. (“Facebook”) on our website. Visitors to our website are then presented with interest-based advertising (“Facebook Ads”) when visiting Facebook's website. We have implemented Facebook's remarketing tag on our website for this purpose. This tag establishes a direct connection to Facebook's servers when visiting the website. Information is then transferred to the Facebook servers confirming that you have visited our website; Facebook assigns this information to your personal Facebook user account. You can find more detailed information on Facebook's collection and use of data, your associated rights and options for protecting your privacy in Facebook's Privacy Policy. Alternatively you can disable the “Custom Audiences” remarketing function at www.facebook.com/settings/. You must be logged in to Facebook to do this.

[Facebook's Privacy Policy](#)

Twitter

We have included a Twitter widget on our website to display tweets from our Twitter account. A connection to Twitter's servers is established. Log data is sent to Twitter after a cookie is placed on your computer. According to its own information, Twitter starts deleting, removing the identification or logging this data within a maximum 10 days; this can take up to a week. Further information can be found in Twitter's Privacy Policy.

Unibuddy

The "Unibuddy" service is embedded into our websites and does not run on our servers. Unibuddy is used to connect you and your questions with current students, alumni, and staff via an iFramed chat on our website. In order to ensure that accessing our websites with embedded services does not automatically lead to third-party content being reloaded, in a first step we ask you in our cookie banner to allow this service.

Only after a click on "okay", can content from Unibuddy be reloaded. We have no control over further data processing by Unibuddy. Embedding takes place on the basis of your consent pursuant to Art. 6 (1) 1 GDPR.

Unibuddy's Privacy Policy

Xing Events

On our website, functions of the service "XING" and "XING Events" are integrated. "XING" is an internet-based social network. "XING Events" is a component for event marketing, event handling and ticketing. The operating company of XING and XING Events and the responsible party in terms of data protection law is XING SE, Hamburg, Germany.

Each time one of our pages containing XING functions is called up, a connection to XING servers is established. As far as we are aware, no personal data is stored in this process. In particular, no IP addresses are stored or the user's behavior is evaluated.

If you are logged in to XING, XING recognizes which websites you are visiting. This information is collected by XING and assigned to your XING account.

If you purchase a ticket as part of an event using the ticketing functions of XING Events, XING Events stores your associated data for the purpose of processing the contract and may link this to your XING account.

For further information on data protection at XING SE, please refer to the XING privacy policy.

XING privacy policy

Eveeno

We use the event software eveeno (<https://eveeno.com/de/>) for the purpose of organising events. eveeno complies with the European Data Protection Regulation (DSGVO). The legal basis for the processing of your data is Art. 6 para. 1 p. 1 lit. a DSGVO.

The applicable data protection regulations of eveeno can be found at eveeno.com/de/privacy, the contact details at eveeno.com/de/about.

Matomo

With your consent, we use the open-source software Matomo for analyzing and statistically evaluating the use of the website. For this purpose, cookies are used. The information obtained about the use of the website is transmitted exclusively to our servers and summarized in pseudonymous usage profiles. We use the data to evaluate the usage of the website. The collected data will not be shared with third parties.

The IP addresses are anonymized (IP masking), so that allocation to individual users is not possible.

The processing of data is based on Article 6(1)(a) of the GDPR. We pursue our legitimate interest in optimizing our website for our external representation.

You can revoke your consent at any time by deleting the cookies in your browser or changing your privacy settings.

Matomo Cookieless Tracking

We utilize the open-source software Matomo for the analysis and statistical evaluation of anonymized usage data on our website. The information obtained regarding website usage is exclusively transmitted to our servers and summarized in anonymized usage profiles. We use this data to assess website usage. The collected data will not be shared with third parties.

IP addresses are anonymized (IP masking), preventing any association with individual users. We have activated the "do-not-track" setting and ensured that personally identifiable information (such as email addresses) is not stored.

Data processing is based on Article 6(1)(f) of the GDPR, representing our legitimate interest in optimizing our online offerings.

You have the option to decide whether this anonymized collection and analysis may take place. If you wish to opt out, please click the following link to place the Matomo deactivation cookie in your browser.

Was sind personbezogene Daten?

Personbezogene Daten sind alle Informationen, die sich auf eine identifizierte oder identifizierbare natürliche Person beziehen. Entscheidend ist also, ob durch die erhobene Daten ein Personenbezug hergestellt werden kann. Darunter fallen Informationen wie z.B.: Ihr Name, Ihre Anschrift, Ihre Telefonnummer, E-Mail-Adresse, Informationen, die nicht direkt mit Ihrer wirklichen Identität in Verbindung gebracht werden - wie z.B. favorisierte Webseiten oder Anzahl der Nutzer einer Seite - sind keine personbezogene Daten.

Wie erheben und verarbeiten wir Daten zu Ihrer Person?

Sofern innerhalb des Internetangebotes die Möglichkeit zur Eingabe persönlicher oder geschäftlicher Daten (E-Mail-Adressen, Namen, Anschriften) besteht, so erfolgt die Preisgabe dieser Daten seitens des Nutzers auf ausdrücklich freiwilliger Basis. E-Mails werden über ein Kontakt-Formular übermittelt. Wenn Sie uns eine solche Nachricht zuschicken, werden Ihre persönlichen Daten nur insoweit gesammelt, als es für eine Antwort erforderlich ist. Die E-Mail wird unverschlüsselt übermittelt. Die von Ihnen zur Verfügung gestellten personenbezogenen Daten verwenden wir ausschließlich zum Zweck der technischen Administration der Webseiten und zur Erfüllung Ihrer Wünsche und Anforderungen, also in der Regel zur Abwicklung des mit Ihnen geschlossenen Vertrages oder zur Beantwortung Ihrer Anfrage. Die Rechtsgrundlage für die Verarbeitung ist Art. 6 Abs. 1 lit. a und b DSGVO. Nur soweit Sie uns zuvor Ihre Einwilligung erteilt haben bzw. wenn Sie - soweit gesetzliche Regelungen dies vorsehen - keinen Widerspruch eingelegt haben, nutzen wir diese Daten auch für produktbezogene Umfragen, Marketingzwecke und statistische Zwecke. In diesem Fall ist die Rechtsgrundlage Art. 6 Abs. 1 lit. a und f DSGVO. Soweit wir externe Dienstleister im Rahmen einer Auftragsdatenverarbeitung einsetzen erfolgt die Verarbeitung auf der Rechtsgrundlage des Art. 28 DSGVO. Eine Weitergabe, Verkauf oder sonstige Übermittlung Ihrer personenbezogenen Daten an Dritte erfolgt nicht, es sei denn, dass dies zum Zwecke der Vertragsabwicklung erforderlich ist oder Sie ausdrücklich eingewilligt haben. Eine erteilte Einwilligung kann mit Wirkung für die Zukunft jederzeit widerrufen werden.

Wie nutzen wir Daten zu Ihrer Person, wie geben wir sie weiter?

Sofern innerhalb des Internetangebotes die Möglichkeit zur Eingabe persönlicher oder geschäftlicher Daten (E-Mail-Adressen, Namen, Anschriften) besteht, so erfolgt die Preisgabe dieser Daten seitens des Nutzers auf ausdrücklich freiwilliger Basis. E-Mails werden über ein Kontakt-Formular übermittelt. Wenn Sie uns eine solche Nachricht zuschicken, werden Ihre persönlichen Daten nur insoweit gesammelt, als es für eine Antwort erforderlich ist. Die E-Mail wird unverschlüsselt übermittelt. Die von Ihnen zur Verfügung gestellten personenbezogenen Daten verwenden wir ausschließlich zum Zweck der technischen Administration der Webseiten und zur Erfüllung Ihrer Wünsche und Anforderungen, also in der Regel zur Abwicklung des mit Ihnen geschlossenen Vertrages oder zur Beantwortung Ihrer Anfrage. Die Rechtsgrundlage für die Verarbeitung ist Art. 6 Abs. 1 lit. b DSGVO. Nur soweit Sie uns zuvor Ihre Einwilligung erteilt haben bzw. wenn Sie - soweit gesetzliche Regelungen dies vorsehen - keinen Widerspruch eingelegt haben, nutzen wir diese Daten auch für produktbezogene Umfragen, Marketingzwecke und statistische Zwecke. In diesem Fall ist die Rechtsgrundlage Art. 6 Abs. 1 lit. a DSGVO. Soweit wir externe Dienstleiser im Rahmen einer Auftragsdatenverarbeitung einsetzen erfolgt die Verarbeitung auf der Rechtsgrundlage des Art. 28 DSGVO. Eine Weitergabe, Verkauf oder sonstige Übermittlung Ihrer personenbezogenen Daten an Dritte erfolgt nicht, es sei denn, dass dies zum Zwecke der Vertragsabwicklung erforderlich ist oder Sie ausdrücklich eingewilligt haben. Eine erteilte Einwilligung kann mit Wirkung für die Zukunft jederzeit widerrufen werden.

Wie lange bleiben Ihre Daten gespeichert?

Grundsätzlich speichern wir alle Informationen, die Sie uns übermitteln, bis der jeweilige, z.B. vertragliche Zweck erfüllt ist. Z.B. bei Anfragen bis zur Erledigung, bei Newslettern bis Sie den Newsletter wieder abbestellen. Ist eine längere Speicherung gesetzlich vorgesehen, erfolgt die Speicherung in diesem Rahmen. Sollten Sie nicht mehr wünschen, dass wir Ihre Daten nutzen, so kommen wir dieser Bitte natürlich umgehend nach (Bitte wenden Sie sich dazu an die unter „Kontakt“ angegebene Adresse).

Wann werden Ihre Daten gelöscht?

Die Löschung der gespeicherten personenbezogenen Daten erfolgt, wenn Sie ihre Einwilligung zur Speicherung widerrufen, wenn die Kenntnis der Daten zur Erfüllung des mit der Speicherung verfolgten Zwecks nicht mehr erforderlich ist oder wenn die Speicherung aus sonstigen gesetzlichen Gründen unzulässig ist. Daten für Abrechnungszwecke und buchhalterische Zwecke werden von einem Löschungsverlangen nicht berührt.

Einsatz von Cookies

Im Rahmen Ihres Besuchs auf unseren Seiten verwenden wir sogenannte Cookies. Das sind kleine Textdateien, die auf Ihrem Computer abgelegt werden. Cookies helfen uns dabei, die Nutzungshäufigkeit und die Anzahl der Nutzer unserer Internetseiten zu ermitteln, sowie unsere Angebote für Sie möglichst komfortabel und effizient zu gestalten. Wir verwenden einerseits sogenannte "Session-Cookies", die ausschließlich für die Dauer Ihrer Nutzung einer unserer Internetseiten zwischengespeichert werden. Zum anderen benutzen wir "permanente Cookies", um Informationen über Besucher festzuhalten, die wiederholt auf eine unserer Interseiten zugreifen. Der Zweck des Einsatzes dieser Cookies besteht darin, Ihnen eine optimale Benutzerführung anbieten zu können sowie Sie "wiederzuerkennen" und Ihnen bei wiederholter Nutzung eine möglichst abwechslungsreiche Internetseite und neue Inhalte präsentieren zu können. Der Inhalt eines permanenten Cookies beschränkt sich auf eine Identifikationsnummer. Name, IP-Adresse etc. werden nicht gespeichert. Eine Einzelprofilbildung über Ihr Nutzungsverhalten findet nicht statt. Eine Nutzung unserer Angebote ist auch ohne Cookies möglich. Sie können in Ihrem Browser das Speichern von Cookies deaktivieren, auf bestimmte Websites beschränken oder Ihren Browser so einstellen, dass er Sie benachrichtigt, sobald ein Cookie gesendet wird. Bitte beachten Sie aber, dass Sie bei einer Deaktivierung mit einer eingeschränkten Darstellung der Seite und mit einer eingeschränkten Benutzerführung rechnen müssen. Cookies, die zur Durchführung des elektronischen Kommunikationsvorgangs oder zur Bereitstellung bestimmter, von Ihnen erwünschter Funktionen (z.B. Warenkorbfunktion) erforderlich sind, werden auf Grundlage von Art. 6 Abs. 1 lit. f DSGVO gespeichert. Der Websitebetreiber hat ein berechtigtes Interesse an der Speicherung von Cookies zur technisch fehlerfreien und optimierten Bereitstellung seiner Dienste. Soweit andere Cookies (z.B. Cookies zur Analyse Ihres Surfverhaltens) gespeichert werden, werden diese in dieser Datenschutzerklärung gesondert behandelt.

Was tun wir für die Sicherheit der Verarbeitung?

Unser Unternehmen trifft alle notwendigen technischen und organisatorischen Sicherheitsmaßnahmen, um Ihre

personenbezogenen Daten vor Verlust und Missbrauch zu schützen. So werden Ihre Daten in einer sicheren Betriebsumgebung gespeichert, die der Öffentlichkeit nicht zugänglich ist. In bestimmten Fällen werden Ihre personenbezogenen Daten bei der Übermittlung durch die sog. Secure Socket Layer-Technologie (SSL) verschlüsselt. Das bedeutet, dass die Kommunikation zwischen Ihrem Computer und den Servern unseres Unternehmens unter Einsatz eines anerkannten Verschlüsselungsverfahrens erfolgt, wenn Ihr Browser SSL unterstützt. Oder : SSL- bzw. TLS-Verschlüsselung Diese Seite nutzt aus Sicherheitsgründen und zum Schutz der Übertragung vertraulicher Inhalte, wie zum Beispiel Bestellungen oder Anfragen, die Sie an uns als Seitenbetreiber senden, eine SSL-bzw. TLS-Verschlüsselung. Eine verschlüsselte Verbindung erkennen Sie daran, dass die Adresszeile des Browsers von "http://" auf "https://" wechselt und an dem Schloss-Symbol in Ihrer Browserzeile. Wenn die SSL- bzw. TLS-Verschlüsselung aktiviert ist, können die Daten, die Sie an uns übermitteln, nicht von Dritten mitgelesen werden. Sollten Sie mit unserem Unternehmen über E-Mail in Kontakt treten wollen, weisen wir darauf hin, dass die Vertraulichkeit der übermittelten Informationen nicht gewährleistet ist. Der Inhalt von E-Mails kann von Dritten eingesehen werden. Wir empfehlen Ihnen daher, uns vertrauliche Informationen ausschließlich über den Postweg zukommen zu lassen.

Das sind Ihre Datenschutzrechte

Sie haben im Rahmen der geltenden gesetzlichen Bestimmungen jederzeit das Recht auf unentgeltliche Auskunft über Ihre gespeicherten personenbezogenen Daten, deren Herkunft und mögliche Empfänger und den Zweck der Datenverarbeitung (Art. 15 DSGVO) und ggf. ein Recht auf Berichtigung unrichtiger Daten Art. 16 DSGVO), Löschung dieser Daten (Art. 17 DSGVO) das Recht auf Einschränkung der Verarbeitung nach Art. 18 DSGVO, auf Widerspruch (Art. 21 DSGVO) sowie das Recht auf Datenübertragbarkeit von Ihnen bereitgestellter Daten nach Art. 20 DSGVO). Beim Auskunftsrecht und beim Löschungsrecht gelten die Einschränkungen nach §§ 34 und 35 BDSG. Darüber hinaus steht Ihnen im Falle datenschutzrechtlicher Verstöße ein Beschwerderecht bei der zuständigen Aufsichtsbehörde zu (Art. 77 DSGVO i.V.m. §19 BDSG). Zuständige Aufsichtsbehörde in datenschutz-rechtlichen Fragen ist der Landesdatenschutzbeauftragte des Bundeslandes, in dem unser Unternehmen seinen Sitz hat. Eine Liste der Datenschutzbehörden sowie deren Kontaktdaten können folgendem Link entnommen werden.

[Zur Liste der Datenschutzbehörden](#)

Wie Sie gegebene Einwilligungen zur Datenverarbeitung widerrufen können?

Viele Datenverarbeitungsvorgänge sind nur mit Ihrer ausdrücklichen Einwilligung möglich. Sie können eine bereits erteilte Einwilligung jederzeit widerrufen. Dazu reicht eine formlose Mitteilung per E-Mail an uns. Die Rechtmäßigkeit der bis zum Widerruf erfolgten Datenverarbeitung bleibt vom Widerruf unberührt.

Kontakt bei Fragen, Beschwerden, Geltendmachung Ihrer Rechte

Bei Fragen, Beschwerden oder Geltendmachung Ihrer Datenschutzrechte können Sie sich jederzeit an uns wenden.

Per Post: SRH Hochschule Heidelberg GmbH, Ludwig-Guttmann-Straße 6, 69123 Heidelberg.

Per Email: datenschutz.hshd@srh.de

Änderung der Datenschutzerklärung

Es können Änderungen an diesen Datenschutzhinweisen vorgenommen werden, die auf dieser Seite rechtzeitig bekanntgegeben werden.

Newsletter

Sofern Sie ausdrücklich eingewilligt haben, verwenden wir Ihre E-Mail-Adresse und freiwillige Angaben zu Ihrer Person dafür, Ihnen regelmäßig unseren Newsletter zu übersenden. Für den Empfang unseres Newsletters ist die Angabe einer E-Mail-Adresse ausreichend. Die zusätzlichen freiwilligen Angaben zu Ihrer Person dienen lediglich dazu, um den Newsletter zu personalisieren. Am Ende jedes Newsletters findet sich ein Link, über den Sie den Newsletter jederzeit abbestellen können. Den Newsletter können Sie auch jederzeit per E-Mail an E-MAIL ADRESSE abbestellen.

Google Analytics

Beschreibung des Services

Dies ist ein Webanalysedienst. Damit kann der Nutzer den Werbe-Return on Investment „ROI“ messen sowie das Nutzerverhalten mit Flash, Video, Webseiten und Applikationen verfolgen.

Verarbeitendes Unternehmen

Google Ireland Limited

Google Building Gordon House, 4 Barrow St, Dublin, D04 E5W5, Ireland

Datenschutzbeauftragter des verarbeitenden Unternehmens

Nachfolgend finden Sie die E-Mail-Adresse des Datenschutzbeauftragten des verarbeitenden Unternehmens.

Rechtliche Grundlage

Im Folgenden wird die erforderliche Rechtsgrundlage für die Verarbeitung von Daten genannt

Ort der Verarbeitung

Dies ist der primäre Ort, an dem die gesammelten Daten verarbeitet werden. Sollten die Daten auch in anderen Ländern verarbeitet werden, werden Sie gesondert informiert.

Europäische Union

Aufbewahrungszeitraum

Die Aufbewahrungszeitraum ist die Zeitspanne, in der die gesammelten Daten für die Verarbeitung gespeichert werden. Die Daten müssen gelöscht werden, sobald sie für die angegebenen Verarbeitungszwecke nicht mehr benötigt werden.

Die Aufbewahrungsfrist hängt von der Art der gespeicherten Daten ab. Jeder Nutzer kann wählen, wie lange Google Analytics Daten speichert, bevor sie automatisch gelöscht werden.

Weitergabe an Drittländer

Dieser Service kann die erfassten Daten an ein anderes Land weiterleiten. Bitte beachten Sie, dass dieser Service Daten in ein Land, welches kein angemessenes Datenschutzniveau bietet, übertragen kann. Falls die Daten in die USA übertragen werden, besteht das Risiko, dass Ihre Daten von US Behörden zu Kontroll- und Überwachungszwecken verarbeitet werden können, ohne dass Ihnen möglicherweise Rechtsbehelfsmöglichkeiten zustehen. Nachfolgend finden Sie eine Liste der Länder, in die die Daten übertragen werden. Weitere Informationen zu den Sicherheitsgarantien finden Sie in den Datenschutzrichtlinien des Website-Anbieters oder wenden Sie sich direkt an den Website-Anbieter.

Vereinigte Staaten von Amerika

Singapur

Chile

Taiwan

Datenempfänger

Im Folgenden werden die Empfänger der erhobenen Daten aufgelistet.

Höchstgrenze für die Speicherung von Cookies: 2 Jahre

Nicht-Cookie-Speicherung: nein

Online-Terminbuchung über eTermin

Diese Seite nutzt für eine Online-Terminbuchung den Dienst eTermin. Anbieter ist die eTermin GmbH, Im Wiesengrund 8, 8304 Wallisellen, Schweiz (nachfolgend „eTermin“). Zum Zweck der Terminbuchung geben Sie die abgefragten Daten und den Wunschtermin in die dafür vorgesehene Maske ein. Die eingegebenen Daten werden für die Planung, Durchführung und ggf. für die Nachbereitung des Termins verwendet. Ferner erfasst eTermin Logfiles (Anzahl und Zeitpunkt der Seitenaufrufe, Browser, Browerversion und Betriebssystem sowie eine anonymisierte IP-Adresse). Die Termindaten werden für uns auf den Servern von eTermin gespeichert, dessen Datenschutzerklärung Sie hier einsehen können: <https://www.termin.net/online-terminbuchung-datenschutz>. Die von Ihnen eingegebenen Daten verbleiben bei uns, bis Sie uns zur Löschung auffordern, Ihre Einwilligung zur Speicherung widerrufen oder der Zweck für die Datenspeicherung entfällt. Zwingende gesetzliche Bestimmungen – insbesondere Aufbewahrungsfristen – bleiben unberührt. Rechtsgrundlage für die Datenverarbeitung ist Art. 6 Abs. 1 lit. b DSGVO, da die Termin-Abfrage auf den Abschluss eines Vertrages zielt. Zudem gilt Art. 6 Abs. 1 lit. f DSGVO. Der Websitebetreiber hat ein berechtigtes Interesse an einer möglichst unkomplizierten Terminvereinbarung mit Interessenten. Sofern eine entsprechende Einwilligung abgefragt wurde, erfolgt die Verarbeitung auf Grundlage von Art. 6 Abs. 1 lit. a DSGVO und § 25 Abs. 1 TTDSG, soweit die Einwilligung die Speicherung von Cookies oder den Zugriff auf Informationen im Endgerät des Nutzers (z. B. Device-Fingerprinting) im Sinne des TTDSG umfasst. Die Einwilligung ist jederzeit widerrufbar. Wir haben einen Vertrag über Auftragsverarbeitung (AVV) mit der eTermin GmbH geschlossen. Hierbei handelt es sich um einen datenschutzrechtlich vorgeschriebenen Vertrag, der gewährleistet, dass dieser die personenbezogenen Daten unserer Websitebesucher nur nach unseren Weisungen und unter Einhaltung der DSGVO verarbeitet.

Browser Plugin

Sie können die Speicherung der Cookies durch eine entsprechende Einstellung Ihrer Browser-Software verhindern; wir weisen Sie jedoch darauf hin, dass Sie in diesem Fall gegebenenfalls nicht sämtliche Funktionen dieser Website vollumfänglich nutzen können. Sie können darüber hinaus die Erfassung der durch den Cookie erzeugten und auf Ihre Nutzung der Website bezogenen Daten (inkl. Ihrer IP-Adresse) an Google sowie die Verarbeitung dieser Daten durch Google verhindern, indem Sie das unter dem folgenden Link verfügbare Browser-Plugin herunterladen und installieren:
tools.google.com/dlpage/gaoptout. Weitere Informationen zur Datennutzung zu Werbezwecken durch Google, Einstellungs- und Widerspruchsmöglichkeiten erfahren Sie auf den Webseiten von Google:

- [Datennutzung durch Google bei Ihrer Nutzung von Websites oder Apps unserer Partner](#)
- [Datennutzung zu Werbezwecken](#)
- [Informationen verwalten, die Google verwendet, um Ihnen Werbung einzublenden](#)
- [Bestimmen Sie, welche Werbung Google Ihnen zeigt](#)

Auftragsdatenverarbeitung

Wir haben mit Google einen Vertrag zur Auftragsdatenverarbeitung abgeschlossen und setzen die strengen Vorgaben der deutschen Datenschutzbehörden bei der Nutzung von Google Analytics vollständig um.

Google Adwords und Google Conversion Tracking

Diese Website nutzt das Online-Werbeprogramm „Google AdWords“ und im Rahmen dessen das Conversion-Tracking. Dabei wird von Google Adwords ein Cookie auf Ihrem Rechner gesetzt, sofern Sie über eine Google-Anzeige auf unsere Webseite gelangt sind. Diese Cookies verlieren nach 30 Tagen ihre Gültigkeit und dienen nicht der persönlichen Identifizierung. Besucht der Nutzer bestimmte Seiten unserer Website und das Cookie ist noch nicht abgelaufen, können wir und Google erkennen, dass der Nutzer auf die Anzeige geklickt hat und zu dieser Seite weitergeleitet wurde. Jeder Google AdWords-Kunde erhält ein anderes Cookie. Cookies können somit nicht über die Websites von AdWords-Kunden nachverfolgt werden. Die mithilfe des Conversion-Cookies eingeholten Informationen dienen dazu, Conversion-Statistiken für AdWords-Kunden zu erstellen, die sich für Conversion-Tracking entschieden haben. Die Kunden erfahren die Gesamtanzahl der Nutzer, die auf ihre Anzeige geklickt haben und zu einer mit einem Conversion-Tracking-Tag versehenen Seite weitergeleitet wurden. Sie erhalten jedoch keine Informationen, mit denen sich Nutzer persönlich identifizieren lassen. Nutzer, die nicht am Tracking teilnehmen möchten, können das Cookie des Google Conversion-Trackings über ihren Internet-Browser unter Nutzereinstellungen leicht deaktivieren. Diese Nutzer werden nicht in die Conversion-Tracking Statistiken aufgenommen. Die Speicherung von „Conversion-Cookies“ erfolgt auf Grundlage von Art. 6 Abs. 1 lit. f DSGVO. Der Websitebetreiber hat ein berechtigtes Interesse an der Analyse des Nutzerverhaltens, um sowohl sein Webangebot als auch seine Werbung zu optimieren.

Google Analytics Remarketing

Beschreibung des Services

Dies ist ein Remarketing-Dienst. Mittels Remarketing kann der Nutzer Nutzern der Website auf anderen Websites innerhalb des Google Display-Netzwerks (z. B. in der Google-Suche oder auf YouTube) interessenbezogene Werbeanzeigen anzeigen. Dazu werden die Interaktionen der Nutzer analysiert, z.B. B. über die Produkte und Dienstleistungen, für die sich ein Benutzer interessiert. Dadurch kann dem Benutzer auch nach dem Besuch der Website auf anderen Websites zielgerichtete Werbung angezeigt werden.

Zur Google Datenschutzerklärung

Google Maps

Diese Seite nutzt über eine API den Kartendienst Google Maps. Anbieter ist die Google Inc., 1600 Amphitheatre Parkway, Mountain View, CA 94043, USA. Zur Nutzung der Funktionen von Google Maps ist es notwendig, Ihre IP Adresse zu speichern. Diese Informationen werden in der Regel an einen Server von Google in den USA übertragen und dort gespeichert. Der Anbieter dieser Seite hat keinen Einfluss auf diese Datenübertragung. Die Nutzung von Google Maps erfolgt im Interesse einer ansprechenden Darstellung unserer Online-Angebote und an einer leichten Auffindbarkeit der von uns auf der Website angegebenen Orte. Dies stellt ein berechtigtes Interesse im Sinne von Art. 6 Abs. 1 lit. f DSGVO dar. Mehr Informationen zum Umgang mit Nutzerdaten finden Sie in der Datenschutzerklärung von Google.

Zur Google Datenschutzerklärung

Google Suche

Wir bieten Ihnen die Möglichkeit, über unsere Suchfunktion die Inhalte der Website zu durchsuchen. Wir setzen dafür den Dienst von Google ein. Es werden grundsätzlich keine Daten an den Anbieter des Suchdienstes (Google) übertragen, wenn offizielle Webseiten unseres Unternehmens aufgerufen werden, in denen die "Google benutzerdefinierte Suche" eingebunden ist. Daten werden erst an Google übertragen, nachdem der Nutzer die Such-Box aktiviert, eine Volltext-Suche gestartet und die Suchergebnis-Seite aufgerufen hat. Durch eine Nutzung der Suchfunktion innerhalb der Suchergebnis-Seite werden gleichzeitig auch Daten der Nutzer an Google übertragen. Google verwendet Cookies wie das PREF-, NID- oder SID-Cookie, um Anzeigen in Google-Produkten wie der Google-Suche individuell anzupassen. Mithilfe von Cookies erfasst Google zum

Beispiel Ihre neuesten Suchanfragen, Ihre bisherigen Interaktionen mit den Anzeigen eines Werbetreibenden oder den Suchergebnissen und Ihre Besuche auf der Website eines Werbetreibenden. Auf diese Weise erhalten Sie individuell zugeschnittene Werbung auf Google. Mit der Benutzung der Volltext-Suche und dem damit einhergehenden Aufruf der Suchergebnis-Seite stimmen Sie der Nutzung des Google-Suchdienstes und damit auch der Übertragung von Daten an den Google-Service zu. Dazu gehören z.B. die von Ihnen eingegebenen Suchbegriffe und die IP-Adresse des von Ihnen benutzten Rechners. Bitte beachten Sie, dass für Google andere Datenschutzstandards als für das Internet-Angebot unseres Unternehmens gelten. Wir weisen Sie ausdrücklich darauf hin, dass die Verarbeitung, insbesondere die Speicherung, Löschung und Nutzung von möglicherweise übertragenen personenbezogenen Daten dem Anbieter des Suchdienstes obliegt und unser Unternehmen als Betreiber seines Internet-Auftritts auf die Art und den Umfang der übertragenen Daten sowie über deren weitere Verarbeitung keinen Einfluss hat. Sofern Sie gleichzeitig bei Google eingeloggt sind, ist der Google-Service in der Lage, die Informationen unmittelbar Ihrem Nutzerprofil zuzuordnen. Sie sollten sich ausloggen, um eine Sammlung von Profilinformationen über Sie zu vermeiden. Weitere Informationen von Google über den Umgang mit Nutzerdaten erhalten Sie in der Datenschutzerklärung.

[Zur Google Datenschutzerklärung](#)

Einsatz und Verwendung von YouTube

Auf dieser Internetseite sind Komponenten von YouTube integriert. YouTube ist ein Internet-Videoportal, dass Video-Publishern das kostenlose Einstellen von Videoclips und anderen Nutzern die ebenfalls kostenfreie Betrachtung, Bewertung und Kommentierung dieser ermöglicht. YouTube gestattet die Publikation aller Arten von Videos, weshalb sowohl komplette Film- und Fernsehsendungen, aber auch Musikvideos, Trailer oder von Nutzern selbst angefertigte Videos über das Internetportal abrufbar sind. Betreibergesellschaft von YouTube ist die YouTube, LLC, 901 Cherry Ave., San Bruno, CA 94066, USA. Die YouTube, LLC ist eine Tochtergesellschaft der Google Inc., 1600 Amphitheatre Pkwy, Mountain View, CA 94043-1351, USA. Durch jeden Aufruf einer Seite unseres Angebotes auf welcher eine YouTube-Komponente (YouTube-Video) integriert wurde, wird Ihr Internetbrowser automatisch durch die jeweilige YouTube-Komponente veranlasst, eine Darstellung der entsprechenden YouTube-Komponente von YouTube herunterzuladen. Weitere Informationen zu YouTube können unter www.youtube.com/yt/about/de/ abgerufen werden. Im Rahmen dieses technischen Verfahrens erhalten YouTube und Google Kenntnis darüber, welche konkrete Unterseite unserer Internetseite von Ihnen besucht wird. Sofern Sie gleichzeitig bei YouTube eingeloggt sind, erkennt YouTube mit dem Aufruf einer Unterseite, die ein YouTube-Video enthält, welche konkrete Unterseite unserer Internetseite die betroffene Person besucht. Diese Informationen werden durch YouTube und Google gesammelt und dem jeweiligen YouTube-Account der betroffenen Person zugeordnet. YouTube und Google erhalten über die YouTube-Komponente immer dann eine Information darüber, dass die betroffene Person unsere Internetseite besucht hat, wenn Sie zum Zeitpunkt des Aufrufs unserer Internetseite gleichzeitig bei YouTube eingeloggt sind. Das findet unabhängig davon statt, ob Sie ein YouTube-Video anklicken oder nicht. Ist eine derartige Übermittlung dieser Informationen an YouTube und Google nicht gewollt, können Sie diese dadurch verhindern, dass sie sich vor einem Aufruf unserer Internetseite aus ihrem YouTube-Account ausloggen. Die von YouTube veröffentlichten Datenschutzbestimmungen geben Aufschluss über die Erhebung, Verarbeitung und Nutzung personenbezogener Daten durch YouTube und Google.

[Zur Google Datenschutzerklärung](#)

Registrierung

Die betroffene Person hat die Möglichkeit, sich auf der Internetseite des für die Verarbeitung Verantwortlichen unter Angabe von personenbezogenen Daten zu registrieren. Welche personenbezogenen Daten dabei an den für die Verarbeitung Verantwortlichen übermittelt werden, ergibt sich aus der jeweiligen Eingabemaske, die für die Registrierung verwendet wird. Die von der betroffenen Person eingegebenen personenbezogenen Daten werden ausschließlich für die interne Verwendung bei dem für die Verarbeitung Verantwortlichen und für eigene Zwecke erhoben und gespeichert. Der für die Verarbeitung Verantwortliche kann die Weitergabe an einen oder mehrere Auftragsverarbeiter, beispielsweise einen Paketdienstleister, veranlassen, der die personenbezogenen Daten ebenfalls ausschließlich für eine interne Verwendung, die dem für die Verarbeitung Verantwortlichen zuzurechnen ist, nutzt. Durch eine Registrierung auf der Internetseite des für die Verarbeitung Verantwortlichen wird ferner die vom Internet-Service-Provider (ISP) der betroffenen Person vergebene IP-Adresse, das Datum sowie die Uhrzeit der Registrierung gespeichert. Die Speicherung dieser Daten erfolgt vor dem Hintergrund, dass nur so der Missbrauch unserer Dienste verhindert werden kann, und diese Daten im Bedarfsfall ermöglichen, begangene Straftaten und Urheberrechtsverletzungen aufzuklären. Insofern ist die Speicherung dieser Daten zur Absicherung des für die Verarbeitung Verantwortlichen erforderlich. Eine Weitergabe dieser Daten an Dritte erfolgt grundsätzlich nicht, sofern keine gesetzliche Pflicht zur Weitergabe besteht oder die Weitergabe der Straf- oder Rechtsverfolgung dient. Die Registrierung der betroffenen Person unter freiwilliger Angabe personenbezogener Daten dient dem für die Verarbeitung Verantwortlichen dazu, der betroffenen Person Inhalte oder Leistungen anzubieten, die aufgrund der Natur der Sache nur registrierten Benutzern angeboten werden können. Ferner dient die Registrierung der betroffenen Person (im Datenschutzerklärungsgenerator) der Überwachung des Einsatzes der durch uns ausgegebenen und urheberrechtlich geschützten Texte, sowie der Überprüfung der Linksetzung und der Urheberbenennung, als auch eigenen Dokumentationszwecken. Zudem nutzen wir die über den Datenschutzerklärungsgenerator erhobenen Daten für die Kundenakquise, insbesondere für die telefonische Kontaktaufnahme und den Versand von Werbung per Post und E-Mail. Registrierten Personen steht die Möglichkeit frei, die bei der Registrierung angegebenen personenbezogenen Daten vollständig aus dem Datenbestand des für die Verarbeitung Verantwortlichen löschen zu lassen. Der für die Verarbeitung Verantwortliche erteilt jeder betroffenen Person jederzeit auf Anfrage Auskunft darüber, welche personenbezogenen Daten über die betroffene Person gespeichert sind. Ferner berichtigt oder löscht der für die Verarbeitung Verantwortliche personenbezogene Daten auf Wunsch oder Hinweis der betroffenen Person, soweit dem keine gesetzlichen Aufbewahrungspflichten entgegenstehen. Der in dieser Datenschutzerklärung namentlich benannte Datenschutzbeauftragte und die Gesamtheit der Mitarbeiter des für die Verarbeitung Verantwortlichen stehen der betroffenen Person in diesem Zusammenhang als Ansprechpartner zur Verfügung.

Facebook

Unsere Website enthält Verweise (Links) auf das externe soziale Netzwerk Facebook. Dieser Internetauftritt wird ausschließlich von der Facebook Inc., 1601 S. California Ave, Palo Alto, CA 94304, USA (Facebook) betrieben. Die Verweise sind im Rahmen unseres Internetauftritts durch das Facebook-Logo oder den Zusatz „Gefällt mir“ kenntlich gemacht (es werden keine Facebook-Plugins genutzt). Bei einem Besuch unserer Website werden Funktionen und Datenübermittlungen an Facebook nicht automatisch aktiv. Erst durch einen Klick auf die Links werden die Facebook-Plugins aktiviert, Ihr Browser stellt eine direkte Verbindung mit Facebook-Servern her. Sofern Sie den Links folgen und gleichzeitig bei Facebook mit Ihrem dortigen Benutzerkonto angemeldet sein, wird die Information, dass Sie unsere Website besucht haben, an Facebook weitergeleitet. Den Besuch der Website kann Facebook Ihrem Konto zuordnen. Diese Informationen werden an Facebook übermittelt und dort gespeichert. Um dies zu verhindern, müssen Sie sich vor dem Klick auf den Verweis aus Ihrem Facebook-Account abmelden. Zweck und Umfang der Datenerhebung durch Facebook sowie die dortige weitere Verarbeitung und Nutzung Ihrer Daten wie auch Ihre diesbezüglichen Rechte und Einstellungsmöglichkeiten zum Schutz Ihrer Privatssphäre

entnehmen Sie bitte den Datenschutzhinweisen von Facebook.

Zur Facebook Datenschutzerklärung

Nutzung von Facebook Remarketing

Wir verwenden auf unserer Website die Remarketing-Funktion „Custom Audiences“ der Facebook Inc. („Facebook“). Besuchern unserer Webseite werden damit beim Besuch auf Facebook-Seiten interessenbezogene Werbeanzeigen („Facebook-Ads“) präsentiert. Hierzu ist auf unserer Website das Remarketing-Tag von Facebook implementiert. Hierüber wird beim Besuch der Webseite eine direkte Verbindung zu Facebook-Servern hergestellt. An den Facebook-Server wird übermittelt, dass Sie unsere Website besucht haben: Facebook ordnet diese Information Ihrem persönlichen Facebook-Benutzerkonto zu. Nähere Informationen zur Erhebung und Nutzung der Daten durch Facebook sowie über Ihre diesbezüglichen Rechte und Möglichkeiten zum Schutz Ihrer Privatsphäre finden Sie in den Datenschutzhinweisen von Facebook. Alternativ können Sie die Remarketing-Funktion „Custom Audiences“ unter www.facebook.com/settings/deaktivieren. Hierfür müssen Sie bei Facebook angemeldet sein.

WIE BEWERBE ICH MICH?

Der Bewerbungsprozess

Sprich mit dem International Office an deiner Heimathochschule und entscheide dich für ein Semester an der SRH Hochschule Heidelberg. Deine Heimathochschule muss dich nominieren.

Nominierung: Deine Heimathochschule kontaktiert uns und schlägt Dich für ein Austauschsemester vor.

Bewerbung: Du bewirbst dich selber im Online-Portal.

Immatrikulation: Sobald Du als Austauschstudien:in akzeptiert bist, immatrikulieren wir dich; du erhältst ein Email mit deiner Matrikelnummer und deinen WIFI-Zugangsdaten.

The StipendiumPlus Team

StipendiumPlus: more than just a scholarship, more than just one scholarship opportunity. We are thirteen organizations for the promotion of young talent which have come together under the umbrella of the Federal Ministry of Education and Research (BMBF) to provide support to students and young researchers with special talents.

You have therefore got a dozen possibilities to choose from and to match your personal interests and your study priorities. There are ideologically neutral organizations as well as others that are more politically associated, denomination-based or are run by the unions or employers' associations. We adopt and represent different views and positions which reflect the plurality of our democratic society, yet we share the same goal. We are dedicated to promoting the common good and are assuming responsibility for the society in which we live. We have established common rules and aims in coordination with the BMBF. Our motto is 'Diversity in Unity'.

We are striving to achieve this vision for people like you. It is our hope that you will be inspired to share our enthusiasm. Clearly, you stand only to gain. For decades we have represented a large network with lots of experience and many contacts both in Germany and abroad – and with an unflagging curiosity about innovation.

Who we support

We support bright minds that seek to bring change to society. What this means in real terms: our funding programmes target German students as well as EU students and other international students who are entitled to permanent residence in Germany within the meaning of Article 8 Federal Training Assistance Act (BAföG). The applicant student must be enrolled at a public or state-recognized institution of higher education in Germany. Periods of study abroad may also be eligible for support under certain conditions.

Doctoral students with a particular talent and a promising dissertation topic are also eligible for funding. In this particular case, admission to take a doctoral degree at a public or state-recognized institution of higher education in Germany is required.

Please get in direct contact with the organization that most appeals to you for more details and about any possible special requirements. You will find more information on the websites of these organizations by clicking on the individual logos below.

Jetzt durchstarten!

Du bist aktiver oder ehemaliger Zeitsoldat? Starte jetzt deine zweite Karriere mit einem Studium an unserer Hochschule. Wir unterstützen dich ganz individuell auf deinem Weg zurück in das zivile Berufsleben.

Du stehst bei uns im Mittelpunkt

Im Laufe deiner Bundeswehr-Karriere hast du bereits viele Fähigkeiten erworben, die dir auch in der zivilen Berufswelt zugutekommen: Teamfähigkeit, Organisationstalent und Führungsstärke sind Skills, die auch in der privaten Wirtschaft und im öffentlichen Dienst gesucht werden. Das Studium bei uns zielt darauf ab, deine Kompetenzen weiterzuentwickeln. Bei uns wirst du während deines Studiums persönlich begleitet und betreut.

Deine Vorteile bei uns:

DU studierst in 5-Wochen-Blöcken und bearbeitest praxisnahe Aufgaben in kleinen Teams: In unserem Studienmodell, dem CORE-Prinzip, richtest du deine volle Konzentration auf maximal zwei Fächer parallel innerhalb eines 5-Wochen-Blocks.

WIR begleiten dich persönlich und kontinuierlich bei der Erreichung deiner Ziele - individuelle Betreuung und Studienorganisation führt zu optimalen Studienbedingungen für dich

REINEN Frontalunterricht gibt es nicht. Stattdessen werden unsere Dozent:innen für dich zu Lern-Coaches. Gemeinsam erarbeitet ihr nicht nur Fachwissen und Methoden, sondern feilt auch an deinen Selbst- und Sozialkompetenzen

DU profitierst vom "Kasernenfeeling" auf dem Campus – mit Wohnheim, Zentralbibliothek, Mensa, Café und Fitnessstudio hast du alles direkt vor Ort

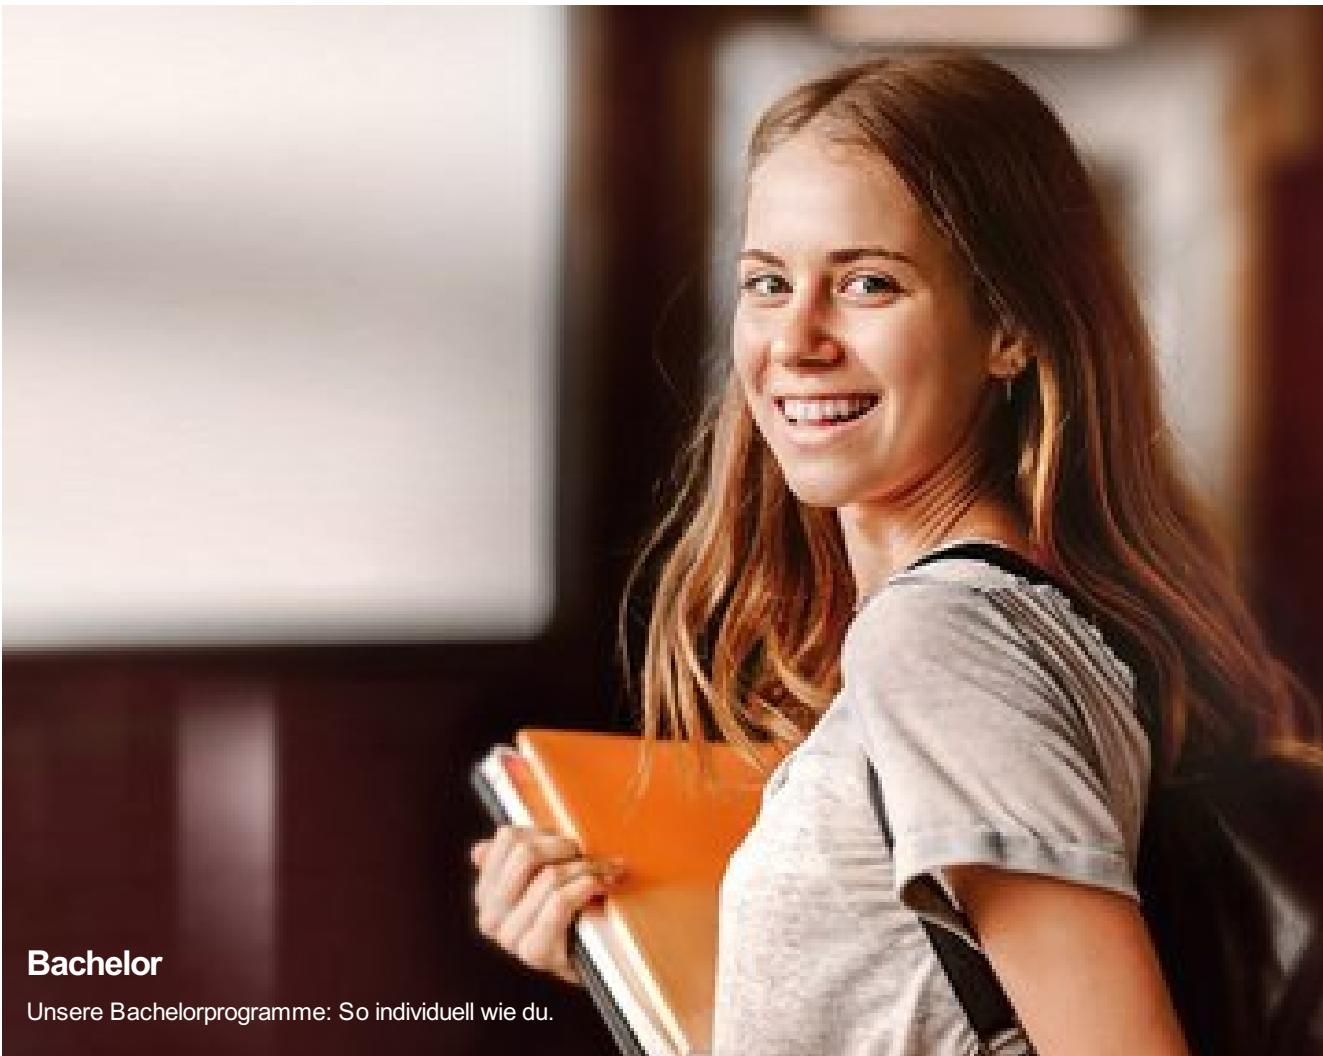

Stefan Schlimm, Masterstudent Psychologie M.Sc.

"Der großzügige Campus und die Stadt Heidelberg bietet mir alles was ich mir für ein erfolgreiches Studium wünschen kann."

Democratia-Aqua-Technica

The interdisciplinary network Democratia-Aqua-Technica, founded in 2019 by SRH University Heidelberg and the University of Novi Sad, focuses on the development of innovative solutions for sustainable water resource management to promote the reduction of water conflicts. In 2023 the project-based events are planned with partner universities from Slovenia, Hungary, Romania and Turkey.

Learning from others – that is not only the principle within each individual university, but also beyond. The exchange between the universities makes it possible to develop new ideas together and work on them.

Who can apply to be insured?

Interns, students, scientists with their partner and children

Who is already insured?

- If you are holding a scholarship funded directly by the DAAD, this information is not of interest for you. The insurance is already a part of your scholarship.
- Lecturers, scientists and postdocs funded by the DAAD, who have applied to be insured as part of the funding. (see attachment of funding agreement).

What requirements must I meet?

- I'm doing an internship abroad...
- I want to study abroad...
- I have a first degree already...
- I am doing a PhD...
- I am a scientist...

... and do receive funding from programs of the DAAD or the European Union.

... or I am supported by a German university or a partner organization of the DAAD.

Information regarding the conditions of insurance

- **Tarif 720:** für vom DAAD oder seinen Partnerorganisationen vermittelte oder geförderte Studierende sowie Auszubildende im Erasmus-Programm während eines Auslandspraktikums
- **Tarif 726:** für deutsche Studierende und Graduierte, die aus Programmen des DAAD bzw. der Europäischen Union oder Mitgliedshochschulen des DAAD betreut oder gefördert werden und die im Rahmen dieser Programme ein Auslandsstudium, -semester oder ein Auslandspraktikum in Ländern des geografischen Europas sowie Georgien, Marokko, Russland, Tunesien, Türkei und Zypern absolvieren
- **Tarif 729:** für deutsche Studenten und Graduierte während ihres Aufenthaltes im außereuropäischen Ausland (Ausnahme: Aufenthalte in den USA), die über Projektverträge des DAAD oder einer seiner Partnerorganisationen gefördert oder betreut werden
- **Tarif 750:** für deutsche Postdocs und Wissenschaftler sowie deren mitreisenden Familienangehörigen, die aus Programmen des DAAD, der Europäischen Union oder Mitgliedshochschulen des DAAD weltweit (außer USA / Kanada) betreut oder gefördert werden.
- **Tarif 751:** für deutsche Postdocs und Wissenschaftler sowie deren mitreisenden Familienangehörigen in die USA, die von einer Partnerorganisation des DAAD betreut oder gefördert werden.
- **Tarif 752:** für deutsche Studierende und Doktoranden während der Zeit eines Studiums in den USA

Virtual Global Study Abroad Fair in November 2020

Every day, presentations and Q&A sessions on each of SRH University Heidelberg's partner universities helped the students learn more about the possibilities offered for a semester abroad. Several incoming exchange students currently studying at SRH University Heidelberg had the opportunity to present their home university and give a greater insight into the student life there.

This event was also the opportunity for students in the School of Business to learn more about double degrees and MBAs offered with partner universities in South Korea, Spain, USA, UK and France.

Six students, both current and former exchange students, have been awarded a small prize from the International Office for their particularly outstanding presentations:

Julian, former outgoing student to University of Stavanger, Norway

Nikita, current incoming student from Lomonosov Moscow State University, Russia

Dennis, former outgoing student to Butler University, USA

Khanh, future incoming student from Vietnam National University HCMC, Vietnam

Tom, former incoming student from Bournemouth University, UK

Julian, former outgoing student to Deakin University, Australia

SRH University Heidelberg warmly thanks all presenters for their participation and their help in the organisation of this digital event. The university is very proud of its network and of the successful collaboration with each partner university around the globe.

THINK BIG – two degrees, two universities, two countries

Two degrees mean greater career opportunities, a potentially higher starting salary, and a wider set of skills that will be highly sought after in the labour market. Taking a dual degree programme means that you will be studying at SRH University Heidelberg and at one of our partner universities abroad. Dual degree graduates receive two academic degrees – one degree from each country.

Overview dual degree (Bachelor)

The dual degree provides a student the opportunity to earn **two degrees**. Dual degree graduates attend **two universities in two different countries and receive two academic degrees** – one degree from each country.

The two degrees might be in the same subject area, or in two different subjects.

In which language are the dual degrees?

How can I apply for a dual degree?

What is the timeline for the dual degree?

What are the costs for the dual degree?

At which partner universities can I complete an dual degree?

Optional MBA Degree

The Optional MBA provides a student the opportunity to earn **two degrees**, MA and MBA. The student attends two universities in two different countries, SRH University Germany and one other university either in the USA or France.

The two degrees might be in the same subject area, or in two different subjects.

In which language is the optional MBA degree?

How can I apply for an Optional MBA?

What is the timeline for the dual degree?

What are the costs for an Optional MBA?

At which partner universities can I complete an optional MBA degree?

OUR DUAL DEGREE OPTIONS

The choice is yours!

Any student can apply for one of our dual degree options, when studying one of the following study programmes:

Bachelor degree programmes

Master degree programmes

East-West Dialogue Project

The East-West Dialogue Academic Exchange and Scientific Cooperation for Security, Cooperation and Civil Society Development in Europe Project is a project intended to break barriers and to contribute to interdisciplinary exchange of experts, scholars and scientists from fields not limited Environmental and Water Technology, Conflict Research and Management and Leadership.

The project which has the aim of water-conservation, sustainable land and water use through prevention and resolution of water conflicts caused by agricultural practices is managed by Dr. Enis Yazici and Prof. Dr. Ulrike Gayh (School of Engineering

and Architecture).

A first digital winter school will be carried out with students from Germany and Russia. We have two main topics on which we work during the winter school end of November but also already starting on after a first online workshop (25./26.7):

Use of humic substances on agricultural land in Russia to increase Tolerance in crops to abiotic stress, pesticide exposure in bodies of water

Data Science goes Water Management: Use of AI and Machine Learning to predict natural disasters to reduce Water Conflicts

EVERYTHING YOU NEED

We celebrate the advantage of being a campus university

The SRH University Heidelberg is a campus university and we are proud of that: Our green campus is located directly on the river Neckar, in the quiet but central district of Wieblingen. Here you will find various gastronomic offers for lunch breaks, coffee in the morning or snacks in between. Study and work in our modern library or take advantage of our sports facilities at Campus Sports. For students who would like to live close to the university, there are numerous apartments available. Spacious greens invite you to spend breaks and small study sessions outdoors, especially in the summer months.

When you meet first Harsha, at first glance, she seems like just a normal student. But after ten minutes at the most, you come away deeply impressed. She told me how the Vedhas Foundation came about, about her team, “her” children and the difficulties she has experienced herself.

The coronavirus pandemic hit the German school system very hard, partly because of a lack of digitalisation. So you can imagine how difficult the lack of face-to-face teaching may have been – and still is – for emerging countries like India. In many schools, classes simply stopped, and children were left without education.

Harsha did not want to see this happen. She grew up in Nashik, a city of a million people about 150 km northeast of Mumbai. Her father is a businessman, her mother stayed at home. Harsha attended one of the government schools in the city, which was also attended by some children from the local slum, where about 10,000 people live. The school offers these children a chance at education, a chance to make an impact in their slum and, most importantly, a chance for change. However, in February 2020, these educational institutions were forced to close. While some schools have switched to online teaching by now, many children still do not have mobile phones or any other internet source. Throughout 2020, children and young people were not allowed to play on the streets of India; they were left alone at home in social isolation, and denied educational opportunities.

Harsha noticed this decline in the education system and decided to do something about it herself. She had already worked as a tutor and had campaigned for human rights. “I asked myself, ‘why we are all just watching so helplessly – why aren’t we doing something about it?’” Harsha said. This idea prompted her to set up the Vedhas Foundation, which she runs with local friends. The mission was very clear from the beginning: since every other kind of educational path was blocked off to these isolated children, the Foundation would offer them a different one. Since February 2021, the children have had the opportunity to actively learn with their Vedhas Foundation tutors on Sundays from 9 to 11 am. As Harsha put it, “We tried to establish activity-based learning. This means that we not only tutored the children in English and math, but also went to various institutions to give the children a new perspective. This included learning the essentials of life, such as being as hygienic as possible in the slums.” Another important part of the Vedhas Foundation is passing on human values. In India, treating girls and boys equally is not a given. Many girls grow up believing that their brothers are worth more than they themselves are, and they have to forego their

schooling so their brothers can attend. Vedhas tries to show the girls their true value and to encourage them on their educational path.

» With Vedhas, we want to create a safe environment for the children who come to us. «

— Harsha Poojari

Since then, the Vedhas Foundation has grown to a team of 30 people, with eight founding members divided between organisation, teaching and promotion on social media. In addition, numerous tutors encourage the children in their schooling. “But we are always looking for new volunteers to support the children,” commented Harsha. This is also possible online. Anyone interested can contact her via the Vedhas Foundation’s Instagram channel, @vedhas_org.

Advantages of applying for collateral/non-collateral education loan via WeMakeScholars

WeMakeScholars (WMS) is an organisation supported by the **IT Ministry, Govt of India**. Our motive is to offer unbiased abroad education loan support to students who are planning for studying abroad. As this initiative is under the digital India campaign, it's at free of cost. We are associated with 14+ banks (public/pvt) in India and help you get the best abroad education loan matching your profile. Interested students can [request a callback](#) from the team. Advantages of applying for abroad education loan are listed below:

Incase of collateral based abroad education loans from public banks like SBI, the benefits are:

- Multicity cases can be tackled easily: Which means if your permanent resident of a city A and if the property belongs to city B, such study abroad education loan cases are not done/takes a lot of time if applied directly to the bank. Via WeMakeScholars, it can be done faster/on time.
- Negotiation on your behalf: WMS team can negotiate on your behalf with the bank for the best ROI and also we see that you are charged nominal for the complete process, including the lawyer's fee etc.
- Best customer service/support: You can avail a complete customer support from the WeMakeScholars team for any of the doubt you have, anytime.
- Digital tracking: Those applying via WeMakeScholars will get a 16 digit reference number to track your study abroad education loan application online from the [SBI education loan portal](#).
- Cashback offered: You will be rewarded with a cashback on multiple disbursements to a maximum of INR 3000, as you are supporting the Digital India campaign by applying for your study abroad education loan via WeMakeScholars.

Incase of non-collateral based abroad education loans from pvt banks/NBFCs the benefits are:

- Better Interest rate: It is better to apply for your study abroad education loan via WeMakeScholars, than going directly to NBFCs/ private banks. Because, you get at lower interest rates as WMS is the pan India partner for these banks and financial institutions.
- Deviations possible in your case: Also, deviations are possible as WMS team will negotiate with the lender on your behalf. Deviations like- if your GRE score is slightly lower than the bank's requirement etc. WMS can help you with upto 40 lacs without collateral. The ROI will be b/w 10.99-13.99% depending on your profile (scores) + co-applicant profile + uni going to.
- Best customer service with end-to-end coordination: If you go directly to the bank/NBFCs, you get education loan rejections without any proper explanation. While, the WMS team will negotiate with the lender to find other ways of getting your education loan sanctioned, which otherwise is not possible when you interact with them directly. This is because, the WMS team is associated directly with the Head office of these lenders.

- Cashback offered: You will be rewarded with a cashback on multiple disbursements to a maximum of INR 3000, as you are supporting the Digital India campaign by applying for your study abroad education loan via WeMakeScholars.

Irrespective of the bank, you get referral reward of upto ₹3000 for every successful referral. Now, you have a reason to share with friends too. Refer now!

Education loan interest rates comparison

Education loan interest rates – Comparison between public and private sector banks in India

With increasing number of Indian citizens planning on pursuing education overseas, the number of student loans being sanctioned is multiplying. Though scholarships act as leeway for evading the burden of repaying the loan, financing for studies abroad is quite a daunting task for most families in India. Education loan in India is becoming easier to avail as more and more banks, both private and public, are providing loans at competitive interest rates with... [Read More](#)

HDFC abroad education loan

HDFC Education loan: Interest rate and its Pros and Cons

As the number of students pursuing education abroad is increasing, many banks have started lending educational loans with attractive schemes to these students for studying overseas. One such popular educational loan scheme was offered by Credila which was recently taken over by HDFC to form HDFC Credila education loan. The HDFC education loan helps students achieve their dream of studying abroad in more than 35 countries.... [Read More](#)

Education Loan FAQs

What is WeMakeScholars?

How does WeMakeScholars helps students to secure education loans for abroad studies?

Do you help with both Collateral and non-collateral education loans for abroad studies?

How many days does it take for me to get an education loan via WeMakeScholars?

Is there any fee for the services offered by WeMakeScholars?

Does WeMakeScholars help only with public bank, or with other private and NBFCs too?

What is the step-by-step process of sanctioning my education loan if I apply via WeMakeScholars?

What are the benefits I get if I apply for my education loan via WeMakeScholars?

Does WeMakeScholars' team negotiate with the banks/lenders with the interest rates?

Does WeMakeScholars team directly speak with the branch managers on the applicant's behalf?

Currently, it takes 60 days on an average to get an education loan sanction from a public bank. Then how does WeMakeScholars promise a 14 day approval?

I heard WeMakeScholars team is better updated with the latest schemes and policies of the banks than the branch managers. Is that true?

Is there any cap on the maximum education loan amount, I can request via WeMakeScholars?

I'm going for a diploma program. Can I still apply to WeMakeScholars for an education loan for abroad studies?

Can I use agricultural land as a collateral to take an education loan for abroad studies?

What are the types of collateral accepted by the banks for abroad education loan?

Unfortunately, I don't have a collateral. But, my uncle has. Does bank accept such third-party collateral for education loan?

Can I use multiple collaterals to meet my abroad education loan requirement. For ex: Flat A plus House B, both?

WeMakeScholars only helps with education loan for abroad studies or also to study in Indian universities/colleges?

Will WeMakeScholars team speak to my parents if required? Incse they have some doubts?

I have already started my application with a bank and its struck due to some issue and I have no clear update. Can You guys help me now?

If I refer my friends to WeMakeScholars, do I get anything?

I asked to my branch manager about WeMakeScholars and he had not heard about this initiative before. Then how can I believe this is true?

Why did WeMakeScholars launch Study abroad education loan?

Every year, more than 30% study abroad aspirants drop even after getting an admit to their dream university. The reason is not being able to "Arrange finance". WeMakeScholars took its first step to solving this issue by listing all the "[International Scholarships](#)" after its founders won fully funded scholarships for their Masters in the UK. For them, it was impossible to take up an international degree without a scholarship.

Since our launch in April 2015, over 1500+ study abroad aspirants achieved their dream by applying and winning International scholarships through WeMakeScholars.com. Unfortunately, due to high competition, there is a significant number of students who couldn't win scholarships. With an aim to help these study abroad aspirants to achieve their dream, WeMakeScholars had started the "Study Abroad Education Loan" product, with support from the IT Ministry, Govt of India.

By partnering with the top banks and NBFCs in India and worldwide, WeMakeScholars facilitates the [study abroad education loan](#) application process and makes sure that it runs smoothly and on-time. Its current partners include [State Bank of India \(SBI\)](#), [Bank of Baroda \(BOB\)](#), Punjab National Bank (PnB), Canara bank, [Prodigy Finance](#), Incred, Avanse, MPower, Stilt, HDFC Credila and more banks and financial partners. Though a majority of these current partners offer loans only to Indian nationals, WeMakeScholars is adding on various loan providers from the US, UK, Malaysia to help its global community.

How to apply for a study abroad education loan on WeMakeScholars in just 5 minutes?

If you are not sure, you can [request a callback](#) and the study abroad education loan team will call you and guide you throughout the education loan process, until sanction.

Or else, you can check your eligibility for a study abroad education loan by:

- Providing the details of the loan amount and degree you are requiring loan for- including degree level, country of study and course duration
- Considering your eligibility, you get the list of loan providers with the details of interest rate, approximate EMI and processing fee.
- Choose one or multiple banks which suit your needs and click "Apply". Provide the required details to submit the application.

Current Study abroad education loan providers:

- [State Bank of India \(SBI\)](#) is the largest education loan provider in India. SBI Global Ed-vantage scheme offers education loan for abroad studies from ₹ 20 lacs to ₹ 1.5 Cr. This overseas education loan is primarily for those who wish to pursue a full-time regular course at a recognized foreign college or University. You can also apply online directly for quick processing. [Apply for SBI education loan](#) online application form

Check out: [SBI education loan for abroad studies and application form details](#)

- [Bank of Baroda](#) offers education loan for abroad studies. They have multiple schemes for the education loan- Baroda Gyan for higher education in India, Baroda Education loan for premier institutes in India and Baroda Scholar scheme offers education loan for studies abroad. The Baroda Scholars scheme is eligible for undergraduate, Masters, Ph.D., Diploma and aviation-related programs. [Apply for BOB education loan](#) online application form

- Punjab national bank (PNB) offers four schemes under the education loans- PNB Saraswati, PNB Pratibha and PNB Kaushal are for education loans in India. While the PNB Udaan scheme is to provide financial support as abroad education loan to meritorious students for pursuing the higher education abroad. [Apply for PNB education loan online application form](#)
- Canara bank offers abroad education loans under the IBA Model Education Loan scheme. This includes the tuition/course fee, equipment, living expenses, travel expenses. Canara bank usually offers up to 20 lacs for abroad education. The margin percentage for the Canara bank abroad education loan is 15%. [Apply for Canara bank education loan online application form](#)
- Incred finance is a relatively new NBFC offering abroad education loan for Indian students. Incred offers non-collateral education loan up to 40 lacs. They offer abroad education loan to over 700 universities and 250+ programs globally. WeMakeScholars team directly works with the Head office of Incred Finance and would be able to offer discounted interest rates with the best customer service experience. WMS also helps to check your eligibility for Incred finance, Incred's documentation process, help negotiate with the Incred processing fee and charges etc. [Apply for Incred education loan online application form](#)

Check out: [A guide to education loan without collateral](#)

- Avanse is an NBFC offering non-collateral abroad education loans. Their tagline is "Aspire Without Boundaries", helping study abroad aspirants to fulfill their dream. They require basic GRE score of 260 to be considered for the education loan processing. A co-applicant is mandatory for the Avanse study abroad education loan processing. WeMakeScholars is directly associated with the Avanse Head office which allows us to offer a lower interest rate when compared to what you get if you apply directly to Avanse. The other major benefit is that WMS team assists you with checking your eligibility for Avanse. We also help students with the Avanse documentation process and in negotiating on your behalf for the Avanse processing fee and other associated charges. Check out for the Avanse education loan review. [Apply for Avanse education loan online application form.](#)

Unser Ziel ist es dir den Masterstudiengang Tanz- und Bewegungstherapie (TBT) und die Anwendungsfelder der Tanz- und Bewegungstherapie näher zu bringen. Unsere Dozierenden nehmen dich direkt mit in einen Praxisworkshop - so kannst du

aktiv erfahren, wie die Tanztherapie in Praxis abläuft und an der SRH vermittelt wird.

Zusätzlich bekommst Du einen vertieften Einblick in den aktuellen Stand der tanz- und bewegungstherapeutischen Forschung. Der Tag schließt mit einer Einheit, in der die Bedeutung von Körpererfahrung in der Tanz- und Bewegungstherapie im Mittelpunkt steht. Der Einführungsworkshop richtet sich an alle, die sich konkret für ein Master Studium an der SRH interessieren oder sich allgemein über die Tanz- und Bewegungstherapie informieren wollen. Unser Einführungsworkshop findet in den Praxisräumen der Fakultät für Therapiewissenschaften statt. Bitte bring bequeme Kleidung und Deine Neugier auf die Tanz- Bewegungstherapie mit.

Programm:

10:00 – 11:30 **Join the dance** / Bewegte Einführung in die Tanz-und Bewegungstherapie / Claudia Sauerborn

11:45 – 12:30 **Soft moves – hard sciences** / Tanz-und Bewegungstherapie und empirische Forschung / Prof.Dr. Sabine Koch

12:30 – 13:30 Pause

13:30 – 14:30 **Master Tanz-und Bewegungstherapie an der SRH** / Claudia Sauerborn

15:00 – 16:15 **Movement in depth** / Einblicke in die Körper-Selbsterfahrung / Claudia Sauerborn

16:15 – 16:45 **Abschluss** / Fragen und Resonanzen

YOUR COURSE CONTENT

What you will learn

Electrical engineers play a key role in the current technological transformation of mobility and energy technology. After studying the Electrical Engineering Bachelor's degree at SRH University of Applied Sciences Heidelberg, you will have all the skills you need to successfully plan, develop and maintain complex systems. You will also have the opportunity to specialise in areas of high social relevance: electromobility, energy technology and mobile robotics.

Your course content in detail

Our innovative approach that pays off

Fit for progress: As an electrical engineer, you are an innovator in the modern information society. In all industries, electrical engineers are specifically sought and hired for innovative tasks.

As an electrical engineer, you will usually work on one large or several small sub-projects. You will often be involved in the entire process, from planning and development to the design and manufacture of new devices, equipment and systems in the field of electronics and electrical engineering.

ADMISSION REQUIREMENTS

Our requirements

You can be admitted to study at SRH University Heidelberg if

you have a general higher education entrance certificate (Abitur), a subject-specific higher education entrance qualification (fachgebundenes Abitur) or an entrance qualification for studies at universities of applied sciences (Fachhochschulreife),

or you can demonstrate at least two years of vocational training and a minimum of three years' professional experience, and have passed an aptitude test,

and you have additionally passed our selection process.

English language proficiency:

IELTS 6.5

TOEFL 80

Duolingo Certificate 110

PTE Academics 58

or a comparable test

You do not qualify? No problem, SRH has its International College for students who do not qualify for direct entry into our programmes or need to bring up their English language level. You can choose from our Foundation programmes at the College. This is a direct pathway into our university. Find more about here . <https://www.srh-international-college.de/>

FEES AND FUNDING

Your tuition fees

Our tuition fees for the Electrical Engineering (B.Eng.) degree programme are €690 per month; you will also pay a one-off enrolment fee of €750 (Prices apply only to students from the European Economic Area).

Applicants from Non-EEA countries without permanent residence permit need to pay a tuition fee of 5,500 EUR per semester + one-time registration fee of 1,000 EUR and must pay the tuition fees for one semester in advance. From the second semester onwards the payments for the remaining semesters of study are due six weeks before the end of the period of study already paid for. The payments have to be done semesterwise.

For more information and payment modalities, please refer to the current fee schedules (valid from 01.04.2023):

[Fees schedule EEA students](#)

APPLY NOW

Application process and deadlines

We look forward to welcoming you to SRH University Heidelberg soon!

We do not have any application deadlines. This is what your application process looks like:

If you are interested in the Bachelor's degree programme in Electrical Engineering, you can send us your application easily and conveniently online

And if you have any technical difficulties with the online application or questions about your application, your contact person Jennifer Schneider will be happy to help you.

If you meet the admission requirements, we will invite you to a selection interview. If you are successful in the selection interview, we will send you the acceptance letter and the study contract. You sign the study contract and send it back to us

You pay the registration fee

If you come from a non-EU country, you pay your tuition fee one semester in advance in addition to the registration fee. From the second semester onwards, payments for the remaining semesters are due six weeks before the end of the study period you have already paid for.

We will issue you with your letter of admission

You take part in our Startklar days - and off you go with your studies!

APS Certificate

Please note that special conditions apply to applicants from some countries:

India

From 1st of November 2022, applicants from India will be required to have their documents verified by the Academic Evaluation Centre New Delhi (APS-India) before applying for a visa. After successful verification you will receive a certificate which allows you to initiate the visa process. Please note that the verification process at APS-India is expected to take approximately 4 weeks. We recommend that you apply for the APS certificate at the same time as you apply to SRH University Heidelberg. For more information, go to the APS-India website: www.aps-india.de

The People's Republic of China

The procedure of the Academic Evaluation Centre of the Cultural Section at the German Embassy in Beijing (Akademische Prüfstelle – APS) must have been successfully completed before you apply. The centre checks documents for authenticity and conducts interviews. The original APS certificate must be enclosed with the application documents. For more information, go to the APS website at: www.aps.org.cn .

Please note that you don't need to complete the APS procedure if you apply for our 3+1 programmes.

Vietnam

The Academic Evaluation Centre of the German Embassy in Hanoi has been checking the university entrance qualifications of Vietnamese applicants since 2007. The procedure includes checking the submitted written documents as well as an interview with the applicant. An original copy of proof of successful completion of this process, the APS certificate, must be enclosed with the application documents.

What is the project about?

As part of the "Energy and Sustainability" module, students on the International Business and Engineering (M.Ing.) course have been given the task of designing an energy concept for Heidelberger Druckmaschinen that improve cost efficiency on the one hand and reduce the environmental impact on the other. Students on the Climate Change Management and Engineering (B. Ing.) course are also involved in the project.

The students receive real energy consumption data with a high temporal resolution from the company and are to investigate

various energy supply alternatives from technical, economic, environmental and social acceptance points of view and develop energy roadmap for the Wiesloch-Walldorf site of Heidelberger Druckmaschinen AG.

The students should focus equally on electricity and heat supply in their work, whereby they will carry out their analyses in groups of three in competition with other student groups.

What are the next steps?

46.10.2023 | Project Kick-off

48.10.2023 | Definition of project groups

48.10.2023 | Excursion to the company Heidelberger Druckmaschinen AG

48.10.2023 | Excursion to the Stadtwerke Walldorf (Combined heat and power plant)

23.10.2023 | Milestone 1: Presentation of the status quo for schedule and goals

09.11.2023 | Milestone 2: Presentation of the status quo for the methods

13.11.2023 | Excursion to the Iffezheim hydropower plant and the RDK coal power plant in Karlsruhe

30.11.2023 | Excursion to the Pfisterer biogas plant

04.12.2023 | Milestone 3: Presentation of the status quo in the results

24./22.12.2023 | Final presentation and presentation of the results

Project team

Prof. Dr. Enver Doruk Özdemir, Head of International Business and Engineering (M.Eng) | Prof. Dr.-Ing. Ulrike Gayh, Head of Water Technology (M.Eng.) | Dr. Thomas Sterr, Head of Climate Change Management and Engineering (B.Eng.) | Tobias

At a glance:

Project duration: 16.10. - 22.12.2023

Cooperation partner: Heidelberger Druckmaschinen AG

What is the project about?

The increase in natural gas prices is motivating more and more companies to think about alternative energy technologies. This is also the case for the SRH Berufsbildungswerk Neckargemünd. The company is working to reduce energy consumption, emissions, waste water and solid waste.

As part of the "Energy and Sustainability" module, students from the International Business and Engineering (M.Eng.) programme were given the task of designing energy concepts for the SRH Berufsbildungswerk Neckargemünd that would

improve cost efficiency on the one hand and reduce environmental impact on the other. Students from the other courses Water Technology and Climate Change Management and Engineering are also involved in the project. The students are provided with real energy consumption data from the company and are asked to examine various energy supply alternatives from a technical, economic, environmental and social acceptance point of view and to develop energy roadmaps for the campus Neckargemünd.

What are the next steps?

18.10.2022 | Definition of project groups and topics

18.10.2022 | Excursion to the SRH Bildungswerk Neckargemünd

24.10.2022 | Milestone 1: Presentation of the status quo for schedule and goals

10.11.2022 | Milestone 2: Presentation of the status quo for methods

28.11.2022 | Excursion to the hydropower plant Iffezheim and Karlsruhe Rheinhafen coal power plant

05.12.2022 | Milestone 3: Presentation of the status quo of results

24./22.12.2022 | Final presentation

Project team

Prof. Dr. Enver Doruk Özdemir, Study Programme Director International Business & Engineering (M. Eng.) | Prof. Dr.-Ing. Ulrike Gayh, Study Programme Director Water Technology (M.Eng.) | Dr. Thomas Sterr, Study Programme Director Climate Change Management and Engineering (B.Eng.) | Sebastian Stalf, dual student, Climate Change Management and Engineering (B.Eng.) | Bernd Domann, Head of Technical Service, SRH Berufsbildungswerk Neckargemünd

Are you an employee of SRH University Heidelberg? Then you can apply for funding for staff mobility for further education and training purposes. Possible activities include visits to International Weeks, observation, job shadowing, study visits, involvement in curriculum development, participation in workshops and seminars, and participation in language courses.

HOW TO APPLY

Getting your documents ready

Before your staff mobility (start at least 3 months beforehand)

Contact your chosen Erasmus+ partner university or other organisations, and establish whether and when your staff mobility may be possible

Tell the International Office of SRH University Heidelberg about your plans

Seek written approval of your planned journey from the President's Office and your dean or line manager (see guidelines for travel on official business). However, you must organise the actual trip (flight, accommodation, etc.) yourself without funding from Reisebüro Frentzen, because the Erasmus+ funding will be transferred to your private account. If you prefer to book through Reisebüro Frentzen, please notify our Erasmus+ Coordinator, Iris Ulbrich, in which case the fixed travel allowance will remain with SRH University Heidelberg.

Submit the following documents to the Erasmus University Coordinator Iris Ulbrich **at least 4 weeks before your planned departure**. The Erasmus funding will then be transferred within around 2 weeks.

Mobility agreement training containing your signature and a signature from the host university or other institution; the Erasmus University Coordinator, Iris Ulbrich, is responsible for signing this agreement for SRH University Heidelberg.

Erasmus Grant Agreement (grant agreement containing your data)

Approval by the President's Office and your dean or line manager

During your staff mobility

On the last day of your staff mobility, ask someone at the host institution to sign the **Confirmation Letter Training Mobility**.

After your staff mobility

Submit your ***Confirmation Letter Training Mobility*** to our University Coordinator Iris Ulbrich.

Complete the EU Survey (final report) as soon as you receive the request by email.

Please note: Failure to complete the above steps will result in having to return the entire Erasmus grant!

Iris Ulbrich

Your are a degree seeking student and you have been studying at SRH University Heidelberg for at least one year? Then you are eligible for application at the Erasmus+ programme.

New: Top-ups for certain students:

The following top-ups are possible. They are for students who:

“Travel green” (Travelling by train, bus or carpool). One-time top-up of 50 EUR and up to 4 funded extra travel days for certain Non-EU partner countries (attach the form “declaration of honour” to your application!).

Make a study abroad semester with their children – top-up 250 €/month

have a degree of disability of min. 20 or a chronic disease which causes an increased financial demand (proof is required!) – top-up 250 €/month or we can make a so-called “Langantrag” for an additional funding of up to 15.000 € for real costs

come from a non-academic family (both parents have never studied!) or students who have to work for their studies (attach the for “declaration of honour fewer opportunities to your application!”) – top-up 250 €/month

There is no guarantee to Erasmus+ funding!

HOW TO APPLY

Getting ready your documents

Before your studies abroad

First you have to apply in your faculty for a study abroad semester, afterwards you will be nominated at the partner university. Therefor please turn to the international coordinator of your faculty. When you have been successful please submit the following forms to the International Office, Erasmus+ coordinator Iris Ulbrich. After max 4 weeks you will get the 1st rate of your Erasmus+ funding.

Prepare an Erasmus+ OLA(Online Learning Agreement, manual on the right side). Please read the manual and coordinate your course choice and the contact dates of your contact persons at your university abroad with your „Student Exchange Coordinator“

Erasmus+ Grant Agreement (agreement with your data, your account number and exact dates of your study abroad semester).

Insurance declaration filled and signed.

Care for your health, liability and accident insurance. For questions you can refer to the International Office. We propose the combined insurance of DAAD (German Academic Exchange Service (verlinken mit: <https://www.daad.de/en/study-research-teach-abroad/scholarships-funding/daad-insurance/destination-abroad/>) as this insurance covers almost all risks.

After beginning your studies abroad

At the 1st day after your arrival let the **Arrival Form** sign at the International Office of your guest university and send this document to the Erasmus+ coordinator Iris Ulbrich.

If you want to change your courses, you have to change the Erasmus+ OLA (therefore log in your OLA-Account) or you have to make a new OLA

During the last week at your guest university let the total duration of your stay confirm by letting the **Erasmus+ Confirmation Letter** sign at the International Office of your guest university.

After the end of your studies abroad

Send the **Erasmus+ Confirmation letter** to the Erasmus+ coordinator Iris Ulbrich.

Fill the „EU-Survey“ as soon as you have received the request for it by email.

Please note that the SRH university Heidelberg is obliged by the DAAD/European Commission to collect personal data of all ERASMUS participants and to provide the European Commission with it. This procedure complies with the German Federal Data Protection Act (BDSG). By signing the Erasmus+ documents, you confirm that you are aware of and consent to this agreement.

What is Erasmus+?

Universities who participate in Erasmus+ must have an [Erasmus Charter for Higher Education \(ECHE\)](#). The EU Commission has awarded this charter to SRH Heidelberg UAS for the programme generation of 2021 – 2027. The [Erasmus Policy Statement \(EPS\)](#) is a description of the strategies and goals of SRH University Heidelberg in view of Erasmus+ in the EU in the period of 2021-2027. The Erasmus programme promotes the mobility of students and HEI teaching and non-teaching staff within all EU programme countries. All Erasmus-funded students receive a monthly grant for doing part of their study at an Erasmus+ partner university of SRH Heidelberg UAS or a traineeship abroad in an Erasmus+ programme country.

She was with us from October 2021 to March 2022 – Sherry Goodill, Clinical Professor of Creative Arts at Drexel University in Philadelphia, USA. Invited by Professor Dr. Elizabeth Manders and Professor Dr. Sabine Koch from SRH University Heidelberg, financed by the DAAD as part of a grant for foreign guest lecturers to teach at German universities in winter semester 21/22, Sherry inspired our Dance Movement Therapy students with her warm nature and her 30 years' wealth of teaching experience.

Her focus is on medically oriented applications of creative arts therapies for people with primary medical illnesses therapy, such as pediatrics, cancer treatment or for people living with other medical conditions. At our university she was very happy, she reports: "I spent a lot of time with the amazing students." She really appreciated the intercultural learning environment and working with students in the international dance and music therapy programmes. "We learn the most when we are stretched and expanded by our cultural differences and perspectives. When the students from all over the world return to their home countries, they will innovate and lead using skills and knowledge they acquired here at SRH." The study programmes in the USA and Germany do not differ that much, but the health system in the States is of course very different. "Our clients, their families, and the challenges they face can also be similar." Sherry is very grateful to SRH University and the DAAD for this experience, she says: "Heidelberg is a charming, easy and accessible city. It was delightful to be here with a team of supportive, brilliant colleagues. Yes, it even was a little bit home." So she also looks back with a bit of wistfulness: "It was a lovely round of work and community. But now it's time to return."

Promotion of foreign guest lecturers to teach at German universities WS 21/22

They will never hold their diploma in their hands: The exhibition "Unissued Diplomas" presents the stories of Ukrainian students killed in the war. Photos, posters and images of diplomas and Ukrainian culinary delights immerse visitors in the culture of the country located between the Black Sea and the Sea of Azov. The exhibition, showing at Ludwig-Guttmann-Str. 6 from 24 February until 1 March, will additionally showcase how life and life goals have changed in Ukraine since last year. The initiator of the exhibition is the Ukrainian Canadian Students' Union. Students from SRH University Heidelberg have arranged for the works to be brought to our university.

"At the age of 19, Ivan dreamed of a free Ukraine and happy people around him, of his own business and a car. He studied languages and became interested in cycling. Then he died in an air raid to protect those he saw happy in his dreams." That is just one of the 30+ stories featured in the exhibition.

Anastasia has been studying International Business at SRH University Heidelberg since October 2022, thanks to an SRH Scholarship for Ukrainian students. She is organising the exhibition in her new home country with other students from Ukraine. Anastasia comes from Odesa, and has also lost friends in the war. "Their deaths have influenced my thoughts and my way of life considerably," she stated. By organising the exhibition, the students wish to inform all university members and Heidelberg residents about the current situation in Ukraine. "We want to honour the students of our country who have perished in the war," remarked the 20-year-old student.

Exploring the Wonders of Water: A Day of Experiments at SRH Hochschule Campus with Kids

At SRH Hochschule Campus, enthusiastic and curious kids came together to delve into the fascinating world of water through various engaging experiments. They dressed in their laboratory coats and safety glasses and became ready to explore the wonders of science and water. There were five gripping water experiments waiting for the kids; Rainbow Traveling Water Experiment, Pythagoras Cup, Boats Making, Water Filtration, and Water Quality (pH). The Rainbow Traveling Water Experiment is an educational activity for kids to explore the fascinating properties of the water with a few simple materials. The magic aims to drop different colors into the water and create a bridge using a paper towel, allowing water to travel up against gravity, forming a beautiful rainbow.

Kids who saw the formation of the rainbow on the paper towel were fascinated and learned the ability of water to climb against gravity through narrow spaces in a fun way. In the Pythagoras Cup experiment, kids poured the water through two different vertical plastic cups and explored the results of water under pressure. The young explorers, designed and crafted their own boats by folding the paper and dyeing them into their favorite colors. After that, they put their handmade boats into the water and floated. In the water filtration experiments, kids placed different sizes of gravel inside a cup and poured the dirty water through the gravel. And they explored various methods of water purification, discovering how natural filtration system works. With the pH testing experiment, the kids tested the acidity or alkalinity of the water by using pH strips in different water samples. They were surprised again by the color change in the pH stripes, while different water samples looked the same from the outside. The experiment shed light on how could the quality of water be different.

The Water Experiment Day at SRH Hochschule Campus was not just a day of fun and games; it was an educational journey that sparked curiosity and awareness about the vital role water plays in our lives. Through interactive experiments, kids not only learned scientific concepts but also developed a deeper appreciation for the environment and water.

Lehre, Praxis und Forschung unter einem Dach

In den deutsch- und englischsprachigen Bachelor- und Masterprogrammen unserer Fakultät für Therapiewissenschaften erlebst du einen abwechslungsreichen und innovativen Unterricht. Zusätzlich bieten dir unsere fachspezifischen Versorgungsambulanzen eine hohe Praxsnähe und optimale Arbeitsbedingungen.

UNSERE PHILOSOPHIE

Das macht dein Studium an unserer Fakultät aus

Lernen nach dem CORE-Prinzip

Unsere Studierenden lernen entsprechend unserem hochschuleigenen Studienmodell, dem "CORE-Prinzip": Sie erarbeiten dabei innerhalb von Fünf-Wochen-Blöcken intensiv jeweils einen Themenbereich; am Ende der fünf Wochen steht eine Prüfung, die genau die Kenntnisse und Kompetenzen überprüft, die die Dozenten in diesem Block vermittelt haben.

Ausgerichtet an der Praxis

Die integrierten Praktika in unseren Lehrambulanzen, der Projektfookus und die Seminare mit unseren Praxispartnern helfen dir bereits im Studium, praktische Erfahrungen zu sammeln und in den direkten Kontakt mit Patientinnen und Patienten zu treten.

Netzwerk aus Kooperationspartnern

Während des Studiums in unserer Fakultät profitierst du von einem umfangreichen nationalen und internationalen Kooperationsnetzwerk. Zudem erhältst du in deinen Projekten und/oder während deiner Praktika die Möglichkeit, deine theoretischen Kenntnisse in die Praxis umzusetzen.

Stark in der Forschung

Du hast die Möglichkeit, Ideen und Konzepte für eigene Forschungsprojekte einzubringen und an interdisziplinären Projekten und Kooperationen teilnehmen.

Interdisziplinär

Die Vielfalt unserer therapeutischen Ausrichtungen schafft optimale Voraussetzungen für ein modernes, interdisziplinär geprägtes Verständnis von Gesundheit und Patientenbehandlung.

Spannende Projekte

Uns liegt am Herzen, dass du Spaß am Studium hast. Bei uns kannst du dich an diversen Projekten beteiligen. So kannst du zum Beispiel etwas für die Gesundheitsförderung deiner Kommiliton:innen tun und bei der Studierenden-Initiative "Beweg dein CORE" mitmachen.

Can I afford to study at a private university?

We are one of the oldest private universities in Germany and we believe in the principle of independent teaching and research. This independence is demonstrated in our many years of experience in university education, referrals from successful alumni, and our award-winning CORE Principle. However, since we know that it is difficult for many people to take on tuition fees, we also feel it is important to be there to support you.

Das Studium, aber auch aktuelle Krisen wie Erkrankungen in der Familie oder die Inflation bringen viele Herausforderungen mit sich.

Wir lassen dich damit nicht allein! Nicht nur die Hochschule unterstützt dich auf deinem Weg, sondern auch unsere Studierenden helfen sich mit verschiedenen Angeboten gegenseitig und begleiten dich fit und gesund durch das Studium.

SPORT UND BEWEGUNG

Halte dich körperlich fit – das hilft auch im Studi-Alltag!

Campus Sport

Du suchst einen Ausgleich zum Lernen? Dann teste unser Campus-Sports-Angebot: Mitten auf unserem grünen Wieblinger Campus bieten wir dir tolle Möglichkeiten, sportlich aktiv zu sein, neue Sportarten auszuprobieren und an Kursen teilzunehmen.

Nutze die Chance: Bleib sportlich aktiv während deines Studiums und starte fit in deine Karriere!

Hier erfährst du mehr über Campus Sports

Physiotherapie am Campus

Wenn du körperlich nicht ganz so fit bist und mehr Unterstützung benötigst, kannst du gerne auch das physiotherapeutische Angebot auf dem Campus nutzen!

Unsere Ambulanz ist eine moderne physiotherapeutische Praxis auf dem Campusgelände der SRH. Annahme aller gesetzlichen und privaten Kassen.

Zur Ambulanz für Physiotherapie

BERATUNG, COACHING, THERAPIE

Wir helfen bei kleinen und großen Krisen!

Open Ear

Selbstzweifel? Überforderung? Stress? All diese Probleme sind den Master-Studierenden des Studiengangs „Soziale Arbeit: Psychosoziale Beratung und Gesundheitsförderung“ nicht fremd. Sie kennen diese Problematiken aus eigener Anschauung und wissen aus Erfahrung und aus ihrem Studium, wie man damit umgehen kann. So beraten sie euch im Studierendenprojekt Open Ear umfassend und haben viele wertvolle Tipps auf Lager.

Mehr Informationen zu Open Ear!

Coaching

Prüfungsangst, Lernschwierigkeiten oder Motivationstief? Ein individuelles Coaching hilft dir, diese Hürden zu überwinden. Es unterstützt dich außerdem bei der Klärung von Zielen z.B. beim Übergang zum Praktikum oder ins Berufsleben, oder wenn du deine Leistungen optimieren möchten. Oder wäre für dich ein Thesis-Coaching gegen Schreibblockaden hilfreich? Alle Coachings sind selbstverständlich auch online und auch auf Englisch möglich. Alle Studierenden können sich in bis zu drei Einzelsitzungen unterstützen lassen – die SRH Hochschule Heidelberg übernimmt die Kosten dafür.

Mehr Infos zum Coaching

Heidelberger Akademie für Psychotherapie

Die Heidelberger Akademie für Psychotherapie (kurz: HAP) ist nicht nur der Ort, an dem angehende Kinder- und Jugendlichenpsychotherapeuten ihren Beruf erlernen, sondern auch der Ort, an dem viele Kinder und Jugendliche in der Institutsambulanz psychotherapeutisch behandelt werden.

Studierende unter 21 Jahren (Kassenpatient:innen) erhalten hier therapeutische Unterstützung.

Jetzt Kontakt aufnehmen

Beratung für Studierende mit physischen oder psychischen Beeinträchtigungen

Studierende mit einer körperlichen oder seelischen Behinderung erhalten bei uns die bestmögliche Unterstützung. Die SRH Hochschule Heidelberg wurde im Jahr 1969 als „Einrichtung zur beruflichen Rehabilitation von Menschen mit Behinderungen“ gegründet, und dieser Tradition sehen wir uns nach wie vor verpflichtet. Denn unser Ziel ist es, dass alle unsere Studierende nach ihrem Studium erfolgreich in ihr Arbeitsleben starten können. Unsere Ansprechpartner:innen Prof. Dr. Christian G. Johannsen und Prof. Dr. sc. Hum. Maren Bösel stehen dir bei Fragen zum Studium mit Behinderung jederzeit gerne zur Verfügung. Mehr Informationen dazu!

Musiktherapie & Tanz- und Bewegungstherapie am Campus Heidelberg

Lerne künstlerische Therapien für dich zu nutzen: Non-verbale Medien wie Musik, Tanz und Bewegung werden in der Kreativtherapie genutzt, um Emotionen, wahrzunehmen, zu fühlen und ihnen einen Ausdruck zu verleihen, wo Worte manchmal fehlen. Im Prozess können Sie Ihre kommunikativen Fähigkeiten, Ressourcen und zwischenmenschlichen Kompetenzen weiterentwickeln, welche Ihnen auch für die zukünftige Arbeitswelt zu Gute kommen wird.

Scholarship Department

More content about SCHOLARSHIP PROGRAMME

The Scholarship Department of the Rosa-Luxemburg-Stiftung awards financial grants to highly-qualified undergraduate and doctoral students from Germany and abroad who evidence high levels of social and political engagement. In granting scholarships, the Stiftung seeks to counteract the social, political and gender discrimination prevalent in our society, and therefore gives preference to applications from women, students of non-academic and migrant backgrounds, the socially needy, and people with disabilities who demonstrate comparable achievements and commitment. Applications from undergraduate and doctoral students from scientific and technical disciplines are actively encouraged, as well as from graduates of technical colleges.

Selection and sponsorship criteria include:

- High scholarly and professional qualifications (proof of above-average academic achievement at school and/or university)
- Political and social engagement in line with the aims of the Rosa-Luxemburg-Stiftung
- German language proficiency (B2 level or above)
- Personal/family background

The Rosa-Luxemburg-Stiftung's Scholarship Department operates according to the principle of direct application. Information on eligibility requirements and application forms for the scholarship can be found on the [applications page](#). These documents cannot be sent by post.

Deadlines for Applications

1 April
for grants beginning in the winter semester (1 October) of the same year

1 October
for grants beginning in the summer semester (1 April) of the next year

Scholarships for MA and doctoral students from Egypt, Libya, Lebanon, Tunisia, Yemen, Jordan, Morocco and Iraq

- **graduate students** pursuing their MA, *Diplom* or State Examination in Germany
- **doctoral students** pursuing a PhD or doctoral research in Germany

Lux Like Studium (only for German students and a portion of international students meeting special criteria as specified in [§ 8 of the BAföG regulations](#))

Lux like Studium is the Rosa-Luxemburg-Stiftung's new scholarship programme designed to support and accompany school students from non-academic backgrounds in gaining admission to and completing a university

degree. Students without an academic background are significantly less likely to apply to university, and are thus underrepresented on German campuses. In response, *Lux like Studium* provides financial support from the first semester onwards as a way to facilitate access to institutions of higher education.

Study Scholarships (only for German students and a portion international students, which fullfill special criteria as specified in § 8 of the BAföG regulations)

Funding is available to BA and MA students from all disciplines and all state-approved institutions of higher education who meet the requirements sets out in §8 of the German Federal Law on Education and Training (Bundesausbildungsförderungsgesetz, BAföG), namely students holding a German passport and immigrants with prospects of residing in Germany permanently. Limited funding is also available for students from other EU member states. The duration of the grant and the amount of funding provided are based on BAföG regulations. Scholarships can be awarded beginning from the second semester of studies.

[More information](#)

PhD Scholarships

The Scholarship Department awards grants to domestic and foreign PhD students from all disciplines (except medicine, dentistry and veterinary medicine). As a rule, funding lasts for two years; this may be extended for a period of six months no more than two times in justified cases.

[More information](#)

International Scholarships

The Scholarship Department also awards grants to foreign students (MA only) and PhD students who are temporarily residing in Germany for study or research purposes.

Requirements:

- German language proficiency (B2 level or above)
- MA Students must be enrolled at a state or state-recognized German university
- PhD students must be accepted at a German university

Additional Support for Scholarship Holders

The Rosa-Luxemburg-Stiftung's Scholarship Department offers scholarship holders a wide range of support, consisting of political education events and summer schools, workshops conducted both domestically as well as abroad, symposia and educational trips. It also organizes practical training in fields such as rhetoric, conflict management and other key skills, time management and self-management, bolstering academic qualifications, text and writing workshops, and specific seminars on methodology. Particular importance is given to scholarship holders' self-organization and their working groups. The work of the Scholarship Department is assisted by roughly 130 academic liaisons together with the staff and networks of the Rosa-Luxemburg-Stiftung.

I'm not a robot

FriendlyCaptcha

Trusted by the world's leading organizations

The user-friendly CAPTCHA alternative Prevent bots. Ensure privacy.

Based on proof-of-work mechanisms and advanced risk signals, Friendly Captcha employs a fundamentally new approach to securely defend your websites and online services from spam and bots.

Friendly Captcha does not depend on tracking your users and exploiting personal data. Plus, your users no longer have to deal with tedious labeling tasks. They don't have to do anything at all.

[› Start with Friendly Captcha](#)

Truly invisible CAPTCHA challenge

Experience Friendly Captcha yourself.

Friendly Captcha is the first truly invisible CAPTCHA based on proof-of-work. Instead of prompting any visible challenge to the end user, it checks the end user's device in the background.

Friendly Captcha generates a unique crypto puzzle for each user's device. As soon as the user starts to fill in a protected form, it will be solved automatically. Solving it will usually take a few seconds. By the time the user is ready to submit, the puzzle is probably already solved.

Continuity and perspective – that is what people from Ukraine are completely lacking at present. To improve the future prospects of students from the war zone, SRH University Heidelberg has set up a comprehensive scholarship offer: those interested in pursuing a Bachelor's, Master's or MBA programme can apply [here](#). The website also provides information on additional support services offered by the university.

"Our university community not only teaches and learns – we also shape the future together," remarked Professor Dr. Carsten Diener, President of SRH University Heidelberg. As soon as the war broke out, students worked hard to support refugees, organising fundraising campaigns and accommodation. "The awarding of scholarships to prospective students from Ukraine is another immediate building block that shows the importance we attach to community and solidarity. Not only the scholarship holders, but also all other students benefit from the international atmosphere at our university," stated Diener.

The requirements for applying for a scholarship are:

Ukrainian nationality

English B2 or German C1 language skills (depending on the study programme)

An excellent average grade in your previous school-leaving certificate or university degree

Letter of motivation

Admission to study at SRH University Heidelberg (preadmission letter)

Career changers are also welcome. The full scholarship covers all tuition fees for the standard duration of studies.

It won't be long now until the new members of the Faculty Board (*Fakultätsrat*) are elected. Would you be interested in getting a glimpse behind the scenes at your school and playing an active role in shaping study programmes for you and your fellow students? Then the Faculty Board is just the thing for you.

SRH attaches great importance to the active participation of students. This starts on a small scale in the form of group spokespersons, who are elected at the start of their programme and represent the interests of the study group vis-à-vis the Programme Director. In addition, each school has a school student body (*Fachschaft*) that has the option of electing a Student Representative Committee. However, this step must be initiated by the students themselves, and organised on the basis of Student Representative Committee Statutes.

The group spokespersons and the representatives of the school student body participate in the Student Assembly (*Studierendenversammlung*) on a cross-faculty basis. Besides the above-mentioned groups of persons, the Student Assembly, led by two elected chairpersons, also consists of the Faculty Board representatives and the Senate representatives.

Besides participating in the Student Assembly, three Faculty Board representatives per school and two Senate representatives make up the Student Council (*Studierendenvertretung*). The task of the Student Council is to represent the interests and concerns of all students vis-à-vis the bodies of SRH University Heidelberg, and within them. Does that all sound a bit confusing? Admittedly, it is rather complicated: while the Student Council is initiated by the university, the group spokespersons, the Student Representative Committee and the Student Assembly are all elements of student self-organisation.

As you can see, there are plenty of opportunities to get involved as a student. One possibility to become active is to stand for the Faculty Board.

The Faculty Board

Each school has its own Faculty Board. This body is made up of five professors, two academic/scientific staff representatives, two school staff representatives and three student representatives. The Faculty Board is chaired by the Dean, who, like the Vice Dean and the Dean of Studies, is a member of the Board by virtue of his or her office. As a student, you will serve on the Board for one year after being elected, attending Faculty Board meetings, which are convened by the Dean at least three times

a year. All matters of fundamental importance to the school are discussed during these meetings, such as changes to the curriculum or plans for development. You have the opportunity to participate in decision-making and to represent students' interests.

Finding solutions for all sides

Since 1 March 2021, a total of 16 students have been represented on Faculty Boards. Mara Fock, a student pursuing a Bachelor's degree in Architecture at the School of Engineering and Architecture, tells of her experiences. The 22-year-old is a member of the Student Representative Committee and the Faculty Board. Her reason for applying was that she wanted to help represent and realise the interests of students. She states: "On the Faculty Board, I can make a strong contribution to shaping everyday study life as effectively as possible." To this end, she gathers students' opinions and their requests for change, and presents them to the Board members. She can also vote on changes to new degree programmes or curricula, representing student opinions. When asked what qualities candidates for the Board should have, she says: "The reason for the Faculty Board is to discuss opinions and exchange views on issues. It is about finding a solution that works for as many parties as possible. It is therefore very important to have a keen interest in the well-being of the school and to enjoy exchanging ideas with others." She notes that, as a student, you have the chance to gain new perspectives: "Above all, I've learned how things work at the school, how new degree programmes are created and how situations like the coronavirus are addressed." When asked whether she will run for election again, the student answers: "I would like to run again, but I will complete my degree next March. But I really recommend others to run for election. I very much enjoyed serving on the Faculty Board. I have the opportunity to actively present and contribute my own ideas or students' suggestions." What she enjoys most is interacting with other members of the Board.

Trust, fun and new acquaintances

One of those other members is Kerem Bayrak, who studies Business Administration. As a member of the Faculty Board, he attaches great importance to maintaining a good working relationship: "It goes without saying that trust is essential. I want to make sure that SRH University Heidelberg is a place where students not only come to learn, but also to have fun and to meet new people. The Covid pandemic has been particularly challenging during his term of office. The 22-year-old states: "I helped the school to deal with the problems caused by the virus. The school's goal was for all students to feel comfortable with online lectures. We were there whenever anyone had a problem, and always managed to find a solution together. This enabled me to help lots of students with their problems and to support them individually and personally." The student will stand for the Faculty Board again next year. He believes that the work of being a Faculty Board member is a task that comes with a lot of trust and responsibility, something that allows you to make an impact.

Learning atmosphere benefits from productive exchange

Not only Kerem, but also Julia Fiermonte, a student of Physiotherapy and a member of the Faculty Board of the School of Therapeutic Sciences, emphasises the direct reference to matters concerning students: "A good learning atmosphere also requires effective interaction between students and lecturers. Particularly in times of the Coronavirus, I find it important that the different concerns of individual students are heard." Julia has been studying at SRH University Heidelberg for more than four years, and sees the Faculty Board as an important university instrument. It gives her the opportunity to "get a glimpse behind the scenes and learn more about how our university works and is organised".

Students' opinions highly valued

Her colleague, Business Administration student Rachel Bender reports: "Faculty Board meetings were held three times a year,

mainly online because of the Covid pandemic. During the meetings, we mainly discussed changes to types of examinations, as well as general issues regarding degree programmes, such as regulations for internships or semesters abroad. As student representatives, however, we were also able to present our own concerns, such as the establishment of a Faculty Student Council (*Fachschaftsrat*) or suggestions for improving the exchange of information within the School of Business." She too wants to stand again because she thinks it is important that students also get involved in the Faculty Board. "The teaching staff's appreciation of our opinions was a constant reminder of this," she says. The student concludes: "I find the work of the Faculty Board very important and can strongly recommend it to all students wishing to contribute to the student body."

Get involved

Are you too interested in getting involved in the Faculty Board? Then why not apply. The process of advertising the election of the Faculty Board will kick off on 17 November; the term of office will begin on 1 March 2022. We will keep you informed about this process here. And in our next edition of "Boards and Committees at our university", you'll find out more about the Senate, which will commence the process of advertising the election of student representatives on 10 January.

YOUR COURSE CONTENT

What you will learn

The Master's programme in Global Business and Leadership will enable you to gain the key transferable skills required in the labour market, allowing you to act independently and successfully: from the theoretical foundations of international management, leadership, strategic management and social research (market research) to leading intercultural teams. Last but not least, you will have the opportunity to apply all the skills gained during our teaching/learning events and in exchange with our practice partners. You will learn the foundations of strategic management, get an in-depth understanding about leadership (including psychological aspects) and social research (market research), and apply this theory to practical problems.

Our innovative approach that pays off

With a clear focus on leadership and management functions in companies, and against the backdrop of increasing labour mobility, completing this programme is the perfect way to start your career in a globalised world. Launch your career in Germany, Europe or on another continent: your management skills and the experience gained with your fellow students from all over the world will put you one step ahead of other applicants. If you are keen to implement your business model after graduation, our Founder Institute will support you.

ADMISSION REQUIREMENTS

Our requirements

A undergraduate degree (with distinction – final grade 2.5 or better)

A personal interview as part of the selection process

English language proficiency: IELTS 6.5 / TOEFL 80 / Duolingo Certificate 110 / PTE Academics 58 or a comparable test

You do not qualify? No problem, SRH has its International College for students who do not qualify for direct entry into our programmes or need to bring up their English language level. You can choose from our Foundation programmes at the College. This is a direct pathway into our university. Find more about here . <https://www.srh-international-college.de/>

FEES AND FUNDING

Your tuition fees

770 EUR per month full-time + one-time registration fee of 750 EUR (Prices apply only to students from the European Economic Area).

Applicants from Non-EEA countries without permanent residence permit need to pay a tuition fee of 5,500 EUR per semester +

one-time registration fee of 1,000 EUR and must pay the tuition fees for one semester in advance. From the second semester onwards the payments for the remaining semesters of study are due six weeks before the end of the period of study already paid for. The payments have to be done semesterwise.

For more information and payment modalities, please refer to the current fee schedules (valid from 01.04.2023):

[Fees schedule EEA students](#)

[Fees schedule non-EEA students](#)

APPLY NOW

Application process and deadlines

We look forward to welcoming you to SRH Heidelberg UAS very soon.

There are no closing dates for application at our University. This is the application process:

If you're interested in our Master's programme, simply send us your application [online](#).

If you encounter technical difficulties with the online application or have any questions about your application, your contact person Simin Chen will be happy to help you.

If you meet the admission requirements, we'll invite you to a selection interview

If you pass the selection interview, we'll send you the acceptance letter and the study contract

You then sign the study contract and return it to us

You pay the registration fee

If you come from a non-EU country, you will pay your tuition fee one semester in advance in addition to the registration fee. From the second semester onwards the payments for the remaining semesters of study are due six weeks before the end of the period of study already paid for.

We then issue your letter of acceptance

You take part in our Welcome Days – and then embark on your degree programme!

APS Certificate

Please note that special conditions apply to applicants from some countries:

India

From 1st of November 2022, applicants from India will be required to have their documents verified by the Academic Evaluation Centre New Delhi (APS-India) before applying for a visa. After successful verification you will receive a certificate which allows you to initiate the visa process. Please note that the verification process at APS-India is expected to take approximately 4 weeks. We recommend that you apply for the APS certificate at the same time as you apply to SRH University Heidelberg. For more information, go to the APS-India website: www.aps-india.de

The People's Republic of China

The procedure of the Academic Evaluation Centre of the Cultural Section at the German Embassy in Beijing (Akademische Prüfstelle – APS) must have been successfully completed before you apply. The centre checks documents for authenticity and conducts interviews. The original APS certificate must be enclosed with the application documents. For more information, go to the APS website at: www.aps.org.cn.

Please note that you don't need to complete the APS procedure if you apply for our 3+1 programmes.

Vietnam

The Academic Evaluation Centre of the German Embassy in Hanoi has been checking the university entrance qualifications of Vietnamese applicants since 2007. The procedure includes checking the submitted written documents as well as an interview with the applicant. An original copy of proof of successful completion of this process, the APS certificate, must be enclosed with the application documents.

International Research Experience @SRH: Expanding International Research

Whether inviting guest researchers to the SRH University Heidelberg or going abroad for research trips yourself: The project International Research Experience @SRH offers you financial support for the initiation and implementation of international research projects and collaborations.

Possibilities at a glance

The project offers two opportunities to support international research:

Scholarships for visiting researchers or experts: HSHD staff members may invite visiting scholars or experts from industry and practice interested in research to apply for a scholarship for a short stay at SRH University Heidelberg. The scholarships serve to initiate and carry out joint research projects and collaborations (duration of stay: max. 1 month).

Travel funds for researchers of HSHD: researchers of HSHD can apply for travel funds for the coordination, initiation or implementation of joint international research projects and collaborations abroad (duration of stay: max. 1 week).

Living in a foreign country, knowing that your health and well-being are supported and that you will be looked after as an international student is important. The information on this page gives you a quick insight into the healthcare system in Germany, your insurance coverage, how to make a doctor's appointment, where to get medications and whom to contact in an emergency.

Important to know: In Germany, every person must have health insurance. International students have to prove equivalent health insurance coverage that meets German health insurance standards either by the time they register or, depending on the country of origin, by the time they apply for a visa. It is best to clarify your health insurance situation as soon as possible.

Healthcare System

Health insurance during your studies in Germany

The DAAD insurance: Is it suitable for me?

What to do if you fall ill?

Healthcare System

The German healthcare system has a well-deserved reputation for offering equal treatment and easy access at moderate costs. You will find a large network of well-trained and skilled medical doctors, as well as modern treatment and support. There are also numerous pharmacies (in German: Apotheke) that can help you when you need medicines. There might be differences from your home country as to which medications are over the counter and which are prescription only, but pharmacists and doctors will be happy to help you with any questions.

Health insurance during your studies in Germany

As mentioned before: Every person in Germany is required to have health insurance – and so are you! This applies not only to international students, but also if you participate in a preparatory course or a Studienkolleg.

There are two types of health insurance: private and statutory (in German: private und gesetzliche Krankenversicherung). Generally, private health insurance plans offer more benefits, but they are significantly more expensive and require advance payments. For this reason, most people are covered by statutory health insurance. Statutory health insurance providers are required to offer a basic plan which includes most doctor's visits, a broad selection of medicines and, e.g., ER visits, ambulance rides and hospital stays. This basic coverage is always unchanged, no matter which statutory health insurance you choose.

By the way, with enrolment, (international) students are also automatically insured through the higher education institution's accident insurance. The insurance covers e.g. all injuries during activities that take place on the institution's grounds or that are organised by the higher education institution. However, it doesn't replace your personal health insurance.

Is my health insurance valid in Germany?

Many international students do not need to obtain a new health insurance plan in Germany. You may be able to keep your home country's health insurance if Germany has a social insurance agreement with your home country. This mostly applies to students from the EU and the European Economic Area (Norway, Iceland, Liechtenstein).

If you are from one of these countries and have statutory health insurance, it is possible to have it recognised in Germany. Private health insurance is also sometimes accepted. However, with private insurance, you will not be able to change to statutory health insurance during your studies.

Regardless of whether you have statutory or private health insurance: Inform yourself by contacting your insurance provider in your home country whether your insurance is valid in Germany. You will usually need a European Health Insurance Card (EHIC). Additionally, you will also need a certificate proving that you are not required to take out German statutory health insurance. This certificate is

issued by the statutory health insurance providers in Germany. The International Office of your chosen higher education institution will surely support you in this process.

There are a few exceptions: If you are doing an internship or have a part-time job while studying, then you will have to obtain coverage with a German provider. Your home-country insurance is not considered sufficient.

Which German health insurance is right for me and what do they cover?

In case your current health insurance isn't recognised in Germany, you must obtain health insurance coverage once you arrive in the country or when you apply for a visa. If you are under 30 years of age, you will profit from a reduced student rate of about 110 euros per month, which is offered by statutory health insurance providers. As soon as you have reached 30, you will have to pay the standard contribution though, even if you are still studying. This normal contribution is often a lot more expensive than purchasing a student plan from a private insurance company. Therefore, it might be worth checking whether private health insurance could be the cheaper option for you. You could also research if there are any arrangements between the Deutsches Studierendenwerk (Student Services) and insurance providers targeting students older than 30. For more information on this, you can also contact the local student services at your higher education institution in Germany.

When you decide on your health insurance, you can select from a wide choice of insurance providers. More information on statutory health insurance providers can be found on the website of the National Association of Statutory Health Insurance Funds. Here, you will also find a list of the various health insurance providers (only available in German). Regarding private health insurance providers, you can find more information online. As there are many of them, please check carefully which one you choose. The services offered vary, so it's essential to ensure that a specific provider offers the coverage that matters to you.

Another easy way for you to get insurance in Germany might be the service packages for international students offered by many local Studierendenwerke. Next to accommodation and meals they all include health insurance for Germany. Please refer to your local Studierendenwerk to see if this package is available at your place of study.

The DAAD insurance: Is it suitable for me?

The DAAD offers affordable combined health, accident and personal liability insurance for certain groups of people. If you belong to one of these groups, this could be an option for you:

- Are you from abroad and completing an internship in Germany that is funded and arranged by the DAAD or its partner organisations? Then this rate applies.
- Are you a foreign student or doctoral candidate being funded or supervised via project agreements of the DAAD or one of its partner organisations (e.g. grant agreements or international partnerships between higher education institutions, government scholarship programme, participants in study and research training groups)? Here you will find the conditions that apply to

you.

- Also, if you are a postdoc or a researcher from abroad and are being supervised or funded by programmes of the DAAD or the European Union, partner organisations (AvH, DFG, etc.) or member higher education institutions of the DAAD, you can insure yourself and your accompanying family members under **these conditions**.

You can register for this insurance via the [DAAD portal](#).

By the way: DAAD scholarship holders do not have to organise their own insurance. This is all taken care of by the DAAD.

What to do if you fall ill?

If you have any health issues in Germany, there are services available to help you receive the care you need. In most cases, it is best to go to a general practitioner (GP) first, or as it is called in German Hausärztin/Hausarzt or Allgemeinmedizinerin/Allgemeinmediziner. They will assess whether the illness or injury should be treated by a specialist. If you don't need to see a specialist, you might get a prescription from your GP for any medicines you may need. You can pick them up from a local pharmacy.

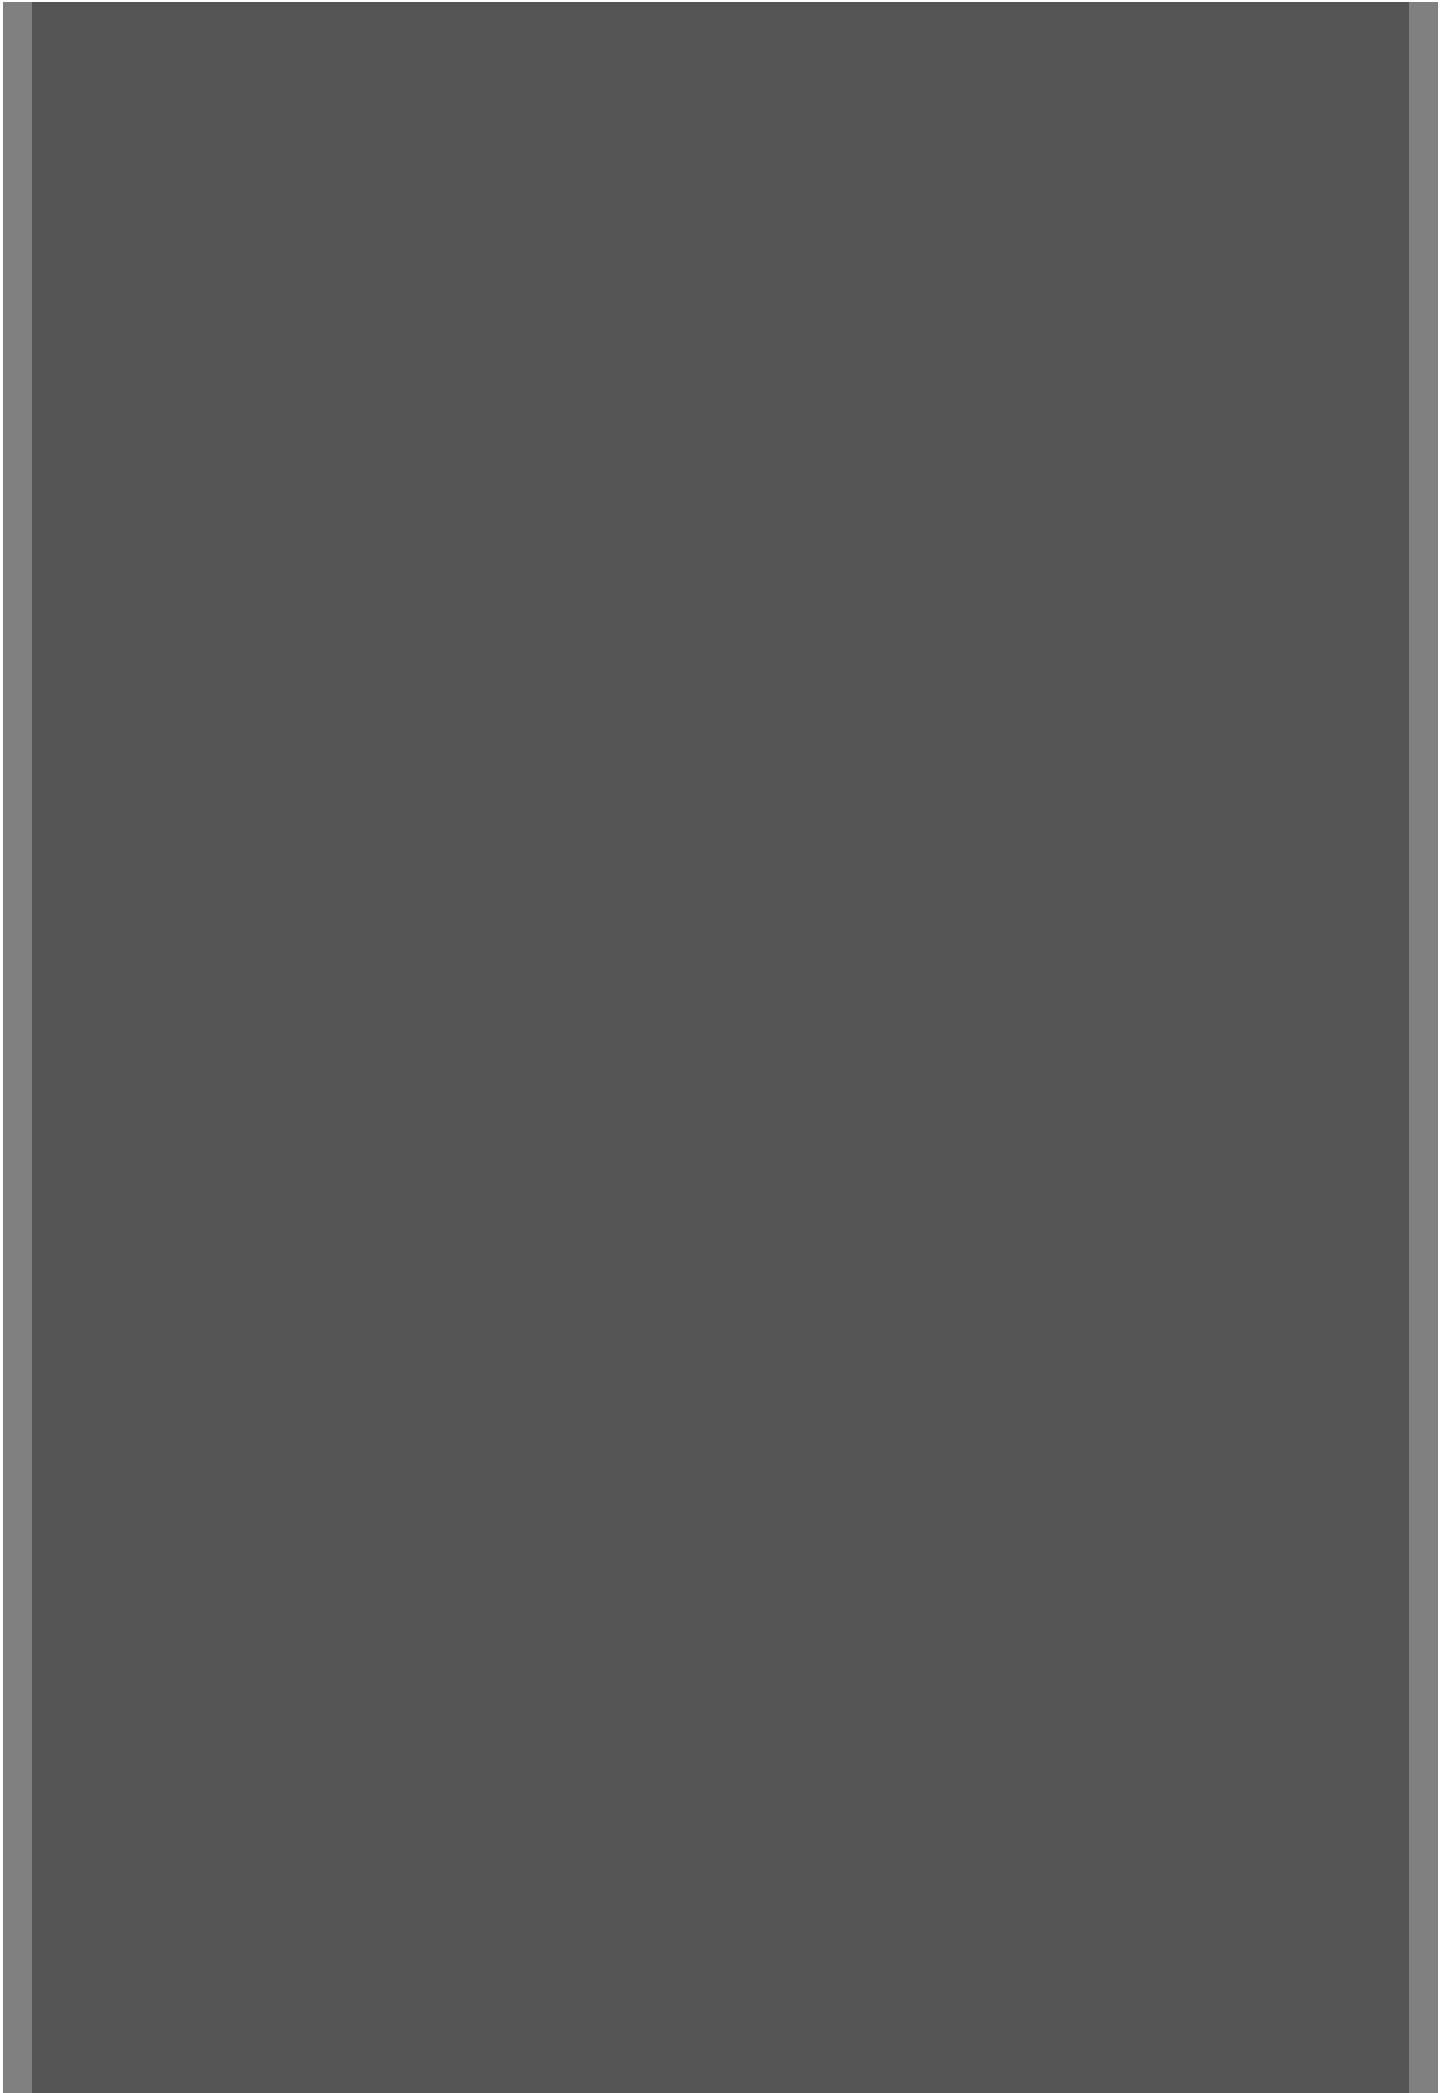

Sometimes, the GP will tell you to see a specialist. In that case, you get a referral to make an appointment with a specialist. However, you do not need a referral for all medical areas, for example with a dentist, gynaecologist or orthopaedist. Keep in mind, depending on the type of specialist, whether you have private or statutory health insurance and how urgent you need to be seen, it can take a few weeks or even more than a month before an appointment is free.

All these visits are also covered by your statutory health insurance as long as it's not a private doctor, in German: Privatpraxis or Privatärztin/Privatarzt. It is recommended to mention your (type of) health insurance when making an appointment to ensure that you find the right doctor for you.

For emergencies, at night or on the weekend, you can also always go to a hospital. If you require immediate treatment, call 112 to contact emergency services. This is also covered by your insurance. If it's not an emergency, yet you feel that it's an urgent situation and you cannot wait for your GP's opening hours, you can reach on-call doctors via [calling 116 117](#), or you could check whether there is a "Bereitschaftspraxis" in your city. This can be an emergency clinic affiliated with a hospital or located in a central, easily reachable location in town. These clinics pull together medical specialists from various disciplines so that you can find help in the evening or on the weekends. Search for "Bereitschaftspraxis" plus your city's name.

TIP: Many doctors speak English or other languages such as Turkish, Spanish, French or Polish. If you use an online portal to find your doctor, you can sometimes filter for specific languages spoken in their offices. However, if you experience or fear language barriers with your doctor, you can turn to the International Office of your higher education institution for help: They often offer services such as study-buddy programmes to support international students in their daily lives. They may be able to

help you find a volunteer to translate at your next doctor's appointment. Of course, you can always ask a friend to accompany you. It is also the case that the majority of doctor's office assistants speak only German. If it is not possible to book online or even over e-mail, have a German-speaking friend help you book the appointment.

We're glad to share the success of the first-ever Data & Coffee meetup, a brand new initiative launched by SRH Heidelberg in collaboration with [Neuron Solutions](#). Spearheaded by Prof. Dr. Swati Chandna, (Program Director of the Applied Data Science and Analytics) of SRH Heidelberg, the event set a high bar for insightful discourse in the fields of Artificial Intelligence and Machine Learning.

The diversity of speakers from various business sectors enriched the dialogue, presenting real-world applications and challenges of AI/ML. Highlights included innovative research from Honda Research Institute on autonomous robots, groundbreaking approaches to chatbot development by Frank Reply, Paretos' exploration of decision intelligence, LumentisAI's practical applications of generative AI, and insights into AI ecosystems from Euqlidia.

A panel discussion following the presentation, led by [Lev Szabados](#) of Neuron Solutions, opened up a forward-looking conversation on the evolution of the AI industry and data science careers.

We thank our speakers [Frank Joublin](#) and Antonio Ceravola (Honda Research Institute), [Dan Fitzpatrick](#) (Frank Reply), [Robert Haase](#)'s (Paretos), [Kevin Köhler](#) (LumentisAI) and [Alexander Ostrovskyy](#) (Euqlidia) for sharing their experience with the audience.

This meetup not only served as a platform for cutting-edge ideas but also showcased the vibrant community and interdisciplinary collaboration that is shaping the future of AI.

[Stay tuned](#) for more from this series as we continue to bridge theory with practice in the fast-evolving world of data science!

Prof. Dr.-Ing. Swati Chandna

When students start out at university, they are often asked two key questions by the people around them. The first is: Why did you decide to study at this school? The second is: What are your plans after graduating. It's a major thought, and it takes a lot of mental energy to finalise your career path for life. To make things even more difficult, when pursuing a career in a highly versatile field such as architecture, which you have studied in a different country, it is very difficult to find the perfect place in the professional world. There is a saying by Zaha Hadid, the famous architect, "There are 360 degrees, why stick to one?" It is true that there are multiple ways to create your path and make money after having studied architecture. And yet, all architects like to do something out of the box.

I am Pooja Mehta, a 30-year-old Indian architect with an Indian Master's degree in Urban Design and Development. A spatial expression of society and its culture has a huge impact on urban growth. Architecture and urban design enable me to experience and explore a different culture. I am always eager to find opportunities where I can connect with people to learn new things and explore culture within the field of design and development. This is what I experience here in Deutschland, where I was given the opportunity to broaden my horizon by exploring the international context. SRH University Heidelberg, Germany has welcomed me with open arms. Within a year, I have achieved a lot of milestones in my life, one example being that I was the first person from the new intake of architecture students at the university to receive a Deutschlandstipendium. Other examples include being an Ambassador for my programme, being the first person from the School of Architecture to start working at the International office, and being the first person to obtain an HAW International research scholarship for my thesis in my second Master's degree. To many of you, it may feel normal to be the first everywhere in your academic career. But to me, it's an achievement. After all, when I initially applied to SRH University Heidelberg, my application was rejected on the grounds that I had only got a second in my Bachelor's degree. But I then sent an email to the representative, explaining that I have professional experience, including in industry and academia, as well as a distinction in my Master's degree. As a result, my application was accepted on a conditional basis. Now I am the first person to break the ice in many places.

Here on campus, I have met a lot of new students and helped them upon arrival, showing them around the city, sharing food, and exploring new cultures as part of my student assistant job at the International Office. My colleagues have allowed me to lead most of the events, enabling me to brush up my leadership skills in small tasks from start to finish. This opportunity to work on campus as a student assistant has helped me to develop more skills, also for my studies, and has also given me the financial ability to live life here to the fullest. Now I feel I am ready to enter the world of work with this set of skills, enabling me to achieve my future goals.

My future goal is to work in academia. I am good at teaching and working with new minds. I would love to explore being at the other side of the desk in the future. While perusing the Career Centre, I initially noticed that we are given insufficient knowledge in the studio to explore this website, which is accessible to students. In the future, I would like to embark on a Ph.D. as the start of my permanent research and academic career. I am also interested in setting up a research lab at the SRH School of Architecture. This is how I see my life after graduation. My present mindset is to take one day at a time to achieve this goal.

Study in Germany

The series "Strong women at our university" is published as part of our activities on the topic of diversity and as part of the certificate "Familiengerechte Hochschule": Diversity is our potential!

We embrace diversity!

YOUR COURSE CONTENT

What you will learn

The content is taught in input sessions, which are then practiced and applied within the learning sessions. Students are given subject-related homework tasks on a weekly basis. Students must complete a certain number of these tasks (academic performance), which helps them to self-assess their learning progress and to prepare for their examinations.

Upon completion of the course, students will be able to design and program appropriate software to solve a specific problem in the area of IT and deal with the content taught in the different modules.

Your course content in detail

YOUR CAREER PROSPECTS

Our innovative approach that pays off

Research, develop and shape the future!

Cutting-edge specialisation in the areas of Embedded Security, Communication Networks, Robotics, Image Processing, Real-Time Programming, Information and Coding Theory, and Transmission Technology is offered in this study programme. The increasingly rapid development of high-performance technology and ongoing global automation are creating unexpected opportunities – both technically and job-wise. Join the exploration of this field and design our future!

ADMISSION REQUIREMENTS

Our requirements

Requirements for admission to the Master's programme:

A degree in the field of electrical engineering, information technology, communication technology or a comparable subject

English language proficiency IELTS 6.5 / TOEFL 80 / Duolingo Certificate 110 / PTE Academics 58 or a comparable test

You do not qualify? No problem, SRH has its International College for students who do not qualify for direct entry into our programmes or need to bring up their English language level. You can choose from our Foundation programmes at the College. This is a direct pathway into our university. Find more about here . <https://www.srh-international-college.de/>

FEES AND FUNDING

Your tuition fees

770 EUR per month full-time + one-time registration fee of 750 EUR (Prices apply only to students from the European Economic Area).

Applicants from Non-EEA countries without permanent residence permit need to pay a tuition fee of 6,450 EUR per semester + one-time registration fee of 1,000 EUR and must pay the tuition fees for one semester in advance. From the second semester onwards the payments for the remaining semesters of study are due six weeks before the end of the period of study already paid for. The payments have to be done semesterwise.

For more information and payment modalities, please refer to the current fee schedules (valid from 01.04.2023):

[Fees schedule EEA students](#)

[Fees schedule non-EEA students](#)

APPLY NOW

Application process and deadlines

We look forward to welcoming you to SRH University Heidelberg very soon.

There are no closing dates for application at our University. This is the application process:

If you're interested in our Master's programme, simply send us your application [online](#).

If you encounter technical difficulties with the online application or have any questions about your application, your contact person Simin Chen will be happy to help you.

If you meet the admission requirements, we'll invite you to a selection interview

If you pass the selection interview, we'll send you the acceptance letter and the study contract

You then sign the study contract and return it to us

You pay the registration fee

If you come from a non-EU country, you will pay your tuition fee one semester in advance in addition to the registration fee. From the second semester onwards the payments for the remaining semesters of study are due six weeks before the end of the period of study already paid for.

We then issue your letter of acceptance

You take part in our Welcome Days – and then embark on your degree programme!

APS Certificate

Please note that special conditions apply to applicants from some countries:

India

From 1st of November 2022, applicants from India will be required to have their documents verified by the Academic Evaluation Centre New Delhi (APS-India) before applying for a visa. After successful verification you will receive a certificate which allows you to initiate the visa process. Please note that the verification process at APS-India is expected to take approximately 4 weeks. We recommend that you apply for the APS certificate at the same time as you apply to SRH University Heidelberg. For more information, go to the APS-India website: www.aps-india.de

The People's Republic of China

The procedure of the Academic Evaluation Centre of the Cultural Section at the German Embassy in Beijing (Akademische Prüfstelle – APS) must have been successfully completed before you apply. The centre checks documents for authenticity and conducts interviews. The original APS certificate must be enclosed with the application documents. For more information, go to the APS website at: www.aps.org.cn.

Please note that you don't need to complete the APS procedure if you apply for our 3+1 programmes.

Vietnam

The Academic Evaluation Centre of the German Embassy in Hanoi has been checking the university entrance qualifications of Vietnamese applicants since 2007. The procedure includes checking the submitted written documents as well as an interview with the applicant. An original copy of proof of successful completion of this process, the APS certificate, must be enclosed with the application documents.

The institute for your project

The Institute for Applied Research (IAF) is the central coordination unit for research activities at SRH University Heidelberg. We support students, lecturers and researchers in initiating research cooperations, acquiring third-party funding and successfully carrying out research projects. We are also the first point of contact for companies and institutes interested in research. Together, we contribute to the continuous expansion of practice-oriented research at our university.

Our support for you

Matching your interests - We offer support services for your research:

For students

For doctoral candidates

For lecturers/researchers/faculty members

For companies interested in research

Unser Fokus: Brücke zwischen Lehre und Forschung

Unsere Institute tragen einen großen Teil dazu bei, unsere Studierenden und Absolventen in ihrer Fach- und Methodenkompetenz zu fördern und Forschung als geistigen Freiraum zu ermöglichen. So entstehen Lösungen für die Herausforderungen der heutigen Gesellschaft.

Unsere Institute sind eng mit der Hochschule und den jeweiligen Fachbereichen verbunden, aber privatwirtschaftlich organisiert und damit finanziell unabhängig.

Unsere Institute im Überblick

SRH Akademie für Hochschullehre

Motor für nachhaltiges Lehren und Lernen

Gründer-Institut

Gründen, Innovation und Lehre

Heidelberger Akademie für Psychotherapie
| HAP

Staatlich anerkanntes Ausbildungsinstitut für
Verhaltenstherapie

IWP

Institut für wissenschaftliche Weiterbildung und

We support you personally in achieving your goals.

SRH University Heidelberg offers more than 40 modern, applied courses of high academic quality, leading to internationally recognised academic qualifications, such as bachelor's and master's degrees. Based on our proven **CORE principle**, we have aligned all learning objectives, forms of examination, teaching and learning methods for you, in order to make learning as fun and practical as possible.

After studying at SRH University Heidelberg, you will be able to apply your practical knowledge as soon as you start your first job, and that will make you more attractive in the labour market.

Make it the time of your life.

Known throughout the world for its romantic setting, Heidelberg is a dynamic city with a wide range of cultural attractions, shopping, restaurants and a vibrant nightlife. As a university city, Heidelberg has a long history of welcoming international students. In

What is the project about?

This project takes place in collaboration with "Wissensfabrik". Wissensfabrik develops educational projects in which school children learn about and understand STEM topics in a very action-oriented way. The Ferry Porsche Foundation supports the project "KiTec goes AI" and finances the project development. The project is being developed cooperatively by scientific partners and Wissensfabrik - Unternehmen für Deutschland e.V.

The core team of the project development consists of the SRH Heidelberg, who are developing the underlying technologies,

subject didacticians, who are responsible for the didactical elaboration, and the Wissensfabrik, who are developing the general concept. Customers for this case study are school children from class 5 till 10 (10 – 16 years old) and school teachers (also from other disciplines, without technical and IT knowledge).

The project KiTec goes AI is to be used in the classroom at schools so that students together with their teacher explore, try out and use artificial intelligence in a miniature road traffic model. It is important that the students actively carry out the entire process of artificial intelligence (machine learning) on their own when using the project KiTec goes AI. In this way, they learn how an AI works, where its risks lie and where errors can occur. This is to be done on the basis of intelligent traffic light circuits on a miniature street model.

The students will use image recognition of cars, bicycles, ambulances and pedestrians to intelligently switch and program traffic lights. The goal of the students in the Kitec goes AI module is to efficiently regulate traffic. The underlying technologies will be elaborated as part of the case study: Which Software should be used in the project? Which hardware? What is the technical design? What is the technical background information? These questions must always be answered against the background of the use in school lessons with pupils.

How did the idea come about?

In the 1950s and 1960s, police officers intelligently managed traffic. The police officers automatically recognized the volume of traffic, were aware of pedestrians and cyclists, and made intelligent decisions to ensure an efficient flow of traffic. Later, automatic but not intelligent traffic lights took over this task. But what if our traffic lights could also react intelligently to the respective situation? Recognize which road users* are participating in traffic and decide what the best response is in each case. A traffic light system equipped with AI. This has already been a reality in Linz since June 2022: a pedestrian traffic light that recognizes road users after a learning phase with the integrated deep learning algorithms and switches the green phase accordingly.

The use of AI in road traffic could ensure an optimal flow of traffic and thus the lowest possible environmental and climate impact - that is the desire of the urban future and that is exactly what this case study is about. Students take up the challenge of what a road traffic management needs to become intelligent. Using traffic lights as an example, students explore how cars, ambulances, cyclists and pedestrians can be safely detected and how efficient traffic light control must be designed. As a part of KiTec goes AI they can build them with KiTec materials. Toy figures can be used for the participants appearing in road traffic. Intelligent road traffic flow management is to be demonstrated in the KiTec goes AI project using the example of intelligent traffic lights. It must be possible to transfer the principle to other structures and vehicles. Here, KiTec's barge or vehicles can also be used or new structures can be built, such as a street lantern. Or as an alternative to red-yellow-green traffic lights, intelligently switched speed limits. Various road scenarios are also conceivable.

What makes the project special?

The project KiTec goes AI is to be used in the classroom at schools so that students together with their teacher explore, try out and use artificial intelligence in a miniature road traffic model. It is important that the students actively carry out the entire process of artificial intelligence (machine learning) on their own when using the project KiTec goes AI. In this way, they learn how an AI works, where its risks lie and where errors can occur. This is to be done on the basis of intelligent traffic light circuits on a miniature street model. The students will use image recognition of cars, bicycles, ambulances and pedestrians to intelligently switch and program traffic lights.

The goal of the students in the Kitec goes AI module is to efficiently regulate traffic. The underlying technologies will be

elaborated as part of the case study: Which Software should be used in the project? Which hardware? What is the technical design? What is the technical background information? These questions must always be answered against the background of the use in school lessons with pupils. The student of SRH have also developed the digital version the miniature road traffic model by following data science pipeline starting from Data Collection till Deployment of as shown below.

What are the next steps?

The next steps for the project could include further development and refinement of the technology, as well as expansion into new markets and industries. In terms of technology development, system could be improved by adding more scenarios and refined to increase its accuracy and effectiveness in identifying the required technical skills for specific job roles. This could involve further training of the machine learning algorithms using larger datasets, as well as incorporating user feedback to improve the relevance and accuracy of the results.

Study International Business and Engineering in Hamburg now!

[more about Campus Hamburg!](#)

YOUR COURSE CONTENT

What you will learn

We will teach you management skills: we will give you the tools required to perform strategic decision-making, HR management, and managerial tasks in a company. We will provide you with training in sustainability: you will learn to identify and prioritise energy, economic, ecological and social challenges by considering technical feasibility – and to develop sustainable solutions.

We turn your gaze to the world: from the legal situation in other countries to cultural differences. Develop your intercultural skills and recognise global economic contexts.

Your course content in detail

YOUR CAREER PROSPECTS

Our innovative approach that pays off

You will be well prepared for your future managerial tasks in an innovative and dynamic working environment: after completing this Master's degree, you will confidently shoulder management tasks in the area of technical and business development. Good language skills and practical experience in Germany and abroad round off your profile.

Ultimately, you will be able to drive projects forward in terms of technology, economy and sustainability: developing, designing and assessing them accordingly.

Your prospects in detail

ACADEMIC EVENTS

SRH Universities Campus Heidelberg International Week 2024: Future Skills for Global Citizens

07.10. - 11.10.2024

For our 14th SRH International Week we are excited to welcome our partners, and their students, back on Campus Heidelberg. Save the date and join us from 7th – 11th October 2024!

Event

CURRICULUM INTERNATIONAL BUSINESS AND ENGINEERING (M.ENG.)

Your curriculum

3 SEMESTER 90 ECTS

ADMISSION REQUIREMENTS

Our requirements

Requirements for admission to this Master's programme:

A degree in industrial engineering, engineering or management with a final grade of 2.5 or better

English language proficiency: IELTS 6.5 / TOEFL 80 / Duolingo Certificate 110 / PTE Academics 58, or a pass in a comparable aptitude test

Interview

When is it necessary to take a preliminary course?

A degree in industrial engineering qualifies you to start the Master's programme straight away.

Graduates who hold an engineering or technical degree will be admitted to the Master's programme after taking the preliminary business courses:

Business Essentials I

Business Theory and Research, Business Law, Market Analysis, Marketing and Sales, Business Startup

Business Essentials II

Business Management, Investment, Finance and Business Mathematics, Human Resources

A preliminary engineering course for graduates with a degree in economics or business administration qualifies them for admission to the Master's programme:

Technical Essentials I

Mathematics, Materials Science, Technical Mechanics

Technical Essentials II

Design, Materials Science II, Manufacturing, Electrical Engineering

As a participant, you will earn 30 ECTS credits for each preliminary course, lasting one semester.

You do not qualify? No problem, SRH has its International College for students who do not qualify for direct entry into our programmes or need to bring up their English language level. You can choose from our Foundation programmes at the College. This is a direct pathway into our university. Find more about here . <https://www.srh-international-college.de/>

FEES AND FUNDING

Your tuition fees

770 EUR per month full-time + one-time registration fee of 750 EUR (Prices apply only to students from the European Economic Area).

Applicants from Non-EEA countries without permanent residence permit need to pay a tuition fee of 6,450 EUR per semester + one-time registration fee of 1,000 EUR and must pay the tuition fees for one semester in advance. From the second semester onwards the payments for the remaining semesters of study are due six weeks before the end of the period of study already paid for. The payments have to be done semesterwise.

For more information and payment modalities, please refer to the current fee schedules (valid from 01.04.2023):

[Fees schedule EEA students](#)

[Fees schedule non-EEA students](#)

APPLY NOW

Application process and deadlines

We look forward to welcoming you to SRH University Heidelberg very soon.

There are no closing dates for application at our University. This is the application process:

If you're interested in our Master's programme, simply send us your application [online](#).

If you encounter technical difficulties with the online application or have any questions about your application, your contact person Simin Chen will be happy to help you.

If you meet the admission requirements, we'll invite you to a selection interview

If you pass the selection interview, we'll send you the acceptance letter and the study contract

You then sign the study contract and return it to us

You pay the registration fee

If you come from a non-EU country, you will pay your tuition fee one semester in advance in addition to the registration fee. From the second semester onwards the payments for the remaining semesters of study are due six weeks before the end of the period of study already paid for.

We then issue your letter of acceptance

You take part in our Welcome Days – and then embark on your degree programme!

APS Certificate

Please note that special conditions apply to applicants from some countries:

India

From 1st of November 2022, applicants from India will be required to have their documents verified by the Academic Evaluation Centre New Delhi (APS-India) before applying for a visa. After successful verification you will receive a certificate which allows you to initiate the visa process. Please note that the verification process at APS-India is expected to take approximately 4 weeks. We recommend that you apply for the APS certificate at the same time as you apply to SRH University Heidelberg. For more information, go to the APS-India website: www.aps-india.de

The People's Republic of China

The procedure of the Academic Evaluation Centre of the Cultural Section at the German Embassy in Beijing (Akademische Prüfstelle – APS) must have been successfully completed before you apply. The centre checks documents for authenticity and conducts interviews. The original APS certificate must be enclosed with the application documents. For more information, go to the APS website at: www.aps.org.cn .

Please note that you don't need to complete the APS procedure if you apply for our 3+1 programmes.

Vietnam

The Academic Evaluation Centre of the German Embassy in Hanoi has been checking the university entrance qualifications of Vietnamese applicants since 2007. The procedure includes checking the submitted written documents as well as an interview with the applicant. An original copy of proof of successful completion of this process, the APS certificate, must be enclosed with the application documents.

YOUR COURSE CONTENT

What you will learn

Our degree programme International Business in Germany offers not only the content comparable to the German bachelor programme but on top provides you with intercultural competences, and precious experiences abroad: Your semester abroad will not only boost your foreign language(s) – for many students it is an experience echoing throughout their whole life. At times, important networks and contacts are built which are valuable for your future career. The integrated semester abroad at one of our partnering universities also offers you a very wide range of interesting topics to specialize in the academic area of your interest.

Your course content in detail

YOUR CAREER PROSPECTS

Our innovative approach that pays off

By completing this programme, you will acquire the qualifications required to gain a foothold in industrial or service companies, both at home and abroad. You will then be able to work in areas such as human resources, marketing and sales or corporate communications. Alternative career paths include market research institutes, advertising agencies, consultancies, tax and audit firms, banks and insurance companies.

Your prospects in detail

SRH Universities Campus Heidelberg International Week 2024: Future Skills for Global Citizens

07.10. - 11.10.2024

For our 14th SRH International Week we are excited to welcome our partners, and their students, back on Campus Heidelberg. Save the date and join us from 7th – 11th October 2024!

ADMISSION REQUIREMENTS

Our requirements

You can be admitted to study at SRH University Heidelberg if

you have a general higher education entrance certificate (Abitur), a subject-specific higher education entrance qualification (fachgebundenes Abitur) or an entrance qualification for studies at universities of applied sciences (Fachhochschulreife),

or you can demonstrate at least two years of vocational training and a minimum of three years' professional experience, and have passed an aptitude test,

and you have additionally passed our selection process.

English language proficiency:

IELTS 6.5

TOEFL 80

Duolingo Certificate 110

PTE Academics 58

or a comparable test

You do not qualify? No problem, SRH has its International College for students who do not qualify for direct entry into our programmes or need to bring up their English language level. You can choose from our Foundation programmes at the College. This is a direct pathway into our university. Find more about here . <https://www.srh-international-college.de/>

FEES AND FUNDING

Your tuition fees

750 EUR per month full-time + one-time registration fee of 750 EUR (Prices apply only to students from the European Economic Area).

Applicants from Non-EEA countries without permanent residence permit need to pay a tuition fee of 5,100 EUR per semester + one-time registration fee of 1,000 EUR and must pay the tuition fees for one semester in advance. From the second semester onwards the payments for the remaining semesters of study are due six weeks before the end of the period of study already paid for. The payments have to be done semesterwise.

For more information and payment modalities, please refer to the current fee schedules (valid from 01.04.2023):

Erweitere deinen Horizont

Du willst in eine fremde Kultur eintauchen und neue Menschen kennenlernen? Du willst in einem anderen Land leben und studieren oder arbeiten? Ein Auslandsaufenthalt macht sich nicht nur gut in deinem Lebenslauf, sondern wird dir unzählige Erfahrungen bringen. Du wirst dich in deiner Persönlichkeit und deinen Kompetenzen weiterentwickeln und ungeahnte Freundschaften schließen.

ENTDECKE DIE MÖGLICHKEITEN

Dein persönlicher Weg ins Ausland

Ob für eine Woche oder für ein ganzes Jahr, es gibt verschiedene Wege, eine Zeit deines Studiums im Ausland zu verbringen – in einem Auslandssemester, einem Praktikum oder in einer Sommer School. Auf jeden Fall wird es dir ein unvergessliches Erlebnis bringen mit lebenslangen Erinnerungen und Freundschaften.

CHECKLISTE

Ab ins Ausland - Schritt für Schritt

Ein Auslandsaufenthalt will geplant sein, beginne möglichst ein Jahr im Voraus. Diese Checkliste unterstützt dich Schritt für Schritt bei der Organisation und Finanzierung. Bei Fragen, wende dich gerne jederzeit an unser International Office. Wir helfen dir gerne weiter!

1. Informiere dich über die Möglichkeiten an deiner Fakultät

2. Überprüfe deine Sprachkenntnisse

3. Kümmere dich um deine Einreise und beantrage ggf. ein Visum

4. Suche eine geeignete Unterkunft

5. Überprüfe deine Krankenversicherung sowie deine Unfall- und Haftpflichtversicherung

6. Lass dich bei Bedarf impfen

7. Berechne die Kosten deines Auslandsaufenthalts

8. Kläre deine Finanzierungsmöglichkeiten

WIR BERATEN DICH GERNE!

SRH Holding

Making education more international and accessible, and preparing students for the demands of the globalised world of work – these twin aims unite two projects that SRH University Heidelberg is implementing as part of the German Academic Exchange Service (DAAD)'s IVAC programme, funded by the German Federal Ministry of Education and Research (BMBF). The projects contribute to creating equal opportunities in the context of "Internationalization@home", and are intended to promote international exchange on methodological approaches and technical solutions in engineering and architectural sciences. They also aim to help broaden students' practical knowledge beyond the laboratory opportunities offered by their own universities.

The projects started in March 2023 and will run until the end of the year: in the "Virtual Lab Experience Wastewater Treatment" (V-Lab Water) project, SRH University Heidelberg and the University of Novi Sad in Serbia are working together on a course entitled "Environmental Practicum – Water Pollution and Analysis", which will begin in winter semester 2023. Currently, the two project leaders, Professor Dr Maja Turk-Sekulić, who heads the Water Treatment and Safety Engineering course at the University of Novi Sad, and Professor Dr Ulrike Gayh, head of the Water Technology course at SRH University Heidelberg, are in the middle of preparing the ten-week event. They are even planning excursions, each of which will be broadcast live to the other university. With the help of HoloLense and Livestream, the students can work together across borders and long distances, and be there live as the other group of students carries out water analyses, for example. As Professor Dr Ulrike Gayh explained, "This kind of international collaboration via VR technologies will bring us innovative results – in spite of spatial distance and time differences, effectively and in real time. And it's a great intercultural experience, where students can use a wide range of soft skills."

In the "Collaborative International Venues on Impacts on Cittàslow" (CIVIC+) project, SRH University Heidelberg, under project leader Professor Dr Marc Kirschbaum, is working closely with Professor Dr Eliana Martinelli and Professor Dr Giovanna Ramaccini from the Università degli Studi di Perugia in Italy. The German town of Homburg (Efze) is a strategic project partner. Master's students of architecture at both universities are dealing with issues involving architecture, sustainable urban development, and the environment.

"What will the future of rural areas look like? How can the architectural heritage of European cities be preserved and at the same time developed for the future? We are also linking the example of the town of Homberg (Efze), with its half-timbered houses, to some of the overarching academic issues related to current challenges for social and urban development in both

Germany and Italy," Professor Kirschbaum explained. A week-long workshop of both partner universities is also currently taking place in Homberg (Efze). Field research and results of the project will be presented to the public and will help demonstrate the town's current development on the ground. Students have participated in numerous mixed-method online project meetings to prepare for this field study and develop their intercultural network.

In both IVAC projects, students have been able to make international comparisons and have taken advantage of cross-border collaboration to prepare themselves for the global labour market and the worldwide challenges posed by climate change and societal development. Virtual teaching collaboration on an international stage has been an important step towards strengthening cooperation between universities to take on global challenges and promote innovation and exchange in the sciences.

YOUR COURSE CONTENT

What you will learn

Having acquired the key transferable skills required in the labour market, you will be able to act independently and successfully. You will be taught the theoretical foundations of international management, leadership and how to lead intercultural teams. You will also have the opportunity to apply these basic principles during our teaching/learning events and in exchange with our practice partners. You will learn the foundations of strategic management, get an in-depth understanding about leadership (including psychological aspects) and social research (market research), and apply this theory to practical problems.

YOUR CAREER PROSPECTS

Our innovative approach that pays off

With a clear focus on leadership and the management of international companies and on increasing labour mobility, completing this programme is the perfect way to start your career in a globalised world: in Germany, Europe, or on another continent. The knowledge acquired from an international study programme and the experience gained with your fellow students from all over the world will put you one step ahead of other applicants. If you are keen to implement your business model after graduation, our Founder Institute will support you.

INTERNATIONAL OFFICE

Start your international experience with us

We welcome international students from all over the world to study at SRH University Heidelberg as exchange or degree-seeking students. We maintain a close network with 80+ partner universities and encourage our students to go abroad to study or to do their thesis or internships.

Studying abroad – especially in a country very different from your own – is an exciting challenge and will have a long-lasting impact on your life. Yet there are many things to consider and organize. Whether you are an exchange or a degree-seeking student, our International Office offers you a wide range of support as an incoming student:

Connecting students, professors and professionals from all around the world

Advice about studying or doing an internship abroad

Information on funding and scholarships for mobility projects

Cooperation with partner universities

Pre-Arrival support on packing, travelling and accommodation

Orientation sessions for new international students

Help getting settled in Heidelberg/Germany

With the project "International Research Experience @SRH" we are expanding the research capabilities of our university. The goal is to motivate students to pursue an academic career, to create follow-up perspectives for young scientists, and to promote international research collaborations.

What it's about:

Internationalization and strong research - this is what the project "International Research Experience @SRH" stands for. In this project we cooperate with partner universities in Portugal, the USA, Canada and Russia to combine international research, intercultural exchange and networking. We create new, research-oriented study opportunities and improve the framework conditions for your start into an academic career. With various scholarships we support stays abroad for your research in the

context of your master and doctoral theses or international research projects.

» This programme is about showing international career prospects and enable young scientists to take new career paths. «

— Prof. Dr. Carsten Diener, Rector of SRH University Heidelberg

Project goals

With the project „International Research Experience @SRH“ we pursue three goals:

Internationalization of research-oriented education

Starting with the study programs „Architecture – Design for the built environment“ (M.A.) and „Water Technology“ (M.Eng.) and in cooperation with our partner universities we are testing a new kind of seminar: the research-oriented „Research Event Series“. Together with international students and teachers you will be studying research-focused - both in virtual formats and in a research project week on site in Heidelberg. With the "Research Event Series" you expand your research skills, make new contacts and gain international and intercultural experience.

Establishment of international cooperative doctorates

You are interested in doing research? We are strengthening the follow-up perspectives for young scientists at our university and supporting your start into an academic career. The establishment of cooperative doctoral programs with our partner universities will give you the opportunity to conduct research in an international context. In the future, a newly established Graduate Center will offer you a comprehensive range of advice and support services for doctoral students and those interested in pursuing a doctorate. [Feel free to contact us!](#)

Expansion of international partner networks

We are constantly working on increasing international, research-oriented mobility and expanding our international partner network. To this end, we award various research fellowships for students, doctoral candidates, guest lecturers and experts within the project. [Apply now](#) and take the opportunity to broaden your research horizon abroad. In the future, a newly created international cooperation database will provide you with information on partner universities, research priorities and cooperation opportunities with international partners.

Scholarship opportunities

You want to do research abroad? The project "International Research Experience @SRH" offers you various scholarships.

Work on your master thesis or research project abroad and get to know international research cultures: We are looking forward to your application!

[Click here for scholarships](#)

The project "International Research Experience @SRH" also offers employees and researchers from SRH University Heidelberg exciting opportunities to expand their research activities at our university: Invite visiting scholars or practitioners for joint research or travel abroad yourself for coordination meetings to advance your international research project. Learn more here:

[HAW for SRH employees](#)

Publication Prize

SRH University Heidelberg awards outstanding research publications:

Researchers at the SRH University Heidelberg who have published a paper in the current year as part of an international, cooperative research project can apply for the SRH Publication Prize until November 30th. The application is open to all scientific publication formats (essays, articles, monographs, commentaries, etc.).

The prize itself is not endowed. However, a publication costs subsidy can be requested as part of the application: In addition to the award, up to two award winners can receive a subsidy of up to €2,500 for any publication costs incurred. The publication subsidy serves exclusively to (re)finance publications (fees, printing, and production costs) and is coordinated by the respective faculty. Any publication costs incurred must be proven by means of invoice receipts.

Application process:

To apply, please fill out the **application form** and send it – if applicable, together with the invoice receipts – to the research dean of your faculty. At the ‘Research structure conference’, at least two of the most significant publications of the year will be selected for the SRH Publication prize. **The application deadline is November 30 each year.**

Download "application form" here!

Become an International Student Ambassador!

Do you want to play an active role at the university? Apply to volunteer as an International Student Ambassador at SRH University Heidelberg!

Programme description

Started in 2018, the Student Ambassador Programme has been an opportunity for students to take an active role for the international student community at the university. Guided by the International Office, the Student Ambassadors have the opportunity to volunteer for activities such as:

Marketing, i.e. testimonials, videos, blogs, social media content, fairs, open house days

Events, i.e. Semester Start on April 1 & October 1, excursions, orientation, International Week, Staff Week, Study Abroad Fair

Communication, i.e. pre and post arrival advisory role: official university whatsapp groups, student helper booth, email

The programme begins with a brief training to provide deeper insights into the university history and programmes as well as connect the Student Ambassadors with each other and the International Office. This is followed by various opportunities to participate in university activities, such as the semester start or International Cultural Club. Then as their skills and knowledge develop, our Student Ambassadors are encouraged to take the leading role and add their own contributions, activities, and ideas. Essentially, the possibilities are not limited by what has been listed but rather are open to the desires of the Student Ambassadors and needs of the international student community.

Benefits of being a Student Ambassador:

As the position is voluntary (i.e. unpaid), the Student Ambassadors do not receive monetary compensation, however, they are rewarded in other ways for their hard work and dedication.

Firstly, it is an opportunity to tap into the universities wide international network – working with International Office, faculties, partner universities and students has its benefits!

Furthermore, employers highly value volunteer work experience in Germany. Upon graduation, the volunteers are awarded a certificate at their graduation ceremony, including personal recognition on stage. In addition, the Student Ambassadors are issued a work reference, outlining their skills, such as intercultural communication, project management, marketing, etc. depending on their contributions.

Apply to be a Student Ambassador

Students from SRH University Heidelberg are welcome to apply if they meet/agree to all the requirements below.

You are:

Enrolled at SRH University Heidelberg as a student at least until September 30, 2023

Comfortable speaking, reading, and writing in English at least at a B2 Level (German skills are not required but are a bonus!)

Open-minded and accepting of other cultures, nationalities, ethnicities, races, genders, religions, and lifestyles

Enthusiastic and well-spoken in digital and in person events

Able to commit to volunteering 5-10 hours a week, available the days leading up to and after the semester start– note, we understand that academics comes first! We simply expect time management and communication on your part.

Aself-starter, receptive to feedback, and interested in your own personal and professional development

Should you be interested in applying, kindly submit your application [here](#).

Our International Week of 2023 was a full success!

In October we welcomed more than 200 guests, students and lecturers, to our campus in Heidelberg. We started off the week with our so-called "Social Monday", including a key note speech by the amazing Futurologist Tristan Horx, our students' "country presentations", a Kickoff of our special International Week courses as well as a fantastic International Tasting.

The courses offered throughout this week were for example:

Communicating Diversity

the Dynamics of Empowerment and Disempowerment on Social Media

Managing a Company Crisis

What to Say When it All Goes Wrong

Using Cross-Cultural Psychology to Change Challenges to Chances

During this week our students and guest lecturers also had the chance to join company visits such as Goldbeck, the Hockenheimring, Roche Diagnostics GmbH.□

On Tuesday the city tours took place. Our guests visited beautiful cities around Heidelberg such as picturesque Weinheim, Schwetzingen and Speyer. □□

On Thursday, the rain didn't stop the participants and we hiked up to the Thingstätte, Königsstuhl and along the beautiful Philosophenweg. □

We want to thank all our guests and visiting students for joining and making this such a fun and successful International Week!

□

The event was a great success, giving students and lecturers the possibility to connect with peers from other cultures and countries and explore our beautiful Heidelberg area.

Security check

We need to verify that you're human.

Calendar entry

Our aim is to introduce you to the Master's programme in Dance and Movement Therapy. In this online event you will get an insight into the curriculum of the course, into the application of dance/movement therapy in different settings and different

populations, into our special combination of teaching, practice and research at the SRH University Heidelberg and most important, you will get to know the world of dance and movement therapy in more depth.

Language: English

Parts of the introductory workshop will be practical - so make sure you have enough space to move.

Programme:

11:00 – 12:15 am (CEST) | Soft moves – hard sciences with Prof. Dr. Sabine Koch (Beijing time 06:00 - 07:15 pm)

Prof. Dr. phil. habil. Sabine Koch

School of Therapeutic Sciences | Professor of Dance Movement Therapy

Werden Sie ein Teil von uns.

Wir suchen Kolleginnen und Kollegen, die das Leben tagtäglich lebenswerter machen. Menschen mit Tatkraft, mutigen Ideen und dem Willen etwas zu bewegen. Dafür schenken wir unseren Kolleginnen und Kollegen unser vollstes Vertrauen und bieten ihnen eigenen Gestaltungsspielraum, der stets unsere gemeinsamen Werte und unsere Leidenschaft fürs Leben widerspiegelt.

IHRE BERUFLICHE ZUKUNFT

Das bieten wir Ihnen als Arbeitgeber

Wir sind eine der ältesten und bundesweit größten privaten Hochschulen Deutschlands. Zurzeit sind 3.600 Studierende an sechs Fakultäten bei uns eingeschrieben. Sie alle lernen nach einem bewährten Studienmodell, dem CORE-Prinzip, das die Kompetenzen der Studierenden in den Mittelpunkt stellt. Für unser Studienmodell wurden wir mit dem Genius Loci-Preis für Lehrexzellenz ausgezeichnet. Unsere Hochschule ist staatlich anerkannt und wissenschaftlich akkreditiert.

Basis unseres Erfolgs sind unsere Mitarbeiterinnen und Mitarbeiter, die sich stets mit viel Leidenschaft, ihrem Know-how und persönlichem Engagement einbringen. Unsere Begeisterung an der Arbeit mit Menschen verbindet uns – und verleiht unserer Arbeit Sinn und Wertigkeit. Wir gehören zur SRH – einem führenden Anbieter von Bildungs- und Gesundheitsdienstleistungen mit 16.000 Mitarbeitern. Die SRH betreibt private Hochschulen, Bildungszentren, Schulen und Krankenhäuser.

Das bieten wir Ihnen:

• eine spannende und abwechslungsreiche Tätigkeit mit Eigenverantwortung an einer wachsenden, internationalen und zukunftsorientierten Hochschule

• zahlreiche Weiterbildungsmöglichkeiten: Sie profitieren von unserem kompletten Angebot mit Sonderkonditionen

• eine betriebliche Altersversorgung

• flexible Arbeitszeitmodelle

• eine leistungsgerechte Vergütung sowie unser Jobticket

ein angenehmes Arbeitsumfeld auf einem schönen, gut erreichbaren Campus mit Parkplätzen, Mensa, Fitness-Studio und Bibliothek

Regelmäßige Mitarbeitergespräche sowie Mitarbeiterbefragungen

SRH Wertkonto (Auszeiten)

#TeilDeinGlück (extra Urlaub für ehrenamtliches Engagement)

Corporate Benefits (online Vorteils-Portal)

Gesundheit/Fitness: Campus Sports, Pfitzenmeier, Gympass

Events, z.B. SRH Dämmermarathon

Mobiles Intranet „Meine SRH“

Wir begrüßen ausdrücklich Vielfalt und betonen daher, dass bei uns alle Menschen unabhängig von Geschlecht, Nationalität, ethnischer und sozialer Herkunft, Religion/Weltanschauung, Behinderung sowie sexueller Orientierung und Identität gleichermaßen willkommen sind.

Keeping fit and healthy at university

Studying at university can prove challenging, not to mention current crises such as inflation or family illness.

But don't worry, you're not alone! Besides the university being there to help you on your path to success, our students also give each other support, providing a variety of services to help you keep fit and healthy at university.

SPORTS AND EXERCISE

Keeping fit will help you cope with the demands of studying!

Campus Sports

Are you looking for a balance to your studies? Then why not have a go at some of our campus sports: at the heart of our green campus in Wieblingen, we have a wide range of opportunities for you to be active, try new sports and take part in courses.

Make the most of this opportunity: continue to train at university and get your career off to a flying start!

[**Find out more about Campus Sports here**](#)

Physiotherapy on campus

If you're not so physically fit and need a little more support, you're also welcome to make use of our physiotherapy services on campus!

Our outpatient clinic is a modern physiotherapy practice located on the SRH campus. Accepted by all types of health insurance, both statutory and private.

COUNSELLING, COACHING, THERAPY

We can help you with crises big and small!

Open Ear

Self-doubt? Overtaxation? Stress? None of these problems are unfamiliar to students on the Master's programme in "Social Work: Psychosocial Counselling and Health Promotion". They have experienced these problems first hand and know how to

deal with them from their studies. In the Open Ear student project, our students give you comprehensive advice and lots of valuable tips.

More information on Open Ear

Coaching

Exam anxiety, learning difficulties or zero motivation? Individual coaching helps you to overcome these barriers. It will also enable you to see your goals more clearly, e.g. in the transition to your internship or the world of work. Coaching is also helpful if you want to optimise your performance. Or would you benefit from thesis coaching to help you overcome writer's block? All our coaching services are, of course, available online and in English. All students can receive support for up to three individual sessions, the cost of which is covered by SRH University Heidelberg.

The service is only provided in german

Heidelberg Academy for Psychotherapy

Heidelberg Academy for Psychotherapy (or HAP for short) is not only the place where budding child and adolescent psychotherapists learn their profession, it's also where many children and young people receive psychotherapeutic treatment at the institute's outpatient clinic.

Students under the age of 21 (patients with statutory health insurance) can come here for therapeutic support.

Contact us now

Advice for students with physical or mental disabilities

At our university, students with mental or physical disabilities receive the best possible support. SRH University Heidelberg was established in 1969 as an "institution for the vocational rehabilitation of people with disabilities", and we remain committed to this tradition. After all, our goal is to ensure that all our students can embark on a successful career after graduation.

Our contact persons Professor Dr. Christian G. Johannsen and Professor Dr. sc. Hum. Maren Bösel will be happy to answer any questions you may have about studying with a disability.

More information

Music therapy and dance movement therapy at the Heidelberg Campus

Learn how to make creative therapies work for you: Non-verbal media such as music, dance and movement are used in

creative therapy to help people perceive, feel and express emotions where words sometimes fail. It will also be an opportunity for you to develop your resources as well as your communication and interpersonal skills, which will be of benefit to you in the world of work.

Creative therapy options for SRH students

SRH teaching clinic for music therapy and dance and movement therapy

With our offer of language courses as part of Studium Generale we support you in expanding
your world.

» The limits of my language mean the limits of my world «

— Ludwig Wittgenstein

REGISTRATION 02.04.2024 - 26.04.2024

registration for the summer courses

The offer is aimed exclusively at students of the SRH University of Applied Sciences Heidelberg and pupils of the cooperation schools.

The courses take place weekly and last 90 minutes each. The course duration is 10 weeks. If you attend at least 80% of the course, you can take an exam. Here it is possible to receive ECTS points, which correspond to about 1-2 ECTS. The ECTS points can be recognized individually on request via the examination office of your faculty.

The courses are free of charge - the only costs are for your own textbook and workbook.

FAQs

When does the registration for the language courses take place?

How do i register for the language courses?

In which period do the language courses take place?

Until when can I unsubscribe from a language course?

Is there an entrance test?

Are the certificates recognized documents (see Toefl/IELTS/TestDAF)?

Is attendance obligatory?

What happens if there are more interested students than places?

How can I contact my lecturer?

First-semester students of the Master's programme Applied Computer Science have developed planning concepts for the development of a mobile learning platform for children with hearing impairments as part of their first learning course "International Project Management". To illustrate this, the students designed different learning game scenarios that support children in their hearing and language development.

How does a chicken cluck? How does a goat bleat? People who are only learning to hear cannot yet know this due to a lack of listening experience. In order to support deaf or hard-of-hearing children between the ages of 4 and 6 who are learning to hear with a cochlear implant or hearing aid, students of the Master's programme Applied Computer Science have developed templates in their first module of the programme that are to be integrated into an app for the Staatliches Sonderpädagogisches Bildungs- und Beratungszentrum Luise von Baden (SBBZ) in Heidelberg / Neckargemünd. A test of the particularly CORE kind: a big pinch of practice, a kilo of creativity, a ton of teamwork, the whole thing hybrid and with students from India, Germany, Denmark and Egypt thoroughly international!

Special prize at the Ferry Porsche Challenge

A look back: The SBBZ Luise von Baden in Heidelberg and Neckargemünd took part in the Ferry Porsche Challenge (ferry-porsche-challenge.de) this spring. The basis was the project idea of an audio learning game platform developed in

cooperation with the SRH, which Niveditha Ramanujan, Master's student of Prof. Dr. Gerd Moeckel, realised on the Moodle learning platform in the form of a prototype. With this idea, the project "Luise lauscht", the SBBZ received the special prize of the Ferry Porsche Challenge. Now, in the next step, the assignment for Moeckel's course and his colleague Gabor Kovacs from the SRH Hochschule Berlin was to develop concepts for a learning platform with game templates such as a quiz or a memory. For this, Moeckel brought in further expertise: Dr. Michael Nürnberg, Vice President of SAP University Alliances. In the final exam of the module, external practitioners also gave their feedback on the students' presentations. "It's a real-life project," said Noëlle Soerensen, Director of the SBBZ Luise von Baden, at the introduction.

Children's perspective taken into account

Due to the current travel restrictions, 60 per cent of the course participants were online. "I am very happy about this and therefore use all the possibilities of digital presence teaching to be able to work with both groups - by the way, this will also be the future in companies," Prof. Moeckel knows.

The students Emil and Julian started their presentation: In their quiz, for example, they show a picture of a goat. The children now have to choose the right sound from three audio files. "It was important to us to take the children's perspective into account," the two students explain. The next team, two students online, the third live on site, has designed a memory template. Cards with pictures appear on the screen, to which the children have to select the appropriate sound. The next team, in turn, has assigned sounds to objects in a room that the children have to find - clattering kitchen cutlery, for example, or a running tap. In this way, the little games of all eight teams are suitably tailored to the children, their world and their needs.

"Immense opportunities and possibilities"

Noëlle Soerensen thus experiences the cooperation with the SRH University of Applied Sciences Heidelberg as "very exciting and helpful. Experts from two completely different disciplines are working on a project together, enriching and inspiring each other: students are working on tasks with a practical relevance, children with special educational needs can benefit from the ideas developed for implementation in the future. The immense opportunities and possibilities of the interdisciplinary project 'Luise lauscht' are obvious and we are excited about the further course of events."

"High level of creativity and communication skills"

Dr. Michael Nürnberg also greatly appreciates the cooperation with the university: „Since several years, I have the sincere pleasure and honour to attend at the final results presentations of the International Project Management lecture held by Prof. Moeckel at SRH University Heidelberg. The University is a very close partner and long term member within the SAP University Alliances program.

"The projects presented in November 2021 were outstanding, as a real life challenge from a real 'customer' was supported from various angles – this shall become the new normal for the future IPM projects!"

The planning concepts created by the students with the presented illustrative examples should then be taken up again and concretised in the following learning events under the respective aspects ("SW Architecture and Development", "Usability and User Experience Design", "IT Security", etc.).

As many students can surely relate to, the semester abroad is what I looked forward to most throughout my studies. Thanks to the incredible opportunity offered by the exchange program and the expansive network of SRH's partner universities, I currently find myself studying at the Royal Thimphu College in Thimphu, Bhutan. Now many of you may be asking yourselves... Bhutan? What is this? Where is this? In the upcoming regular blog posts, I intend to tell you all about this incredibly unique, lush and peaceful Himalayan kingdom of Bhutan, also known as "The Thunder Dragon Kingdom". Apart from sharing my personal experiences of living and studying here, I will also be giving you a glimpse of the many insights and knowledge I have gained during my stay. You can look forward to topics such as preparing for studying abroad in Bhutan, the seemingly endless journey leading up to my arrival, life in quarantine, campus life at Royal Thimphu College (RTC), the courses offered, the people here, the many friends I've made, and the abundant free time experiences. Beyond my own experience, I will share my insights into the unique political and economic situation of Bhutan as well as its rich history and vividly preserved culture.

Currently, I am on the final stretch of my bachelor's degree in International Business at SRH. Thanks to the high flexibility of both SRH and RTC, I've had the opportunity to take a variety of courses of my choice here at RTC. The most interesting and relevant to my studies is titled "Business Project". In this course, management and marketing student teams closely collaborate with local Bhutanese businesses, whereby the students act as a consultant team to the respective business. As an international business student, I could not have asked for a better opportunity to experience and contribute meaningful work towards a real business in the context of an entirely different and unique culture. In addition to this, I am also taking the following courses: "Environmental Economics", which focuses on the environment's role within business and economics; "Bhutanese Economy and Social Capital", focusing on the unique economy of Bhutan and the increasing importance of social capital within society and the economy; "Frontiers in Environmental Management and Sustainable Development", a theory-focused course on the future of development as a concept; "Dzongkha as a Foreign Language", in order to learn the national language of Dzongkha along with seven of the eight other international students on campus. And finally, "Myths, Morals and Memory: Folk Literature", which provides insights into the incredibly rich oral traditions that have been exceptionally well preserved in Bhutan. Throughout the blog I will also be going into more detail about these courses and my general academic experiences at RTC.

I look forward to sharing my experiences as an exchange student and hope to spark your interest in this incredible country and maybe even inspire you to look into the opportunity of studying at RTC, in case your own semester abroad lies ahead.

ÜBER MICH

Über mich

Oktober 2012 - Aktuell

Studiengangsleiter

Professor für Architekturtheorie und Entwerfen

2008

Promotion zum Dr.-Ing. an der Universität Kassel

2009 - 2010

Visiting-Professor für Architekturtheorie, Baugeschichte und Entwerfen

Clemson School of Architecture, South Carolina/USA

2003 - 2008

Universität Kassel

2001 - 2002

Stadtplanungs- und Architekturstudium

Manchester School of Architecture / England

1996 - 2000

Architekturstudium an der Universität Kassel

Abschluss: Diplom-Ingenieur / Architektur

AUSZUG

An diesen Publikationen habe ich mitgewirkt

Bücher und Broschüren

Auszug:

Kirschbaum, M.; Zevallos, B. (Eds./2021): LEARN[IN] a matter of space. Heidelberg: Heidelberger Hochschuleverlag. Online abrufbar unter: learn-in.eu.

Kirschbaum, M. & Eichenlaub, A. (Hrsg./2008). architektur.unplugged. Hörspiel. Kassel: Lehrstuhl Entwerfen im Bestand, November 2008.

Kirschbaum, M. & Bartnik, S. (Hrsg./2008) architektur generalistisch. Kassel: Informationssystem Planung, Universität Kassel.

Kirschbaum, M. (2002). From Theory to Architectural Gesture: A Stroll with Daniel Libeskind. Kassel: Universität Kassel, Infosystem Planung.

Peer-Review

Auszug:

Gstach, D.; Kirschbaum, M. (2019): The underestimated role of language-based tools in landscape architecture: theory, empiricism, practice. In: Karsten Jorgensen, Nilgül Karadeniz, Elke Mertens, Richard Stiles (Eds.): The Routledge Handbook of Teaching Landscape. London: Routledge, p. 223-232.

Kirschbaum, M.; Wacker, A. (2018): Den Schul(um)bau sozial-ökologisch gestalten. In: GAIA 4/2018. München: oekom Verlag ,

Gstach, D.; Kirschbaum, M. (2016): Language as design tool. An empirical and design perspective in the field of architecture and planning. In: Architectural Science Review, Vol. 59, Issue 6. Sydney: Taylor & Francis, p. 465-473.

Schuster, K.; Kirschbaum, M. (2011): Implikationen des Lebensstilkonzepts für die Architektur. Diskussion der Potenziale und Grenzen der Lebensstilforschung und Umweltpsychologie für die Architektur anhand einer empirischen Untersuchung. In: Umweltpsychologie 01/2011, S. 90-111.

Non Peer-Review

Auszug:

Kirschbaum, M.; Wacker, A.; Zevallos, B. (2020): Das schulische Lernraumportfolio: vielfältige Räume für das Lernen von morgen. In: Schulen. Neubau | Umbau | Sanierung. März 2020. Berlin: Ernst & Sohn, S. 18-22.

Kirschbaum, M. (2019): Pädagogik braucht Raum. In: Erziehung & Wissenschaft 09/2019. Essen: Stamm Verlag, S. 2.

Ihr berufsbegleitendes MBA Studium

Der Master of Business Administration (MBA) ist die ideale Zusatzqualifikation für Absolventen, die bereits Berufserfahrung gesammelt haben und sich jetzt im Bereich Management und Führung weiterbilden wollen. An unserem SRH Campus Stuttgart bieten wir speziell für Ärztinnen und Ärzte den MBA Medical Leadership, Strategisches Management und Medizinrecht: berufsbegleitend und praxisorientiert - eine Qualifikation, die den Unterschied macht.

MBA FÜR ÄRZTINNEN UND ÄRZTE

Medical Leadership, Strategisches Management und Medizinrecht

Im berufsbegleitenden MBA für Ärztinnen und Ärzte erwerben Mediziner:innen anwendungsorientiert und zielgerichtet Kompetenzen in Führung, Management und Recht.

YOUR COURSE CONTENT

What you will learn

With the fundamental subjects (mathematics, physics, technical mechanics, CAD, electrical engineering, thermodynamics) you will immediately dive deeper into the exciting world of engineering. Building on these basics, you will then analyze technical questions and develop innovative solutions (machine elements, innovation management, product development). You will apply this knowledge in your industrial internship.

Your course content in detail

YOUR CAREER PROSPECTS

Our innovative approach that pays off

With a master's degree, or you start your professional life straight away and in a practical manner. With this degree program you have the very best chances of finding interesting and challenging positions in industry or science.

Our requirements

You can be admitted to study at SRH University Heidelberg if

you have a general higher education entrance certificate (Abitur), a subject-specific higher education entrance qualification (fachgebundenes Abitur) or an entrance qualification for studies at universities of applied sciences (Fachhochschulreife),

or you can demonstrate at least two years of vocational training and a minimum of three years' professional experience, and have passed an aptitude test,

and you have additionally passed our selection process.

English language proficiency:

IELTS 6.5

TOEFL 80

Duolingo Certificate 110

PTE Academics 58

or a comparable test

You do not qualify? No problem, SRH has its International College for students who do not qualify for direct entry into our programmes or need to bring up their English language level. You can choose from our Foundation programmes at the College. This is a direct pathway into our university. Find more about here . <https://www.srh-international-college.de/>

FEES AND FUNDING

Your tuition fees

Our tuition fees for the Mechanical Engineering (B.Eng.) degree programme are €690 per month; you will also pay a one-off enrolment fee of €750 (Prices apply only to students from the European Economic Area).

Applicants from Non-EEA countries without permanent residence permit need to pay a tuition fee of 5,500 EUR per semester + one-time registration fee of 1,000 EUR and must pay the tuition fees for one semester in advance. From the second semester onwards the payments for the remaining semesters of study are due six weeks before the end of the period of study already paid for. The payments have to be done semesterwise.

For more information and payment modalities, please refer to the current fee schedules (valid from 01.04.2023):

[Fees schedule EEA students](#)

APPLY NOW

Application process and deadlines

If you are interested in studying mechanical engineering, you can send us your application online via the applicant portal. An application test will then be carried out. This test includes tasks from the following areas

English language comprehension

Mathematical and physical understanding

General knowledge

We will then conduct an interview with you in which we want to get to know you personally and in which we will also use the following criteria to assess whether we can admit you to the mechanical engineering programme:

Motivation to study

Realistic expectations

Self-management

Resilience

If you have any questions or difficulties with your application, please get in touch with your contact person.

APS Certificate

Please note that special conditions apply to applicants from some countries:

India

From 1st of November 2022, applicants from India will be required to have their documents verified by the Academic Evaluation Centre New Delhi (APS-India) before applying for a visa. After successful verification you will receive a certificate which allows you to initiate the visa process. Please note that the verification process at APS-India is expected to take approximately 4 weeks. We recommend that you apply for the APS certificate at the same time as you apply to SRH University Heidelberg. For more information, go to the APS-India website: www.aps-india.de

The People's Republic of China

The procedure of the Academic Evaluation Centre of the Cultural Section at the German Embassy in Beijing (Akademische Prüfstelle – APS) must have been successfully completed before you apply. The centre checks documents for authenticity and conducts interviews. The original APS certificate must be enclosed with the application documents. For more information, go to the APS website at: www.aps.org.cn .

Please note that you don't need to complete the APS procedure if you apply for our 3+1 programmes.

Vietnam

The Academic Evaluation Centre of the German Embassy in Hanoi has been checking the university entrance qualifications of Vietnamese applicants since 2007. The procedure includes checking the submitted written documents as well as an interview with the applicant. An original copy of proof of successful completion of this process, the APS certificate, must be enclosed with the application documents.

Mentoring for women by women!

Women are successful engineers. Women have won Nobel Prizes in science. Women astronauts travel into space. Female talent is essential in business and science. We will provide you with practical advice and support, helping you on your journey.

Support. Network. Inspire.

Women still have to overcome barriers in technical and scientific professions. They may also have learned or acquired fears and reservations.

As successful women in industry and academia, we want to ensure that you get answers to your questions. After all, we know that female STEM talent is capable of achieving anything. We gladly offer our support in a broad spectrum, ranging from sporadic contact in the case of urgent issues to regular interaction and mentoring.

Whatever your stage in life at present, whatever your goals, we'll be happy to help and advise you, and look forward to hearing from you!

YOUR COURSE CONTENT

What you will learn

Music therapy and other arts therapies are increasingly popular in healthcare, and the research base for these fields is growing. The degree programme in Music Therapy takes a total of two years, including an intensive placement phase. The range of classes includes practical music lessons, therapy techniques and scientific content. We focus on music therapy in psychiatry, psychosomatics, psychotherapy and neurology. In addition, you will learn how to use music in the therapeutic treatment of people in all kinds of life circumstances.

Your course content in detail

YOUR CAREER PROSPECTS

Our innovative approach that pays off

The scientific foundations and the methodological and professional skills gained on the Master's programme in Music Therapy will enable you to work in a clinical, therapeutic or special needs context.

Besides enabling you to work in a variety of practical fields, the Master's degree in Music Therapy will give you the opportunity to pursue a career in research and work towards a doctorate.

ACADEMIC EVENTS

SRH Universities Campus Heidelberg International Week 2024: Future Skills for Global Citizens

07.10. - 11.10.2024

For our 14th SRH International Week we are excited to welcome our partners, and their students, back on Campus Heidelberg. Save the date and join us from 7th – 11th October 2024!

Event

ADMISSION REQUIREMENTS

Our requirements

A university degree from an accredited institution of higher learning, of at least six semesters' duration in one of the following disciplines: music/music studies, psychology, medicine, social pedagogy and similar degrees

Individual exceptions are possible, but require special approval

Documented proof of good English skills (TOEFL /or similar)

Personal and artistic eligibility

Please note: applicants will be required to show evidence of knowledge and skills in Western music theory

Assessment process

After we receive your complete application, we will request an audio or video recording. This recording should be a piece of music of your choice, on your main instrument (or voice), and should be shorter than 5 minutes. We will also request an essay outlining your motivation for pursuing this course of study.

We will schedule an online assessment, lasting approximately 45 minutes. The assessment will include: Motivational Interview, Song. A live performance of a song of your choice, accompanying yourself on guitar or piano, Music theory quiz and Ear training.

You do not qualify? No problem, SRH has its International College for students who do not qualify for direct entry into our programmes or need to bring up their English language level. You can choose from our Foundation programmes at the College. This is a direct pathway into our university. Find more about here . <https://www.srh-international-college.de/>

FEES AND FUNDING

Your tuition fees

690 EUR per month full-time + one-time registration fee of 750 EUR (Prices apply only to students from the European

Economic Area).

Applicants from Non-EEA countries without permanent residence permit need to pay a tuition fee of 5,100 EUR per semester + one-time registration fee of 1,000 EUR and must pay the tuition fees for one semester in advance. From the second semester onwards the payments for the remaining semesters of study are due six weeks before the end of the period of study already paid for. The payments have to be done semesterwise.

For more information and payment modalities, please refer to the current fee schedules (valid from 01.04.2023):

[Fees schedule EEA students](#)

[Fees schedule non-EEA students](#)

APPLY NOW

Application process and deadlines

We look forward to welcoming you to SRH University Heidelberg very soon.

There are no closing dates for application at our University. This is the application process:

If you're interested in our Master's programme, simply send us your application [online](#).

If you encounter technical difficulties with the online application or have any questions about your application, your contact person Sarah Grabe will be happy to help you.

If you meet the admission requirements, we'll invite you to a selection interview

If you pass the selection interview, we'll send you the acceptance letter and the study contract

You then sign the study contract and return it to us

You pay the registration fee

If you come from a non-EU country, you will pay your tuition fee one semester in advance in addition to the registration fee. From the second semester onwards the payments for the remaining semesters of study are due six weeks before the end of the period of study already paid for.

We then issue your letter of acceptance

You take part in our Welcome Days – and then embark on your degree programme!

APS Certificate

Please note that special conditions apply to applicants from some countries:

India

From 1st of November 2022, applicants from India will be required to have their documents verified by the Academic Evaluation Centre New Delhi (APS-India) before applying for a visa. After successful verification you will receive a certificate which allows you to initiate the visa process. Please note that the verification process at APS-India is expected to take approximately 4 weeks. We recommend that you apply for the APS certificate at the same time as you apply to SRH University Heidelberg. For more information, go to the APS-India website: www.aps-india.de

The People's Republic of China

The procedure of the Academic Evaluation Centre of the Cultural Section at the German Embassy in Beijing (Akademische Prüfstelle – APS) must have been successfully completed before you apply. The centre checks documents for authenticity and conducts interviews. The original APS certificate must be enclosed with the application documents. For more information, go to the APS website at: www.aps.org.cn .

Please note that you don't need to complete the APS procedure if you apply for our 3+1 programmes.

Vietnam

The Academic Evaluation Centre of the German Embassy in Hanoi has been checking the university entrance qualifications of Vietnamese applicants since 2007. The procedure includes checking the submitted written documents as well as an interview with the applicant. An original copy of proof of successful completion of this process, the APS certificate, must be enclosed with the application documents.

Mit dem SRH-Team zum NCT-Lauf

"NCT-RUNning against cancer" is the motto again in July. The virtual charity event of the National Centre for Tumour Diseases will take place from 7-9 July and is organised by Heidelberg University Hospital. Everyone who wants to set an example in the fight against cancer is invited, speed and distance are not important. Virtually united, last year over 4,750 people worldwide started for the good cause and raised 65,000 euros for cancer research. Participation is free, but each participant can make a voluntary donation, whether in the form of a kilometre allowance or a total amount.

On 8 July at 10 a.m., the runners will meet on campus, and the starting signal will be given at 10:30. The IMD student council will provide a drinks stand.

A city on a river holds many technical and architectural opportunities as well as challenges. This time, the participants of the Neckar Now III Summer School took a child's perspective. Using an interactive water adventure playground for the City of Heidelberg as a case study, the participants worked in intercultural teams to develop sustainable urban designs for open space, harnessing their interdisciplinary expertise in water technology, (landscape) architecture, and urban planning, all while keeping children's needs at the forefront.

"It was super exciting," reported Belen Zevallos, academic assistant at the School of Engineering and Architecture, who organised the summer school with Professor Dr-Ing Ulrike Gayh. For the first time in its three-year history, the event was held 100 per cent in person. In total, international participants and lecturers from 13 different nations were represented: Albania, Brazil, China, Germany, Ghana, Honduras, India, Iran, Peru, Portugal, Russia, Spain and Turkey.

The final presentation was at the Römerbad on the Neckar, and was supported by NeckarOrte, an association dedicated to raising awareness about the area. Here, the participants had the opportunity to present their projects to the general public in an outdoor poster session. "We are very satisfied with the week. We were all able to develop many new perspectives – even though the preparation and the days were of course exhausting," Belen Zevallos noted, looking back with some relief.

The project team of the Neckar Now III Summer School:

Professor Dr-Ing Ulrike Gayh (project leader), Belen Zevallos (project coordinator), Professor Dr Cidalia Silva, Professor Dr-Ing Andreas Gerber, Professor Dr Mohammad Reza Ghomi, Dr Kenneth Bedu-Addo, Dr Enis Yazici

The Neckar Now III Summer School was funded by the German Federal Foreign Office under the DAAD's "Summer Schools in Germany" programme.

Tell us, what are you doing right now and what does your professional life look like?

As an Account Executive in the Pharma Life Science & Professional Services Industry at SAP, focusing on SAP SuccessFactors / Human Experience Management (HXM), I am responsible for building and maintaining relationships with

large enterprise customers in this industry. My everyday professional life involves Client Relationship Management, where I work closely with customers to understand their business needs and challenges. Based on this, I develop and nurture long-term relationships to ensure customer success. In Solution Sales, I promote and sell SAP's solutions (SuccessFactors / HXM), to meet the specific needs of pharmaceutical and professional services companies. This involves prepare and deliver proposals, presentations, and quotes to customers. In Contract Negotiation, I am responsible for negotiating contracts, pricing, and terms with customers to ensure a win-win situation for both SAP and the customer. I also work with SAP's internal teams, including product development and customer support, to ensure that clients receive the best possible service and support.

What makes your industry so exciting for you?

I find the HR software industry dynamic and appealing. It's constantly innovating, empowering HR professionals, and enhancing employee experiences. The industry promotes data-driven decision-making and global reach, simplifying HR management worldwide. It ensures compliance and cost savings while streamlining operations. Talent management features aid in talent attraction and retention. The commitment to sustainability is a significant plus. This industry offers exciting opportunities for me looking to optimize HR operations and employee experiences, making a significant impact in modern business management.

How do you imagine your future professional career? What career paths, opportunities for advancement or professional fields would you like to pursue in the next few years?

I envision my future professional career with SAP as a path of continuous growth and expanding responsibilities. I am excited about the opportunities SAP provides for personal and professional development. Furthermore, I have an extreme curiosity for entrepreneurship, and I see this as a parallel avenue for my career growth. I believe that entrepreneurial ventures can unlock new horizons. The future is full of potential, and I am eager to see where the journey takes me.

Application processes are always exciting. How do you remember this phase immediately after graduation? Were there any particular challenges?

The post-COVID era represented a critical turning point in my career. In the midst of massive job cuts, I was a working student at SAP, at the same time writing my master's thesis and actively searching. I made the most of this time and first explored the customer side of one of SAP's top customers, where I gained practical experience in implementing SAP HR-solutions. Despite tough competition, the irresistible opportunity arose to rejoin SAP through the prestigious SAP Academy for Customer Success. This trip highlighted the importance of seizing opportunities and adapting to career-changing changes.

What have you learnt from your studies that is helpful in the working world?

My academic journey has imparted several key skills that prove highly beneficial in the professional realm. I've honed the ability to work with a clear focus on goals, consistently delivering results even in high-pressure situations. Moreover, my studies fostered strong teamwork capabilities, allowing me to collaborate effectively in diverse, multicultural teams. Additionally, I've

developed a structured and methodical approach to tasks, enhancing my efficiency and precision in addressing complex challenges in the workplace. These skills have been instrumental in my career, enabling me to thrive in a variety of real-world scenarios.

It's been a while: How did you decide on your degree programmes?

Choosing my course of study was a decision rooted in a desire for both academic and personal growth. I sought a program that not only offered a strong academic foundation but also provided a nurturing, family-like environment where I could thrive. Moreover, I valued close learning opportunities that allowed for mentorship and interaction with professors. The program's international focus further appealed to my aspirations, offering a global perspective and the chance to explore diverse cultures. Overall, the blend of academic excellence, personal development, close-knit learning, and international exposure made it a compelling choice for my educational journey.

What made your studies at SRH University Heidelberg special?

My studies at SRH University Heidelberg were truly exceptional for several reasons. Firstly, the collaborative work with fellow students allowed us to deliver outstanding outcomes. We thrived in a supportive community, fostering creativity and excellence. Secondly, the close relationship with professors was invaluable. Their mentorship and guidance greatly enriched my learning experience. The campus itself offered a vibrant and conducive environment for academic growth. Moreover, the international opportunities, such as a semester abroad at San Diego State University and internships in Shanghai and London, broadened my global perspective and enhanced my adaptability. Lastly, the founding of the interdisciplinary student initiative, SBN - Student Business Network, with my close friend Julian Goldschmitt, was a highlight. It enabled us to apply our knowledge in a practical setting and make a positive impact. These facets collectively made my studies at SRH University Heidelberg truly special and transformative.

Is there a quote that best describes your time studying with us?

The quote by Henry Ford, "If You Always Do What You've Always Done, You'll Always Get What You've Always Got," perfectly encapsulates the importance of leaving one's comfort zone to reach new heights. In my case, this meant stepping out of the familiar and embarking on a journey that led me to study in the USA, along with seizing the remarkable opportunities of internships in Shanghai and London.

By breaking free from routine and embracing the unknown, I experienced personal and professional growth that I couldn't have fathomed had I remained in my comfort zone. These experiences exposed me to diverse cultures, work environments, and perspectives, enriching my life in ways that simply wouldn't have been possible had I chosen to stick with the familiar. This quote serves as a reminder that stepping into the unfamiliar and taking risks can lead to unanticipated and extraordinary achievements.

What advice would you like to give to our students and young alumni?

I wholeheartedly encourage students and young alumni to not only seize existing opportunities but also actively cultivate new

ones. Remember, the journey is just as significant as the destination, so savor each moment. Embrace the chance to learn, explore, and engage with a diverse array of individuals. See challenges as pathways to growth and maintain a resilient, can-do attitude. Above all, never lose sight of your passion and purpose - let them serve as your unwavering guiding stars on this exhilarating journey.

Kalendereintrag

Probestudium

Sei dabei – beim kreativen Probestudium ganz bequem von zu Hause aus!

Programm:

16:00 – 16:15 Uhr

Begrüßung und Intro (deutsch/englisch)

Vorstellung unserer Hochschulen in Berlin, Heidelberg, Hamburg und Leipzig sowie der angebotenen kreativen Bachelor- und Master-Studiengänge.

16:00 – 17:15 Uhr

Schnuppervorlesung Marketingkommunikation/Medienmanagement

Strategic Planning, Creative Strategy, Branding – arbeiten in der Kreativbranche (auf deutsch)

In der Probevorlesung mit Prof. Markus Wente bekommst du einen Einblick in die typischen Aufgaben in der Marketingkommunikation von Unternehmen der Kreativwirtschaft. Du wirst sehen, die Aufgabengebiete sind vielfältig – von der strategischen Planung, der Entwicklung kundenzentrierter Strategien bis hin zur operativen Umsetzung. Stelle uns auch deine Fragen zu unseren Studiengängen Marketingkommunikation, Medienmanagement und Medien- und Kommunikationsmanagement, die wir in Berlin, Heidelberg und Hamburg anbieten.

ODER

Schnuppervorlesung Kommunikationsdesign

Vorstellung des Bachelor-Studiengangs Kommunikationsdesign (auf deutsch)

Anhand aktueller Arbeiten und Projekte von Studierenden erfährst du, welche Inhalte im Studium gelehrt werden und was du damit beruflich später machen kannst. Prof. Christopher Jung führt visuell durch diese Vorstellung des Bachelor-Studiengangs Kommunikationsdesign, den du in Berlin in Vollzeit und ab 2025 in Berlin und Leipzig auch dual studieren kannst.

ODER

Schnuppervorlesung Musik

The Dos and Don'ts in the Music Industry (auf englisch)

Welche Skills benötigt man für eine erfolgreiche Karriere in der Musikindustrie von heute? Was sollte man können und welche Fehler sollte man vielleicht vermeiden? Und kann man „Pop“ überhaupt studieren? Prof. Marc Secara, Studiengangsteiler B.Mus. Populärmusik, spricht mit euch in diesem Workshop über die wichtigsten Kompetenzen, die ihr auf eurem Weg in die Musikbranche benötigt.

ODER

Schnuppervorlesung Musiktherapie

Einblicke in Arbeitsfelder und Methoden der Musiktherapie (Deutsch)

Was ist Musiktherapie? Wie kann ich Menschen mit Musik helfen? Verena Hopfner wird dir in der Probevorlesung des Bachelorstudiengangs Musiktherapie die Vielfalt der musiktherapeutischen Praxis aufzeigen. Musiktherapie wird zur Förderung der Gesundheit bei Menschen jeden Alters eingesetzt. Anhand von Fallbeispielen werden verschiedene musiktherapeutische Methoden anschaulich dargestellt und Fragen rund um den Beruf geklärt.

Ab 17:15 Uhr

Q&A mit Studienberater:innen zu Finanzierung und Bewerbung (parallel zu und nach den Schnuppervorlesungen).

Wir freuen uns schon, dich online kennenzulernen!

Probestudium

Sei dabei beim Probestudium, ganz bequem von zu Hause aus!

Programm:

16:00 – 16:15 Uhr

Begrüßung und Intro (deutsch/englisch)

Vorstellung unserer Hochschulen in Heidelberg, Berlin, Bremen, Fürth, Hamburg, Hamm, Leipzig und Köln sowie unserer Supply-Chain-Programme.

16:15 – 17:15 Uhr

Schnuppervorlesung DE

Effiziente Supply Chain? Ohne optimale Prozesse geht es nicht! (deutsch)

Optimale Prozesse in der Logistik sind für den Erfolg von Unternehmen unerlässlich. Von der Materialbeschaffung, dem Transport, Lieferketten bis hin zum Beitrag von Technologie und Digitalisierung – Logistik ist ein bedeutendes, spannendes und internationales Berufsfeld.

Unsere Dozentin Wiebke Dreyer bringt viele Jahre Erfahrung aus Logistik- und Industrieunternehmen mit, lehrt seit 2019 an der DAV Bremen und ist auf Prozess- & Lean-Management spezialisiert.

ODER

Schnuppervorlesung EN

The Challenge of integrating Artificial Intelligence in the Supply Chain (englisch)

Die Lieferketten waren in den letzten Jahren immer wieder in den Medien:

Unterbrechungen der Lieferkette, Materialengpässe, geschlossene Häfen sind nur einige der Themen, über die berichtet wurde. Studenten des Studiengangs Supply Chain Management lernen alle Werkzeuge kennen, die Unternehmen helfen, in ihrer Lieferkette zu glänzen. Derzeit wird viel über generative KI wie ChatGPT diskutiert.

Prof. Dr. Torsten Becker, Leiter des Studiengangs Supply Chain Management, spricht über die Auswirkungen dieser neuen Tools auf die Supply Chain. Gleichzeitig zeigt Prof. Becker auf, wie die im Supply Chain Management Studium erlernten Fähigkeiten helfen, den Einsatz von KI zu verbessern.

ODER

Schnuppervorlesung EN

Supply Chains and the Importance of Working with Suppliers in Car Manufacturing (englisch)

Lieferketten sind Netzwerke von Unternehmen, die zusammenarbeiten, um Produkte wie Autos herzustellen und zu liefern. In dieser Schnuppervorlesung erfahren Sie, warum die Zusammenarbeit mit Zulieferern für Automobilhersteller von entscheidender Bedeutung ist, da sie für qualitativ hochwertige Teile, pünktliche Lieferung, Kosteneinsparungen und Zugang zu Innovationen sorgt, was letztendlich zu besseren Autos für die Verbraucher führt.

Als ehemaliger leitender Angestellter bei BMW hatte Prof. Dr. Axel Werner über 20 Jahre lang verschiedene Managementpositionen inne, unter anderem als Leiter der Produktion und Logistik. Während seiner Zeit bei BMW trug er maßgeblich zur Optimierung der Produktionsprozesse, zur Einhaltung von Qualitätsstandards und zur Entwicklung innovativer Lösungen bei.

Ab 17:15 Uhr

Q&A mit Studienberater:innen zu Finanzierung und Bewerbung (parallel zu und nach den Schnuppervorlesungen).

Online Trial Lecture

Take part in the trial lecture from the comfort of your own home!

Programme:

4:00 - 4:15 pm (CET)

Welcome and intro (German/English)

Presentation of our universities in Berlin, Bremen, Cologne, Fürth, Hamburg, Hamm, Heidelberg and Leipzig as well as our supply chain programmes.

4:15 - 5:15 pm (CET)

The Challenge of integrating Artificial Intelligence in the Supply Chain (English)

The supply chain has been in the media in the last years: Supply chain disruptions, material shortages, closed harbors are some of the topics reported. Supply Chain Management students will learn all the tools to help companies to excel in their supply chain. Now, there is a lot of discussion on Generative AI such as ChatGPT.

Prof. Dr. Torsten Becker head of the study program supply chain management talks about the impact of these new tools on the supply chain. At the same time Prof Becker will show, how the skills learned in the supply chain management studies will help you to improve the use of AI.

OR

Supply Chains and the Importance of Working with Suppliers in Car Manufacturing (English)

Supply chains are networks of companies working together to make and deliver products, like cars. In this trial lecture you learn why the cooperation with suppliers is vital for car manufacturers as it ensures quality parts, timely delivery, cost savings, and access to innovation, ultimately leading to better cars for consumers.

As a former senior manager at BMW Prof. Dr. Axel Werner held various management positions for over 20 years, including Head of Production and Logistics. During his time at BMW, he contributed significantly to the optimization of production processes, compliance with quality standards and the development of innovative solutions.

From 5:15 pm (CET)

Q&A with student advisors on financing and application (parallel to and after the trial lectures).

We look forward to getting to know you online!

Register for online trial lecture

Tell us, what are you doing right now and what does your professional life look like?

In my role as a Power Platform Consultant at Freudenberg Sealing Technologies, together with my Team, I focus on advancing the integration of the Power Platform within the organization. My responsibilities encompass overseeing the community and its

activities and managing change. A typical day involves engaging in calls with community members to address their challenges and strategizing ways to enhance platform adoption.

What makes your industry so exciting for you?

In today's context, I consider IT and change management to be crucial elements. My fascination with these subjects grew during my time as a working student pursuing my Masters. I am enthusiastic about exploring the Power Platform, a prominent Low Code technology that incorporates AI and facilitates automation. This platform enables businesses to autonomously create Low Code solutions, reducing dependence on IT. Moreover, its integration into a company requires a shift in people's mindsets

How do you imagine your future professional career? What career paths, opportunities for advancement or professional fields would you like to pursue in the next few years?

Looking ahead a few years, my goal is to become a Change Manager, overseeing change initiatives with a team. To achieve this, I've strategically pursued relevant certifications. In March of this year, I achieved the Certified Associate of Project Management (CAPM) from the Project Management Institute.

Application processes are always exciting. How do you remember this phase immediately after graduation? Were there any particular challenges?

The application process proved to be challenging, yet it provided invaluable insights. I discovered the importance of tailoring my CV and Cover Letter for each application. Despite facing numerous rejections, I persevered and focused on self-improvement. This is a valuable lesson that every student should bear in mind. Fortunately, my persistence paid off, leading to a successful transition from a working student role to a Trainee Position at Heidelberg Materials AG.

What else to you like to say...

- It is very important to gain practical experience during your studies. It also helps you explore different industries and apply what you learn in the classroom to the real world.
- Keep your eyes and ears open. Opportunities can come in unexpected ways.

Outstanding academic performance, good grades, exceptional social commitment or difficult life circumstances – if you meet one of these requirements as a student of SRH University Heidelberg, you can apply for a scholarship. And yet there are various forms of support available: the Deutschlandstipendium, for example, provides students with € 300 per month, supported by private and public sponsors. In addition, SRH awards 16 SRH Scholarships of its own each year. In this case, tuition fees are waived in full within the standard period of study until the scholarship holder completes their degree. In 2020 and 2021, SRH also awarded four start-up and emergency aid scholarships to support students who had been hit particularly badly by the pandemic. An internal scholarship committee at the university decides on the allocation of scholarships, taking all relevant aspects into account.

This year, a total of 39 students from the university were awarded a scholarship. In addition to the aforementioned scholarships, two students from the Universidad Paraguayo Alemana (UPA) received the STIBET Matching Funds scholarship, which is awarded to international students with the participation of third-party sponsors. The BIDS Motivation Scholarship, awarded to a business administration student from Colombia, also has an international background. The aim of this DAAD scholarship is to support school-leavers from German schools abroad as they embark on their studies in Germany.

Kamilla Prutek, Head of the Admission Office and the Student Advisory Service, and Hannes Werning, responsible for strategic partner management at the university, opened the event. Besides welcoming the sponsors and representatives of the university management, they naturally also gave a warm welcome to the stars of the evening: no less than 39 scholarship holders.

In his welcoming address, the president Professor Dr. Carsten Diener expressed how appreciative he was of the students who were about to receive their scholarships in the course of the evening. In a moderated round of talks, both sponsors and scholarship recipients were given the opportunity to talk on stage. Sponsors explained what motivates them to fund the Deutschlandstipendium, for example; and students described what it means to them to receive a scholarship.

These talks were followed by the highlight of the evening: the award ceremony, where the various scholarships were presented to the individual students. Music therapy student and SRH scholarship holder Jihoon provided the musical backdrop to the evening, delighting the audience with her guitar and voice.

The champagne toast ushered in the less formal part of the evening, featuring a flying buffet and friendly chats. Although there are diverse reasons for receiving a scholarship, all of the scholarship holders had one thing in common: they are delighted and

grateful for the support.

Your experience abroad

Do you want to dive into a foreign culture and get to know new people? Do you want to live in a different country to study or work? Periods abroad not only look good on your CV, but also give you incomparable experience. You'll develop personally as well as professionally, and form new, unexpected friendships.

DISCOVER THE POSSIBILITIES

Your personal path across the world

Whether it's for a week or for an entire year, there are numerous ways to spend part of your studies in a foreign country – by taking a semester abroad, doing an internship, or attending a summer school. No matter what, it'll be an unforgettable experience, and you'll create lifelong friendships and memories.

Study abroad

An internship abroad

Writing your thesis abroad

Summer Schools or an International Week

CHECKLIST

Going abroad: step by step

If you want to go abroad, try to start planning a year ahead. This checklist will help you with organising and financing, one step at a time. If you have any questions, feel free to ask at our International Office. We'd be glad to help!

1. Find out about opportunities through your faculty

2. Demonstrate proof of your language skills

3. Make arrangements for your journey, including getting a visa, if necessary

4. Look for suitable accommodation

5. Make sure your health insurance and your accident and liability insurance policies are in order

6. Get your vaccinations

7. Add up the costs of your stay abroad

8. Check out your funding options

ÜBER MICH

Über mich

Januar 2005 - Aktuell

Professor für Allgemeine und Neurokognitive Psychologie an der Fakultät für Angewandte Psychologie der SRH Hochschule

Heidelberg

Modulverantwortlicher für die Fächer Allgemeine Psychologie und Kognitiv-affektive Neurowissenschaften I-III im Bachelorstudiengang

Modulverantwortlicher für die Fächer Kognitive Psychologie und Biologische Psychologie im Masterstudiengang

Leiter des Masterschwerpunkts Neuropsychologie

Mitglied des Fakultätsrates

Mitglied des Senats der Hochschule

Fellow am Netzwerk Altersforschung der Ruprecht-Karls-Universität Heidelberg

2021 - Aktuell

Kooptierter Professor an der Ruprecht-Karls-Universität Heidelberg

Januar 2015 - Januar 2018

Leiter der Arbeitsgruppe „Neuroimaging des Gedächtnisses“ am Institut für Neuropsychologie und Klinische Psychologie des Zentralinstituts für Seelische Gesundheit (ZI)

Ausgewählte Forschungsprojekte:

Konnektivität Gedächtnis-relativer und exekutiver Strukturen beim Quellengedächtnisses und beim Kontextkonditionieren

Neurophysiologie des semantischen Gedächtnisses bei leichter kognitiver Beeinträchtigung

Verbesserung von Gedächtnisfunktionen im Alter durch roboter-basiertes motorisches Training

Januar 2008 - Januar 2015

Wissenschaftlicher Mitarbeiter (Post-Doc) am Institut für Neuropsychologie und Klinische Psychologie des Zentralinstituts für Seelische Gesundheit (ZI)

Ausgewählte Forschungsprojekte:

Neuronale Grundlagen von Unitarisierungsprozessen beim Assoziationslernen

Struktur-Funktionsbeziehungen bei intakter und beeinträchtigter Gedächtnisleistung

Einflüsse von Magnetfeldern auf die kognitive Leistungsfähigkeit

Januar 2006 - Januar 2008

Wissenschaftlicher Mitarbeiter an der Klinik für Neurologie II der Otto-von-Guericke-Universität in Magdeburg, sowie in der Arbeitseinheit für Experimentelle Neuropsychologie am Institut für Psychologie der Universität des Saarlandes in Saarbrücken

Ausgewählte Forschungsprojekte:

Untersuchung der Rolle des Hippokampus beim Sprach-verstehen mittels intrakranieller Elektroenzephalographie (iEEG)

Januar 2003 - Januar 2008

Wissenschaftlicher Mitarbeiter in der Arbeitseinheit für Experimentelle Neuropsychologie am Institut für Psychologie der Universität des Saarlandes in Saarbrücken

Ausgewählte Forschungsprojekte:

Einfluss der Semantik auf das episodische Gedächtnis

If you plan to come to Bhutan for your semester abroad, there are some things you should know in advance regarding the preparation. For one, you should know that the bureaucratic requirements for the application are quite extensive. In my case, the application email had a total of 14 documents attached, these include the usual CV and motivational letter but beyond that many forms required by RTC and many approval forms from SRH. Some are required by RTC and some others for the Visa applications. So be ready to fill out and prepare a lot of paperwork. In my experience, making sure that you adhere to all the requirements and fill out all the forms properly from the start, makes the entire process much smoother. In addition, having hard copies of all the essential documents readily available at the check-in at the departure airport can save a lot of hassle. During the height of lockdowns and travel restrictions this was surely amplified, but travel and visa restrictions to Bhutan are notoriously tough. In my case I got lucky, but for three of the six other exchange students going to RTC, complications at the initial check-in led to them not being allowed to board and having to wait a whole week to get the next flight.

Culturally there are also a few things worth pointing out. For one, you should of course be ready to adapt. In Bhutan the most notable cultural traits worth knowing before coming are that people here are very non-confrontational and collectivistic in nature. This means that conflict will be avoided at all cost and when someone disagrees with you they will not necessarily voice their opinions, so you will have to read between the lines a bit. The collectivist trait is great, as you will always have at least one friend with you, looking to help you out and in group activities there is always an underlying harmony since everyone looks out for one another and makes sure that everyone is comfortable. This being said, people here are very inclusive, and I have not come across a single case where someone was deliberately excluded. On the other hand, however, this means that it is not necessarily understood if you want to do something alone or by yourself. This may be a bit surprising to most Europeans, as western culture is contrarily rather individualistic.

When it comes to packing, there are some things that may be worth noting, apart from those mentioned in the very extensive packing list prepared by RTC. Not much is needed, however almost all local students wear rubber slippers wherever they go, even while hiking. So, if you are looking to blend in, you may want to bring some along. Additionally, football shoes can really be worth including if you are into playing, as there is a massive football field right on campus. Unsurprisingly hiking and trekking are among the most popular free time activities here in Bhutan, so bringing along adequate hiking gear is advised. In the summer months there is a monsoon season, I have not experienced it yet myself, but some rain gear would be good to have, otherwise the days are usually quite warm, and the nights tend to be a little chilly. There is no need to worry since anything you may need can be bought in town. It may however also be nice to bring along some small gifts from home for the close friends you make

here.

Germany again 1st for international students before UK, France, in Study.EU Country Ranking 2018

[Download press kit](#)

Germany again 1st for international students before UK, France, in Study.EU Country Ranking 2018

- ***Germany once more ranks 1st for international students, among 30 European countries***
- ***UK unbeatable for Education and Life & Career, but also most expensive country to study in***
- ***France improves to rank 3, followed by the Netherlands and Russia***

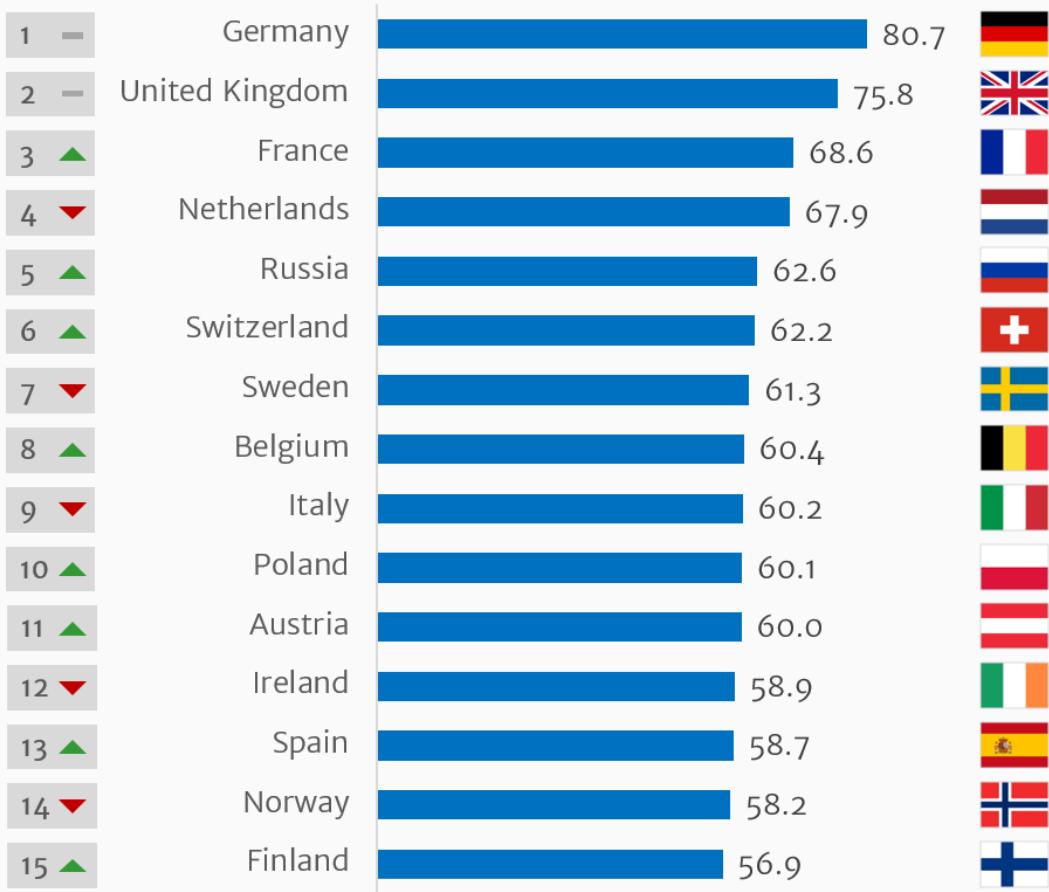

Hamburg, Germany, 19 February 2018. In the 2018 edition of the Study.EU Country Ranking, Germany once more ranks as the most attractive country for international students, followed by the United Kingdom and France.

Thirty European countries were ranked based on scores in three dimensions: ***Education, Cost, and Life & Career***. Germany's offer of mostly tuition-free, world-class universities remains hard to outrank. But the United Kingdom caught up in points, only held back by its prohibitively high cost of living and tuition fees. France moved up ahead of the Netherlands, and Russia made its way into the top 5. Poland enters the top 10 with a much improved score for Education.

Study.EU Country Ranking 2018

Attractivity to international students – total score (out of 100)

www.study.eu

Cost is almost as important to students as quality of education

The key question addressed by the ranking is: Which European countries are the best choices for full-time degree students? Compiling a range of carefully selected input factors, countries were given scores in three categories, with differing weights for the overall score:

- **Education (45%)** considers a country's performance in three established international university rankings (QS, THE, ARWU), indicators of teaching quality as well as the number of study programmes that are taught in English;
- **Cost (30%),** the second-most important factor, considers a country's average cost of living plus the average tuition fees both for EU/EEA citizens as well as for non-European students; lower costs meaning a higher score;
- **Life & Career (25%)** considers a range of factors with regards to the quality of life and career perspectives for international graduates.

New ranking factor: Safety

This year, the country ranking takes into account personal safety as a factor in the Life & Career category. "We have noticed that students are increasingly concerned with the safety in their host countries," says Study.EU CEO Gerrit Bruno Blöss. The score for personal safety is based on analyses in the Social Progress Index and includes, for instance, homicide rates, rates of other violent crimes and incidents of political terror. "Based on those statistics, most of the countries in our European ranking are safer than, for example, the United States," Blöss adds.

Mobility keeps increasing – Brexit effects beyond 2019 unclear

"Compared to last year, there has been a noticeable increase of programmes offered in English," observes Blöss. "Universities on the continent are preparing for Brexit: They expect European students to seek alternatives to the UK in the coming years."

While the EU and the UK have in principle agreed that students should retain equal rights in both domains for the initial post-Brexit phase, many educators worry that studying in Britain will become more difficult or more expensive for Europeans. If that is the case, British universities will increase their efforts to recruit students from other continents. "Higher education is not only a source of Britain's political 'soft power', it is also a significant export. Many regions in the UK benefit from the positive economic impact of having international students."

About Study.EU

Study.EU is the gateway to universities in Europe. As one of the leading information providers for study choice in Europe, it offers students details about more than 7,500 study programmes. The Hamburg-based company connects students from around the world with European universities, enabling them to pursue the academic path they aspire. Study.EU closely cooperates with institutions of higher education as well as governmental organisations throughout Europe.

What is Promos?

Are you planning an internship or studies abroad, outside the EU? The Promos-programme from the DAAD (Deutscher Akademischer Auslandsdienst) sets its focus on the funding of travel costs.

YOUR APPLICATION

Getting your documents ready

For the application please upload the following documents with the subject heading “**PROMOS scholarship**” within our [SRH Scholarship portal](#) :

Motivation letter for the internship or study abroad semester

CV/Resume

For internships: scanned copy of the internship contract including details of the payment

For studies: scanned confirmation of the partner school or confirmation of your faculty that you will be nominated for a study abroad semester

Transcript of courses (print out of Campusnet, not older than 2 weeks before application)

Language certificates (as far as available and obligatory, for semesters abroad e.g. in USA, Australia etc. you need a TOEFL or IELTS certificate)

Recruitment of technical talents is challenging for recruiters and HR professionals as they often do not know which skills to look for. A team of SRH students builds an AI system that identifies important skills for technical jobs.

What is the project about?

This project takes place in collaboration with ONTEC AG, an Austrian custom solution developer that develops software and ML/AI based solutions individually for their respective customers. One of these customers is a recruitment agency. Recruitment of technical talents is challenging for recruiters as they usually do not know what technology names or skills mean.

RABE analyzes publicly posted job boards to identify which skills are needed for which type of job description to help the recruiter when searching through large amounts of CVs.

The delivered information is two-fold. Firstly, skills that are relevant for specific jobs are identified. These change over time as fields and jobs evolve. Secondly, skills that are often required simultaneously are identified. The second approach also aims to provide recruiters with a broader base for search terms when looking up potential candidates from their CV collection.

This use case has been chosen as no privacy protected data is analyzed and the relevant source data is publicly available in online job boards. The developed solution works with German job posting as the data was collected from Austrian job boards. Nevertheless, the same method can be applied to any language.

How did the idea come about?

The idea for the Recruitment Assisting Buddy Engine (RABE) likely came about due to the challenges faced by recruiters and HR professionals in identifying and assessing technical skills required for specific job roles. Additionally, the requirements for certain jobs shift over time. The usual process for recruiters is to query-search through CVs looking for the mentioning of specific skills. Not knowing what to look for greatly increases the difficulty. Normally, recruiters spend a significant part of their workday on researching job requirements using internet search engines and reading online job descriptions.

The idea for RABE may also have been sparked by the increasing demand for technical talent in the job market, as well as the growing importance of data-driven decision making in recruitment. By automating the process of identifying required technical skills, RABE can provide recruiters with more accurate and relevant data to inform their hiring decisions, which can be particularly valuable in fields such as technology and engineering.

What makes the project special?

The Recruitment Assisting Buddy Engine (RABE) project is special because it aims to address a significant challenge faced by recruiters and HR professionals in the hiring process, namely the difficulty of identifying and assessing the technical skills

required for specific job roles.

By automating the process of analyzing job descriptions and identifying the required skills, RABE can significantly speed up the recruitment process and reduce the workload of recruiters. This is achieved through the use of natural language processing and machine learning algorithms, which allow RABE to extract key information from job descriptions and identify patterns in the required skills.

In addition to identifying the required skills, RABE can also identify skills that are usually required together, which can provide additional insights to recruiters and help them to better understand the specific skill sets that are required for certain job roles.

Overall, the RABE project has the potential to revolutionize the recruitment process by making it faster, more efficient, and more accurate, ultimately benefiting both recruiters and job seekers.

What are the next steps?

The next steps for the project could include further development and refinement of the technology, as well as expansion into new markets and industries. In terms of technology development, the RABE system could be improved and refined to increase its accuracy and effectiveness in identifying the required technical skills for specific job roles. This could involve further training of the machine learning algorithms using larger datasets, as well as incorporating user feedback to improve the relevance and accuracy of the results.

In terms of market expansion, the RABE system could be adapted for use in different industries and job markets beyond the technology and engineering fields. This could involve customizing the system to identify the specific technical skills required for different industries and job roles, and partnering with recruiters and companies in these industries to test and refine the system.

In addition, the RABE project could explore opportunities for integration with other recruitment and HR technologies, such as applicant tracking systems and candidate assessment tools. This could create a more comprehensive and streamlined recruitment process for companies and recruiters, and further increase the value of the RABE system for these stakeholders.

Water is life

On World Water Day, March 22nd, 2021 the SRH Heidelberg UAS offered several events to promote the value of our water. Water is the basis for life on earth. In general, the world has a lot of water at its disposal: in fact, over 70% of the Earth's surface is covered with water. But salt water has the largest share of it. Fresh drinking water is extremely unevenly distributed around the world and while some people flee floods, others struggle for a few drops of this resource.

World Water Day 2021 hosted a wide spectrum of interesting presentations and activities to promote valuing water as a resource, including discussions of international water issues and opportunities to share research results. SRH Heidelberg UAS invited international experts and colleagues as well students from the Water Technology, M.Eng. Programme to present at the first World Water Day Conference of the university.

Together the president of SRH Heidelberg UAS, Prof. Dr Carsten Diener, and colleagues of the School of Engineering & Architecture, Prof. Dr Aksel, Prof. Dr Gayh and Dr Bedu-Addo, organized the event and opened the digital conference for experts and students. Additionally, Stephanie Farrar from the International Office guided participants brilliantly through the event as moderator.

Prof. Dr Sandor Szalai (University of Agriculture and Life Sciences, Hungary) discussed how water scarcity results in increasing land degradation and vice versa. Further, a case study of Ghana's 'galamsey' (gather and sell) industry by Dr Kenneth Bedu-Addo, pointed out negative impacts of water pollution from gold mines on the ecosystem. Then, trout farming's severe impact on natural water bodies was discussed by Professor Dr Mohammed Ghomi of Islamic Azad University, Iran. He demonstrated how the adoption of intensive cultivation patterns by the aquaculture industry causes excessive production of nitrogen and phosphorus during the metabolism of aquatic animals, leading to decomposition of intensified feed residue, thus resulting in polluted water discharge in rivers and lakes. Emphasizing the importance of water conservation, Mohnish Pujari (SRH Heidelberg UAS, student Water Technology, M.Eng.) gave a detailed introduction on the value of water - "Water Conservation – A Single Drop is Equal to a Diamond" and explained various saving techniques of water resources.

Following these presentations, several innovative methods of conserving water were presented, such as Lifestraw, which can filter up to 4000 litres of water without usage of purifiers or iodine tablets; Warka Tower that harvests water from the atmosphere; Cloudfisher, which is similar to Warka tower, but functions well in mountainous regions in presence of clouds. Additionally, participants learned about Managed Aquifer Recharge (MAR), a groundwater engineering tool to tackle water

scarcity in arid and semi-arid regions.

However, the persisting problems of water shortage and untreated sewage resulting in wastage and pollution of water resources was yet to be addressed. Therefore, Prof. Nikolay Makischa (Moscow State University of Civil Engineering, Russia) introduced reconstruction of water treatment plants to conserve water resources. In addition, areas with deficit water flow, who aim at finding new water sources and effectively allocating existing water resources was presented by Louis Okofo Boansi (Brandenburg University of Technology) in his speech on 'Managed Aquifer Recharge as a Tool for Tackling Water Scarcity and Drought in Arid and Semi-arid Regions: the case of Ghana'. As an environmental protection measure, membrane process was emphasized by Prof. Alexei Pervov (Moscow State University of Civil Engineering, Russia), who discussed treating high concentration wastewater effectively through reverse osmosis.

As for water treatment, several regions lack adequate funds to provide a suitable equipment serving each family. Thus, Pauline Priyanka (SRH Heidelberg UAS, student Water Technology, M.Eng.) introduced a simple but innovative technology of waste treatment, banana stems, which provides simple water purification function at a reduced cost, which can suit poor areas with serious water pollution.

Moreover, infectious diseases have become an important problem since numerous viruses are transmitted through wastewater. To reduce infection and effectively detect viruses, Prof. Dr Shane Rogers (Clarkson University, USA) described wastewater-based epidemiology and Sars-Cov-2 applications and challenges in New York and explained the current situation and future development plan.

To round up the conference, participants joined a digital water exploration rally through Heidelberg so international guests could discover Heidelberg and learn new facts about water and architectural highlights in the city.

On World Water Day, the organizers also planned actions for children to raise awareness for importance of water. In a painting competition, children submitted their drawings describing what water means to them (See the online gallery <https://democratia-aqua.org/world-water-day>). These pictures were presented along with posters from students (See the Map Water2Me) and will remain active to collect pictures, posters, and sentences about the topic Water2Me until the next World Water Day in 2022.

Due to the current situation, experimental packages were sent to children to do at home. Students of Water Technology, Architecture, and Media and Communication Management at SRH Heidelberg UAS created a booklet with Do-It-Yourself water experiments for the children. The overall goal was to create an event not only for students and experts but also for the next generation.

The events on World Water Day 2021 at SRH Heidelberg UAS were funded by the DAAD in the programme "Funding Foreign Guest Lecturers for Teaching Purposes at German Universities" and with funds from the Federal Ministry of Education and Research (BMBF).

A big thanks to the sponsors, who made the children smile with gifts for the winners of the painting competition and material for the packages. A special thanks to the German Association for Water, Wastewater and Waste (DWA), the Stadtwerke Heidelberg and the company ProMinent GmbH for their contributions as well.

Also, students, lecturers, and friends of the Water Technology, M.Eng. Programme supported Viva Con Agua and joined the Run4Water. From March 22nd to March 28th, participants ran on their own but were virtually connected through this event. The objective here was the same: to raise awareness for the global drinking water situation and collecting donations for drinking

water projects in South Africa. The School of Engineering and Architecture sponsored each kilometre run by the team.

Six proud SRH scholarship holders will be supported by the SRH University Heidelberg from April 2021. This means that these students will receive full scholarships for the entire duration of their standard period of study. In this way, the SRH University Heidelberg supports talented applicants and students in special life situations and makes it possible for them to study.

"We are very proud of our SRH scholarship holders. Despite special obstacles, they all study with great commitment and achieve a great deal!", says Kamilla Prutek, Head of the Admission Office and Student Advisory Service, happily.

These are the scholarship holders from April 2021:

Alexandra Höhnle, Master student Psychology

Nadine Vordenbaumen, Master student International Management and Leadership

Andreas Schrauth, Master student Social Law

Ahmad Hijazi, Master student Dance and Movement Therapy

Shraddha Prakash Pawar, Master student Applied Computer Science

Abdelrahman Orfali, Bachelor student Physiotherapy (not shown)

Federal Foreign Office Opening a limited-withdrawal bank account

Opening a blocked bank account (Sperrkonto) for students

Article

With a blocked account, you can provide evidence during the visa application process that you have adequate financial resources.

Euro coins
© colourbox.de

You can choose yourself where to set up your blocked account. The important thing is that the following conditions are met:

- The blocked account must have sufficient credit in order to cover the costs arising for the duration of your planned stay in Germany, unless other proof of financial support is presented in the visa procedure. Certain standard rates apply that are based on the rates for German students. From 1 January 2023, the presumed annual requirement that must be paid into the blocked account when applying for a visa amounts to 11,208 euros.

The account may only permit the withdrawal of a certain amount per month (for students this is currently 934 euros).

- The blocked account may only be closed with the consent of the blocked account beneficiary. The blocked account beneficiary is either the mission abroad or, after entering Germany, the competent foreigners authority. A blocking notice therefore only ensures that sufficient funds to cover living expenses are always available. It does not entitle the blocked account beneficiary to withdraw money from the blocked account.

Many countries have providers that offer blocked accounts. Furthermore, certain banks in Germany offer special blocked accounts for students/language students for educational institutions located at their place of business.

The list of providers offering blocked accounts throughout Germany that was published on the Federal Foreign Service website until mid 2022 is currently being reviewed.

Please note that the naming of institutions offering blocked accounts on the Federal Foreign Office website did not amount to a recommendation. The Federal Foreign Office only named the service-providers offering blocked accounts of which it was aware. The Federal Foreign Office does not and never did have a business relationship with the institutions offering blocked accounts.

Info

Information for customers of the blocked account provider BAM:

This provider no longer offers the service of opening new blocked accounts. Please note the **information by the Federal Financial Supervisory Authority (BaFin)** [↗](#) regarding the dissolution of existing accounts.

SRH: 70 years of community and change - a history of diversity and inclusion

SRH was founded in 1955 with the aim of retraining war invalids and rehabilitating people with disabilities. Sixteen years later, almost 50 years ago, we changed our name to SRH, an abbreviation for Stiftung Rehabilitation Heidelberg (Foundation

Rehabilitation Heidelberg). Even then, we recognised diversity as a potential, a principle that still guides us today. But what exactly does diversity mean to us?

For us, diversity is not just a concept, but an essential part of our identity. The CORE principle, based on the principles of diversity and social sustainability, teaches us to understand the perspectives of others, to reflect on ourselves and to stand up for each other. As a signatory to the [“Charta der Vielfalt”](#), we have committed ourselves to comprehensively strengthening and fostering diversity. Together with our university members, we have developed various measures and programmes over the years. These include, for example, anchoring diversity-related topics in the curriculum, diversity-friendly case studies, bilingual communication, a psychosocial counselling service from students for students and annual participation in the One Billion Rising flash mob.

Diverse community: a campus for people with individual backgrounds

There are also long-standing initiatives at our university to foster diversity in intercultural exchange. Our [International Week](#), which has been held annually since 2010, is an opportunity for our university members to experience internationalisation on site. We value the diversity and culture of our students, who come from over 60 different countries. Together we celebrate cultural festivities such as the Diwali festival, whose colourful impressions can be found on our [Instagram account](#). We consider diversity at all levels. Our first equality concept was created in 2015 and has since been expanded to include the topic of diversity. It anchors the continuous equality and diversity work at our university as well as raising awareness, ensuring that documents are also available in English and is based on a needs-based approach when dealing with university members. We have direct contact persons for issues relating to diversity. We also provide good support for parents. We were recognised as a family-friendly university back in 2010. In 2019, we developed a guideline on unconscious bias to counteract unconscious prejudices and avoid stereotypical attributions. Our values also characterise the administrative level, where we treat each other with respect and enable members of the university to change their name easily without the need for official proof.

Our initiatives and measures

The LGBT*IQ Stammtisch, originally conceived by employees for employees, offers a space for dialogue and visibility for all queer and interested members of the university. The student initiative [Safer Space](#) enables intersectional dialogue and provides a platform for students affected by discrimination. Safer Space is also involved in university policy and provides support for our CORDIS project, which also aims to promote diversity.

The CORDIS project, which was launched in June 2023, takes diversity to a new level by focusing on internationality, gender, and university members with disabilities and/or support needs. With our history as a rehabilitation centre, we know how important accessibility is in any context. Our campus in Heidelberg has always been barrier-free and our direct contact persons for people with support needs ensure continuous improvement and support university members in crises or other needs. In application processes, we give preference to applicants with disabilities with equal professional and personal aptitude and guarantee everyone the best possible workplace. We ensure equal participation for all university members through therapeutic support from the SRH Vocational Training Centre, the SRH outpatient clinics, individual study solutions through our CORE principle and opportunities for work assistance as well as [special scholarships](#) for students with disabilities.

This journey through our diversity is far from over. On our [diversity landing page](#), you can gain a deeper insight into our programmes and immerse yourself in a world where diversity is not only celebrated, but lived and shaped.

[Bewerbung](#)

Die private SRH Hochschule Heidelberg blickt auf eine fast 50-jährige Tradition zurück und ist heute Teil der SRH Higher Education Hochschulgruppe.

Durch die ständige Erweiterung ihres Studienangebotes umfasst die Hochschule Bachelor- und Masterstudiengänge in den Bereichen Wirtschaft, Psychologie, Informatik, Design, Therapie, Ingenieurwesen, Architektur und Sozial- und Rechtswissenschaften. Durch ihre Vielzahl an Studiengängen und dem innovativen Studienmodell (gen. „Core-Prinzip“) bietet die Hochschule somit ein umfassendes und modernes Studienangebot für ihre Studierenden. Seit 2017 ist es Studierenden der SRH Hochschule Heidelberg möglich, ihr Studium mit unserem Bildungsfonds zu finanzieren.

Studiengebühren während des Studiums sind damit keine Hürde mehr.

[Zur Hochschule](#)

„Die Flexibilität, die der Bildungsfonds bietet, war für mich das wichtigste Argument. Ein normaler Kredit hat mir zu Entscheidungsfreiheit nach dem Studium genommen. Durch den Bildungsfonds konnte ich problemlos das Startup mit Freunden gründen. Er gibt einem die Freiheit mal etwas auszuprobieren, andere Studenten machen vielleicht ein G

STARK IM VERBUND

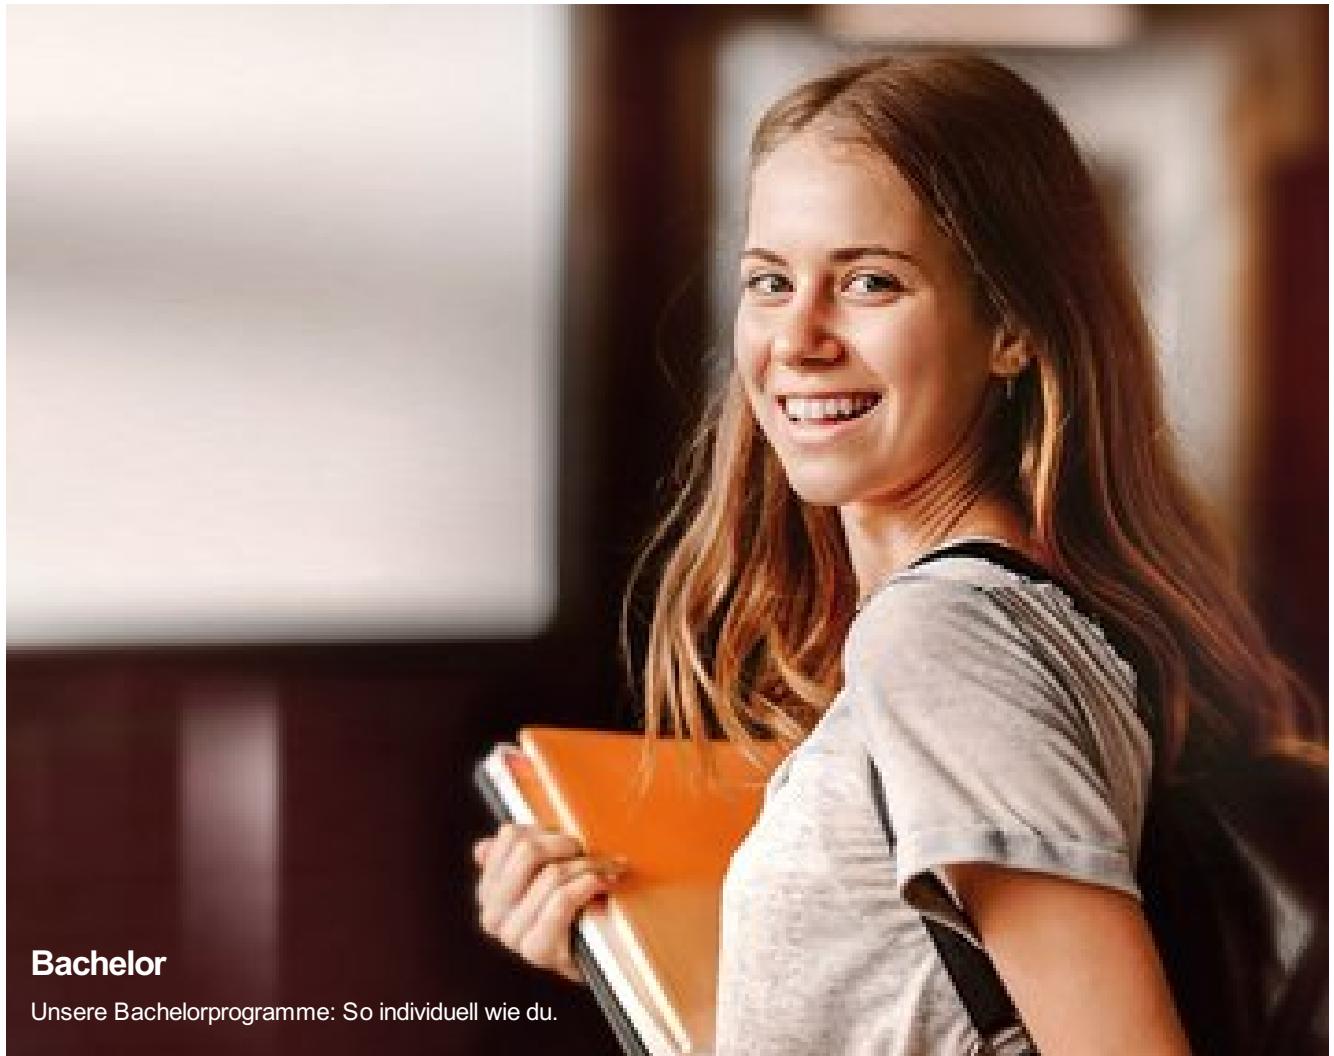

Der richtige Partner für dein Bildungsziel

Mit einem Studium an einer unserer Hochschulen bist du für jede Herausforderung bestens vorbereitet. Denn du lernst nach einem einzigartigen Studienkonzept: dem CORE-Prinzip (Competence Oriented Research and Education). Es vereint den Erwerb von Kompetenzen und die Freude am Lernen. Dafür wurde die gesamte Struktur der Studiengänge umgestellt – weg vom traditionellen Frontalunterricht und hin zu aktivierenden Lehr- und Lernmethoden. Ein Konzept, das bislang ausschließlich an den SRH Hochschulen angeboten wird. An unseren Präsenzhochschulen, sowie einer Fernhochschule und einer Universität, findest du den passenden Bildungsabschluss für dich – vom Bachelor- und Masterabschluss bis zur Habilitation.

Erfahre mehr über unser CORE-Prinzip

SRH SCHOLARSHIPS

Scholarships for different purposes

In order to make it easier for talented prospective students and students to finance their studies, our university awards 16 scholarships every year for different purposes.

UPDATE

Scholarship application

Due to organizational reasons, the next round of application for SRH Scholarship will be announced later.

Please follow up the website. Thank you for your understanding.

How to apply for a Scholarship

The announcement for the application process is made once a year, at the beginning of the summer semester (1 April). The application period for the winter semester is from 15 June to 31 July, for the summer semester from 10 December to 31 January. Applications are made online via the university's application portal, which is activated at the beginning of the application periods and can be accessed via the university website.

When submitting your application documents, please note that only complete applications submitted on time and in the proper form can be considered for a scholarship. Before you apply, please read the current Application Agreement of SRH University Heidelberg.

[Apply here for the SRH scholarship](#)

In order to get to know the students' point of view as well as insights from our cooperation partner Heidelberger Druckmaschinen, we conducted various interviews with SRH students Siri Schröer and Nazli Ghazvanchahi and Felix Heckel, HDM. Many thanks for the exciting impressions!

Ms Schröer, what were your project goals for the emissions reduction study? What innovative ideas or proposed solutions did you develop to reduce emissions?

We have developed an energy concept that will make HDM climate-neutral in the future. The specifications were to achieve this from 2030 with certificates and from 2040 without certificates, taking into account the economic, technical and ecological aspects. To this end, we were provided with various data by HDM, which we were then able to use as a basis for our work. In order to reduce emissions, we focussed primarily on the energy supply, i.e. both electricity and heat. The most promising solutions for the power supply in the future are photovoltaic systems. HDM has some hall roofs that are currently unused, so this utilisation of the roof areas seemed promising to us. In terms of heat supply, one possible solution is the use of heat pumps, as these do not require the burning of fossil fuels to generate heat.

Ms Ghazvanchahi, what successes or discoveries did you make during the project? Were there any particular insights or lessons learnt that surprised or impressed you?

Our greatest success was to provide the company with a coherent solution for its project. We researched the latest developments in environmental technology and gained insights into various energy technologies and learnt how to use energy saving techniques to the company's advantage, taking into account economic indicators. We were amazed at the limited research and lack of similar projects in the industry. We realised that there is a growing interest from companies and the public in developing solutions for a more sustainable future in the printing press industry.

Ms Schröer, what new skills or experiences have you gained through this project? To what extent has this experience influenced your future professional development?

The biggest learning was probably to work as a group on the entire project from the beginning, with different ideas, to the concrete end, the writing of the work, with merging and formatting of the texts. There were groups of between 2-4 people. During group meetings, everyone took on the role of team leader and was able to improve their skills in this area. In addition, everyone took on certain areas of the work. They learnt how to research certain topics in detail, compare different sources and draw the relevant information for their part of the work. In this context, a lot of calculations were also made to compare the different techniques. Many learnt how to use Excel much more precisely, as well as how to write a 30-page paper. For our professional development, this phase of project management with the above-mentioned components was very valuable, as you could learn to deal with difficulties and work together as a team.

Ms Ghazvanchahi, how would you reflect on your overall experience and work in this project? Are there any final thoughts or messages you would like to share with others?

Our project trip seamlessly combined real-world experiences with scientific research. In addition to the insightful hands-on experiences, student-centred activities furthered our understanding. Building real-life scenarios sharpened our problem-solving skills, and the emphasis on group activities highlighted the importance of teamwork and co-operation. All in all, this project re-

emphasised the importance of hands-on experiences and collaboration for professional development.

Calendar entry

International Week 2024: Future Skills for Global Citizens

Over the past 13 years, the SRH International Week has become a yearly meeting of colleagues turned collaborators turned friends and family. Mentors have brought their mentees to Heidelberg, the network has grown, connections became tighter, and even the Pandemic could not stop the collective efforts to stay in contact.

You're invited to our International Week at SRH Heidelberg, this year focusing on "Future Skills for Global Citizens"!

Join us for a series of engaging lectures, workshops, and a keynote speech exploring the essential skills needed in today's interconnected world.

From AI to critical thinking to cultural competence, we'll delve into topics vital for success in a globalized society.

Experience an International Tasting showcasing diverse cuisines, visit local companies to gain insights into global industries, partake in social activities fostering global networking opportunities and this year's special: join us on a boat cruise along the Neckar through picturesque Heidelberg! Don't miss this enriching opportunity to broaden your horizons and prepare for the future.

What to expect from this International Week 2024?

Monday 9 AM: starts with an Opening Ceremony, a keynote speech, some musical and dance performances, followed by a kick-off session in your chosen course. Later, university presentations (max 3 minutes per partner university) will be presented by each student group and the day will close with a wonderful international tasting, with delights brought from your home country.

Daily 9 AM: students participate in one of the 16 courses, each with 20 contact hours. Each syllabus contains 4 questions which have to be prepared before arrival.

Tuesday 2 PM: after students are done with their courses in the morning, we will hop on a boat and cruise along the Neckar river through Heidelberg! One of our special highlights this year!

Wednesday 2 PM: students have the opportunity to visit a global company in the Rhein-Neckar-Area.

Thursday 2 PM: is planned for city tours and exciting hikes!

Friday morning: there will be a final assessment in your course and a farewell "Sekt and Soup" before we say goodbye.

Participating students will get a certificate which they can use in their C.V. to apply for internships and jobs, as it shows your international mindset.

For SRH Students: Your participation at the International Week 2024 can be certified by the Career Development Center/ General studies and credits might be recognized towards your degree. Check with your faculty

The participation fee for the International Week 2024 is 120€. Students from our partner universities receive a 30% discount (so the fee is 84 € and includes lunches and public transport ticket). SRH Students receive a 65% discount (so the fee is 42 €).

While registering, please indicate the discount code you received from your university coordinator.

On July 8, about 50 motivated runners ran around the campus at almost 35 degrees. They had a shared goal: with every kilometer they ran, they supported the National Center for Tumor Diseases in Heidelberg (NCT).

In total, the runners of the SRH team ran over 500 kilometers. The run was organized by VR student and SV member Victor Kaba. The NCT invited Victor last week to give him a certificate for his commitment. Many thanks to Victor, to all helpers and to

all runners for this great action!

The NCT Run has taken place every year since 2012 as a charity run. The focus is not on top athletic performances, but on supporting the fight for a world against cancer. Since 2020, the run has taken place virtually, so that this year over 5,000 people on seven continents took part. A total of 66,500 kilometers were covered to raise 70,000 euros, which will benefit various projects for the prevention, early detection, diagnosis, treatment and aftercare of cancer.

In the U-Multirank global comparison of universities, SRH University Heidelberg received very good evaluations for a number of indicators. In the criterion of international orientation, the university achieved an A, the top grade, for the percentage of international academic staff. The mobility of students abroad and the percentage of international master degree programmes also scored above average. Regionally, the private university is very well connected. SRH University Heidelberg occupies a top position at 68.8% in regional joint publications. This translates into 60.5% of bachelor's degree students and 57.5% of master's degree students finding jobs in the region. In the area of knowledge transfer, the university earns good grades amongst others for the number of companies that are founded by graduates.

"The positive evaluations in this ranking demonstrate that our university is more than just a hub for diversity in research, teaching and learning, but also our international students have outstanding job prospects because of the good networking with companies throughout the region," said Prof. Dr. Carsten Diener, President of SRH University Heidelberg.

About U-Multirank

The seventh edition of the U-Multirank global comparison of universities covers the aspects of teaching and learning, research, international orientation, knowledge transfer and regional engagement, along with more than 30 individual indicators. A variety of data sources and statistics are used for the ranking. Students also evaluate the quality of their universities, however, a web portal allows users to compare universities for the indicators that matter most to them. U-Multirank is an initiative of the European Commission and is co-funded by the Erasmus+ Programme.

"We have been observing the situation in Iran with consternation for some time now. We strongly condemn the brutal actions of the Iranian rulers against peacefully demonstrating people," stated Professor Dr Carsten Diener, President of SRH University Heidelberg. "We are appalled by the fact that, besides prison sentences, the first death sentence has now been handed down in connection with the protests. We stand with all Iranian people, and especially university members, who are taking to the streets to demonstrate for their human right to life and freedom."

Among the demonstrators are also many friends and family members of students and staff of SRH University Heidelberg. In total, 21 Iranians are currently studying at the university, and a number of colleagues and family members are also from Iran. Two of those students are Milad and Baran (names changed for security reasons), who study Dance Movement Therapy and Music Therapy. "We are shocked. It is difficult to concentrate on other issues or on our studies. At times I can't stand other people around me either," remarked Baran. The student's parents and brother are still in Iran, and when the internet is working, they use every minute to talk to each other.

Baran explained that she has lost part of her life: "Iran is my home. Leaving was really hard for me, and I want to go back, too." Milad, 29, has been working with artists critical of the regime; he cannot go back, he is banned from his home country. So both Baran and Milad lead lives of disruption: mentally, they are always in Iran; physically, they are here in Germany. Turmoil has surrounded them throughout their lives. "We live two lives, we have a multiple identity," Milad commented.

SRH University Heidelberg is giving small signs of solidarity for protesters in Iran by organising a number of activities. For example, the tradition of decorating a Christmas tree at the university will take place under the slogan "Wishes for the World" this year – students and staff can express their wishes for Iran and other crisis regions, as well as donate to the Center for Human Rights in Iran. In addition, Iranian students will report on the current situation in their home country and invite students to participate in activities such as a minute's silence and roundtable discussions.

The only institutional prize for excellent teaching in Germany will be awarded for the second time.

Thinking about studying in another way – in 2012 the SRH University Heidelberg revolutionized teaching and created with the CORE-principle (Competence Oriented Research and Education) a unique teaching and learning model throughout Germany. CORE stands for a completely new study structure: in five-week blocks the students acquire competences that respond to job-market needs, coached by their lecturers. For this approach the Stifterverband and the Volkswagen Stiftung honoured the SRH University Heidelberg with the Genius Loci-Award.

“We are honoured and pleased by this award which first and foremost will be for the benefit of all our students. It highlights the quality of our teaching methods and signals that the university yields excellently trained graduates” emphasized Prof. Dr. Katja Rade, Rector of SRH University Heidelberg.

Apart from SRH University Heidelberg, the University of Mainz also received this Genius Loci-Award. “To assure quality of teaching also means to drive teaching development strategically and to create institutional guiding principles towards that. This worked out perfectly for the University of Mainz as well as for the SRH University Heidelberg”, said the Deputy General Sekretary of the Stifterverband, Dr. Volker Meyer-Guckel.

Since 1999 the Bologna-Process demands that all universities in Europe prepare their students for the challenges of the modern labour market. “We have thought the Bologna-Process through to the end by consequently putting the students in the centre: with us they train exactly those competences that they need for their future profession”, said Prof. Dr. Carolin Sutter, Vice-rector for studies and further education. “In this context it is important that the students build on their prior knowledge and learn to connect it with their own experiences”, emphasized Prof. Dr. Julia Rózsa, Director of SRH Academy of Higher Education, which developed the CORE-principle. “We give students the space to process the study matter with stimulating learning methods in an optimal fashion”.

The CORE-principle is based on scientific findings of learning and brain research. The students work out a topic for five weeks – independently and in small groups. At the end of this period an assessment will check whether they can use their acquired

competences: for example in the form of fictive company meetings, presentations or exhibition concepts. The CORE-principle is also used in research: The students can actively co-design research projects or initiate their own projects all of which promotes individual and scientific work as well as first contacts to potential future employers.

Apart from SRH University Heidelberg, the other eight SRH Universities also implemented the innovative learning concept in their range of courses. Prof. Dr. Dr. h.c. Jörg Winterberg, managing Director of the SRH Higher Education and former rector of SRH University Heidelberg, who introduced the CORE-principle in 2012 explained, "The SRH Universities benefit a lot from this teaching and learning model, which makes them unique in the academic landscape. The acknowledgement through the Genius Loci-Award gives this development an enormous push and means great appreciation of our work of the last few years."

With the Genius Loci-Award for teaching excellence the Stifterverband and the Volkswagen Stiftung honour each year one university and one University of Applied Sciences that have an exemplary teaching environment or teaching strategy. The prize-money of 20,000 euros will be used by the SRH University Heidelberg to invite a visiting scholar of teaching and learning in the field of digital teaching. "We continuously develop the CORE-principle and are convinced that through the targeted use of new media the added value of attendance phases will be further increased", explains Prof. Sutter.

WIR UNTERSTÜTZEN DICH

Dein Start Richtung Traumjob

Nach dem Studium steht dir eine neue Welt offen, aber welcher Weg ist dann der Richtige?

Wer sagt, dass es vom Studium direkt in den Job gehen muss? Was, wenn ich doch lieber mein eigener Boss wäre und meine Start-up-Idee verwirklichen möchte? Und wie finde ich ihn überhaupt: den Traumjob, der zu mir passt?

Wir begleiten dich auf deinem Weg in die Berufswelt.

TIPPS FÜR DEN EINSTIEG

So startest du deine Karriere

Dein Studium hast du erfolgreich gemeistert, den Abschluss in der Tasche. Glückwunsch! Als Absolvent:in der SRH Hochschule Heidelberg hast du auf dem Arbeitsmarkt beste Chancen. Hier erfährst du alles, was du wissen musst, damit dein Einstieg perfekt gelingt und du erfolgreich deine Karriere startest.

Berufliche Ziele: Was will ich wirklich?

Dein USP: Was macht dich besonders?

Checkliste: So bereitest du dich auf den Einstieg vor

Arbeiten in Heidelberg und Deutschland

Die Metropolregion Rhein-Neckar – und Heidelberg im Besonderen – bieten dir als Wirtschaftsstandort beste Voraussetzungen, um erfolgreich in den Job zu starten. Zehn der 100 stärksten börsennotierten Unternehmen haben hier ihren Sitz, mehr als 160.000 Unternehmen insgesamt machen die Region zum Wirtschaftsmotor für ganz Deutschland. Hier bist du mit deinem Know-how also genau richtig!

Beste Lage: Starker Wirtschaftsstandort Heidelberg

Gehaltsspiegel: bestens verdienen in Heidelberg

Partnernetzwerk

Metropolregion Rhein-Neckar: innovativ & dynamisch

AUS DER PRAXIS

Was macht unsere Absolvent:innen aus?

Konrad Martin

Partner bei WAYES:

"Berater:innen, die von der SRH Hochschule Heidelberg zu uns kommen, bringen eine sehr gute Grundausbildung für unsere Restrukturierungsmandate mit. Zudem freuen wir uns immer wieder über eine hohe Motivation, Krisenfälle im Mittelstand zu verstehen und lösen zu wollen. Aufgrund der durchweg guten Erfahrungen prüfen wir Bewerbungen von SRH-Absolvent:innen wohlwollend".

Felix Dreyer - SRH Absolvent

Berater bei WAYES:

"Die lösungsorientierte und anspruchsvolle Arbeitsweise in der Unternehmensberatung haben mich schon vor Beginn des Studiums sehr gereizt. Nach dem Schwerpunkt im Studium und den absolvierten Praktika war mir bewusst, dass ich gerne nach meinem Studium in einer Unternehmensberatung anfangen möchte. Die vermittelten fachlichen und sozialen Kompetenzen durch das CORE-Prinzip, sowie der Schwerpunkt Restrukturierung & Sanierung waren für meinen erfolgreichen Jobeinstieg bei WAYES maßgeblich".

Marcus Nagel

Co-CEO bei JobRouter AG

"Wir haben sehr gute Erfahrungen mit Absolvent:innen der SRH Hochschule Heidelberg gemacht: Sie zeichnen sich über eine gute Kombination aus Fachwissen und eigenständigem und eigenverantwortlichem Arbeiten aus. Daher würden wir SRH Absolvent:innen jederzeit wieder bei der Auswahl berücksichtigen".

Johanna Karlberger - SRH Absolventin

Head of People Management bei JobRouter AG

"Mein Masterstudium "Internationales Wirtschafts- und Unternehmensrecht" ermöglicht mir heute in meiner Funktion als Head of People Management und Mitglied im Management-Team der JobRouter AG die Mitwirkung bei einer Vielzahl unterschiedlichster unternehmensweiter Themen".

WE SUPPORT YOU

Ready for your dream job?

As a graduate, a whole new world is open to you, but which is the right path? Who says that you have to go straight from university into a job? What if I'd prefer to be my own boss and want to put my start-up idea into practice? And how do I go about finding the perfect job for me? We'll accompany you on your path into the world of work.

TIPS FOR STARTING YOUR CAREER

How to jumpstart your career

You've finished university and are now a fully-fledged graduate. Congratulations! As a graduate of SRH University Heidelberg, you have the best prospects in the labour market. Here you'll find out all you need to know to make a perfect transition to the world of work and jumpstart your career.

Career goals: What do I really want?

Your USP: What makes you so special?

Working in Heidelberg and Germany

As a business location, the Rhine-Neckar Metropolitan Region – and Heidelberg in particular – offer you the best conditions for starting out on your career. Ten of the 100 strongest listed companies have their headquarters here. What's more, over 160,000 companies in total make the region an economic engine for the whole of Germany. In other words, you and your expertise have come to the right place!

Top location: Heidelberg, a strong business hub

Salary levels: great earning potential in Heidelberg

Network of partners

Rhine-Neckar: Upgrade your life

VOICES FROM PRACTICE

What makes our graduates so special?

Konrad Martin

Partner at WAYES:

“Consultants who come to us from SRH University Heidelberg are very well qualified to handle our restructuring mandates. In addition, we are always pleased to note that they are highly motivated to understand and resolve crisis situations in small and medium-sized enterprises. Based on our consistently positive experiences, we favourably consider applications from SRH graduates.”

Felix Dreyer – SRH graduate

Consultant at WAYES:

“The solution-focused, challenging way of working in management consultancy appealed to me greatly even before I started university. Given my specialisation at university and the internships I did, I knew I wanted to start working for a management consultancy after graduating. The technical and social skills I learned through the CORE Principle and my specialisation in Restructuring & Recapitalisation were key to my success in landing a job with WAYES.”

Marcus Nagel

Co-CEO of JobRouter AG

“We have very positive experiences with SRH University Heidelberg graduates: they have a good combination of specialist knowledge and the ability to work independently and accept responsibility. This is why we would always consider SRH graduates again in the selection process.”

Johanna Karlberger - SRH graduate

Head of People Management at JobRouter AG

"My Master's programme in 'International Business and Company Law' enables me, in my current role of Head of People Management and member of the management team at JobRouter AG, to get involved in an enormous range of different company-wide issues."

Financing centered on **student needs** and **potential**

FINS is a European loan scheme developed by the EDUCATIVA Group with the support of the European Union and the European Investment Fund, available to all students from an EU member state that want to study at a reputable university in Europe.

You can choose to study in any country in Europe (**including the United Kingdom and Switzerland**) and access up to **25.000 EUR for undergraduate and postgraduate studies**, without having a job or any other guarantees.
(Subject to certain terms and conditions).

FIND OUT MORE!

FINS benefits

Cover all your study costs.

(tuition fee, accommodation, monthly living costs, books and study materials, transport, medical insurance, etc).

Receive a customized loan offer,

based on your needs and budget requirements.

Receive monthly installments,

on an as-needed basis and avoid overborrowing, overspending and unnecessary interestfees.

Affordable interest rates,

between 9% and 12.5%.

Get a decrease in interest for good credit repayment behavior.

Grace period for the whole duration of the study period
and up to 12 months after graduation.

Affordable repayment structure with long repayment periods:
5 years for Master Loans and 10 years for Bachelor Loans.

Pay-off your loan earlier, with no extra costs.

What do FINS students say?

Alice Chempf
The fact that I don't have to worry about daily costs has given me the freedom to focus exclusively on the master's program and extracurricular activities.

Alice Chempf
This loan made me very financially responsible and made me aware that access to a competitive education system compatible with your needs and passions are enough arguments to actively invest in your future.

Alice Chempf

Master in Human Rights and Humanitarian Action @ Paris School of International Affairs

Larisa Zazzeron
I had a very pleasant experience with FINS as it massively helped me during my studies. The application process was easy and I fully recommend it. If you are in a financial difficult situation like I was, but you still want to study abroad, then FINS is the most obvious choice.

Larisa Zazzeron

Master in Arts Management @ Middlesex University London

My experience with FINS was pleasant and full of advantages. There were moments in which I completely relied on FINS

financially speaking, so I can vouch for its practicality. The application process was easy.

You need a bit of free time; you will have an interview and some paperwork to go through and sign.

I would recommend FINS because it is one of the best financial services for students out there. Therefore, FINS offers great benefits for all future young professionals.

Mihail Boescu

Nordic Master in Cold Climate Engineering – Land Track @ Technical University of Denmark

ALLES, WAS DU BRAUCHST.

Vorteil Campus-Hochschule

Die SRH Hochschule Heidelberg ist eine Campus-Hochschule und darauf sind wir stolz: Unser grüner Campus liegt direkt am Neckar, im ruhigen, aber zentrumsnahen Stadtteil Wieblingen.

Hier findest du verschiedene gastronomische Angebote für Mittagspausen, den Kaffee am Morgen oder Snacks zwischendurch. Lerne und arbeite in unserer modernen Bibliothek oder nutze unsere Sportmöglichkeiten des Campus Sports. Für Studierende, die nahe der Hochschule wohnen möchten, stehen zahlreiche Apartments im Wohnheim zur Verfügung. Großzügige Grünflächen laden vor allem in den Sommermonaten dazu ein, Pausen und kleine Lerneinheiten im Freien zu verbringen.

Studierende mit einer körperlichen oder seelischen Behinderung erhalten bei uns die bestmögliche Unterstützung.

11% der rund 2,8 Millionen Studierenden in Deutschland haben eine studienrelevante Beeinträchtigung (Befragung „beeinträchtigt studieren – best2“ durch das Deutsche Studentenwerk). Die SRH Hochschule Heidelberg wurde im Jahr 1969 als „Einrichtung zur beruflichen Rehabilitation von Menschen mit Behinderungen“ gegründet, und dieser Tradition sehen wir uns nach wie vor verpflichtet. Denn unser Ziel ist es, dass alle unsere Studierende nach ihrem Studium erfolgreich in ihr Arbeitsleben starten können.

Du stehst bei uns im Mittelpunkt

Wir begleiten dich persönlich und kontinuierlich bei der Erreichung deiner Ziele. Auf Basis unseres bewährten CORE-Prinzips haben wir für dich alle Lernziele, Prüfungsformen sowie Lehr- und Lernmethoden so aufeinander abgestimmt, dass das Lernen Spaß macht und du den bestmöglichen Lernerfolg erzielst.

Hier lernst Du Step-by-Step

Wir glauben, dass nachhaltiges Lernen nur möglich ist, wenn genügend Freiraum für Experiment, Spiel und kritische Fragen bleibt. Deshalb haben wir den klassischen Studienverlauf komplett neu gestaltet.

Du studierst in 5-Wochen-Blöcken und bearbeitest praxisnahe Aufgaben in kleinen Teams

Statt im Fächerdschungel den Überblick zu verlieren, richtest du deine volle Konzentration auf maximal zwei Fächer parallel innerhalb eines 5-Wochen-Blocks.

Du absolvierst dann eine Prüfung zum Lernstoff der vergangenen Wochen

Durch die zeitliche Gestaltung gehören geballte Prüfungsphasen der Vergangenheit an. Aus der Fülle möglicher Prüfungsformen (von der Klausur bis zum Lerntagebuch) kannst du dich in derjenigen beweisen, die am besten zu den für das Fach relevanten Kompetenzen passt.

Du bekommst während des gesamten Studienverlaufs kontinuierlich Leistungsfeedback

Wir begleiten dich durch dein Studium. Fachlich, persönlich und organisatorisch. Von Studienbeginn an steht dir eine qualifizierte Mentorin oder ein qualifizierter Mentor zur Seite. Darüber bieten wir dir individuelle Coachings und kompetente Beratung durch unseren Career Service.

Du wirst von deinen Dozentinnen und Dozenten rundum betreut

Reinen Frontalunterricht gibt es an der SRH nicht. Stattdessen werden unsere Dozentinnen und Dozenten für dich zu individuellen Lerncoaches. Gemeinsam erarbeitet ihr nicht nur Fachwissen und Methoden, sondern feilt auch an deinen Selbst- und Sozialkompetenzen.

UNSERE PRINZPIEN

Wir geben dir Raum zur Entfaltung

Lernen auf Augenhöhe

Wir begleiten dich aktiv in deinem Lernprozess und unterstützen dich als Lerncoaches überall dort, wo du uns brauchst. Dabei setzen wir auf eine direkte Kommunikation.

Keine Angst vor Fehlern

Bei uns ist Ausprobieren erlaubt. Sogar erwünscht. Denn wir setzen auf erfahrungsbasierteres Lernen. Dabei geht es nicht immer um richtig oder falsch, sondern vor allem darum, sich auszuprobieren und kennenzulernen. Bei uns lernst du nicht für den Professor oder das Prüfungsamt, sondern in erster Linie für deine eigenen Projekte und dein gesamtes (Berufs-)Leben.

Lernen für das Leben

Nach deinem Abschluss musst du nicht noch unzählige Praktika absolvieren. Praktische Teamarbeit an echten Projekten mit Partnern aus der Praxis bereiten dich optimal auf die Berufswelt vor. Gleichzeitig trainierst du Sozialkompetenzen wie Kritikfähigkeit, über-den-Tellerrand-Denken und kreative Problemlösung. Also genau die Fähigkeiten, die Unternehmen heute von ihren Mitarbeitenden erwarten.

Außerdem hast du nicht nur ein Zeugnis in der Hand, sondern auch Projekt-Referenzen, die du bei der Bewerbung angeben kannst. UND: Du weißt, wo deine ganz persönlichen Stärken liegen.

HANDLUNGSKOMPETENZ

Starte kompetent in den Beruf

Wir haben unsere Studiengänge kompetenzorientiert ausgerichtet. Das bedeutet, dass du bei uns vier verschiedene Kompetenzen erwirbst, die dazu führen, dass du dein Wissen direkt in der Praxis anwenden kannst und Handlungskompetenz entwickelst. Das macht dich für den Arbeitsmarkt so attraktiv.

Fachkompetenz

Sozialkompetenz

Methodenkompetenz

Selbstkompetenz

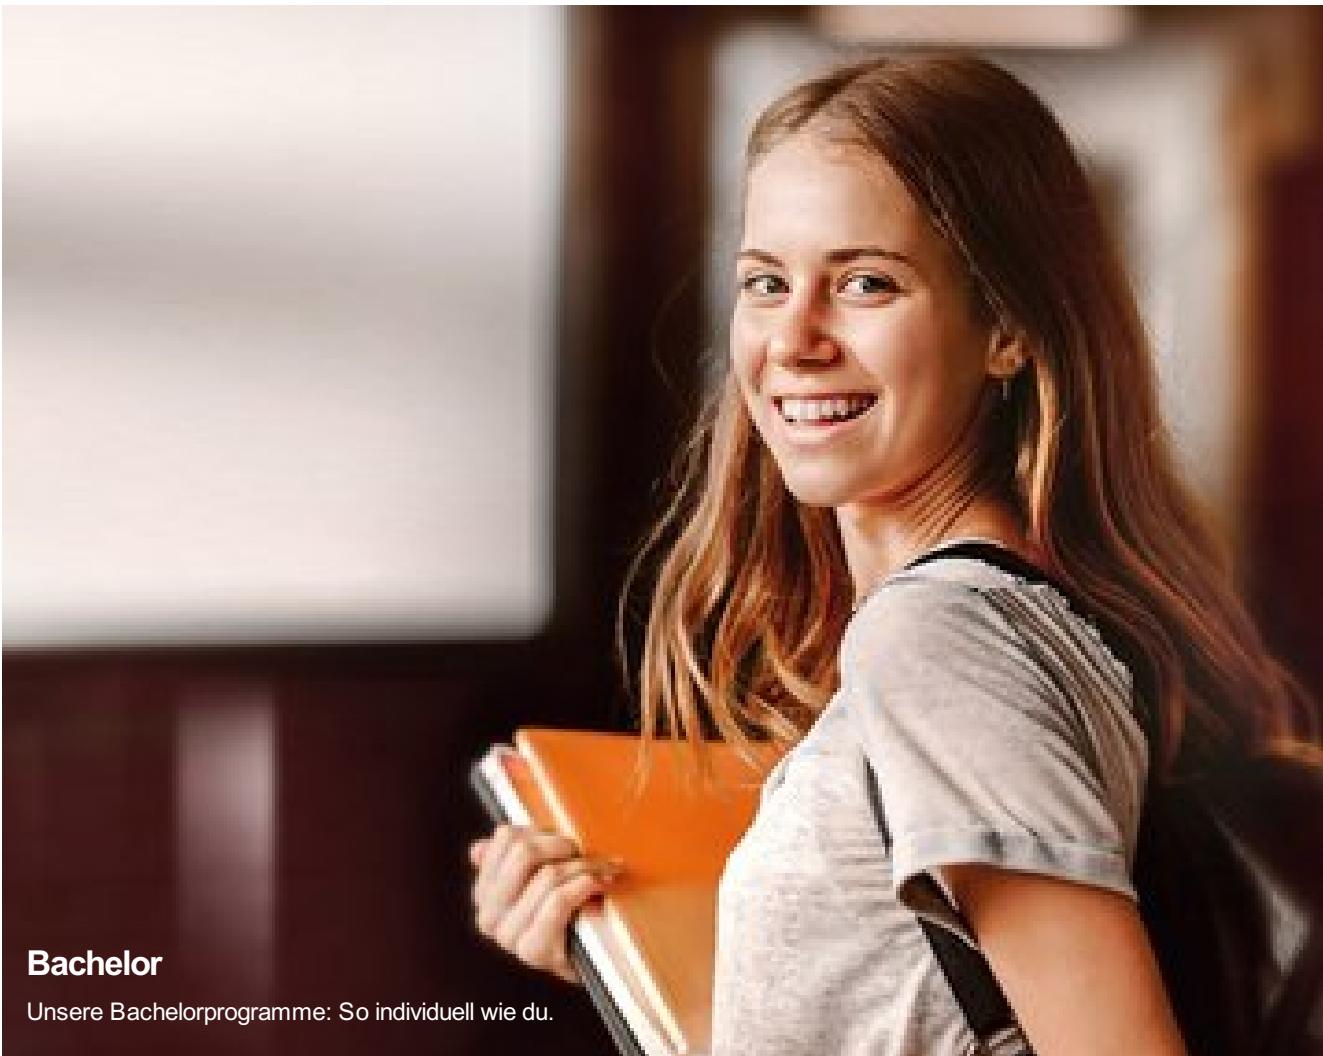

Erlebe unsere Lernraum-Settings in 3D

Aktivierende Lernmethoden und kompetenzorientierte Prüfungsmethoden erfordern ihre ganz eigenen Lernraum-Settings. Für Rollenspiele eignet sich am besten unsere "Arena", im "Design Thinking-Raum" entwickeln unsere Studierenden neue Ideen und der Wechsel zwischen Input- und Gruppenarbeitsphasen gelingt im "Lerncafé" spielend leicht. Informiere dich anhand unserer 360° Videos über die Nutzungsmöglichkeiten unserer flexiblen Raumausstattungen.

GUT ZU WISSEN

Wie du bei uns ohne Abitur ins Studium starten kannst

Du willst studieren, hast aber kein Abitur und keine schulische Hochschulzugangsberechtigung? Bei uns ist das keine Hürde. Das zeigt unter anderem die Tatsache, dass wir zu den Top-3 der Einrichtungen in Baden-Württemberg zählen, an denen Studierende ohne Abitur studieren wollen. Studierende, die kein Abitur haben, erhalten einen gleichwertigen Abschluss und haben beruflich gesehen keinen Nachteil. Alle Informationen zum Studium ohne Abitur bei uns erhältst du hier.

Das bringst du für dein Studium ohne Abitur mit

Studieren ohne Abitur: Du hast einen Realschulabschluss oder eine Berufsausbildung bzw. beruflich Erfahrung gesammelt und möchtest gerne studieren? Auch ohne Abitur kannst du bei uns an der SRH Hochschule Heidelberg ein Studium mit Bachelorabschluss absolvieren.

Es gibt drei Zugangswege, wie du ohne Hochschulreife (Abitur, Fachhochschulreife oder fachgebundene Hochschulreife) und damit verbundener Hochschulzugangsberechtigung dein Studium bei uns startest:

Über eine Aufstiegsfortbildung

Über eine Eignungsprüfung

Über ein Jahr erfolgreiches Studium an einer Hochschule in einem anderen Bundesland

DER 1. ZUGANGSWEG

Aufstiegsfortbildung und Beratungsgespräch

Du hast eine Aufstiegsfortbildung (z.B. Meistertitel, Fachwirt oder Betriebswirt) mit mindestens 400 Unterrichtsstunden abolvierter, aufbauend auf einer mindestens zweijährigen Ausbildung. Dann starte nach einem Beratungsgespräch an unserer Hochschule sofort mit deinem Studium.

DER 2. ZUGANGSWEG

Eignungsprüfung bestehen und Studium beginnen

Du hast eine mindestens zweijährige Ausbildung abgeschlossen und verfügst über mindestens 3 Jahre Berufserfahrung in einem zum angestrebten Studiengang affinen Bereich. Dann kannst du dich direkt für ein Studienfach an unserer Hochschule bewerben, um eine Eignungsprüfung abzulegen. Beruflich qualifizierte Bewerber starten somit nach absolviertem Beratungsgespräch und bestandener Prüfung mit ihrem Studium.

Das Beratungsgespräch für das Studium findet mit deinem künftigen Studiengangsleiter statt – hier hast du auch noch einmal die Möglichkeit, alle Fragen zum Studienfach zu klären. Danach wirst du zu drei schriftlichen Prüfungen zugelassen:

Aufsichtsarbeit Deutsch | 120 Minuten

Aufsichtsarbeit Englisch | 120 Minuten

Aufsichtsarbeit fachbezogen | 120 Minuten

Unsere Eignungsprüfungstermine im Überblick

Sobald du als Prüfungsteilnehmer angemeldet bist, wirst du für unser „Testcenter“ im E-Campus freigeschaltet. Dort findest du Beispielaufgaben zu den verschiedenen Teilen der Eignungsprüfung und kannst dich in Ruhe auf die Prüfungen vorbereiten.

Wenn du die schriftlichen Prüfungen bestanden hast, schließt sich noch ein 30-minütiges mündliches Prüfungsgespräch an, das du online ablegen kannst. Herzlichen Glückwunsch: Jetzt erhältst du ein Zeugnis mit dem Nachweis deiner Hochschulzugangsberechtigung für den angestrebten Studiengang – du kannst mit dem Bachelorstudium starten.

Deine Vorteile

Diese Vorteile bietet dir nur die Eignungsprüfung der SRH Hochschule Heidelberg

DU kannst die Prüfungen an acht Terminen im Jahr ablegen.

Es stehen dir 21 Prüfungszentren in Deutschland, Österreich und der Schweiz zur Verfügung.

DU hast die Wahl: Lege alle drei Prüfungen an einem Klausurwochenende ab oder teile sie auf mehrere Termine auf.

Die SRH Hochschule Heidelberg übernimmt die Kosten der Eignungsprüfung i.H.v. 400€ unter der Voraussetzung, dass der/die Studierende nach erfolgreichem Abschluss der Eignungsprüfung das gewünschte Studium an der SRH Hochschule Heidelberg absolviert. Ist dies nicht der Fall muss der/die Studierende selbst für die oben genannten Kosten aufkommen.

Studium und Leistungssport unter einen Hut zu bringen ist nicht immer einfach. Die SRH Hochschule Heidelberg bietet dir die bestmöglichen Studienbedingungen, damit du deine persönlichen Ziele erreichen kannst.

Das sind deine Vorteile bei uns

Unsere Studiengänge sind so organisiert, dass du Trainings- und Wettkampfzeiten gut aufeinander abstimmen kannst:

Unser ausgezeichnetes Studienmodell bietet dir mehr Flexibilität durch die Aufteilung des Studiums in 5-Wochen Blöcken.

Die individuelle Betreuung durch unsere Dozent:innen sowie eine auf deine Bedürfnisse angepasste Organisation führen zu optimalen Studienbedingungen für dich als Spitzensportler:in.

Der Ausgleich von Fehlzeiten durch Reisen, Wettkämpfe und Trainingslager ist möglich.

Für Kaderathletinnen und -athleten des OSP Rhein-Neckar sowie Sportlerinnen und Sportler unserer Kooperationsvereine aus der 1. Bundesliga ist ein Teilstipendium möglich

Erfahre mehr über unser Studienmodell, das dir dabei hilft, Studium & Sport zu vereinbaren.

AFTER YOUR STUDIES

Career & Visa

Germany's economy is the strongest in Europe and the fourth strongest in the world. The country is the European leader in terms of growth, employment and exports. There are enormous employment and career opportunities for skilled professionals. Germany's youth unemployment rate and the unemployment rate for university graduates are both very low.

What are my options after I finish my studies? After graduating with a Bachelor's, Master's or MBA degree from a German university, students have several visa and residence options.

Residence permit while looking for a job

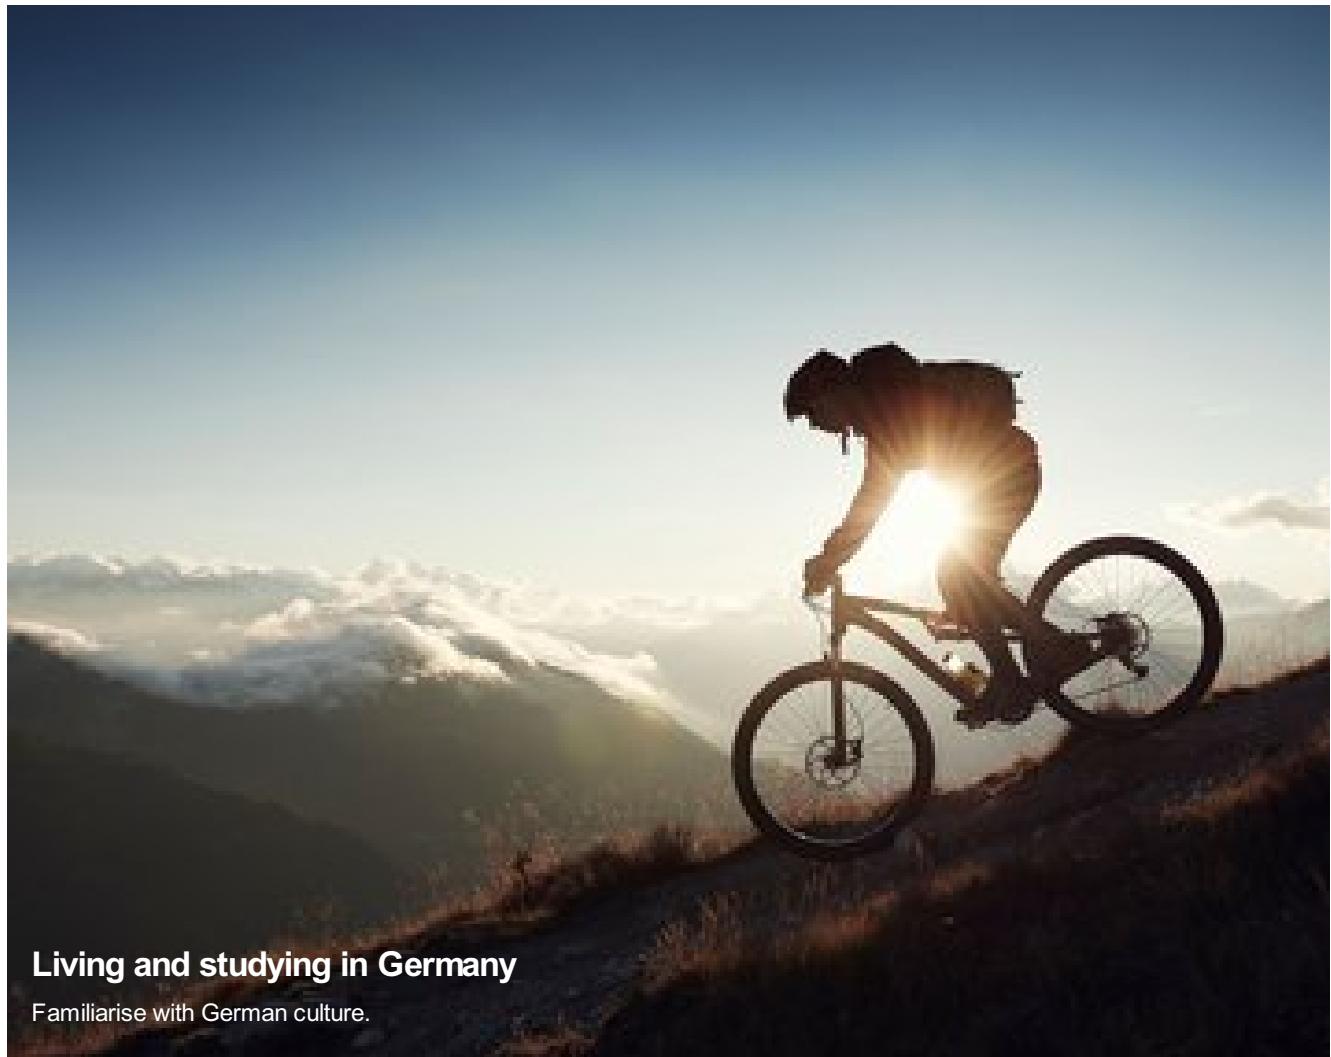

Residence permit for taking up employment

EU Blue Card

Settlement permit

At our university, students with mental or physical disabilities receive the best possible support.

11% of the 2.8 million or so students in Germany have an impairment that is relevant to their studies (survey on “beeinträchtigt studieren – best2” conducted by the Deutsches Studentenwerk (German National Association for Student Affairs)). SRH University Heidelberg was established in 1969 as an “institution for the vocational rehabilitation of people with disabilities”, and we remain committed to this tradition. After all, our goal is to ensure that all our students can embark on a successful career after graduation.

At our university we are conducting the series "Strong Women at SRH". In our eyes you are a strong woman, we would like to know from your point of view: What makes you a strong woman?

I am not sure if I consider myself a strong woman yet. But I always push myself out of the comfort zone to try new things when I want to achieve something. Starting stunt riding was not a comfortable place because in my country, it wasn't common for

women to even ride the bike. However, public speaking is more of challenge for me. When I got a little attention on social media, I had to do some public speaking and speaking in front of people is the scariest thing to me. It was still something I had to do and it was helpful to inspire others. I try to push myself out of the comfort zone for something that I want and I think maybe that's why other people consider me a strong woman.

How did you discover your passion for stunt riding?

I have always wanted to try new things. I am very lucky to say that my parents were always supportive to whatever I wanted to do. When I got the license, I started riding a scooter first. But I wanted to be faster, so I wanted to learn to ride a bike. My father taught me to ride a motorcycle and after that, I followed and came across a lot of biking content on my Instagram feed. I discovered stunt riding and I was really interested in that. I looked for people in my area. I did not find any women, but I reached out to a few guys and I was really fortunate that one person wrote back and was willing to teach.

What difficulties were you confronted with when you first started riding?

The biggest difficulty I had was my physical fitness. I have always been a small person and I was very weak. I had to build my physical strength because otherwise it is too difficult to handle the bike. I felt like it was so much easier for the guys. A guy started around the same time and he learned so much faster because they are stronger. Other than that, it is really difficult to find places to practice. For most other sports there are places to do the sport like a field or a gym. But there were not really places to do stunt riding in India.

Do you still perform your sport here in Germany?

No, unfortunately, I haven't performed for the last two or three years because of covid and because I didn't find a place to practise. Now I'm here and I plan to start stunt riding again. But first, I have to get my license, get a bike, find a place and somebody to train with. I have already found someone and he told me that the place is an issue here as well. It will take some time, but I am definitely going back.

Do you feel like women in Germany are confronted with the same problems? Which differences or similarities do you see?

What is very different from Germany is that in India you don't even see any women riding a bike at all. Generally, the number of bikes on the road is much lesser here compared to India, but still I've seen many women riding here. That's a really big difference because at my place if I took out the bike everybody would stare at me, as if it was something you are not supposed to do. I haven't spoken to many people who are into riding yet, but I think the situation for women is definitely better here. However, motor sports are still men-dominated, even in Germany.

What do you want to give along to other women performing men-dominated sports?

I want to tell everyone that you should always try. You should always go for it. Give it a chance. Even if some fields are men-dominated, there are men who are more than happy to train and to help. Don't ever be scared to ask for help. Maybe you have to ask many people in fields like these, but there are definitely people out there.

Summer School Neckar Now III: Transformative approaches to a sustainable future – cities for children

The School of Engineering and Architecture presents the third interdisciplinary Summer School “Neckar Now III: Transformative approaches to a sustainable future – cities for children” taking place from **22nd until 28th of August 2022**.

By 2050 it is predicted that 70% of all children will live in cities. However, cities are often not yet adapted to the special needs of their youngest inhabitants - making it all the more important to design attractive and safe living spaces for families and children

through child-friendly urban planning.

The Neckar Now Summer School addresses the potential and challenges of a city along the river from an engineering and architectural perspective. Heidelberg provides the perfect setting to learn about current trends and methods of sustainable innovation and design. Field trips, input sessions and expert feedback rounds give the participants the ability to develop different approaches to local problems as well as to create their own projects in an immersive experience. An exciting one-week programme for those considering future studies in Water Technology (M.Eng.) or Architecture (B.A. or M.A.).

Find more about last year's Summer School in our E-Book

Project team

Prof. Dr.-Ing. Ulrike Gayh, Belen Zevallos, Prof. Dr. Cidalia Silva, Prof. Dr.-Ing. Andreas Gerber, Dr. Kenneth Bedu-Addo, Dr. Enis Yazici.

SUPPLY CHAIN STUDIES IN BERLIN AND HAMBURG

Understand and manage global supply chains

Today's economy is dominated by international trade and growing consumer demand, making global supply chains and business processes increasingly complex and diverse.

In our globalised economy, a new generation of supply chain managers is needed who can deal with multi-level value chains, digital business processes, complex IT structures and stakeholders from different cultures. SRH is responding to this need with two Master's programmes in Berlin and Hamburg that link topics such as process management, international business and supply chain technology.

Students and would-be students of Water Technology and Architecture spend a whole week addressing the technical and architectural challenges of a city along the river at the “Neckar Now” Summer School. The Summer School closes with a virtual city rally and a poster exhibition at the Römerbad on 7 August.

The recent storm disasters in Germany and elsewhere have shown just how quickly a small stream can turn into a raging torrent. The topic could therefore hardly be more pressing: 26 participants from ten different nations (China, Germany, Ecuador, Ghana, India, Cambodia, Colombia, Peru, Portugal, Russia, Thailand and Turkey) have come together at the Neckar Now Summer School at SRH University Heidelberg to share interdisciplinary ideas on sustainable innovations – with a blend of face-to-face and online activities. The Summer School, funded by the German Academic Exchange Service (DAAD) and the Federal Foreign Office, comes to a close on Saturday, 7 August with a virtual city rally from 12:00 to 16:00, followed by a poster exhibition at the Römerbad in Heidelberg at 16:00. The public is welcome to attend both events.

Needless to say, the recent storm disaster in Germany was one of the issues addressed at the Summer School. “I think with this topic in particular, it’s important to join all forces across disciplines. We must act swiftly to develop ideas on how to avoid such disasters in the future,” stated Professor Dr. Ulrike Gayh, Study Programme Director Water Technology. The young scientists at SRH University Heidelberg are likewise embarking on this challenging path.

“We had an exciting week,” reported Daniela Chiquito, a participant from Ecuador. “The programme was rich and varied, including a boat ride on the Neckar, tours of Heidelberg and the Bahnstadt district, and workshops that enabled us to develop our own sustainable ideas.” The virtual rally through the city takes up once again, in a playful way, the topic of life on the river and the participants’ projects. Anyone interested in technology and architecture is invited to admire the results of the workshops during the poster exhibition at the Römerbad. “The participants were incredibly inventive, and together they came up with great ideas on how we can make our future on the river more sustainable,” Ulrike Gayh revealed. Both events will be held in English:

Neckar Now Rally: 7 August 2021, 12:00-16:00 via Teams: <https://kurzelinks.de/NeckarNowRallye>

Outdoor Poster Session “Transformative approaches to a sustainable future – towards resilient cities”: 7 August 2021, 16:00 at the Römerbad (Ernst-Walz-Brücke)

A study programme celebrates its birthday: SRH University Heidelberg has been offering the Master's programme in Dance Movement Therapy – the only one of its kind in the German-speaking world – for ten years. The German Professional Organisation for Dance Therapists (BTD) took this anniversary as an opportunity to hold its annual meeting at SRH University Heidelberg this year.

The degree programme in Dance Movement Therapy was launched by Professor Sabine Koch who, together with her colleague Professor Dr. Elizabeth Manders, is the only professor of dance movement therapy in the German-speaking world. Meanwhile, some 150 graduates now practise this profession; but they still enjoy returning to their alma mater, as they did to mark the anniversary – albeit only online in some cases, due to the pandemic.

Dance movement therapy helps in the relief of many mental and physical diseases such as Parkinson's, depression, autism, anxiety and schizophrenia. How and why this is the case is something that Koch has been exploring since studying psychology at Heidelberg University, where she already focused on embodiment research. Her evidence-based research approach is of considerable importance for this creative form of therapy, which is still in its infancy in Germany. After all, even though the academisation of the healthcare professions continues to progress, there is often a lack of recognition for subjects such as dance movement therapy or occupational and physiotherapy, also on the part of health insurance companies. This explains why Dr. Marianne Eberhard-Kaechele, board member of BTD, emphasised to Koch: "You are a pioneer. We thank you for fighting this battle for us!"

Practical experience and its scientific foundation – the degree programme in Dance Movement Therapy has rested firmly on these pillars for ten years. The interdisciplinary approach taken at the School of Therapeutic Sciences and its links to numerous practice partners all over the world ensure the degree programme's broad international scope. In fact, a successful English-language track is also offered. Sherry Goodill, Professor of Creative Arts Therapies at Drexel University in Philadelphia, USA, is currently a DAAD visiting professor at SRH University Heidelberg: "With students from countries from Korea to Brazil, from Latvia to Cyprus, this degree programme is globally networked," she remarked. "The programme and the research conducted at SRH University Heidelberg are of outstanding importance for dance therapy worldwide."

The Master's programme in Dance Movement Therapy

The conference's principal goal was to boost the battle against water shortages and to promote water reuse for human and environmental needs, particularly in dry and critical areas of the world. Prof. Dr. Mohamad Ghomi organized the conference in collaboration with Team Masters in Water Technology as part of his DAAD guest professorship and Prof. Dr. Ulrike Gayh, the dean of Masters in Water Technology.

The conference also marked the start of two significant water technology projects: the DAAD project Democratia-Aqua-Technica and the YIP - Your Ideas to Practice II project part of Baden-Württemberg-Stipendium for University Students – BWS plus, a program of the Baden-Württemberg Stiftung. The DAAD project Democratia-Aqua-Technica aims to transform local and regional water conflicts into pathways to peace and democracy incorporating innovative science and technology approaches. The YIP II project, on the other hand, focuses on Global strategy and with the aim of doing justice to the worldwide relevance of water conflicts, the HSHD and UNIVA are striving in the next step to expand their hitherto marginal contacts with African universities; in this way, the insights gained by students at YIP 2021 will also be expanded to a global perspective and Kwame Nkrumah University of Science and Technology (KNUST) in Ghana has joined the YIP II project.

The conference drew a wide spectrum of scholars and academicians from around the world, who presented their research findings and offered their experience on various areas of water conservation, management, pollution, scarcity, and droughts. The conference also showcased the most recent methods and technologies in water treatment, wastewater treatment, and nutrient management. The conference also highlighted the latest methods and technologies in water treatment, wastewater treatment, nutrients recovery, grey water reusing, biogas and energy production by wastewater recovery, biofiltration, and algae culture in water and wastewater treatment.

The conference started with an introduction by Prof Dr. Ulrike Gayh Dean of Water Technology from SRH University in Heidelberg, who emphasized the importance of water conservation, management, and reuse. The first presentation by Jelena Antović, Nataša Elezović, Miljan Šunjević, Mirjan Vojinović Miloradov, and Vladimir Rajs from the University of Novi Sad in Serbia focused on the effect of Construction sites Particulate Matter (PM10 and PM2.5) on the Danube aquatic water system in the city of Novi Sad by Tatjana Mijošek, Zrinka Dragun, Zorana Kljaković-Gašpić, Damir Valić, Tomislav Kralj, Sara Šariri, Zuzana Redžović, Ivana Karamatić, and Vlatka Filipović Marijić from the Ruđer Bošković Institute in Zagreb, Croatia, presented the findings of their research on the dissolved and total metal concentrations in water of the karst Krka River, bioavailability, and the influence of industrial wastewaters.

The presentations continued with topics such as Flood Modelling of Subernarekha River Using HEC-RAS by Shahnawaz Ahmed and Manoj Kumar Diwakar from Malaviya National Institute of Technology Jaipur, India, Impact of municipal and industrial wastewaters on microplastic exposure and toxic effects of karst river water by Sara Šariri, Želimira Cvetković, Damir Valić, Tomislav Kralj, Tatjana Mijošek, Ivana Karamatić, Zuzana Redžović, and Vlatka Filipović Marijić from the Ruđer Bošković Institute, Croatia, and Discharge Estimation of Non-Prismatic Compound Channels by Sandeep Kumar and Manoj Kumar Diwakar from Malaviya National Institute of Technology Jaipur, India.

The conference also included a coffee break and a poster session with lectures. The poster session covered a wide range of topics such as Evaluating the Influence of Agriculture on Groundwater Chemistry in the Plio-Quaternary Aquifer of Nador (Tipaza) by Abdelkader Bouderbala from the University Djilali Bounâama of Khemis Miliana, Algeria and the Evaluation Of Water Quality And Its Suitability For Rural Communities In Southern Nigeria by Okey-Wokeh Uchechukwu Chukwuebuka from the University of Nigeria, Nsukka.

The conference ended with a discussion of the role of universities against water shortage and pollution by A. Yalali, R. Bustamante. Participants presented their research and discoveries on diverse themes relating to water conservation, management, pollution, scarcity, and droughts at the conference's poster session. This session allowed guests to communicate with one another and learn more about current research in the subject of water sciences and technologies.

One of the conference's primary themes was the urgent need for new and innovative water treatment and conservation technology. With water shortage rising in many regions of the world, it is critical to discover new technologies for recycling water and decreasing waste. The possibility of greywater reuse, biogas and energy production from wastewater recovery, and

biofiltration and algae culture in water and wastewater treatment were also discussed at the conference.

Another key topic covered at the meeting was nutrient recovery from wastewater treatment. As food demand grows, it is critical to find techniques to recycle nutrients from wastewater and reuse them in agriculture. This not only serves to minimize the strain on freshwater resources, but it also helps to reduce agriculture's environmental impact.

The conference also stressed the importance of appropriate water management methods and the influence of human activities on water resources. This involves assessing the quality of water and its suitability for rural people in Southern Nigeria, as well as employing remote sensing techniques to analyze agricultural drought in Rajasthan. The conference debated colleges' roles in tackling the issue of water scarcity, pollution and emphasized the need for collaboration between universities, researchers, and policy-makers to find sustainable solutions.

Overall, the 3rd International World Water Day Conference provided an excellent platform for researchers, academicians, and industry professionals to exchange knowledge and ideas on water sciences and technologies. It highlighted the urgent need for innovative solutions to address the issue of water scarcity and pollution and emphasized the role of universities in finding sustainable solutions. The conference concluded with a sense of hope and determination to work together towards a better future for water management and conservation. The conference and the projects launched during it will provide a foundation for future water technology research and development efforts, contributing to a sustainable future for all.

Prof. Dr.-Ing. Ulrike Gayh

Tell us, what are you doing right now and what does your professional life look like?

Currently, I'm responsible for developing and maintaining the cloud infrastructure for the leasing platform in my company. Me and my team provision secure cloud environment to run various applications to make leasing platforms run successfully. Briefly

in my daily work, I've multiple interactions with the developer teams (in smaller and sometimes in bigger rounds) where I try to understand the requirements and nature of the applications that needs to deploy in the infrastructure. Then me and my team work on the gathered information and we define workflows to deliver according to the needs of the developing team. My team also makes sure that the infrastructure code and workflows we produce for one team are reusable for the other team too with minimum configuration changes. So professionally, my daily work is occupied with understanding the requirements from different teams and then producing and delivering secure and automated cloud environments.

What makes your industry so exciting for you?

The automotive industry was always exciting for me as I'm very passionate about cars and try to keep myself updated with the latest tech used the car industry. Though directly I'm not involved working with cars but there are many opportunities and benefits from the company that the employees get to really feel the experience of luxury cars. Nevertheless, apart from the car excitement thing, I'm equally passionate about that I get to learn something new on a daily basis either from colleagues or from other sources.

How do you imagine your future professional career? What career paths, opportunities for advancement or professional fields would you like to pursue in the next few years?

In the next few years, I'd like to pursue a Cloud Architect role and get more familiarized with CNCF (Cloud Native Cloud Foundation) Tools. For this to happen, I've lined up a couple of certifications to take from Microsoft, Linux Foundation, Hashicorp, etc.

Application processes are always exciting. How do you remember this phase immediately after graduation? Were there any particular challenges?

Application process step was indeed challenging and sometimes it also seemed to be demotivating when multiple rejections were received. But the key to this situation was to just keep applying every day and be motivated and have positive thinking. If one feels that it is not working for them, then one should rework on their CV and verify their CVs from someone who has already been through this process. Keeping LinkedIn and Xing profile up to date is also very beneficial to crack this application process.

What advice would you like to give to our students?

"Completing the internship or the master thesis in an institute or a commercial company is utmost important to open yourself professionally and gain experience in the German market."

Julia Beck

Everything revolves around you

We support you personally and continuously in achieving your goals. Based on our proven CORE principle, we have aligned all learning objectives, forms of examination, teaching and learning methods for you, in order to make learning as fun and successful as possible.

Here you learn step by step

We believe that sustainable learning is only possible if there is enough space for experimentation, games and critical thinking. That is why we have completely restructured the classical course of studies.

You will work on practical tasks in small teams over 5-week blocks

Instead of losing the overview in between lots of subjects, you completely draw your attention to a maximum of two subjects that are taught in parallel during a block of 5 weeks.

You will then take an exam on the subject matter of the previous weeks

Due to the time frame of our study model, you will no longer have to deal with crowded exam weeks. With a large pool of possible examination forms (from the typical exam up to a learning diary) you can demonstrate your skills in the way that is the most well-suited to the competences that are relevant for the subject in question.

You will receive continuous performance feedback throughout your entire studies

We guide you on a professional, personal and organisational level throughout your studies. From the first day onwards, you will have qualified mentors by your side. In addition, you will get individual coaching and competent advice from our Career Service.

You will receive all-round support from your lecturer

At SRH we do not practice pure frontal teaching only. Instead, our teachers will become individual coaches for you. You will not only acquire expertise and methods but also improve your personal and social competences on a regular basis.

We give you room to improve yourself

Learning at eye level

Pure frontal teaching does not exist in our classrooms. Instead, our instructors become individual learning coaches for you. Together, you will not only acquire specialist knowledge, but also hone your soft and hard skills. In order to achieve this, we rely on direct communication.

No fear of making mistakes

Trying out is allowed here! Even welcomed, since we rely on **experience-based learning**. It's not always about right or wrong, above all it's about trying things out and getting to know each other. At SRH, you don't study for the professor or the examinations office, but primarily for your own projects and your whole (professional) life.

Learning for the real world

You don't have to do countless internships after you graduate. Practical teamwork on real projects with partners from the real world will prepare you optimally for the professional world. At the same time, you will develop social skills such as the ability to accept criticism, to think outside the box and to solve problems creatively. These are exactly the skills that employers expect from their employees today.

In addition, you will not only have a certificate in your hand, but also project references from real world partners, that you can provide alongside your job applications. AND: you'll know where your personal strengths lie.

KNOWLEDGE AND APPLICATION

Start your professional life with the skills you need

We focus on ensuring that our courses are competence-oriented. This means you will be able to apply your practical knowledge as soon as you start your first job, and that will make you more attractive in the labour market.

Professional skills

Social skills

Methodological skills

Personal skills

YOUR STARTUP:

Why not seek the support of our university's Founder Institute as you embark on one of the most exciting stages of your career?

In 2010, we made it our goal, as a university, to engage more actively in the topic of business startups, and to promote and support our students and graduates in this area. With this in mind, we established the Founder Institute, which operates on the following three levels: teaching, mentoring and networking.

This service is available to students and staff of SRH University Heidelberg; we also support our graduates for up to five years after graduation. Please note that if you intend to seek our support as part of a team, at least one team member should have a link to SRH University Heidelberg (student, graduate, employee, lecturer).

We will be happy to advise you on how to turn your ideas into profitable and sustainable business concepts. If needed, we will also provide additional support during the challenging startup phase of your business.

The students and colleagues had the opportunity to learn and improve their skills in archery and were acquainted with pretty unique animals. [No animal got hurt in the making of this teambuilding]

Every year, the months of September and October are a crucial period for the International Office. Hundreds of international students are arriving at the university, and for many, this is the first time they leave their home country and their family. Pre-arrival advice, support with visa process, information on living in Germany, travel advice, etc. – our main goal is to help each and every one of them have a smooth start in their studies and in their new life in Germany. This includes planning welcome events, orientation sessions, and various social activities in and around Heidelberg. In addition, once all the students have settled in, we in the International Office host our famous annual International Week, with guest lecturers from our partner universities.

To support us, we are very lucky to count on an active team of student helpers! Working as a team demands building trust and learning to communicate openly, especially given the intercultural aspect of the group. To help the students get to know each other, and because work can also be fun, our colleague Anja Loos (International Office & Alumni Relations Manager) organised this event for the team on Friday, 17th September. In Zuzenhausen, a tiny village south of Heidelberg, we met Michael, the owner of the Adventure Centre "Erlebniszentrums Mühlekob". During the whole afternoon, the team took part in various activities, such as coordination games and archery, all aimed at one target – creating a strong and trustful team on which everyone can rely.

Armed with their bows and arrows, the students divided into three groups and went hunting for (fake) animal targets. After about two hours of playing Robin Hood, Michael took us on his tractor and drove us to see real woolly and fluffy animals, a dozen of beautiful lamas, where we made the acquaintance of two newly arrived lamas, Mr Maier and Mr Müller. After feeding the friendly animals, it was time to feed our hungry team members with a well-prepared BBQ. Then, we planned different events for the upcoming semester start and International Week. As Prajwal Kunder, our Indian student helper in the International Business and Engineering Master Programme said, "I am looking forward to some intense volunteering ahead!"

In the train back to Heidelberg, Eduardo Giffoni de Castro Neves, our Brazilian student helper from the Dance Movement Therapy Master Programme, shared with us his impression of the day: "I need to say again to each one of you a huge thank you! You are all such fun, great, and kind people. Being together and sharing laughter and kindness makes life so much better!"

We are very pleased to have such a strong and motivated team of student helpers! We wish you all a very good start in this new academic year!

Tell us, what are you doing right now and what does your professional life look like?

I am currently working as a Program Manager for Transportation Automation at Amazon in the state of Arizona, USA. My professional life is a constant day to day challenge that focuses on me trying to automate workflow processes in the logistics

department that focuses on Amazon delivering packages to customers on time via land and air. My day to day work deals with stakeholder management holding multiple meetings and managing multiple projects along with our software developers sometimes working alongside them delivering tools and packages that helps out our stakeholders to improve day to day operations minimising our costs as a team leader I tend to inspire and motivate my team during difficult periods so that we add value as we are directly a customer centric team so my day to day professional life focuses on understanding problems and creating the tools to solve those problems.

What makes your industry so exciting for you?

What makes working at Amazon so exciting is that it's a fast-paced and dynamic place to work, where you're constantly working on different projects. It can be pressurised at times, but I thrive on pressure, and what I do can bring a smile to someone's face who gets their parcel on time, and small successes turn into big achievements.

How do you imagine your future professional career? What career paths, opportunities for advancement or professional fields would you like to pursue in the next few years?

I'm looking forward to doing my research in technology and maybe go back to school for a Ph.D. I've already done my MBA along with my job and I want to do something in business engineering somewhere along the lines of sustainability engineering management and cloud security within AWS Amazon. With the advancement in IT and AI field, I see great inventions that could help serve humanity and have a positive impact on society and as a tech junkie, I want to make a difference and make myself, my teachers and my parents proud.

As for my future goals, my ambition is to be a senior executive such as a VP at either Amazon or another top global company where I can have more impact within my field and make a name for myself.

Application processes are always exciting. How do you remember this phase immediately after graduation? Were there any particular challenges?

Immediately after graduation, job hunting is one of the most stressful things, especially trying to find a job in your field of study to gain financial independence as soon as possible, and the transition from student to working life is a big challenge. Sometimes in job hunting you land an interview where you feel you nailed it but end up getting rejected, for me even getting the opportunity to present myself for a job was half a victory, as an optimist it was a lesson learned on how to improve myself. In terms of job hunting, I was lucky enough to get a job in a startup company a month before my thesis presentation, which allowed me the flexibility to work my own hours and remotely as an IT consultant from Heidelberg, a place I call my second home and have an emotional attachment to, and also exposed me to the challenges of being a fresh graduate in a startup company and how to overcome those challenges. Keep your LinkedIn profile up to date and in line with the demanding skills requirements of the job market.

What else do you like to share?

I was fortunate to have received so much support from my professors who were not only my teachers but also my mentors such as our esteemed Dean Dr Achim Gottscheber and Dr Karl Izsak who were not only there to provide insights and critique my work but were also available for spontaneous appointments along with emotional support and motivation to give their feedback. The career advice and guidance helped me a lot to develop myself not only as a student but also as a professional in the field and in the corporate environment as an office manager I have managed to take a lot of lessons and had the privilege to travel the world, understand different cultural work ethics and how to adapt myself to changing dynamic barriers.

"The professors don't just support you academically, they mentor and shape you, at the end of 18 months a student feels the difference than when he started at SRH Heidelberg".

What advice would you like to give to our students?

My first and foremost advice to students would be to challenge yourself by going outside of your comfort zone, this will be your greatest learning achievement and the pain during this process is just your weakness leaving for body get as much experience as possible while you get a taste of the competitive job market so that you're prepped.

26 STIBET scholarship holders – there have never been so many. And almost all of them attended the award ceremony in the foyer of the university's main building, naturally in compliance with all the necessary public health recommendations. The German Academic Exchange Service (DAAD) make available these scholarships, funded by the Federal Foreign Office, to international students in the final year of their degree. They must either demonstrate outstanding academic performance or exceptional commitment to service in a social or international context, such as supporting fellow students, helping out at events, or getting involved in the community in and around SRH University Heidelberg. "We are proud to have so many fantastic students," said Professor Dr. Markus Breuer, Vice President of the university. "This programme is important, especially in times like these," he continued. "But it's not just the money that should make you feel proud of this scholarship. Add the programme to your CV – it's a very good opportunity for your career." Breuer thanked the International Office team, especially Iris Ulbrich, who has worked hard in organising the scholarships.

This year, we are awarding 26 STIBET scholarships to students:

8x Master's in Applied Computer Science

8x Master's in Big Data & Business Analytics

5x Master's in International Business and Engineering

3x Master's in Information Technology

4x Master's in International Management and Leadership

4x Master's in Dance Movement Therapy

Happy scholarship holders

All students are in their final study year. In order to get a Graduation Scholarship, academic performance is the most relevant requirement; for the Scholarship for Highly Committed Students, applicants must demonstrate social commitment and have this confirmed by a staff member of SRH University Heidelberg. The selection committee consists of a team of colleagues from the relevant faculties and from the International Office.

All scholarship holders who graduate in 2021 will receive a scholarship of € 750 per month for three months totalling € 2,250, and all applicants who graduate in spring 2022 will get a scholarship of € 750 for four months, thus totalling € 3,000.

Yash Pandey, student of Applied Computer Science, was very happy about the scholarship: “As an international student, it’s not easy to focus on my studies and at the same time do a part-time job to manage my everyday expenses.

His fellow student, Soumya, added: "Being able to achieve top grades in spite of being away from my family, especially my six-year-old daughter, was emotionally tough.

Scholarships for 2022 as well

STIBET scholarships will also be available in 2022 for students graduating in autumn 2022 or spring 2023, Iris Ulbrich reported. However, she also pointed out that “the number of scholarships and the monthly rates might vary, depending on the amount of STIBET funding given to Germany’s universities by the German Academic Exchange Service (DAAD).” For any questions, she can be contacted by email at iris.ulbrich@srh.de.

Microcredentials and badges - that sounds like gibberish to some at first. We talked to our two Student Digital Transformation Agents, Louis and Alina, about what this topic is all about and how students can benefit from getting involved in the Future Workshop on this topic.

How did you guys come up with the topic for the next Future Workshop? I'm sure not all students are familiar with microcredentials and badges.

Alina: We came up with the idea in collaboration with the University Forum on Digitalization, in which we are active as Digital Transformation Agents and as representatives of SRH University Heidelberg. Bold future perspectives are on the agenda here, and this topic fit in very well. Because two trends are dominating the job market: Individualization, in order to stand out from the competition, and lifelong learning - I can combine both very well in this project.

Incidentally, this topic is also on our minds at the European level: The European Co-mission invited me to a workshop in Barcelona last week as part of the European Digital Education Hub. With 34 other people from 16 different countries, we worked out together, among other things, the goals and the pros and cons of microcredentials. On the third and fourth day, I participated in the master class. For two days participants got different impulse lectures, how the current situation is around the world, what which country or university is already doing and what the difficulties are.

In these four days I have gained a lot of new knowledge, new ideas and impulses. I am looking forward to bringing these to the university, of course also in the future workshop on April 20! In August, we will continue to work together in a working group on the topic of microcredentials.

What do our students get out of certificates like badges and microcredentials?

Louis: A badge is a digital certificate that I can pin to my social media profiles. Let's take the example of sustainability: If I apply for a job where this topic is important, a badge in this area can set me apart from my competitors. Because a badge shows that you have actively dealt with the topic and have competencies in this area.

Alina: The badges, such as accounting courses, not only help me in the professional world, but also help me personally, for

example, if I want to start my own business. So you can also develop yourself and take courses that have nothing to do with your actual studies, and you also get a digital receipt for it.

And what are microcredentials and where are they published?

Louis: A microcredential is a type of certification that can be integrated into the overall degree program, so it's part of a larger program. They can expand the expertise and skills you need to advance your career. For example, an architect might take courses in spatial psychology and accounting to prepare for self-employment. Both badges and microcredentials are great to place on your resume or on platforms like LinkedIn or Xing.

You chose the topic of Microcredentials and Badges for the next Future Workshop. What do students get out of participating in this event?

Alina: The Future Workshop is a great way to connect all the actors: inside and develop new ideas. This is not a project of ours, but of all university members. Students and university employees from all faculties and areas think together about what a desirable future for our university could be and how we could make this future come true.

Louis: Working with faculty and staff is also a super opportunity for students. Here they can demonstrate their future-oriented thinking.

Alina: On 20.04.2023, it all starts at 2 pm. Two students from each faculty can participate. Of course, food and drinks will be provided. So register quickly before your faculty spots are already booked up!_

Wirksame Transformation im Mittelstand: Konferenz für Geschäftsmodell- und Kulturwandel in der Praxis

Digitalisierung und Nachhaltigkeit sind die großen Themen der heutigen Zeit und stellen insbesondere den Mittelstand vor neue unternehmerische Herausforderungen. Wenn diese Transformation gelingen soll, dann braucht es eine grundlegend andere Kultur der Zusammenarbeit in den Unternehmen.

Unsere einzigartige Konferenz „Wirksame Transformation im Mittelstand“ bietet wertvolle grundlegende Erkenntnisse und vor allem viele praktische Beispiele, wie die Transformation im Mittelstand gelingt und stellt eine optimale Plattform zur Vernetzung mit anderen Transformationsexperten dar.

Inhaltliche Schwerpunkte:

▪ Kulturelle Transformation: Wie Veränderungsoffenheit und Innovationsfähigkeit gefördert werden

▪ Digitale Transformation: Wie Unternehmen ihre Geschäftsmodelle und Prozesse erfolgreich digitalisieren

▪ Nachhaltige Transformation: Erfolgreiche Ansätze für Unternehmen, um umweltbewusst nachhaltig und trotzdem profitabel zu agieren

▪ Praxisbeispiele von Unternehmen, die Transformationsprojekte erfolgreich umgesetzt haben

Zielgruppe:

Unsere Konferenz richtet sich an Entscheidungsträger aus dem Mittelstand, die Transformationsprogramme umsetzen oder Unternehmen in der Transformation begleiten, insbesondere gehobene Führungskräfte, Interim-Manager und Finanzierer.

Vollständiges Konferenzprogramm

When it comes to research, SRH University Heidelberg does not only take a highly practice-based approach, it also cooperates closely with regional partners. In fact, the university is the only German institution to be listed among the top 25 performers in the Regional Joint Publications category of the international comparison of universities U-Multirank. In addition, the university made it to the top group in the Percentage of International Academic Staff category, as well as to the second rank group for both Student Mobility and the Percentage of Foreign-Language Master's Programmes. The university's large number of Bachelor's and Master's graduates working in the region also led to top marks in these categories. The number of companies newly founded by graduates also enabled the university to score highly.

"Besides emphasising our practical relevance, the results also highlight our regional roots and international orientation," stated Professor Dr. Carsten Diener, President of SRH University Heidelberg. "Our close cooperation with a large number of partners in the region gives our students the opportunity to learn hands-on, widening their network and ultimately optimising their chances of finding a good job in the region."

SRH University Heidelberg also scored highly in the International Orientation category. Bettina Pauley, Head of the International Office, pointed out: "Our students are still very mobile; despite the pandemic, they have a continuing interest in going abroad for study purposes or for internships. We provide them with intensive advice and support. But also the many visiting lecturers add an international touch to our university."

U-Multirank, an initiative of the European Commission, evaluated the quality criteria of over 1,900 higher education institutions in 97 countries this year. The online tool available at www.umultirank.org gives prospective students the opportunity to compare different subject areas and universities around the world.

The international diversity of the teaching staff at SRH University Heidelberg is outstanding, according to a recently published international comparison of universities by U-Multirank. The university also landed in the top group for the number of start-ups by graduates. SRH University Heidelberg also scored well in the area of publications: the report noted the high level of collaboration with industry, the number of regional joint publications, and the high proportion of female authors. Overall, SRH University Heidelberg received “A” grades in five categories of the 2022 U-Multirank. This year, the School of Information, Media and Design (ranking in the top group in the “Contact with Professional Practice” category) and the degree programmes of the School of Engineering and Architecture particularly stood out.

“The results once again underscore the fact that we are well networked in the region, practice-based, start-up-friendly and internationally oriented,” said Professor Dr Carsten Diener, President of SRH University Heidelberg. “For our prospective students abroad, these are important factors which prove that being international is not only something we say is important, but is also actively embraced.”

Around 2,000 universities worldwide took part in the U-Multirank global ranking, which is funded by the European Commission and enables universities to be compared internationally.

At our University, you take centre stage

We'll overcome the challenges that getting a degree brings, with you – together. So that you can study flexibly and independently – but never alone.

WHAT YOU CAN EXPECT FROM US

Our promise to you

As one of Germany's oldest and largest private universities, we set the standards in education. We impart practice-oriented knowledge that truly helps you get ahead. In the process, we attach particular importance to establishing close cooperation between our students and teaching staff.

Your educational path: we are a reliable partner at your side

Your learning environment: our campus makes it easy to get from one place to another.

Your skills: with us, learning is an active and independent process.

Your future: preparing you is our goal.

Your requirements: here, quality pays off, and you can rely on that.

Our mission statement

We see ourselves as an interdisciplinary, scientific and cosmopolitan educational institution. In achieving our academic goals, our actions are driven by guiding principles.

Neutrality and tolerance

Independence in social interaction

Freedom with responsibility

Emphasis on learning rather than teaching

Science for practice

Entrepreneurial leadership in association

MANAGEMENT

President's Office

The President's Office is responsible for managing the university. It represents SRH University Heidelberg to the outside world, and coordinates cooperation among its members internally. The President's Office consists of the President, the Vice President for Academic Affairs and Advanced Education, and the Vice President for Research. Besides the President and the Vice Presidents, the university management also includes the Managing Director of SRH University Heidelberg and the authorized representative (Head of Administration).

SUPERVISORY BOARD

Our University Council

The University Council is our university's supervisory body. It shares responsibility for the academic development of the university. All members are appointed by the shareholders' meeting of SRH Hochschule Heidelberg GmbH. The President and the Vice President attend meetings of the University Council in an advisory capacity. The Senate has the right to propose two members of the University Council.

Composition

The University Council of SRH University Heidelberg was appointed by the shareholders' meeting in June 2018. Professor Dr. Andrea Römmele was elected Chair of the University Council. The University Council comprises eight members:

Prof. Dr. Andrea Römmele, Chair (Director Executive Education of Hertie School of Governance, Berlin)

Stephanie Aeffner (Baden-Württemberg State Representative for the Disabled)

Prof. Dr. Andreas Dulger (CEO of ProMinent GmbH)

Prof. Dr. Christof Hettich (Solicitor, CEO of SRH Holding)

Prof. Dr. h.c. Dietmar von Hoyningen-Huene (former President of Hochschule Mannheim University of Applied Sciences)

Dr. Björn Jansen (former CEO of Dr. HAAS GmbH Mannheim)

Prof. Dr. Eckart Würzner (Lord Mayor of the City of Heidelberg since 2006)

MAIN ACADEMIC BODY

Our Senate

The Senate is the university's main academic body. The Senate decides on matters related to research, teaching, studies and continuing education, unless these have been delegated by law or the university's basic rules to another central body or the schools. Apart from the President and the Vice President, the Senate consists of the Deans, seven professorial representatives, two representatives from other university staff and two student representatives.

Some quotes from the participants:

"I really enjoyed this course. I feel as though the lessons I learned during the sessions, and the experiences I made while completing the tasks have helped me on my journey towards being a more fulfilled and aware person."

"I have learned a lot of things on intercultural dimensions, interactions, culture shock, association, empathy and reverse culture shock. It would not be a long shot to say that I have been educated in an entirely different sphere of my education. This experience has most positively contributed to my character refinement and character building."

"During the span of the course, I learned how to identify when one is stereotyping, and how to deal with it. I realized the dangerous effects it can have on the society, if we take action based on prejudices! The other important theme is culture shock. Every international settler goes through it, but the awareness is surprisingly low. Having the right type of people around you is very important, especially when living abroad. One should be open to learn and adapt to the new customs. We discussed the ways to combat the effect of culture shock, like depression, in the lectures. Adding the social distancing rules currently, tackling culture shock has become very significant. "

Project team

Studiere an einer akkreditierten Hochschule mit über 50-jähriger Erfahrung

International.

Dein Studium eröffnet dir den Weg zu einer internationalen Karriere

Modern.

Als Campushochschule bieten wir dir ein optimales Lernumfeld.

Individuell.

Deinen Weg bestimmst du, wir begleiten dich dabei als
Lerncoaches.

Praxisnah.

Bei uns erwirbst du Kompetenzen, die in der Praxis gefragt sind.

Verlässlich.

Deine Zukunft ist uns wichtig. Wir halten unser Leistungsversprechen.

SEIT ÜBER 50 JAHREN

Wir begleiten Menschen auf ihrem individuellen Weg

Menschen Perspektiven aufzeigen, sie bei der optimalen Berufswahl zu unterstützen und sie individuell auszubilden - das treibt uns an. 1969 gegründet, widmete sich die Hochschule ursprünglich der beruflichen Reha. 40 Maschinenbau-, 60 BWL- und 30 Architektur-Studierende nahmen damals ihr Studium bei uns auf. Heute sind es über 3.600 Studierende aus 65 Ländern, die sich bei uns auf ihr Berufsleben vorbereiten. Und immer noch unterstützen wir insbesondere Studierende mit körperlichen oder psychischen Einschränkungen individuell und mit all unseren Möglichkeiten. All unsere Studierenden setzen ihr Vertrauen in unser innovatives Studienmodell, mit dem wir 2018 mit dem Genius-Loci Preis für Lehrexzellenz vom Stifterverband ausgezeichnet wurden. Heute wie damals begleiten wir unsere Studierenden mit Leidenschaft auf ihrem Weg in die Zukunft.

Sie haben die Entwicklung unserer Hochschule mitgeprägt: unsere Rektoren

Prof. Dr. Carsten Diener (seit 2020)

Prof. Dr. Katja Rade (2017-2020)

Prof. Dr. Dr. h.c. Jörg Winterberg (2008-2017)

Prof. Dr. jur. Wolfram Hahn (2000-2008)

Prof. Horst Methner (1980-2000)

Prof. Werner Herrmann (1972-1980)

Prof. Fritz Schulz-Linkholdt (Gründungsrektor 1968-1972)

YOUR COURSE CONTENT

What you will learn

The growing world population, climate change, and the intensive use of water in industry, agriculture and the energy sector make sustainable water management an existential task – and these issues are addressed on your degree programme.

We will teach you the key aspects of water technology: fresh water generation, domestic and industrial wastewater treatment, and water as a zero-emission energy source. In addition to focusing on technologies that are established in water-rich countries, we also tackle issues such as seawater desalination, hygiene solutions for developing countries, and water conflict prevention. Find out more about our degree programme and make up your own mind on our [Instagram channel](#) !

Your course content in detail

YOUR CAREER PROSPECTS

Our innovative approach that pays off

Sustainable water technology – a goal for your future career: after completing the Master's programme, you will be able to take on senior engineering and management tasks in the global field of water technology. With core subjects in water quality, water treatment, water reuse, and water power generation, we prepare you for your tasks as an engineer in a global workplace.

Your prospects in detail

SRH Universities Campus Heidelberg International Week 2024: Future Skills for Global Citizens

07.10. - 11.10.2024

For our 14th SRH International Week we are excited to welcome our partners, and their students, back on Campus Heidelberg. Save the date and join us from 7th – 11th October 2024!

ADMISSION REQUIREMENTS

Our requirements

Admission requirements

A Bachelor's or Diplom degree in engineering

In addition to the final grade, aspects such as professional experience and further training are also taken into account in the assessment

English language proficiency: IELTS 6.5 / TOEFL 80 / Duolingo Certificate 110 / PTE Academics 58, or a comparable test

A technical preliminary course for graduates with a degree from other fields of study provides access to the Master's programme:

Technical Essentials I - Mathematics, Materials Science, Technical Mechanics

Technical Essentials II - Design, Materials Science II, Manufacturing, Electrical Engineering

You do not qualify? No problem, SRH has its International College for students who do not qualify for direct entry into our programmes or need to bring up their English language level. You can choose from our Foundation programmes at the College. This is a direct pathway into our university. Find more about here . <https://www.srh-international-college.de/>

FEES AND FUNDING

Your tuition fees

770 EUR per month full-time + one-time registration fee of 750 EUR (Prices apply only to students from the European Economic Area).

Applicants from Non-EEA countries without permanent residence permit need to pay a tuition fee of 6,450 EUR per semester + one-time registration fee of 1,000 EUR and must pay the tuition fees for one semester in advance. From the second semester onwards the payments for the remaining semesters of study are due six weeks before the end of the period of study already paid for. The payments have to be done semesterwise.

For more information and payment modalities, please refer to the current fee schedules (valid from 01.04.2023):

[Fees schedule EEA students](#)

[Fees schedule non-EEA students](#)

APPLY NOW

Application process and deadlines

We look forward to welcoming you to SRH University Heidelberg very soon.

There are no closing dates for application at our University. This is the application process:

If you're interested in our Master's programme, simply send us your application [online](#).

If you encounter technical difficulties with the online application or have any questions about your application, your contact person Simin Chen will be happy to help you.

If you meet the admission requirements, we'll invite you to a selection interview

If you pass the selection interview, we'll send you the acceptance letter and the study contract

You then sign the study contract and return it to us

You pay the registration fee

If you come from a non-EU country, you will pay your tuition fee one semester in advance in addition to the registration fee. From the second semester onwards the payments for the remaining semesters of study are due six weeks before the end of the period of study already paid for.

We then issue your letter of acceptance

You take part in our Welcome Days – and then embark on your degree programme!

APS Certificate

Please note that special conditions apply to applicants from some countries:

India

From 1st of November 2022, applicants from India will be required to have their documents verified by the Academic Evaluation Centre New Delhi (APS-India) before applying for a visa. After successful verification you will receive a certificate which allows you to initiate the visa process. Please note that the verification process at APS-India is expected to take approximately 4 weeks. We recommend that you apply for the APS certificate at the same time as you apply to SRH University Heidelberg. For more information, go to the APS-India website: www.aps-india.de

The People's Republic of China

The procedure of the Academic Evaluation Centre of the Cultural Section at the German Embassy in Beijing (Akademische Prüfstelle – APS) must have been successfully completed before you apply. The centre checks documents for authenticity and conducts interviews. The original APS certificate must be enclosed with the application documents. For more information, go to the APS website at: www.aps.org.cn .

Please note that you don't need to complete the APS procedure if you apply for our 3+1 programmes.

Vietnam

The Academic Evaluation Centre of the German Embassy in Hanoi has been checking the university entrance qualifications of

Vietnamese applicants since 2007. The procedure includes checking the submitted written documents as well as an interview with the applicant. An original copy of proof of successful completion of this process, the APS certificate, must be enclosed with the application documents.

Anastasia, 20 years old, has been studying International Business at SRH University Heidelberg since October 2022, with the help of a scholarship. She is from Odesa, a coastal city in Ukraine. Anastasia had to flee her home country because of the war. She moved to Germany on 25 February 2022, leaving her parents behind. She spent two weeks in Ukraine over Easter this year, enabling her to get to know her younger brother, who is now six months old. Today, she answers our questions about herself, and her hopes and dreams.

As you may know, we are conducting a series of interviews with strong women at our university. What makes you a strong woman?

It is the fact that I fled from the war and got a scholarship here in Germany. I began a whole new life here and have made a really good job of starting somewhere new.

I imagine it took you a lot of strength to do this. What helped you through this hard time? And how do you deal with all those memories?

My German boyfriend helped me a lot mentally. We had already been together for three years when the war started. Also, I try not to look at old photos very often because it is painful to see your previous life, with all your friends and family, or life in general before war, so I do my best to avoid that. During the exam period, for example, I avoid watching the news or listening to anything bad. Not always though, because sometimes you need to feel the pain and to allow yourself to be sad. Otherwise you would have a burn-out.

How did you feel about spending time in Ukraine recently, and getting to know your little brother a bit?

I spent the Easter holidays in Ukraine with my parents and brother. I felt both happy and sad simultaneously when I was at home. It's an amazing feeling to see your family again after such a long time apart, knowing that they are constantly in danger. People in Ukraine are fantastic, they continue living their lives, building businesses, going out, helping each other, sharing, and donating money to each other and to the army. But, of course, it is painful to see all the destroyed buildings, and it is very scary to hear explosions both at night and during the day.

What makes you never lose hope?

The mentality of the Ukrainian people. I really believe in our society; we are strong and brave people, and this is what inspires me to keep going.

What are your wishes for the future?

Of course, I hope for an end to the war. But I also wish that life in Ukraine would improve – economically, politically and culturally. In Germany, you have so many options, especially for young people in their free time. You can learn about things in museums, have fun at parties and festivals, and go to art exhibitions. You have so many opportunities and possibilities! I hope that we will have that in Ukraine someday, too.

How have you developed personally compared to when you first came here?

All the problems have changed me completely as a person. I have become smarter and stronger, but more importantly: I have become kinder. I have learned about the importance of not judging people, because you never know what somebody may have been through.

Diversity is our potential

We look at everyone from their own individual background and treat all people with respect, regardless of gender, religion, age, origin, sexual orientation, or physical or mental condition.

We see diversity – in our team and among our students – as potential.

DAS CORE PRINCIPLE

Studying and working in a welcoming, positive atmosphere

Our CORE study model focuses on the individual. That is why diversity is central to our mission: Developing the competences of every individual. This applies to both our staff and our students – we are on the same team! Diversity therefore also means social sustainability for us. Because everyone benefits from our diversity: It teaches us to take other perspectives, to critically examine our own ideas, to stand up for each other and to form our own opinions. That is precisely the goal of the CORE principle – it is what creates our university community. For us, it is also important to understand this topic as a continuous process: We are always grateful for new input and ideas.

Projects to support people from Ukraine, student initiatives for needy people at home and abroad – our diversity results in a vivid palette of activities at our university. Another example of our commitment to diversity is our support for the “Hier spielt Vielfalt” campaign in the Virtual Reality & Game Development degree programme.

Diversity, and above all respectful and tolerant cooperation, is also important to us in the working world. Flexible and remote work now goes without saying, at the latest since the start of the Coronavirus pandemic. Our campus is accessible to all. This means that our employees have the opportunity to get their work done regardless of location and time, whether they have a family or not, whether they have chronic illnesses or need care, whether they are old or young, or whether they are socially committed or face special challenges. This is also emphasised in our group-wide inclusion agreement, which commits all of us to equal opportunities for all employees.

Du stehst bei uns im Mittelpunkt

Wir verstehen uns als Wegbegleiter. Als deine Lerncoaches meistern wir mit dir gemeinsam die Herausforderungen, die ein Studium mit sich bringt, und fördern dich, damit du deine Ziele erreichen kannst. So studierst du flexibel und autark – aber nie allein.

DAS KANNST DU VON UNS ERWARTEN

Unser Leistungsversprechen

Als eine der ältesten und bundesweit größten privaten Hochschulen setzen wir Maßstäbe im Bereich Bildung. Wir vermitteln praxisnahes Wissen, das dich wirklich weiterbringt. Die enge Zusammenarbeit zwischen unseren Studierenden und Lehrenden ist dabei besonders wichtig.

Dein Bildungsweg: Wir sind ein verlässlicher Partner an deiner Seite.

Dein Lernumfeld: Wir sind eine Campus-Hochschule mit kurzen Wegen.

Deine Kompetenzen: Bei uns lernst du aktiv und eigenständig.

Deine Zukunft: Wir machen dich fit dafür.

Dein Anspruch: Bei uns setzt du auf Qualität, die sich auszahlt.

VIDEO

Entdecke unsere Lehr- und Lernphilosophie

WELTOFFENE HOCHSCHULE

Unser Leitbild

Wir verstehen uns als interdisziplinäre, wissenschaftliche und weltoffene Bildungseinrichtung. Bei der Verwirklichung unserer akademischen Ziele sind wir in unserem Handeln von Leitsätzen geprägt.

Neutralität und Toleranz

Eigenständigkeit im gesellschaftlichen Miteinander

Freiheit in Verantwortung

Lernen statt Lehren

Wissenschaft für die Praxis

Unternehmerische Führung im Verbund

BERATENDES GREMIUM

Unser Hochschulrat

Der Hochschulrat ist ein beratendes Organ der Hochschule. Er trägt Mitverantwortung für die akademische Entwicklung der Hochschule. Die Mitglieder werden jeweils von der Gesellschafterversammlung der SRH Hochschule Heidelberg GmbH berufen. Der Rektor und der Prorektor nehmen an den Sitzungen des Hochschulrats beratend teil. Der Senat hat ein Vorschlagsrecht für zwei Hochschulratsmitglieder.

Zusammensetzung

Der Hochschulrat der SRH Hochschule Heidelberg wurde im Juni 2018 von der Gesellschafterversammlung berufen. Prof. Dr. Andrea Römmele wurde zur Vorsitzenden des Hochschulrats gewählt. Der Hochschulrat besteht aus acht Mitgliedern:

Prof. Dr. Andrea Römmele, Vorsitzende (Director Executive Education der Hertie School of Governance, Berlin)

Stephanie Aeffner (MdB und Landes-Behindertenbeauftragte Baden-Württemberg)

Prof. Dr. Andreas Dulger (Vorsitzender Geschäftsführer der ProMinent GmbH)

Prof. Dr. Christof Hettich (Rechtsanwalt, Vorstandsvorsitzender der SRH Holding)

Prof. Dr. h.c. Dietmar von Hoyningen-Huene (ehemaliger Rektor der Hochschule Mannheim)

Dr. Björn Jansen (ehemaliger Geschäftsführender Gesellschafter der Dr. HAAS GmbH Mannheim)

Prof. Dr. Eckart Würzner (seit 2006 Oberbürgermeister der Stadt Heidelberg)

AKADEMISCHES HAUPTORGAN

Unser Senat

Der Senat ist das akademische Hauptorgan der Hochschule. Der Senat entscheidet in Angelegenheiten von Forschung, Lehre, Studium und Weiterbildung, soweit diese nicht durch Gesetz oder Grundordnung der Hochschule einem anderen zentralen Organ oder den Fakultäten zugewiesen sind. Dem Senat gehören neben dem Rektor und dem Prorektor die Dekane und Dekaninnen, sieben Vertreterinnen und Vertreter aus der Professorenschaft, zwei Vertreterinnen und Vertreter aus dem Bereich des sonstigen Hochschulpersonals und zwei studentische Vertreterinnen und Vertreter an.

At our University, you take centre stage

We'll overcome the challenges that getting a degree brings, with you – together. So that you can study flexibly and independently – but never alone.

WHAT YOU CAN EXPECT FROM US

Our promise to you

As one of Germany's oldest and largest private universities, we set the standards in education. We impart practice-oriented knowledge that truly helps you get ahead. In the process, we attach particular importance to establishing close cooperation between our students and teaching staff.

Your educational path: we are a reliable partner at your side

Your learning environment: our campus makes it easy to get from one place to another.

Your skills: with us, learning is an active and independent process.

Your future: preparing you is our goal.

Your requirements: here, quality pays off, and you can rely on that.

Our mission statement

We see ourselves as an interdisciplinary, scientific and cosmopolitan educational institution. In achieving our academic goals, our actions are driven by guiding principles.

Neutrality and tolerance

Independence in social interaction

Freedom with responsibility

Emphasis on learning rather than teaching

Science for practice

Entrepreneurial leadership in association

MANAGEMENT

President's Office

The President's Office is responsible for managing the university. It represents SRH University Heidelberg to the outside world, and coordinates cooperation among its members internally. The President's Office consists of the President, the Vice President for Academic Affairs and Advanced Education, and the Vice President for Research. Besides the President and the Vice Presidents, the university management also includes the Managing Director of SRH University Heidelberg and the authorized representative (Head of Administration).

SUPERVISORY BOARD

Our University Council

The University Council is our university's supervisory body. It shares responsibility for the academic development of the university. All members are appointed by the shareholders' meeting of SRH Hochschule Heidelberg GmbH. The President and the Vice President attend meetings of the University Council in an advisory capacity. The Senate has the right to propose two members of the University Council.

Composition

The University Council of SRH University Heidelberg was appointed by the shareholders' meeting in June 2018. Professor Dr. Andrea Römmele was elected Chair of the University Council. The University Council comprises eight members:

Prof. Dr. Andrea Römmele, Chair (Director Executive Education of Hertie School of Governance, Berlin)

Stephanie Aeffner (Baden-Württemberg State Representative for the Disabled)

Prof. Dr. Andreas Dulger (CEO of ProMinent GmbH)

Prof. Dr. Christof Hettich (Solicitor, CEO of SRH Holding)

Prof. Dr. h.c. Dietmar von Hoyningen-Huene (former President of Hochschule Mannheim University of Applied Sciences)

Dr. Björn Jansen (former CEO of Dr. HAAS GmbH Mannheim)

Prof. Dr. Eckart Würzner (Lord Mayor of the City of Heidelberg since 2006)

MAIN ACADEMIC BODY

Our Senate

The Senate is the university's main academic body. The Senate decides on matters related to research, teaching, studies and continuing education, unless these have been delegated by law or the university's basic rules to another central body or the schools. Apart from the President and the Vice President, the Senate consists of the Deans, seven professorial representatives, two representatives from other university staff and two student representatives.

Calendar entry

Women in Data Science Rhine-Neckar is part of a global series of regional events founded in 2015 as Stanford University's WiDS initiative. It is now held in 60 countries at 200+ locations. The WiDS Rhine-Neckar provides an opportunity to hear about the latest data science-related research with a focus on Smart Cities. Learn how leading-edge companies and research use data science to generate successful outcomes and connect with potential mentors and collaborators in the field. WiDS Rhine-Neckar is independently organized by SRH University Heidelberg, SRH Mobile University, and WUMAN to increase women's

participation in data science and feature outstanding women doing outstanding work.

Key Highlights:

Empowering Talks: Keynote presentations from influential women in the data science and smart city domains. Gain a deeper understanding of how data is shaping the urban landscape.

Workshops and Demos: Enhance your skills through workshops and the latest tools and techniques driving innovation in data science and smart city solutions.

Networking Opportunities: Connect with professionals, mentors, and industry leaders who share your passion for data science and smart city development.

Build lasting connections that can propel your career forward. Don't miss this opportunity to be part of a transformative event that highlights the role of women in driving innovation and creating smarter, more sustainable cities through the power of data science.

Reserve your spot and be a catalyst for positive change! The conference and the workshops will be held online and are free of charge. All genders are welcome.

Registration will open soon.

Water is one of the most important resources on earth and it is vital for life. Unfortunately, water resources are under threat from a number of environmental problems. One of the major factors accelerating change related to water is climate change. Climate change is causing an increase in water evaporation from water bodies such as seas, rivers and oceans due to rising temperatures. This results in more water circulating into the atmosphere in its vapour form. Out of this increased water vapour, a proportion will condense into clouds and eventually fall back to earth as precipitation.

The increased precipitation can lead to flooding, especially if the ground is already saturated with water from previous rainfall. Flooding can damage infrastructure, homes and businesses, and can lead to loss of life. Climate change is also having an

impact on groundwater supplies, as changes in precipitation patterns affect recharge rates. In some areas, groundwater depletion is a serious problem. Accelerating change in water resources is a complex issue with many different facets.

However, climate change is undoubtedly one of the major drivers of change and it is important that we understand the impacts it is having so that we can adapt our management of water resources accordingly

Die Deutsche Bildung Studienfinanzierung

Wir finanzieren deine Studien- und Lebenshaltungskosten.
Du startest durch.

[Jetzt bewerben](#)

Was zeichnet unsere Studienfinanzierung aus?

Flexible **Auszahlungen**: Erhalte deine Finanzierung monatlich und/oder einmalig

Inklusive **Academy** für deinen Bildungs- und Berufserfolg

Einkommensabhängige **Rückzahlung**

Kombinierbar mit **Bafög** und Stipendien

Auch **Auslandsstudium** finanzierbar

Wie unsere Studienfinanzierung funktioniert ...

...erklärt dir Isabel in zwei Minuten.

- Du erhältst Geld aus unserem Studienfonds und kannst dich auf dein Studium konzentrieren.
- Nach deinem erfolgreichen Abschluss suchst du dir einen Job und startest als Young Professional durch.
- Wenn du dein Mindestbruttoeinkommen erreicht hast, zahlst du einen Anteil deines Einkommens an den Studienfonds.
- Deine Rückzahlung fließt in die Finanzierung der nächsten Student:innen.

3 Schritte zur Bewerbung

1

Online bewerben

Mit ein paar Klicks sagst du uns, um welches Studium es geht und wie viel Geld du brauchst.

2

Angebot erhalten

Wir berechnen deine persönlichen Konditionen. Du liest das Vertragsangebot – unverbindlich.

3

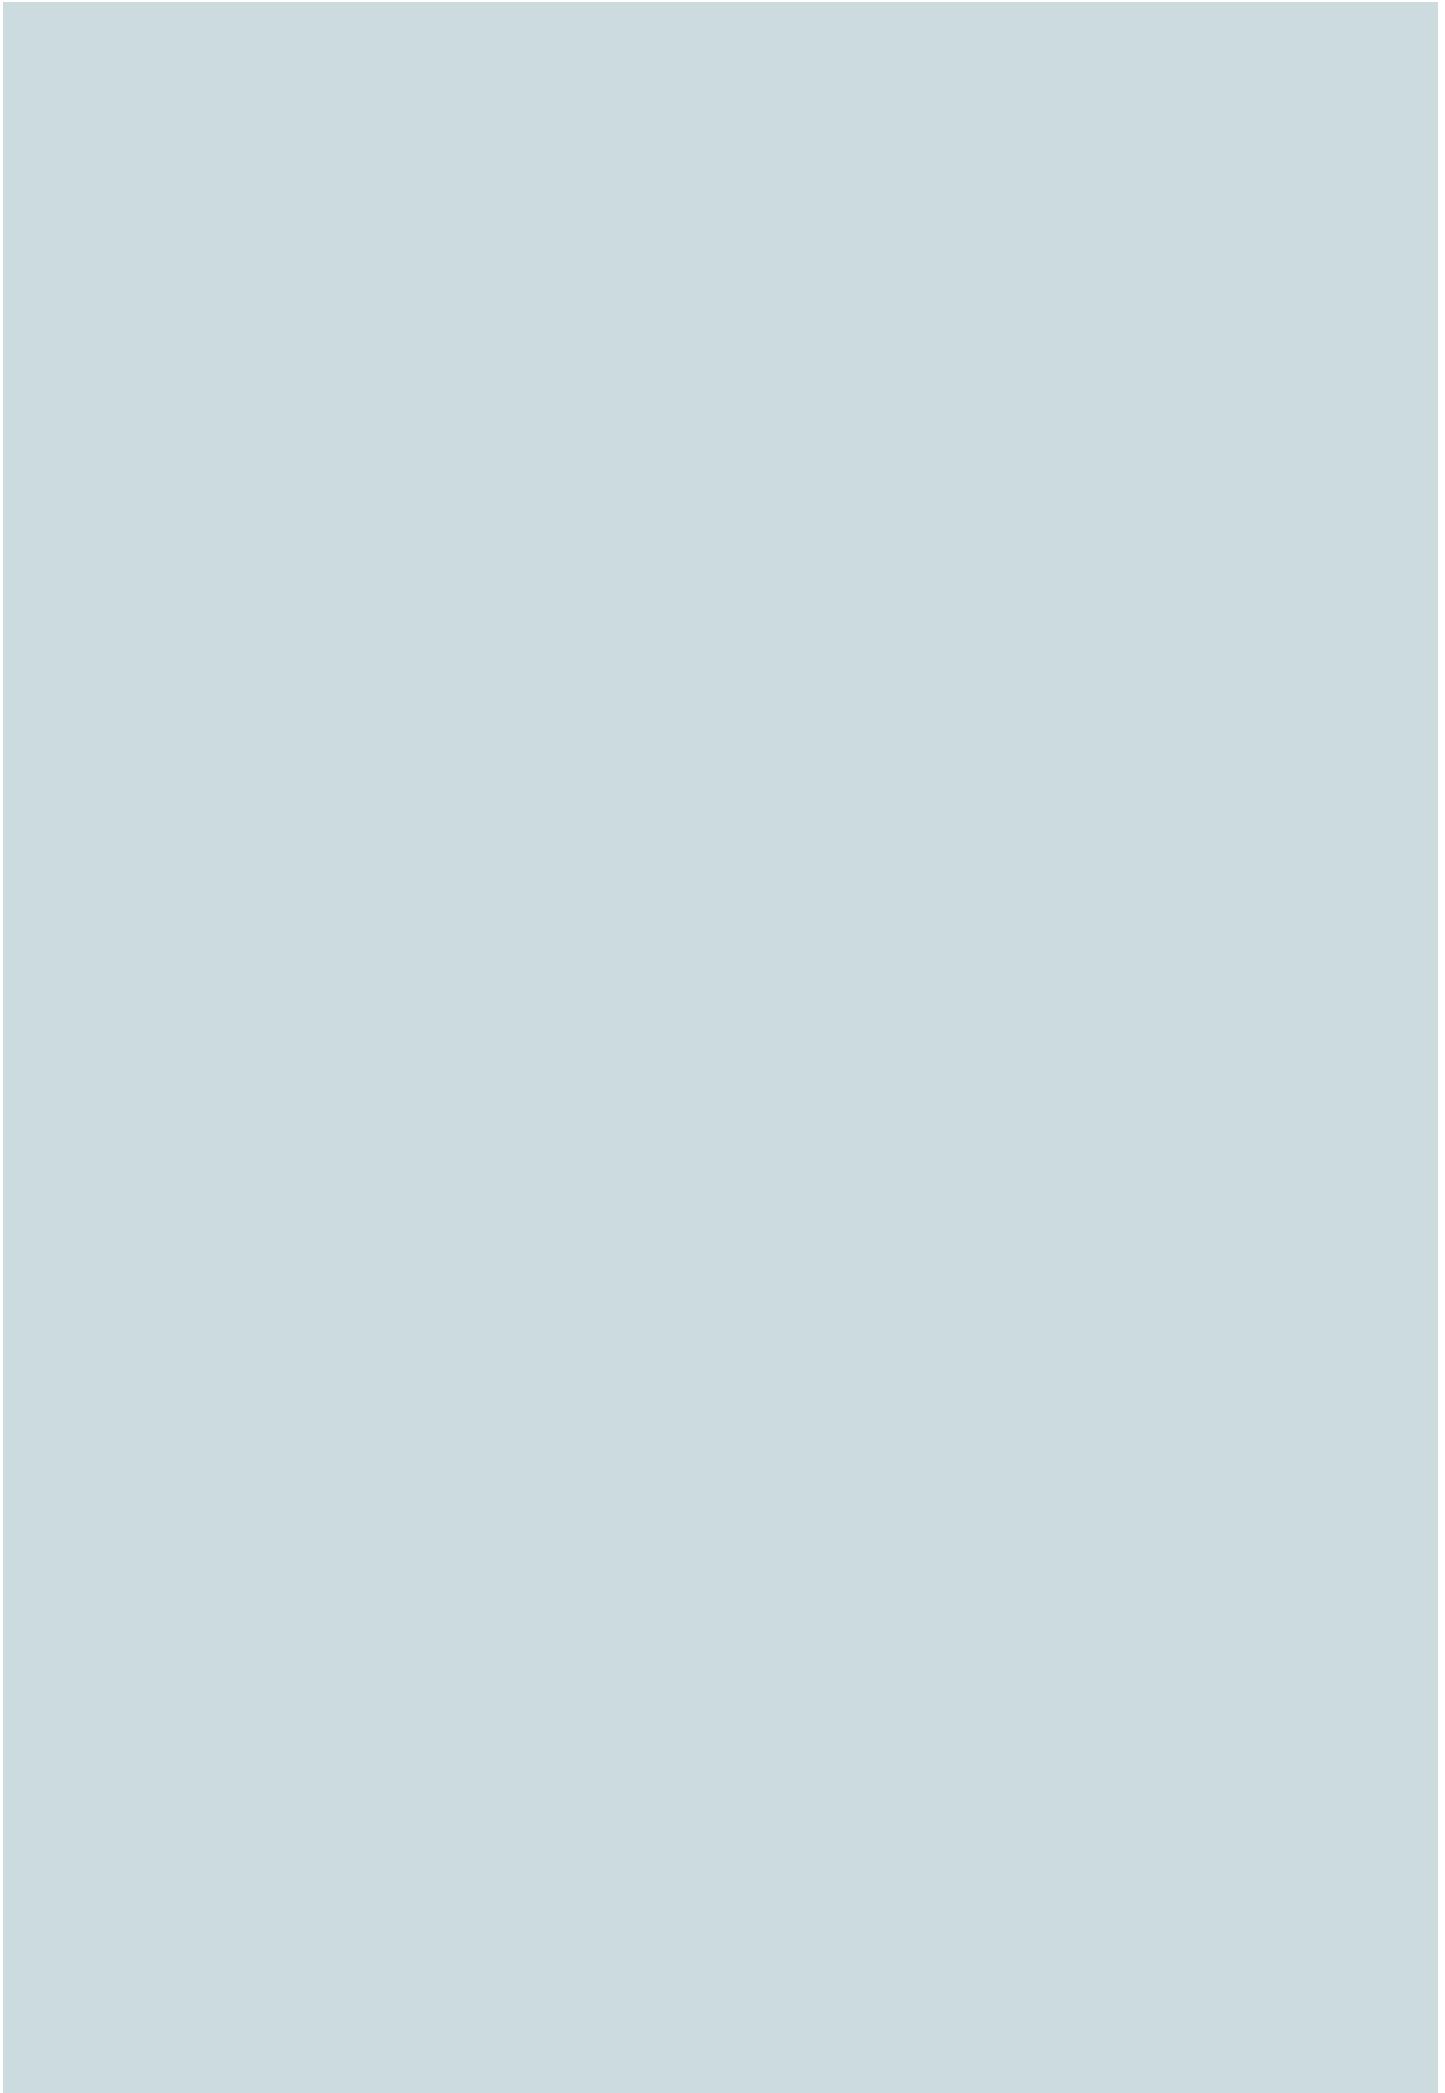

Finanzierung starten

Du unterschreibst den Vertrag digital. Deine Studienfinanzierung startet zum vereinbarten Zeitpunkt.

Noch Fragen zur Studienfinanzierung?

Wer ist die Deutsche Bildung?

Wir sind ein Social Business für Studienfinanzierung. Über einen umgekehrten Generationenvertrag finanzieren wir Student:innen das Studium. Mit der Deutsche Bildung Academy geben wir begleitenden Support für ein erfolgreiches Studium und den Berufseinstieg.

Gegründet wurde die Deutsche Bildung 2006. Unser Büro ist in Frankfurt am Main. Ein Team von mehr als 30 Mitarbeiter:innen arbeitet für das Ziel, Student:innen unabhängig von der finanziellen Ausgangslage das Studium zu ermöglichen.

► Erfahre noch mehr über die [Deutsche Bildung](#).

Wie viel Geld kann ich für mein Studium bekommen?

Das beste Vorgehen: Checke deine mögliche Finanzierungssumme individuell, indem du die Bewerbung startest – natürlich völlig unverbindlich.

Ein Finanzierungsangebot ist in der Regel ab einer Mindestsumme von 5.000 Euro möglich. Auch die maximale Summe ist von deinen individuellen Rahmenbedingungen abhängig. Wir haben Kund:innen, die 5.000 Euro für die letzte Phase ihres Studiums erhalten. Wir haben aber auch Kund:innen, bei denen wir eine Finanzierung von 30.000 Euro oder mehr möglich machen können, um z.B. das Studium im Ausland zu finanzieren.

► Erfahre mehr zum [Geld für dein Studium](#).

Wie viel Geld muss ich zurückzahlen?

Anders als bei einem Kredit ist deine Rückzahlung abhängig von deinem späteren Bruttoeinkommen. Grundsätzlich läuft es so: Wir vereinbaren einen Einkommensanteil, also einen Prozentsatz, den du später von deinem Bruttoeinkommen an den Studienfonds zahlst. Dieser liegt in der Regel zwischen 7,5 und 12,5 Prozent, je nach deinen individuellen Rahmenbedingungen.

Wir einigen uns außerdem auf eine Anzahl von Beitragsmonaten, in denen du später deine einkommensabhängigen Beiträge leistest. Und zu deiner Sicherheit vereinbaren wir eine Kappungsgrenze, also eine maximale Rückzahlung. Deine Rückzahlung kann damit früher enden als ursprünglich gedacht.

► Erfahre mehr zur [Rückzahlung](#).

Welchen Support bietet mir die Academy?

Bei uns bekommst du zusätzlich zum Geld auch Support von der Deutsche Bildung Academy. Mit Bewerbungsberatungen, Coachings, Zertifikats-Trainings und mehr unterstützen wir deinen Karrierestart. Stärke deine Leadership Soft Skills, absolviere ein Kompakt-Training für Zeitmanagement oder belege ein Impuls-Webinar zu Financial Education und hole das Beste aus dir heraus.

► Erfahre, wie du die [Academy](#) nutzen kannst.

Wie läuft die Bewerbung für die Studienfinanzierung ab?

Deine Bewerbung erfolgt online und völlig unverbindlich. Mit ein paar Klicks sagst du uns, um welches Studium es geht und wie viel Geld du brauchst. Wir geben dir eine allererste Einschätzung und wenn die passt, lädst du deine Dokumente, z.B. Abiturzeugnis und Lebenslauf hoch. Dann prüfen wir deinen Finanzierungswunsch genau.

Wenn wir dich im Studium finanzieren können, bekommst du unser unverbindliches Vertragsangebot. Dann fehlt nur noch deine digitale Unterschrift und deine Studienfinanzierung kann zum vereinbarten Zeitpunkt beginnen.

- Diese Dokumente brauchst du für deine Bewerbung.

Was mache ich, wenn ich weitere Fragen habe?

Wenn du weitere Fragen hast, lies dir gerne unsere [FAQ](#) durch oder nutze unsere [Info-Session](#). Hier bekommst du in kleiner Runde die Studienfinanzierung erklärt und kannst alle deine Fragen persönlich stellen.

- Zur Info-Session anmelden.

Kontakt

Friedrich-Ebert-Stiftung Studienförderung Godesberger Allee 149 53175 Bonn

Wir freuen uns, wenn Sie mit uns in den Austausch treten. Ihre Ansprechpersonen in der Abteilung Studienförderung finden Sie [hier](#).

Die Friedrich-Ebert-Stiftung ist den Grundwerten der Sozialen Demokratie - Freiheit, Gerechtigkeit und Solidarität - verpflichtet. Der gerechte Zugang zu Bildungschancen ist deshalb ein wichtiges Anliegen unserer Studienförderung. Ohne Unterstützung fällt es vielen jungen Menschen schwer, sich an einer Hochschule zu behaupten, obwohl sie Talent dafür haben. Hier leisten wir einen Beitrag.

Mit unseren Programmen möchten wir vor allem Frauen sowie junge Menschen, die als erste aus ihrer Familie studieren und/oder Migrationshintergrund haben, ansprechen. Wir sehen uns als Förderin und Partnerin und stehen den Stipendiat_innen von Anfang an beratend und finanziell zur Seite. Sie können frei und unabhängig studieren, ihre soziale Kompetenz stärken und sich persönlich weiterentwickeln.

Wir fördern alle Studiengänge, und begrüßen Bewerbungen von Studierenden künstlerischer Studiengänge.

Finanzielle Sicherheit, ein interdisziplinär angelegtes Bildungsprogramm und die Einbindung in eine Gemeinschaft, die sich für gesellschaftliche Ziele

engagiert: Dies bietet unsere Grundförderung für Deutsche und Bildungsinterner_innen. → [weiter](#)

Promotionsförderung für Deutsche und Bildungsinterner_innen

Wir glauben, dass wissenschaftliche Exzellenz vom Austausch mit anderen Disziplinen lebt. Unsere Doktorand_innen stellen ihre Arbeiten in Kolloquien vor und diskutieren sie. Sie lernen, über ihr Promotionsprojekt hinaus zu sehen und gesellschaftspolitische Relevanzen in den Blick zu nehmen. → [weiter](#)

Grundförderung für Ausländer_innen

Die Grundförderung für Ausländer_innen bietet finanzielle Unterstützung für ein leistungsstarkes Studium. Das umfassende Seminarprogramm stärkt die sozialen und fachlichen Kompetenzen. Die ausländischen Stipendiat_innen erhalten spannende Einblicke in die gesellschaftlichen Debatten in Deutschland. → [weiter](#)

Unsere ausländischen Stipendiat_innen genießen alle Vorteile unserer Graduiertenförderung: finanzielle Sicherheit, fachliche Ansprechpartner_innen, Vernetzung in Hochschulgruppen und Arbeitskreisen sowie ein umfassendes Seminarprogramm. → [weiter](#)

Über uns

Das Team der Studienförderung setzt sich zusammen mit den Stipendiat_innen und Alumni engagiert dafür ein, soziale Barrieren in unserem Bildungssystem zu beseitigen.

U-Multirank welcomes the discussion about rankings stimulated by 'More than Our Rank' initiative...

How to choose a university?

[What is the best university?](#)

There's no such thing as the best university in the world. What's best depends on who you are, what you want from your student experience, and even...

What should I study?

There are two ways to approach the question of where to study. You can think about what's the right thing to study for your chosen career...

Where should I study?

Some people choose to live at home while they study. Many prefer to stay nearby – or at least in the same country...

Start with a subject...

Economics

Mechanical Engineer...

Sociology

Medicine

1620

herne Gefäße gethan, und darinnen zu Crystallen anschieszen gelassen, welche gemeinlich acht auch zehn edigt sind. Der Schieffer hingegen wird in grosse Haussen, oben etwas platt geschüttet, ein Jahr lang an der Luft gelassen, und alle 14 Tage stark mit Wasser begossen, folgends gelauget, die Lauge in bleyernen Kesseln gesotten, das Alcaun-Mehl daraus gewonnen, nachmals gesotten, und solche Soda in ein Fass gelassen, da endlich der Allaun anschieszet. Der einmahl aus gelauget Schieffer wird nachmals in einer Haussen geschüttet, aber nicht mehr begossen, da er denn in Jähres-Trik so viel Salz an sich ziehet, daß er wieder kein gelauget werden; Und auf diese Weise macht man nicht nur diesen, den Englischen, sondern auch den Italianischen und Deutschen. Die Münzer und Hörber brauchen diesen am meistens in der Arznei, wird er mehrz düssetis als innerlich gebraucht, außer daß ihn manche in kalten Fiebern und Huht brauchen, wiewohl in geringer Dosis, doch mit glücklichem Erfolg. Diese Allaune wird Alumen superum und de Rocha genemmet, theils wegen ihrer Vortrefflichkeit, thils auch, weil sie aus der Erde, Steinen, und andern Mineralien gezogen wird. Glaciale heißt sie, weil sie wie Eis ist. Gemeine Allaune nenret man sie, weil sie die gemeinst ist, welche man allezeit verfiehet, wenn Allaune ohne Beipatz schlechthin genenret wird. Englische Allaune aber heißt sie, weil sie aus Engelland in grossendicken Steinen überbracht wird.

Alumen Saccharatum, Sucaratum, oder Zuccaratum, Französisch L'Alum de sucre, Deutsch Zucker-Allaun, Allaun-Zucker, ist ein gemischtes Wesen, von Englischer Allaune, Eier-Weiß und Roser-Wasser bereitet, welche drei Stücke mit einander gekocht werden, bis sie so dicke, wie ein Brey werden; daraus macht man, weil es noch warm ist, kleine Brode oder Zucker-Hüte, in Daumens Dicke, welche hart werden, wenn sie erkalten. Sie wird zur Schmincke gebraucht; und den Nähmten hat sie von ihret Form und Gestalt bekommen.

Alumen Saturni, darunter wird das Sal Lichargyrum verstanden.

Alumen Scajolz, ist nicht Allaun, sondern vielmehr eine Art Schiefer-Stone, wird aber deswegen mit diesem Nahmen beleget, weil er sich in Scajas oder Squamas theisen läßet; Sonsten wird es besser Lapis Schistus albus und pellucidus genemnet.

Alumen Scissile, siehe Alumen Scajolz, und Alumen plumosum, ingleichen Alumen longum.

Alumen Saccarinum, siehe Alumen Saccharatum.

Alumen Tinctorum Mynsichti, wird also bereitet:

Füsse und Achseln vom Schweife übel riechen, solchen damit zu vertreiben, die sich aber dadurch in eine weit größere Krankheit und Lebens-Gefahr stürzen.

Alumen Zuccaratum, siehe Alumen Saccharatum, Alumera, siehe Lanera.

Aluminis Flos, siehe Alumen plumosum.

Alvanus, ein Beynahme des Jovis, der seiner Benennung nach einen Erneuerer bedeutet, weil man glaubte, daß er alles erneuete. Geraldus Syntagm. II. p. 89. ohngeacht einige behaupten, daß man lieber Almus lesen müsse, weil Alvanus in sensu astro nicht so leicht gebraucht würde; Jo. Lud. Vide ad Augustanum de Civitate Deorum c. II. so haben doch andere satzam erwiesen, daß es auch in solcher Bedeutung gefunden werde. Poffus de Virtus Sermon. VIII. v. Alvanus.

Alvanus, Alumas, der oder diejenige, so von einem andern erneuert, I. 1. §. 10. ff. de Sct. Silan. I. 61. §. 10. ad Sct. Trebell. I. 26. §. 1. ff. Quando dies legator. I. 27. §. ult. I. 41. §. Sejunct. 12. ff. de Legat. 3. I. 34. §. ult. ff. d. usu & usit. I. 14. ff. de maxumiss. vindicta I. 11. §. Largius, ff. de antiquis legat. I. 38. ff. de Fidei. commiss. libert. I. 1. C. de pactis convent. ant. legat. oder in seiner Unmündigkeit erzeugt wird, I. 9. ff. de pignor. oblig. und die Glossa verliest unter denen Alumas die mit einer Concubine erzeugten Kinder. Vid. Manz. in Comment. ad Inst. qui & ex quibus causis manus mittere non possit. Insgemein heißen Alumni diejenigen, so man mit Speiß und Brank versorgt, und sie in allen guten Sitten unterrichtet.

Aluno, (Franciscus) gebürtig von Ferrara in Italien. Er war ein überaus gelehrter Mann, und starzte zu des Gross-Herzogs Cosmi, von Florenz, Seiten. Er schrieb demselben seine *Fabrica del mondo* zu, und bekam davon 200 Scudi an Gelde zum Recompence; Er gab auch *Observationes* über den Petrarchen heraus; desgleichen schrieb er ein Werk, von dem Reichtum der Italiäischen Sprache. Chilini Theatr. d'Uomini letterati.

Alunita oder Alonitum, Halonitum, nach der Hebräischen und Phönizischen Sprache, wie Bochart. Chan. I. 17. angemerkt, so viel als dieerhabne, eine Stadt auf einem Berge in Sizilien an dem Tyrrhenischen Meere, wo der Fluß Chydas in dasselbe fällt. Plinius III., s. Cicero Verz. III. 43. IV. 23. Dionysius Halicarnassensis I. Ptolomeus. Diodorus Siculus. Phalaris. Faeculus Dec. I. Libr. IX. c. 4.

Alvona, siehe Albono.

Alvor, siehe Albor.

Alvedas, siehe Alfricus, der Grammaticus.

Alus, eine Bedientin der Königin Jous. Diese Königin dörrete das Saam-Gelände, daß nichts auf-

Man nimmt zwei von Alaurie, ein Roth Drapen-Blut, lässt es in genügsamer Quantität Carduibus-benedicten-Wasser zergehen, dannach seigt man es durch, und lässt es wieder gerinnen und dicke werden.

Alumen erichnes, siehe *Alumen plumosum*.

Alumen usum, Französisch *Alum brûlé*, Deutsch gebrannte Alaurie. Sie wird aus der Römischen Alaurie gemacht, und entweder in einem Topf allmählich gebrannt, damit die Feuchtigkeiten davon kommen, und weiß, leicht, und zerbrechlich werde, oder in einem Löffel so lange gestimolzen, bis sie in einen rotsen Kalz zerfällt. Man braucht sie, das wilde Fleisch und andern dergleichen Austrachs weg zu beißen, auch den Krebs und seines gleichen Geschwüre zu öffnen. Vornehme Leute thun ihn zerstoßen unter die Arme, oder unter die Fußsohlen, wenn ihnen die Scardonizano. *Plinii III, 21.*

gieng, wodurch Misstrachis und Theurung in dem Lande entstand. Doch die Weisheit der Iaus ward von der Alo rückbar gemacht und entdeckt, wofür ihr zu Ehren die Stadt Alus in Achaja nach ihrem Nahmen benennet wurde. *Sophianus Byzantinus v. Alus.*

Alus, eine Stadt, alldie die Kinder Israel auf ihrem Zuge einstmalts ihr Lager aufgeschlagen. *Nom. XXXIII, 13.*

Alus, siehe *Sympatrum*.

Alus, siehe *Alos*.

Aluta, siehe *Alt* und *Alota*.

Aluta, insgemein ein zartes, weiches Leder, bei den Chiturgis aber wird auch das Leder darunter verstan-den, worauf sie Pfisterer sticthen.

Alute, ein altes Volk in Illyrien, in dem Conuentu

Scardonizano. *Plinii III, 21.*

Ihr Rechtsanspruch auf berufliche Rehabilitation

Das Sozialgesetzbuch IX, Paragraph 49, regelt unseren Rechtsanspruch auf berufliche Rehabilitation. Für Menschen, die durch Krankheit oder Unfall arbeitslos geworden oder von Arbeitslosigkeit bedroht sind, hat der Gesetzgeber folgende Leistungen zur Teilhabe am Arbeitsleben (LTA) vorgesehen:

Hilfen zur Erhaltung oder Erlangung eines Arbeitsplatzes einschließlich Beratung und Vermittlung, Trainingsmaßnahmen und Mobilitätshilfen.

Eine Berufsvorbereitung einschließlich einer erforderlichen Grundausbildung.

Berufliche Anpassung und Weiterbildung einschließlich eines erforderlichen schulischen Abschlusses.

Eine Berufliche Ausbildung/Umschulung. Das Sozialgesetzbuch IX benennt ausdrücklich Berufsförderungswerke als spezielle Rehabilitationszentren.

Ihr Weg in die berufliche Rehabilitation

1. Antrag auf Leistungen zur Teilhabe am Arbeitsleben (LTA) ausfüllen

► Hier können Sie sich ein Antragsformular herunterladen.

2. Antragstellung beim Reha-Träger

► Wer ist mein Reha-Träger? Die Antwort finden Sie hier.

3. Bewilligt oder nicht – Beratung wahrnehmen

Nehmen Sie Kontakt mit Fachleuten auf.

4. Berufliche Rehabilitation in einem Berufsförderungswerk

► Hier finden Sie eine Übersicht aktueller Ausbildungsmöglichkeiten.

Der Antrag auf Leistungen zur Teilhabe am Arbeitsleben

Der Weg in die berufliche Reha führt über den Antrag auf Leistungen zur Teilhabe am Arbeitsleben, kurz LTA. Informationen darüber, wie dieser aussieht, wo man ihn stellt und was dabei zu beachten ist, finden Sie ► hier.

Was gehört zu einem LTA-Antrag?

Welche Informationen braucht Ihr Rehaträger? Welche Anlagen erhöhen die Chancen, dass er eine Umschulung oder andere Maßnahme bewilligt? Wie muss der Antrag auf Leistungen zur Teilhabe am Arbeitsleben aussehen?

► Hier finden Sie eine Übersicht.

Bei wem muss ich den LTA-Antrag stellen?

Es gibt unterschiedliche Reha-Träger, die für eine berufliche Reha aufkommen können. In welchem Fall welcher davon zuständig ist, erfahren Sie hier:

► Wer ist mein Reha-Träger?

Wie wird über den LTA-Antrag entschieden?

Sie haben den Antrag auf LTA gestellt und fragen sich, was nun passiert? Was Sie tun können, wenn der Antrag abgelehnt wird? Hier finden Sie Informationen dazu.

► Das passiert, nachdem Sie den LTA-Antrag gestellt haben.

Jetzt Antragsvorlage herunterladen!

Beratung und mehr

Jeder Fall von beruflicher Reha ist anders. Darum beraten wir Sie gerne persönlich an unserer Hotline. Zum Weiterlesen haben wir Artikel und die Antworten auf häufige Fragen sowie Auskünfte über den Rechtsanspruch auf berufliche Reha zusammengestellt.

Unsere Hotline

Sie haben noch Fragen zu Ihrem speziellen Fall? Wir beraten Sie individuell am Telefon – kostenfrei und unabhängig vom Reha-Träger.
Wir sind Montags bis Freitags jeweils von 8:00 Uhr bis 18:00 Uhr für Sie da.

0800 222 000 3

Erfahrungsberichte

Wir haben Erfahrungsberichte von Menschen gesammelt, die durch berufliche Reha trotz gesundheitlicher Probleme zurück in den Beruf gefunden haben.

As part of the YIP project, SRH University Heidelberg and UNIVA are jointly planning four project-based events: Hackathon (online), Study Visit in Germany (SRH), Practical in Mexiko (UNIVA) and a final conference (online). The group of participants includes students from engineering and technical studies at both partner universities.

The students will develop innovative technical solutions for sustainable water resource management at Lago de Chapala and

Rio Lerma, which contribute to the prevention and reduction of local conflicts of water usage. Moreover, the students will work in international teams developing a complete cycle of a practical project, gaining experience in intercultural project management under real practical conditions.

Furthermore, the teachers will present different techniques and methodological approaches, while the students carry out the creative process and implementation of the projects. In this project the students are the main actors, whereas the teachers play a more supportive and knowledge mediating role.

As part of the YIP project, SRH University Heidelberg, KNUST and UNIVA are jointly planning five project-based events: Hackathon (online), Workshops and webinar series (online), Study Visit in Germany (SRH), Practical in Ghana (KNUST), and a final conference (online). The group of participants includes students from engineering and technical studies at the partner universities.

The students will learn about the global dimension of water conflicts and develop innovative technical solutions for sustainable water treatment using the example of polluted water in Ghana (e.g. Okyi-Amisa River), which contribute to the prevention and reduction of local conflicts of water usage. Moreover, the students will work in international teams developing a complete cycle of a practical project, gaining experience in intercultural project management under real practical conditions.

Furthermore, the teachers will present different techniques and methodological approaches, while the students carry out the creative process and implementation of the projects. In this project the students are the main actors, whereas the teachers play a more supportive and knowledge mediating role.

HOW TO APPLY

Your Application Process

Apply for an exchange semester with us at your home university and get nominated. Your university will provide you with all relevant information.

Nomination: Your home institution contacts SRH University Heidelberg to propose you as candidate for an exchange.

Application: You apply as a student yourself.

Registration: Once you are accepted, we will enrol you in the system as an exchange student and you will receive an email with your Wifi ID and your matriculation number

Apply now for your exchange semester

Dein Hochschulzertifikat: Akademische Weiterbildung mit echtem Mehrwert.

Verfolge deine individuellen und persönlichen Bildungsziele und qualifiziere dich auf Hochschulniveau: Unsere Zertifikate sind deine Möglichkeit, dich akademisch weiterzubilden, deine Kenntnisse zu vertiefen, dich beruflich zu spezialisieren und dir aktuellstes Wissen in deinem Fachbereich abzuholen. Das Zertifikat dient dir als Nachweis und gleichzeitig als Zugang zu einem möglichen Anschluss-Studium im Bachelor- oder Master-Bereich.

ZERTIFIKAT

Rehabilitations management

Fit für den Beruf: Rehabilitationsmanager unterstützen Menschen nach Unfällen und Krankheiten bei der beruflichen Neuorientierung. In Heidelberg vertiefen sie dafür Ihre Kompetenzen.

ZERTIFIKAT

Zertifizierte Veranstaltungsleitung im Sport

Erlernen und vertiefen Sie die Grundzüge der professionellen Veranstaltungsleitung im Fußball.

ZERTIFIKAT

Zertifizierte Lehrkraft

Der Kurs zur „Zertifizierten Lehrkraft“ richtet sich an alle Sicherheitsbeauftragten, Ordnungsdienste oder auch an die von den Vereinen engagierten Subunternehmen, welche die Schulung der Ordnungsdienste zur Sicherheit in den Fußballstadien vornehmen.

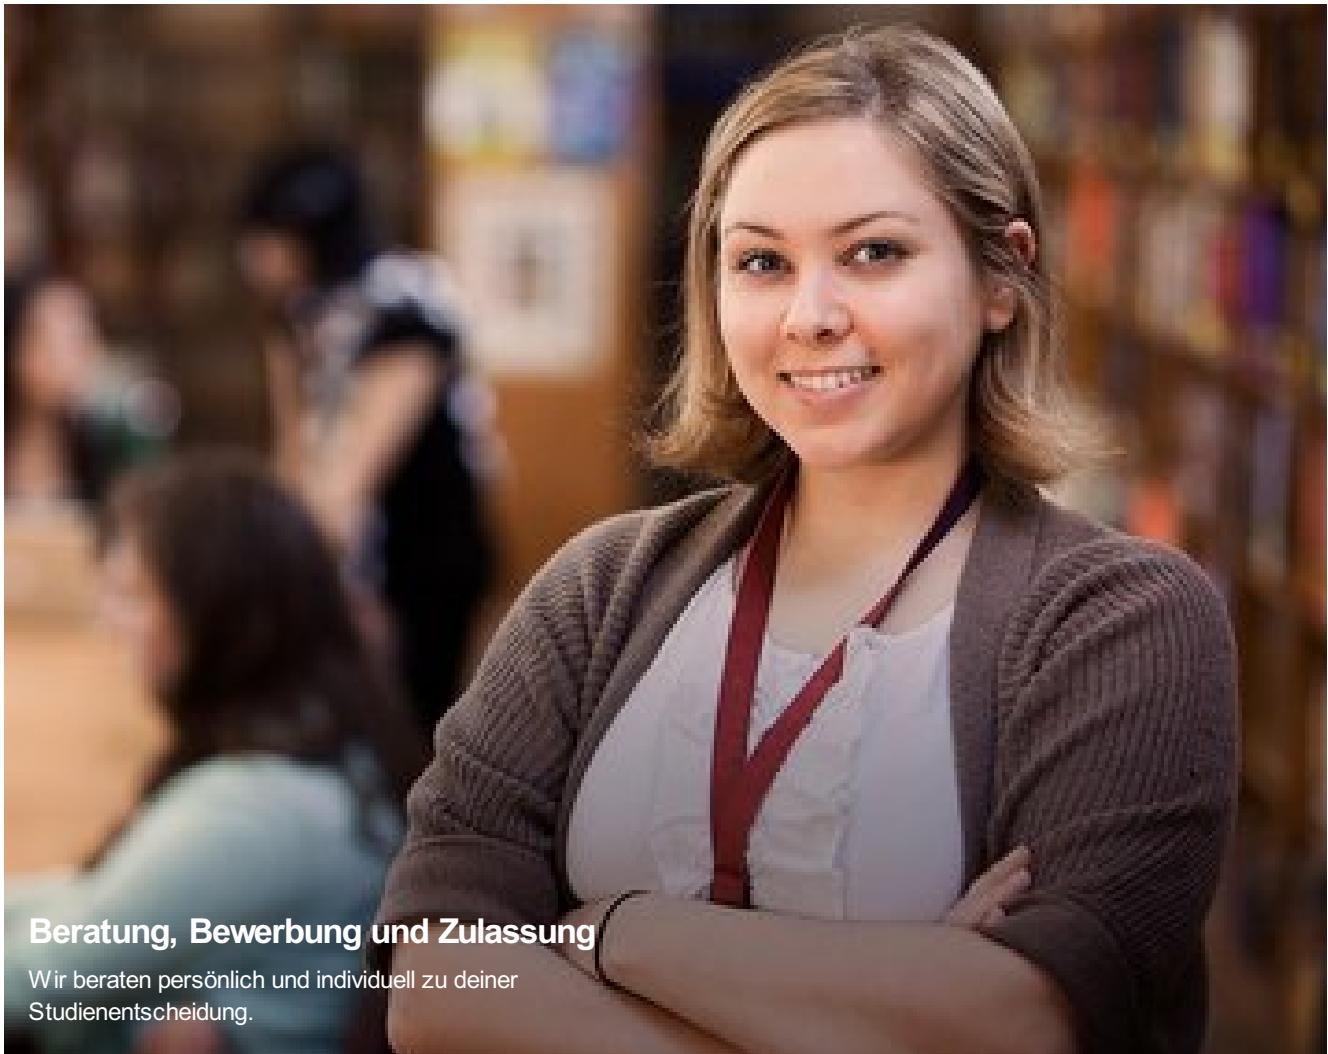

ZERTIFIKAT

Sicherheitsmanagement im Fußball

Das gemeinsam mit dem Deutschen Fußballbund DFB und der Deutschen Fußball-Liga DFL entwickelte Programm schafft Grundlagen für maximale Sicherheit im Stadion.
